

# Montana Wildland Urban Interface (WUI) Parcels

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying WUI delineation methods resulted in multiple county representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources Fire and Aviation Bureau was required by MCA 76- 13-145 to identify WUI parcels using CWPP WUI maps.

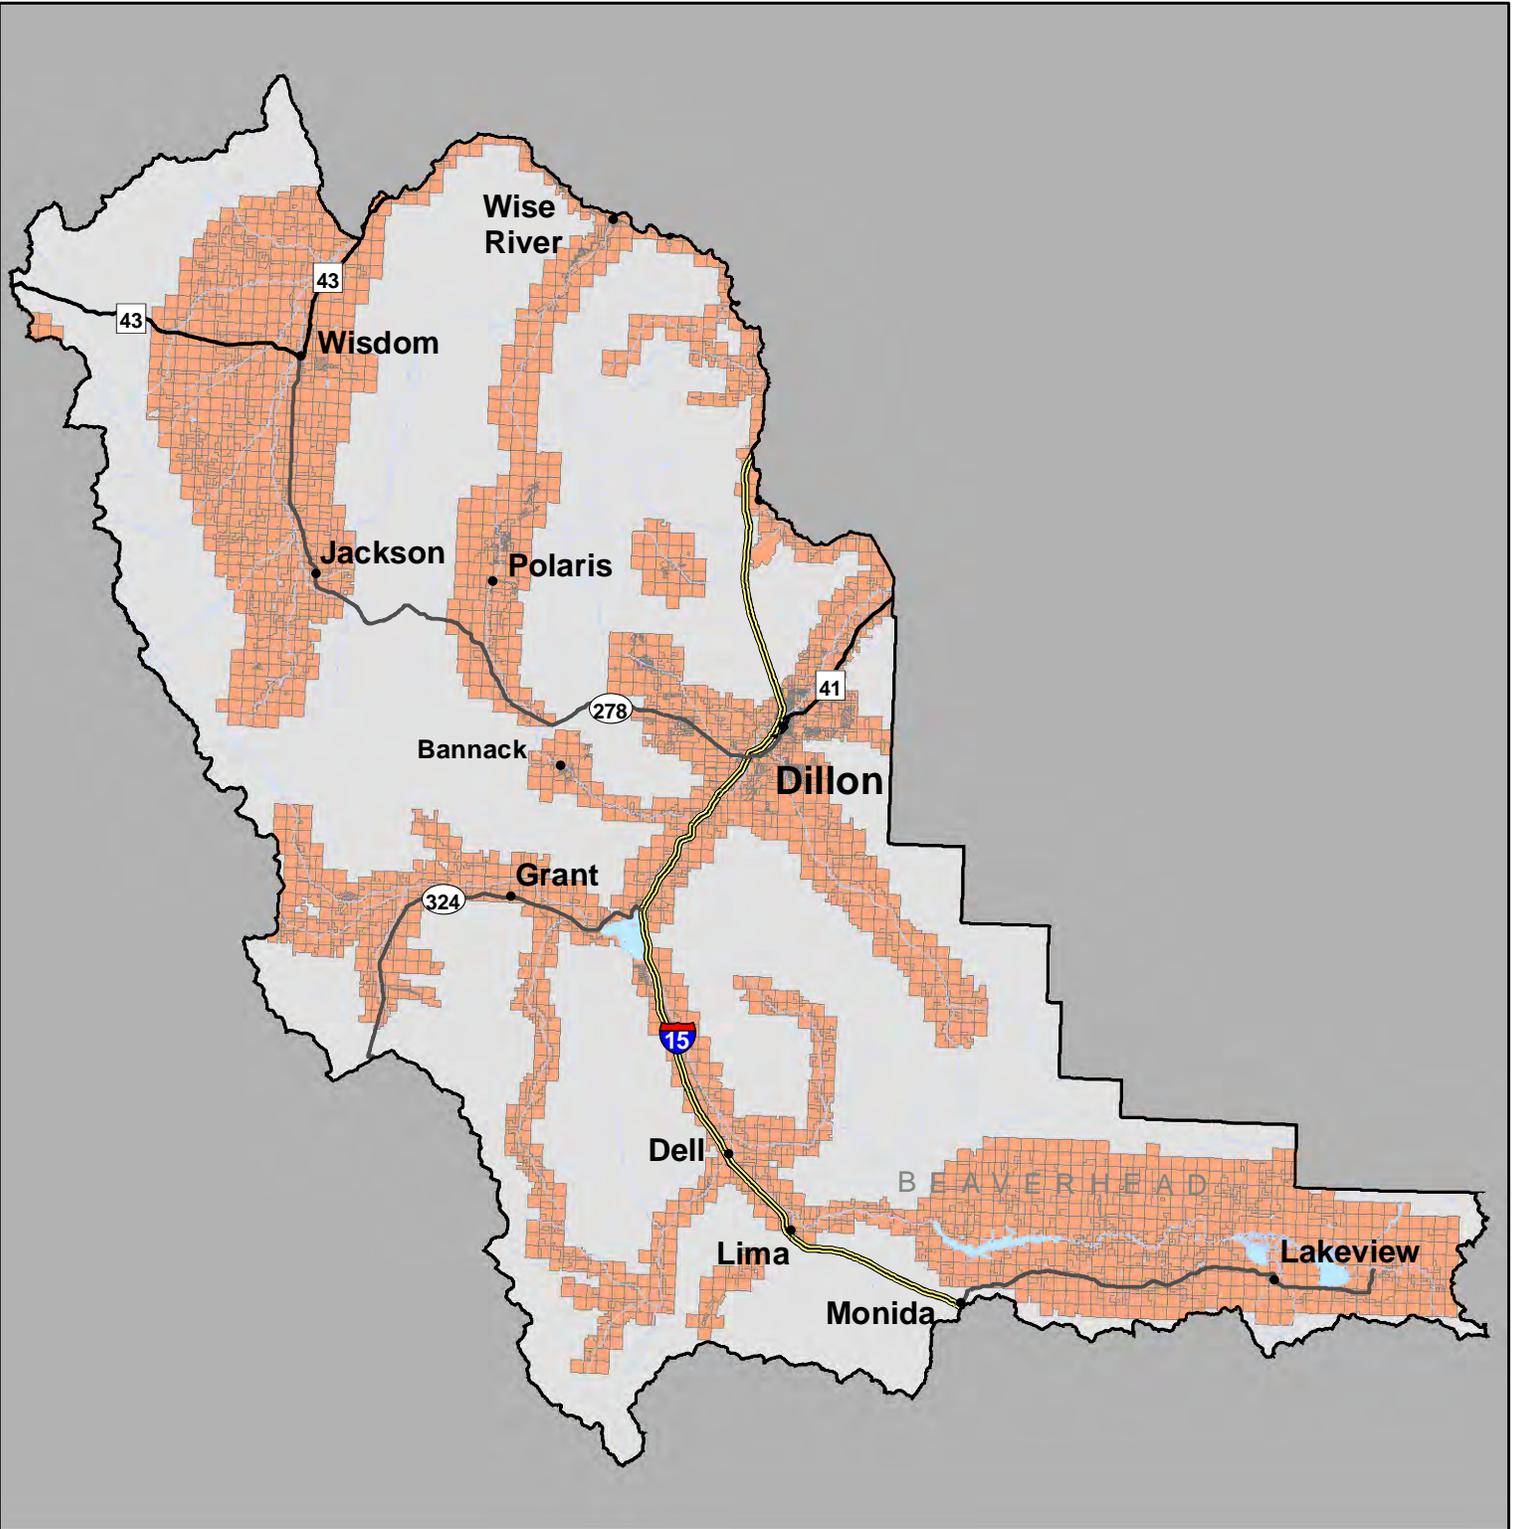

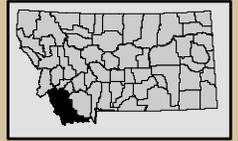

## Generalized WUI Categories

- WUI for counties with only one category
- Extreme Hazard or Very High Risk WUI
- High Risk or Hazard, or High Density Interface, or 1 mile WUI Buffer, or Priority 1
- Moderate to High Risk or Hazard, or Moderate Density Interface, or 2 mile WUI Buffer, or Priority 2
- Low Risk or Hazard, Low-Moderate Density Interface, or 3 mile WUI Buffer, or Priority 3
- Rural Land WUI, or Wildland Intermix, or 4 mile WUI Buffer
- High Density Intermix
- Moderate Density Intermix
- Low Density Intermix

# Wildland Urban Interface Parcels Beaverhead County

 **Beaverhead WUI Parcels 2011**

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Big Horn County

 **Big Horn WUI Parcels 2011**

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Blaine County

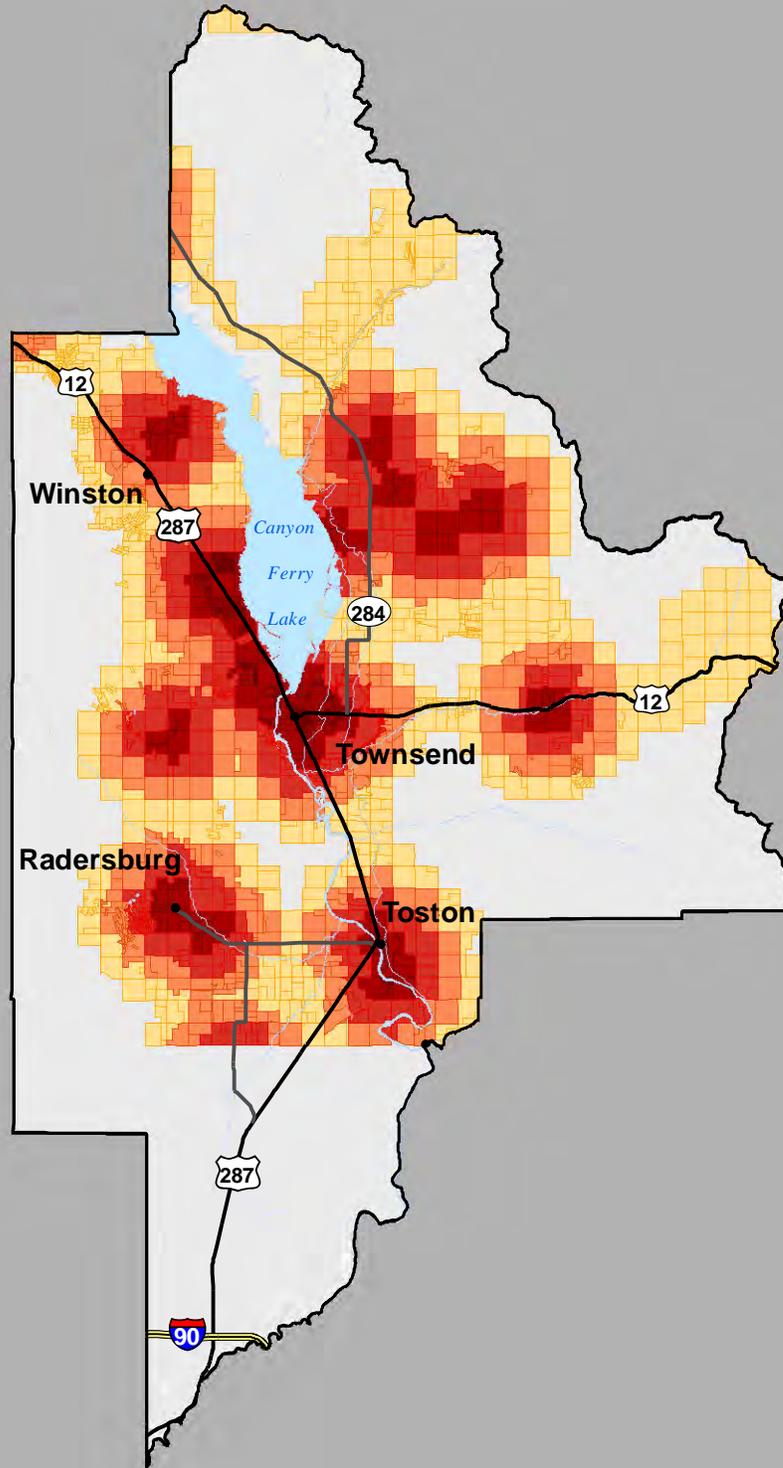

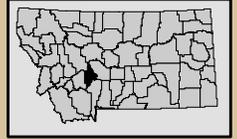

## Blaine WUI Parcels 2011

- |                          |                       |
|--------------------------|-----------------------|
| High Density Interface   | Low Density Interface |
| High Density Intermix    | Low Density Intermix  |
| Medium Density Interface | Wildland Intermix     |
| Medium Density Intermix  | Indian Reservation    |

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Broadwater County

## Broadwater WUI Parcels 2011

- Very High Risk
- High Risk
- Moderate Risk
- Low Risk

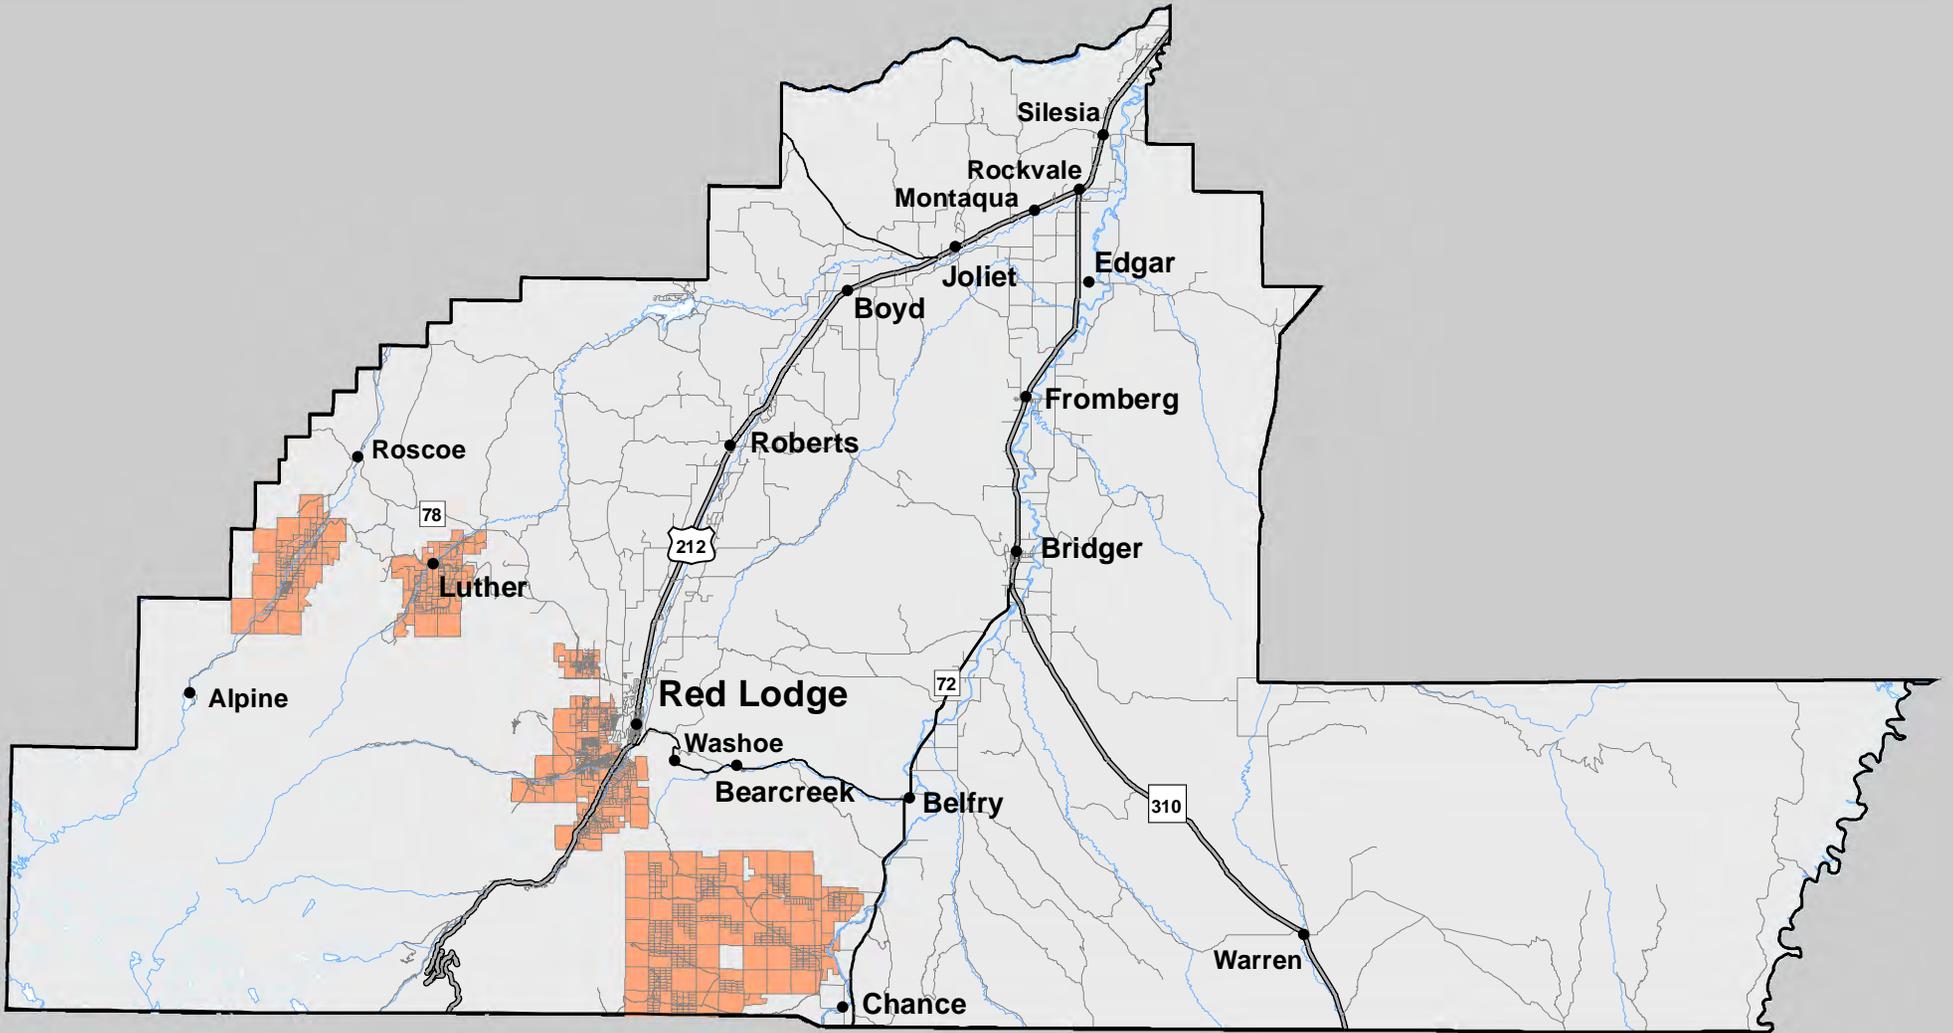

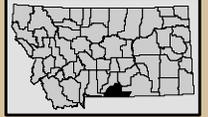

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

# Wildland Urban Interface Parcels Carbon County

**Carbon WUI Parcels 2011**

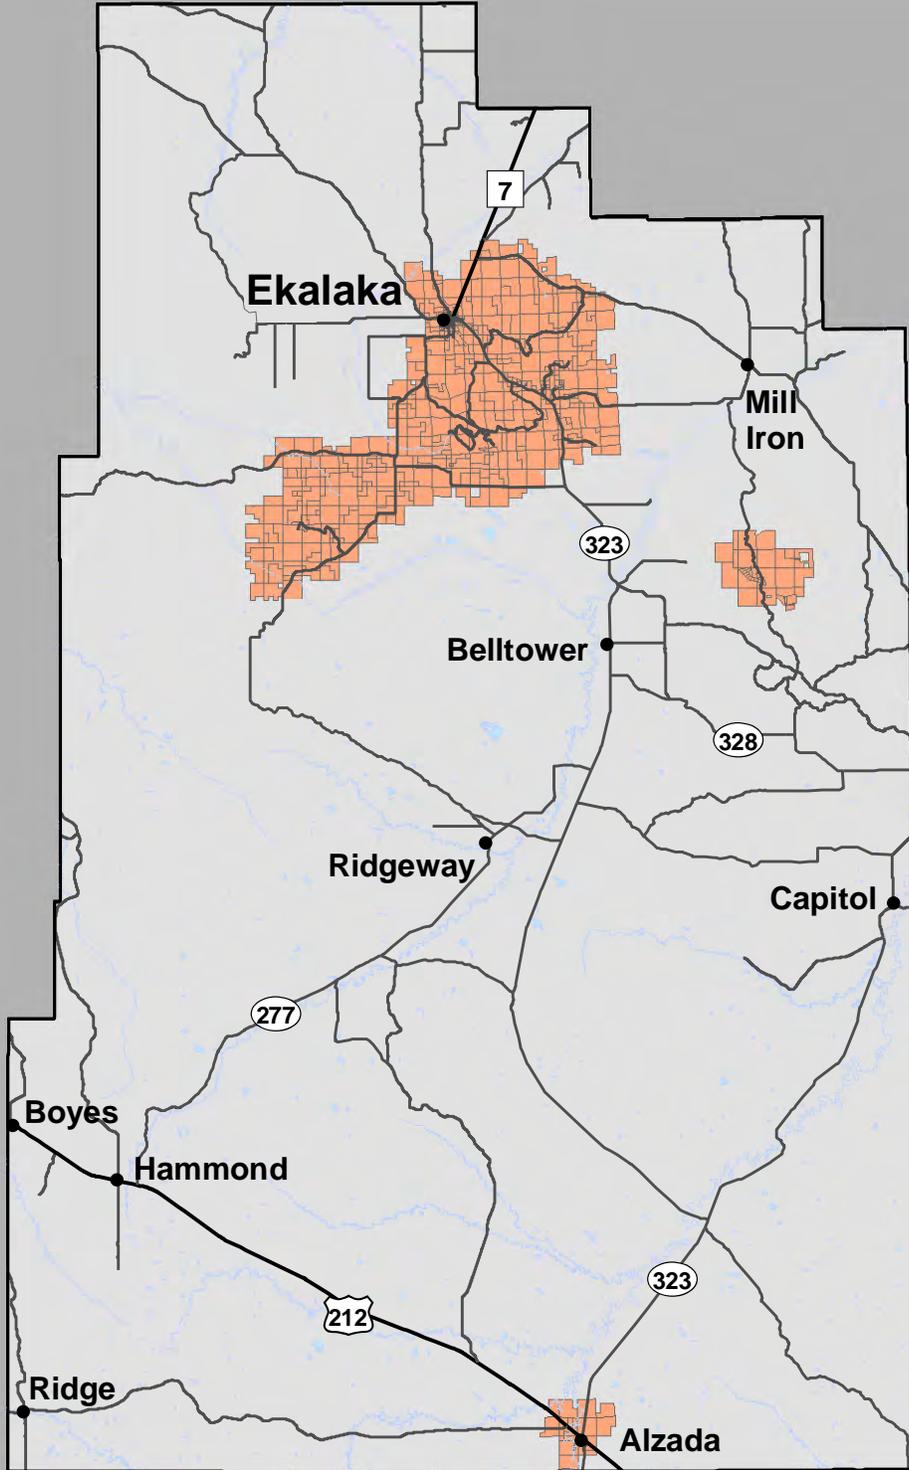

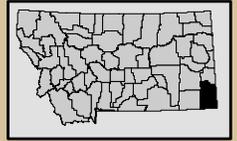

December 2011

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Carter County

 Carter WUI Parcels 2011

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Cascade County

 Cascade WUI Parcels 2011

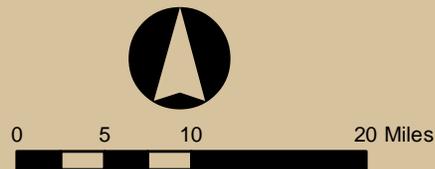

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Chouteau County

- Chouteau WUI Parcels 2011
- Rocky Boy's Indian Reservation

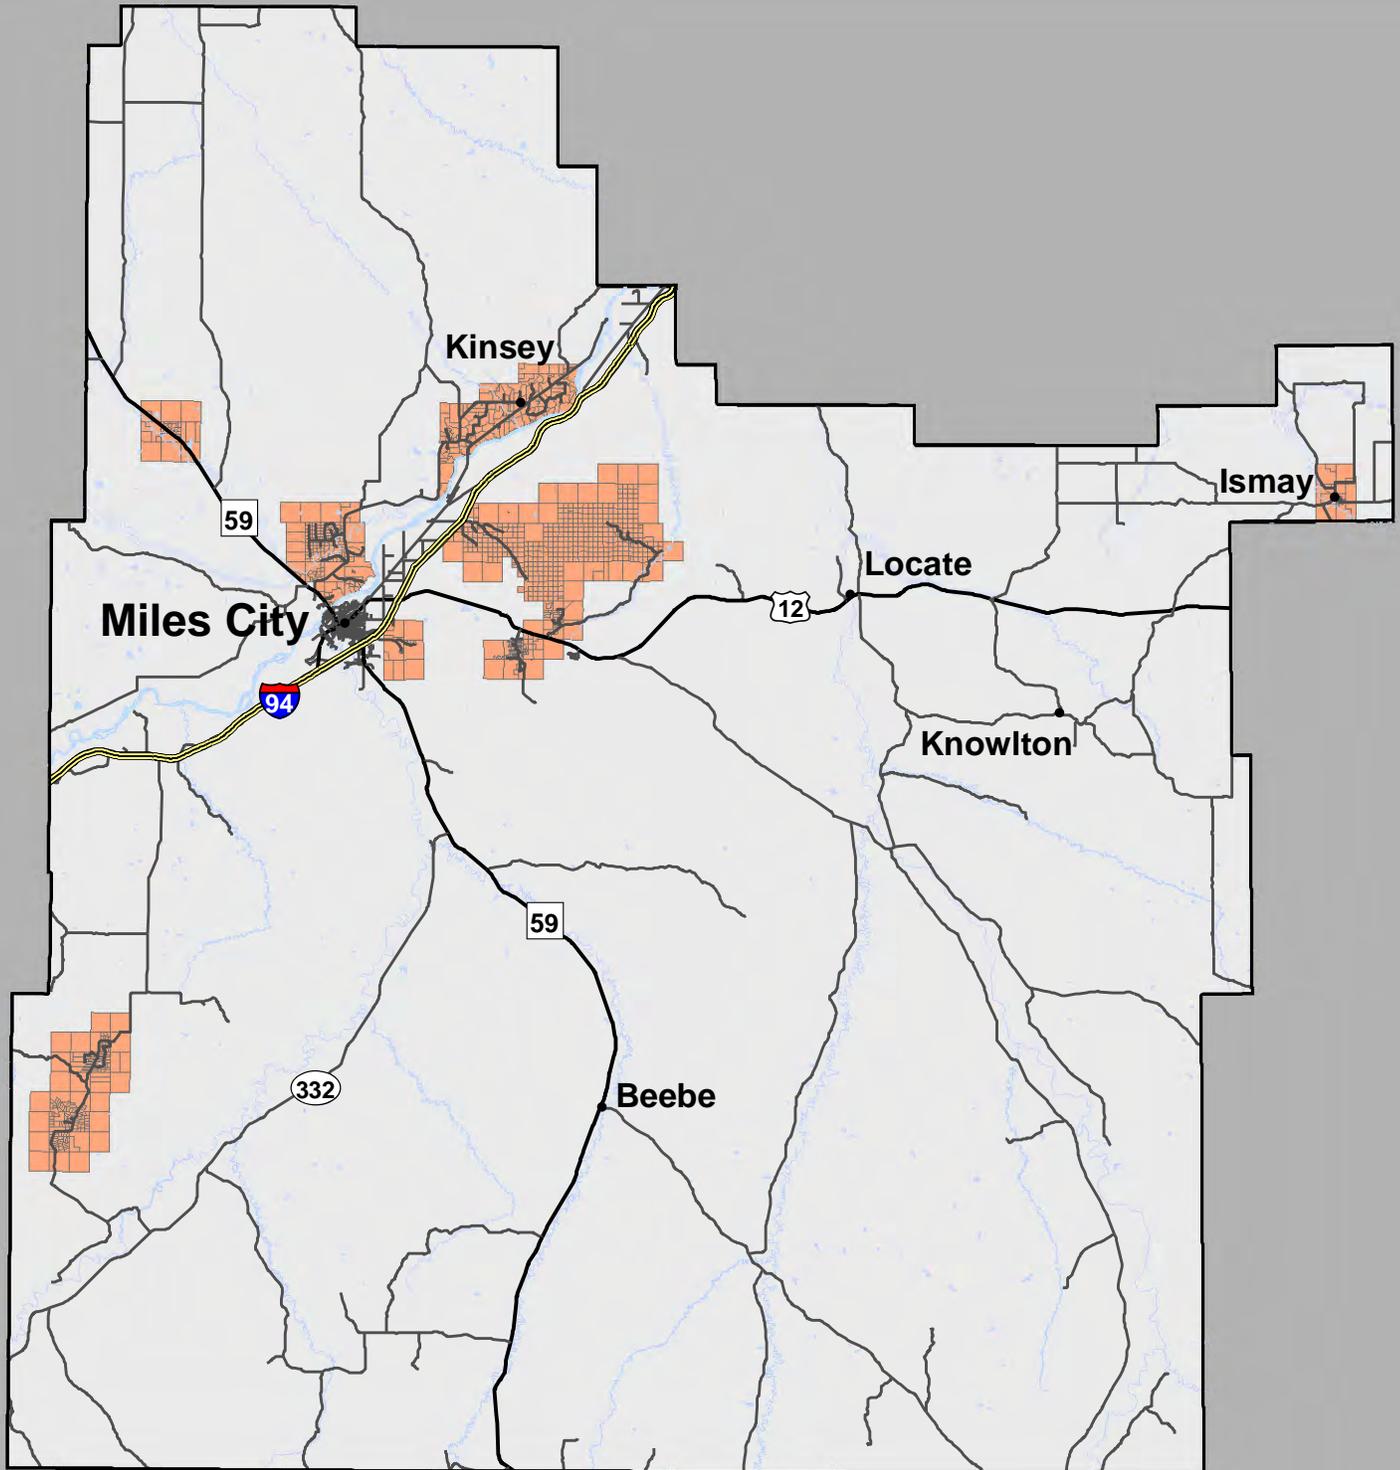

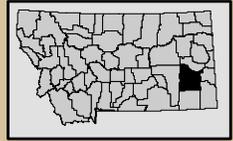

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

# Wildland Urban Interface Parcels Custer County

 **Custer WUI Parcels 2011**

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Daniels County

## Daniels WUI Parcels 2011

- Very High Risk
- High Risk - Rural
- Indian Reservation

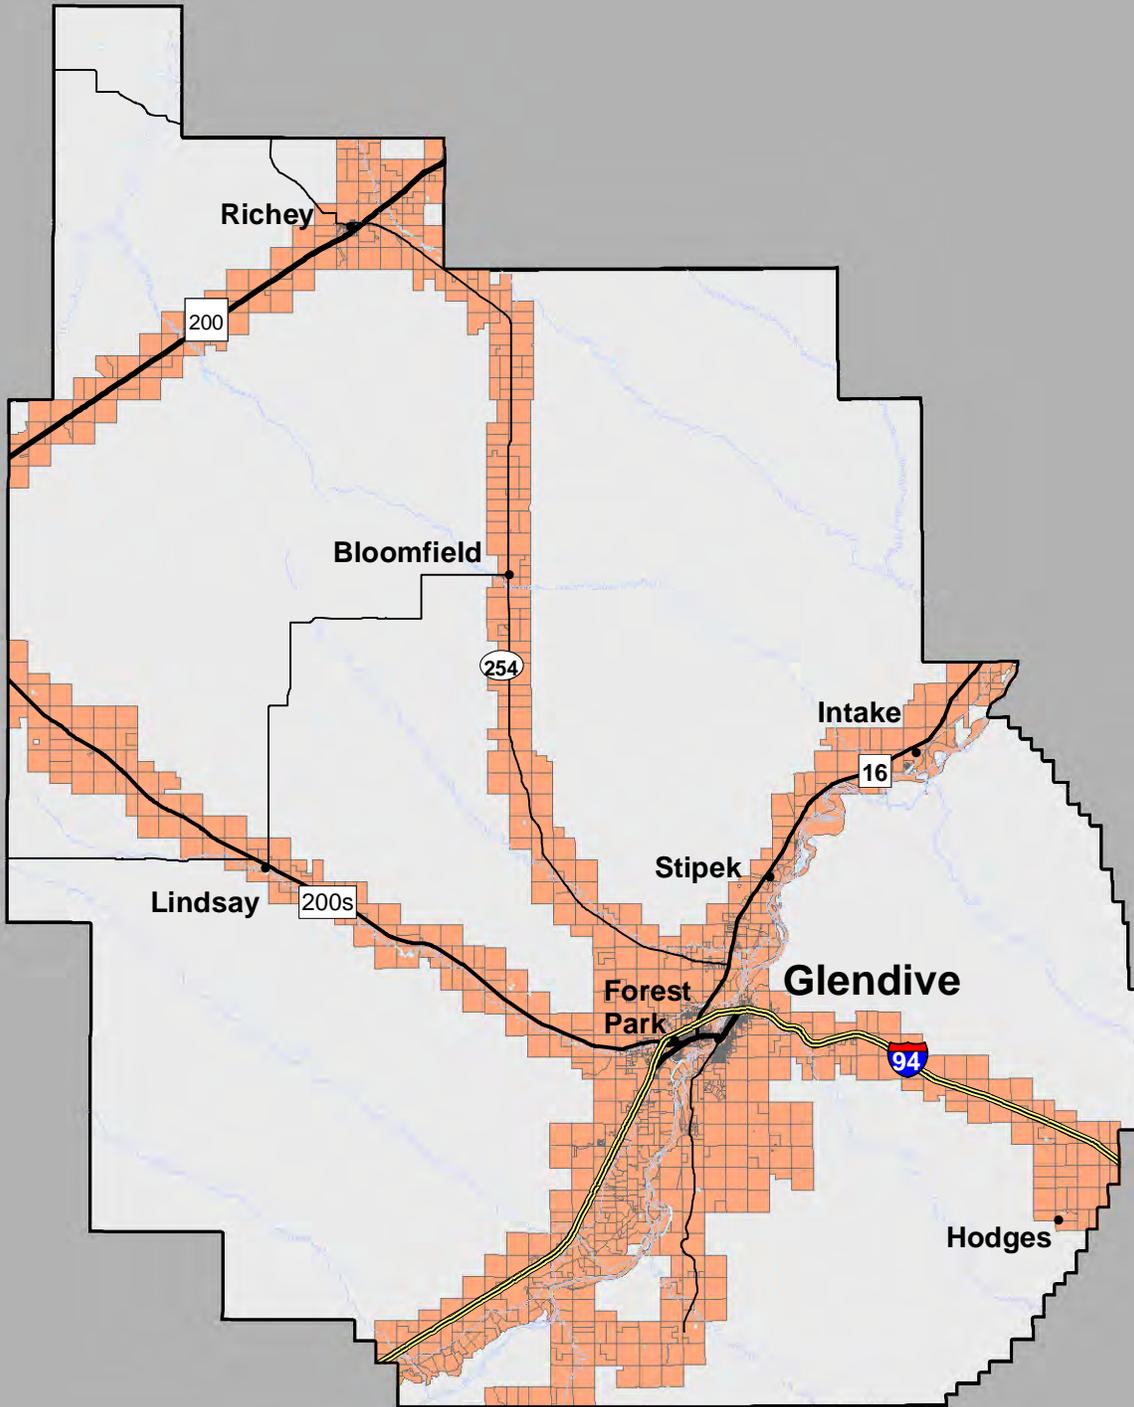

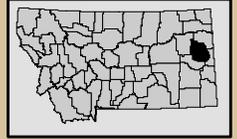

December 2011

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Dawson County

**Dawson WUI Parcels 2011**

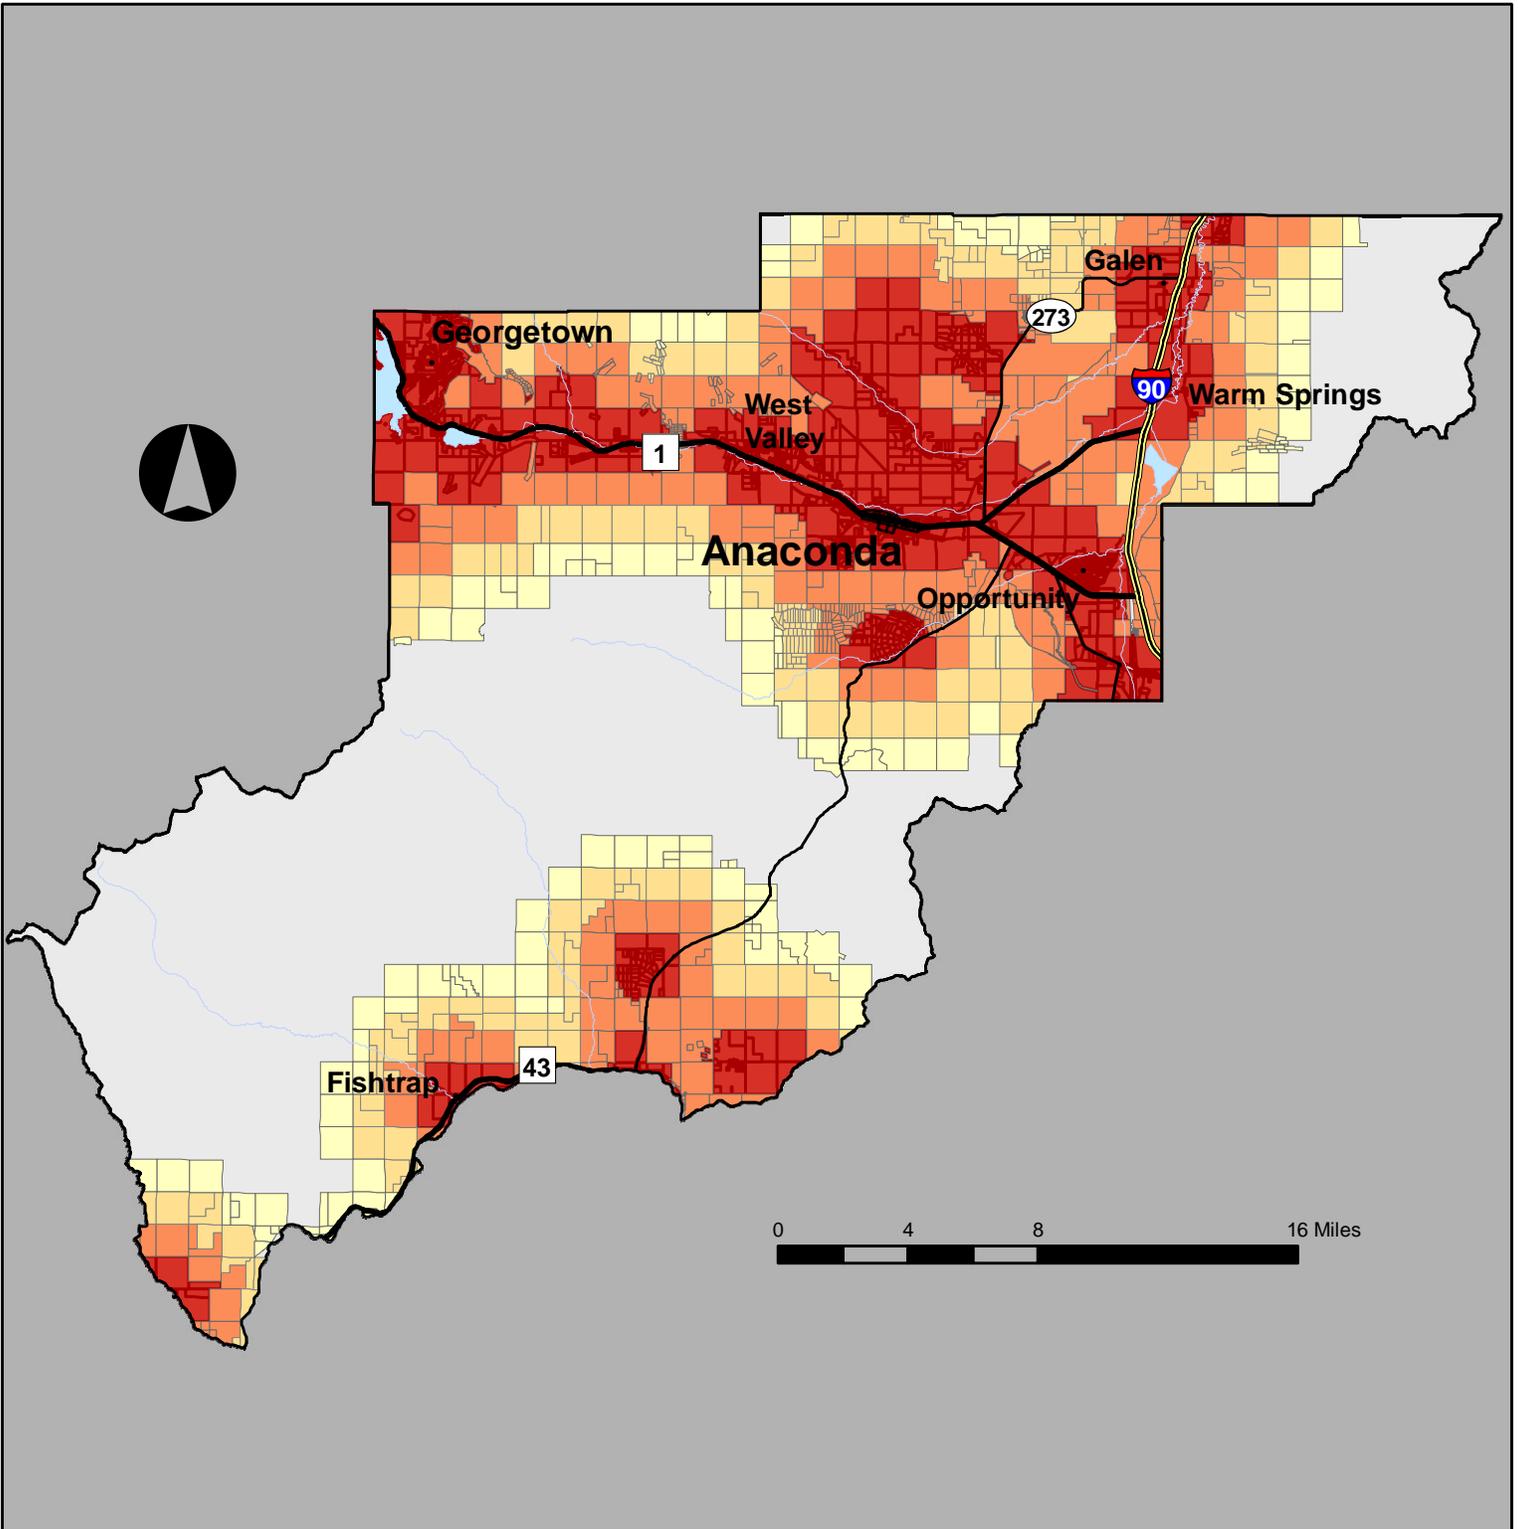

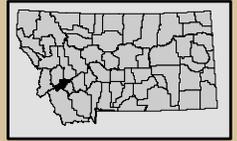

0 5 10 20 Miles

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

# Wildland Urban Interface Parcels Anaconda-Deer Lodge County

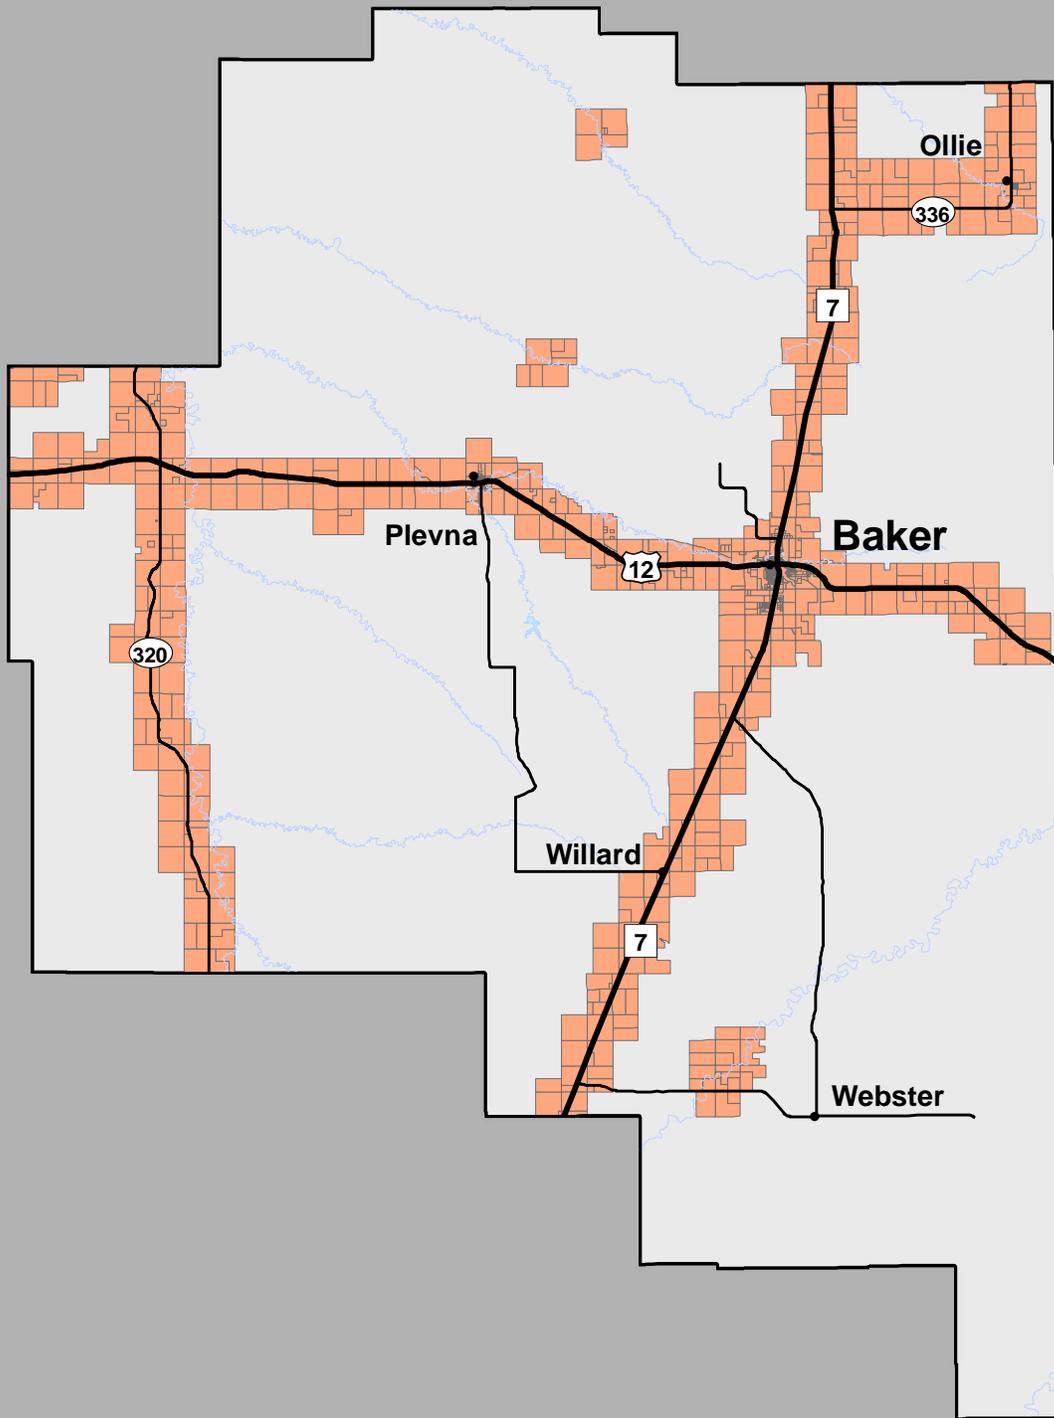

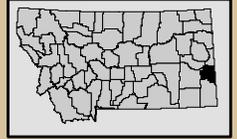

## Anaconda-Deer Lodge WUI Parcels 2011

- 1 mile WUI Buffer
- 3 mile WUI Buffer
- 2 mile WUI Buffer
- 4 mile WUI Buffer

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Fallon County

**Fallon WUI Parcels 2011**

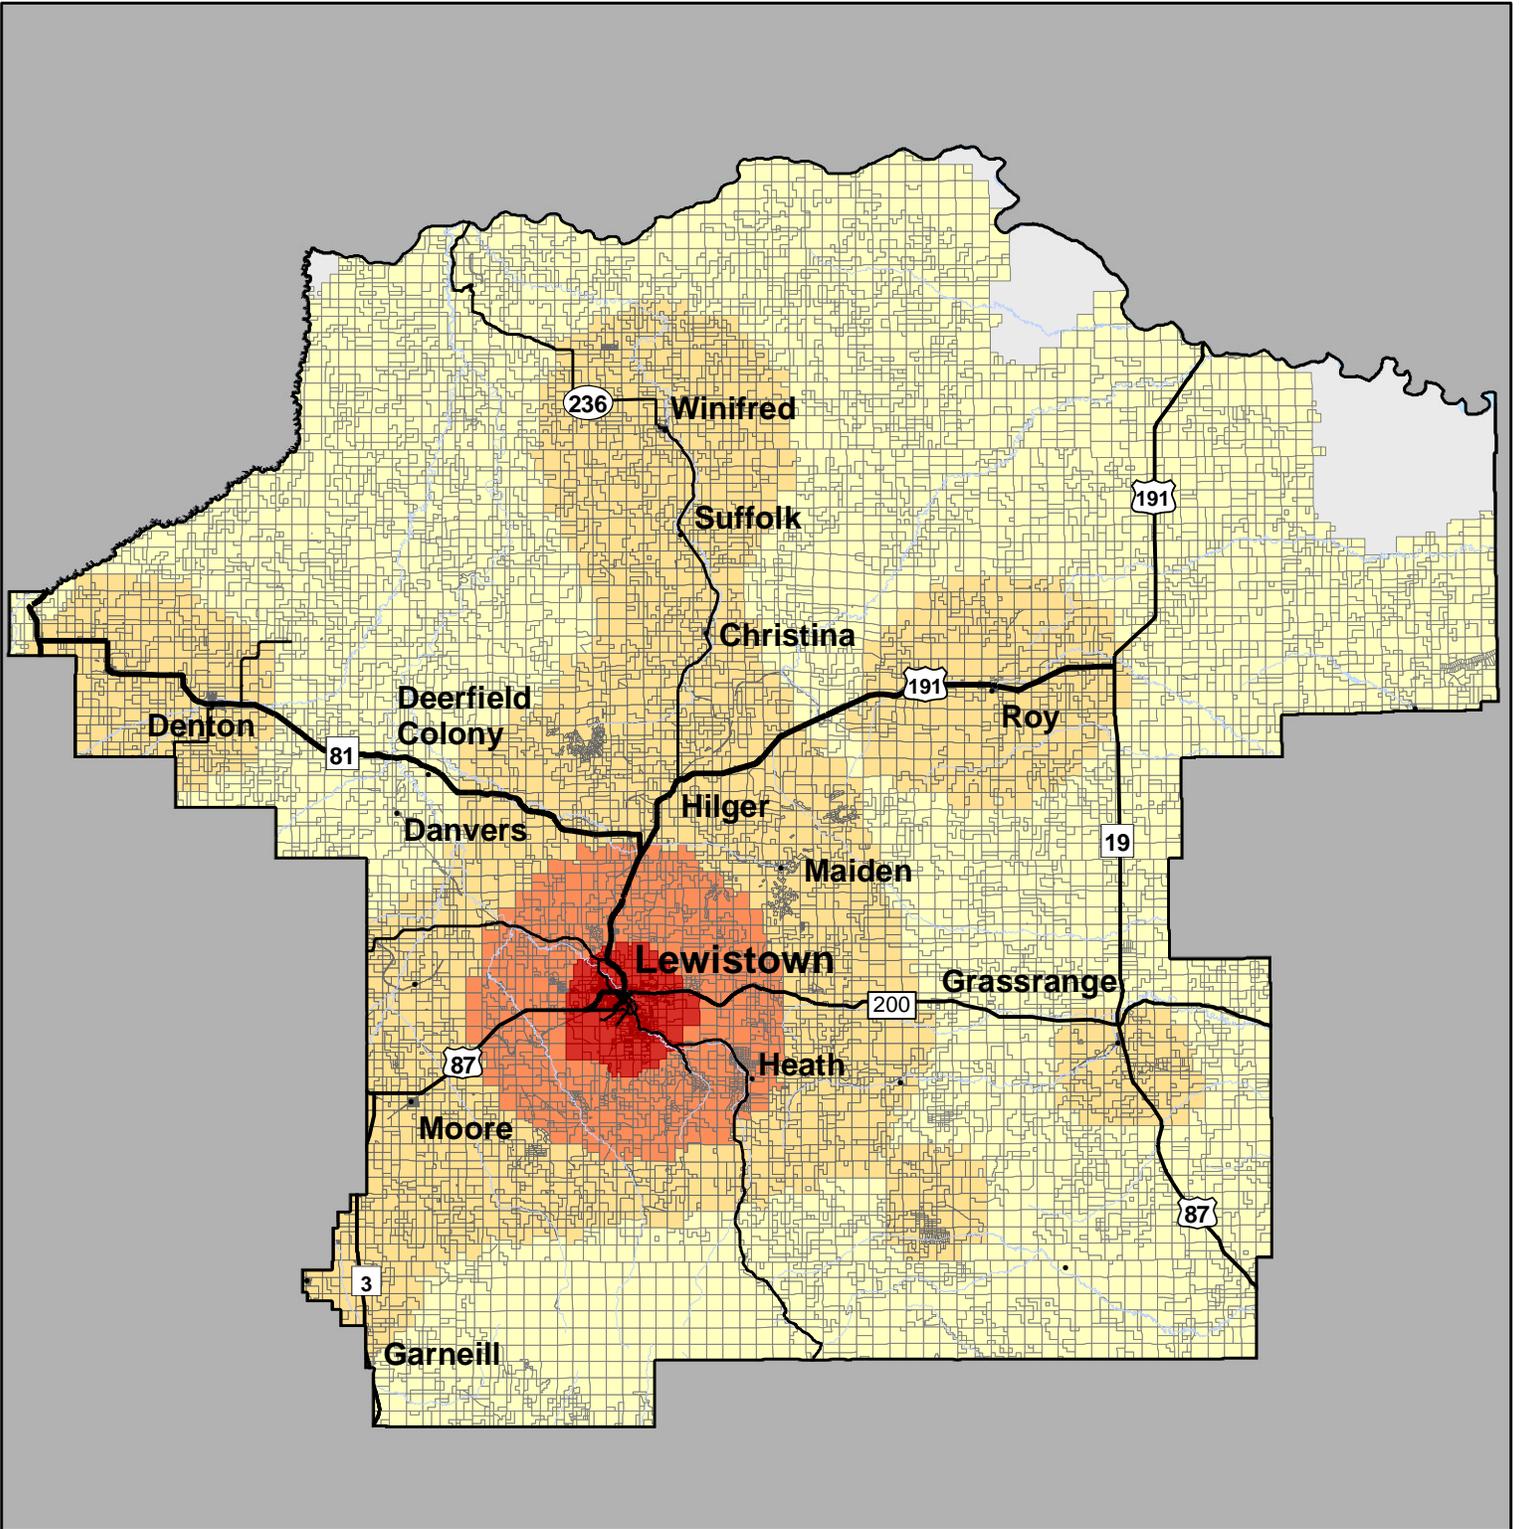

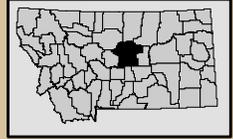

0 5 10 20 Miles

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Fergus County

## Fergus WUI Parcels 2011

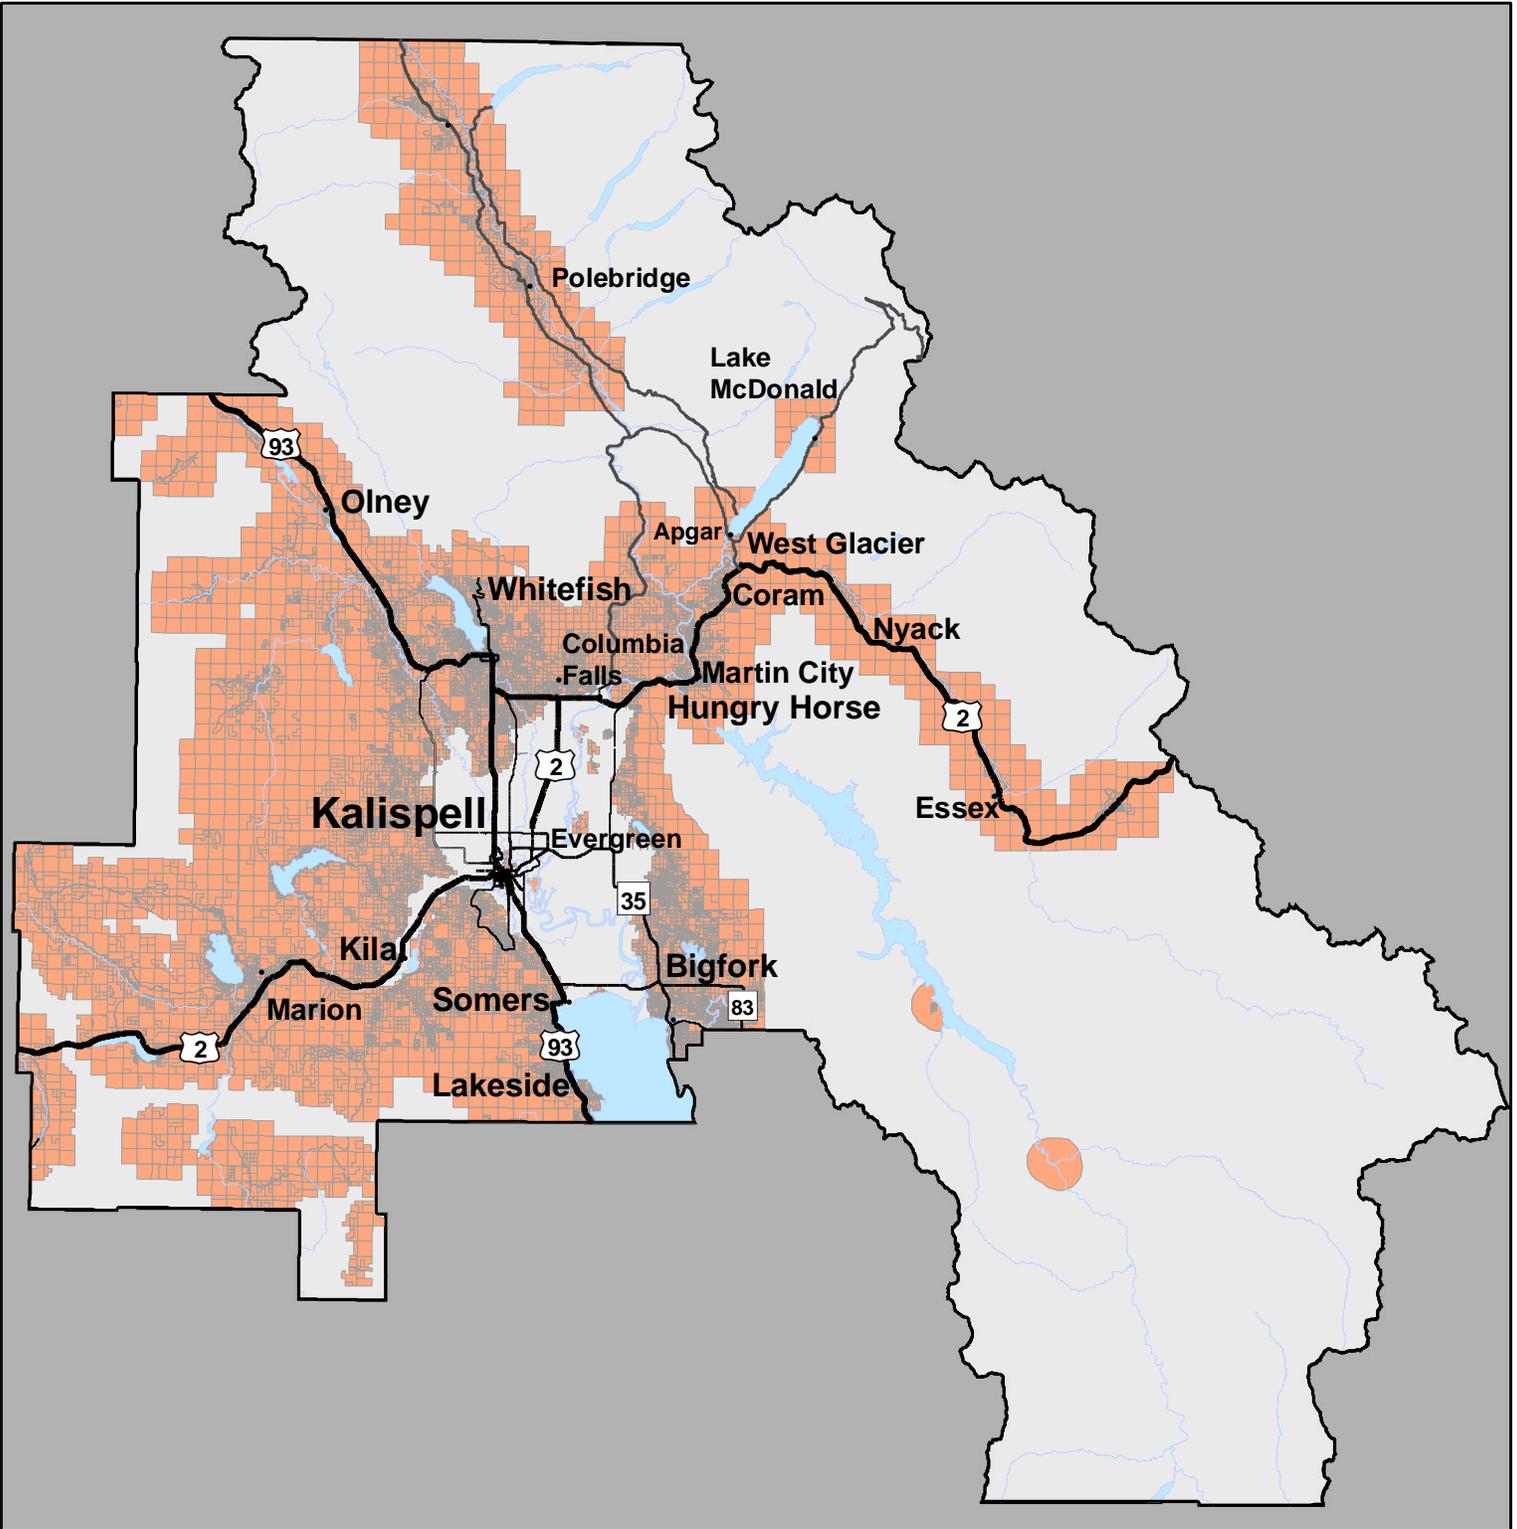

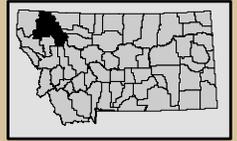

- Hi Density
- Moderate Density
- Low Density
- Rural

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Flathead County

 Flathead WUI Parcels 2011

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Gallatin County

 Gallatin WUI Parcels 2011

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Garfield County

 **Garfield WUI Parcels 2011**

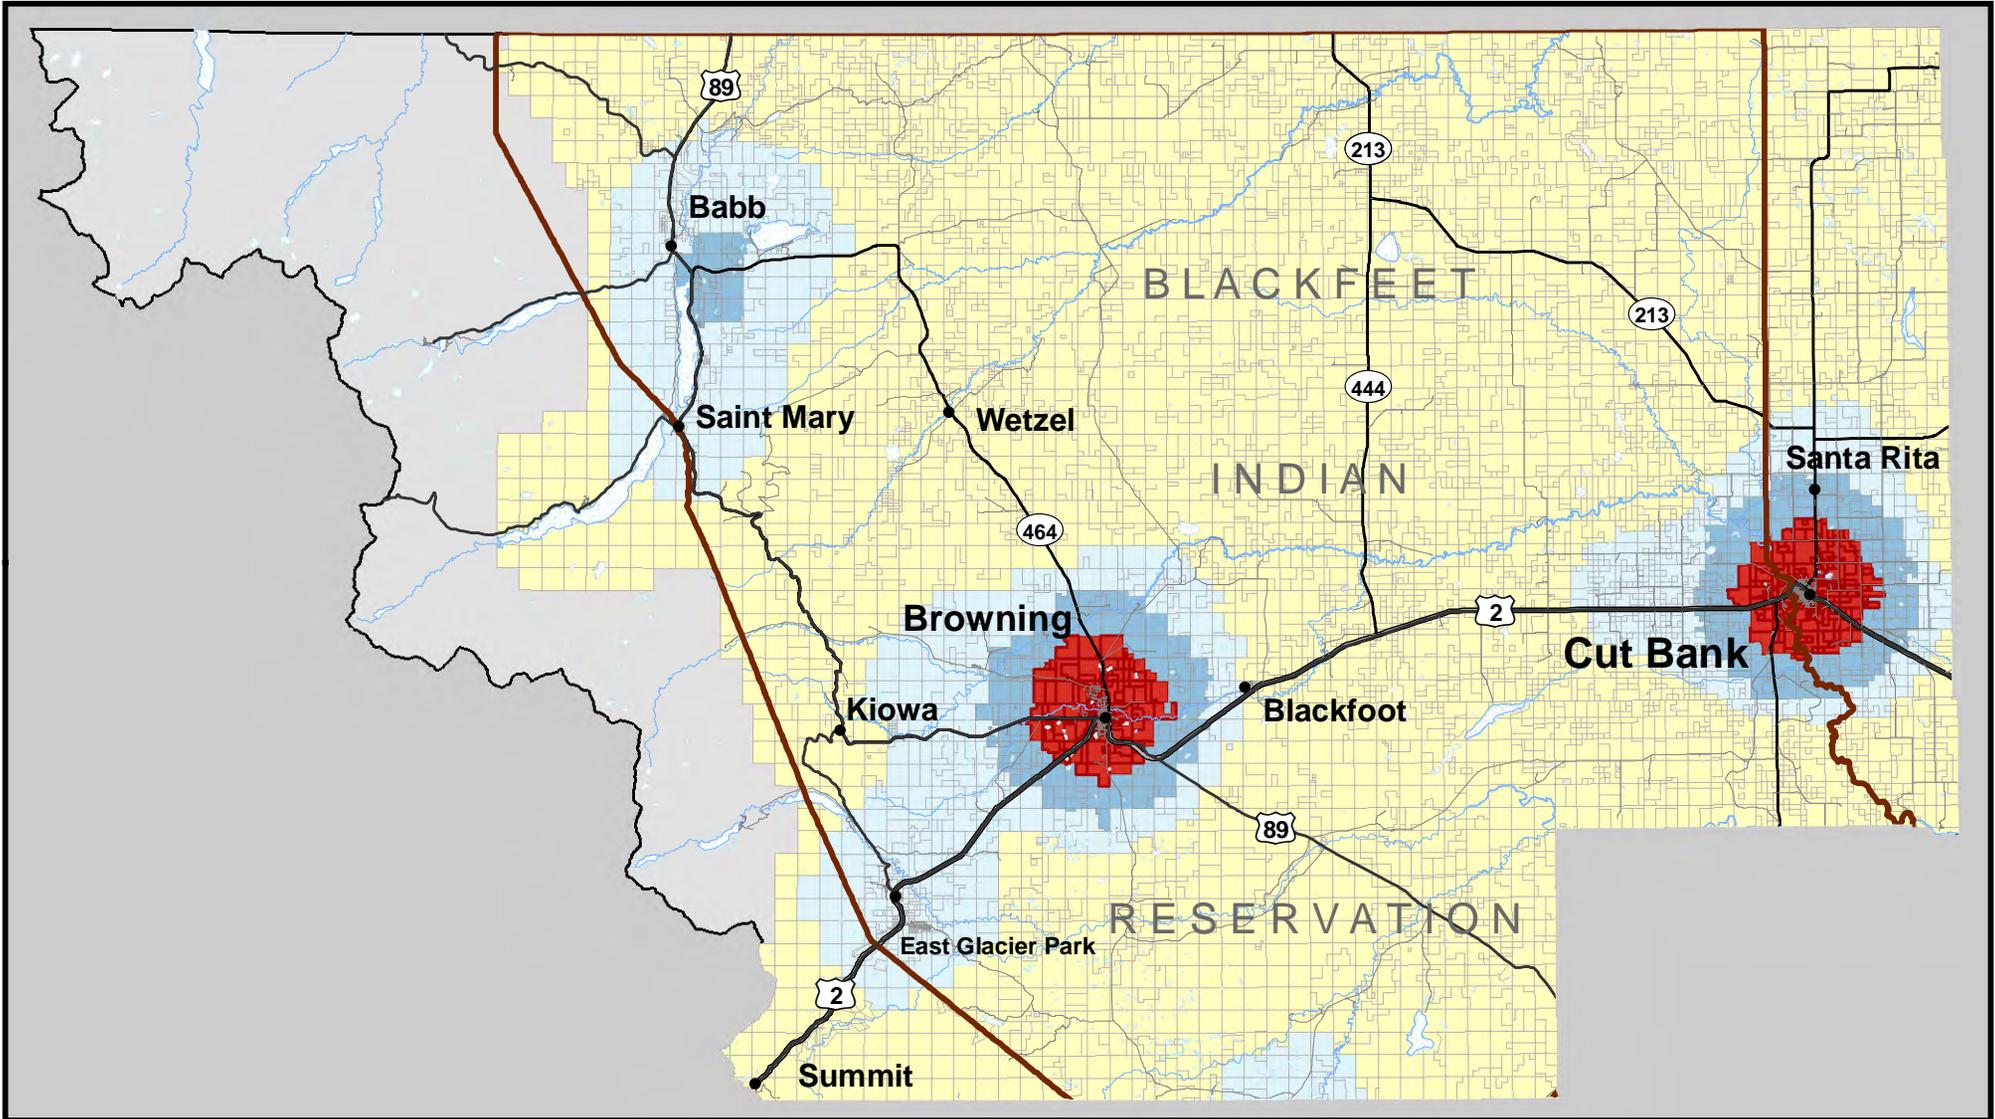

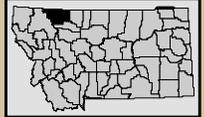

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

# Wildland Urban Interface Parcels Glacier County

## Glacier WUI Parcels 2011

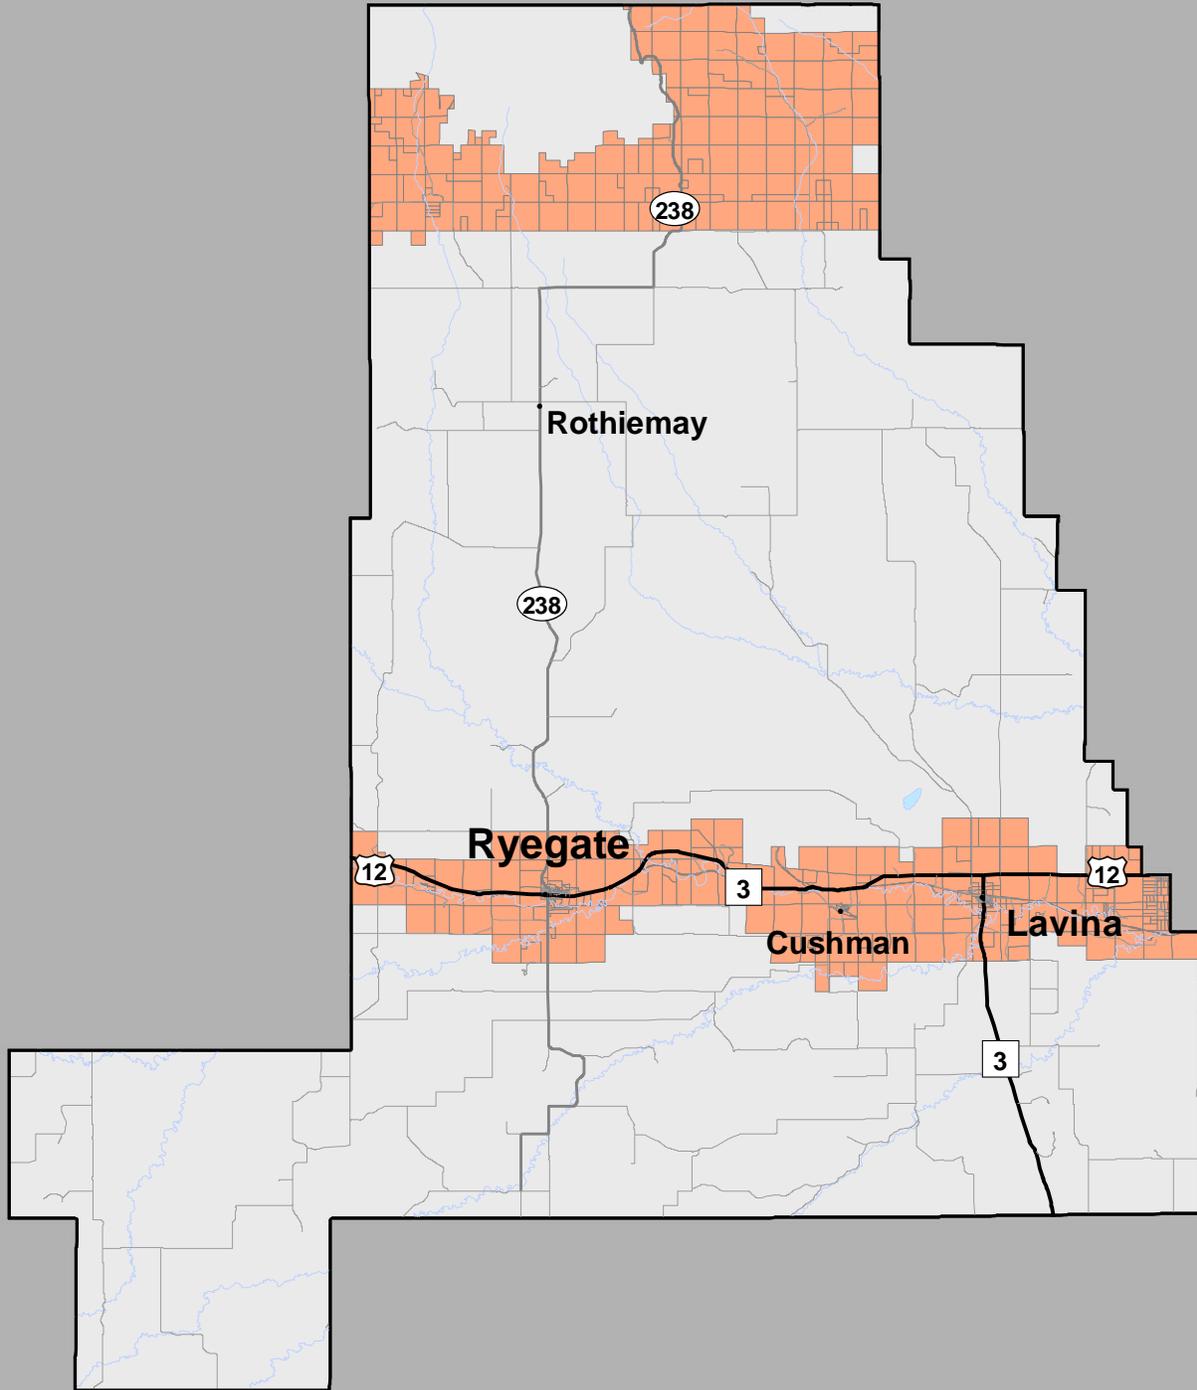

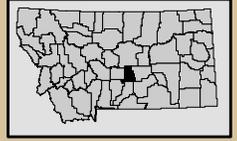

- High Density Interface
- Low Density Intermix
- Moderate Density Intermix
- Rural Land WUI
- Blackfeet Indian Reservation

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Golden Valley County

 **Golden Valley WUI Parcels 2011**

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Granite County

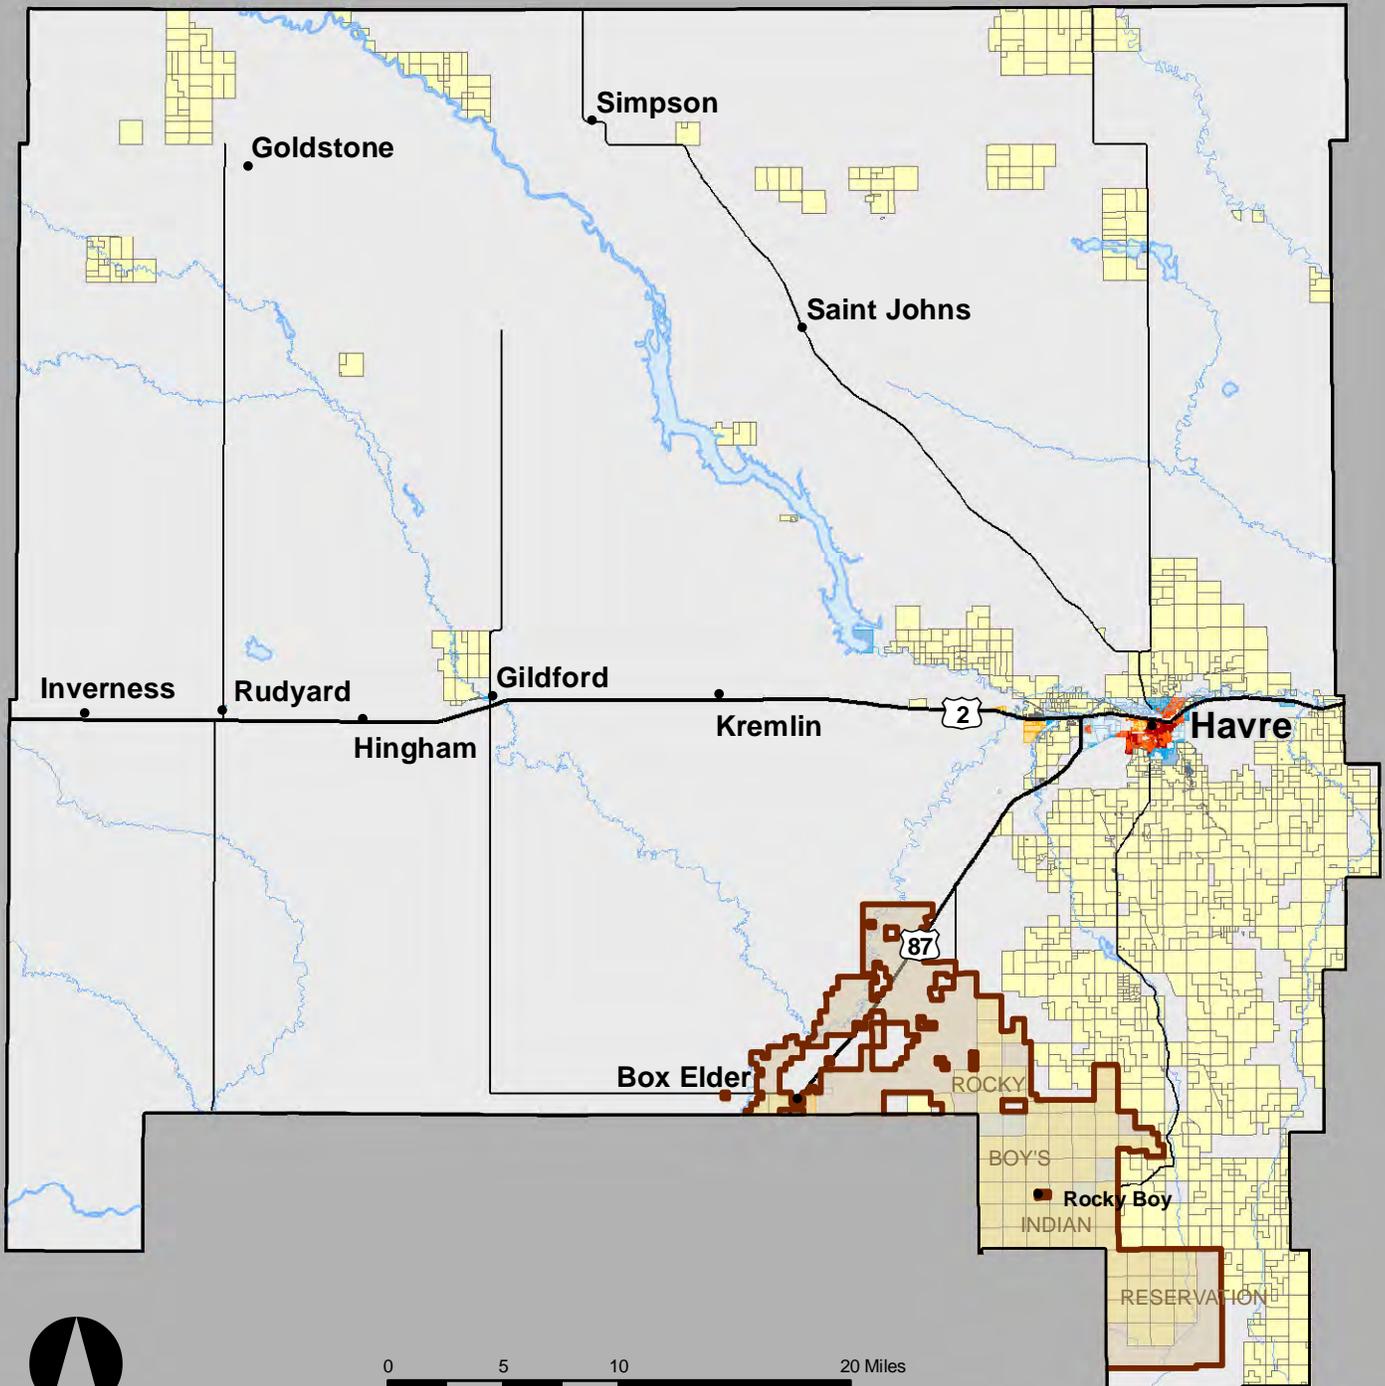

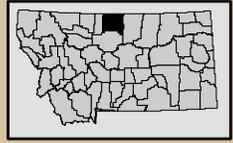

## Granite WUI Parcels 2011

- 1 mile WUI Buffer
- 2 mile WUI Buffer
- 3 mile WUI Buffer
- 4 mile WUI Buffer

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Hill County

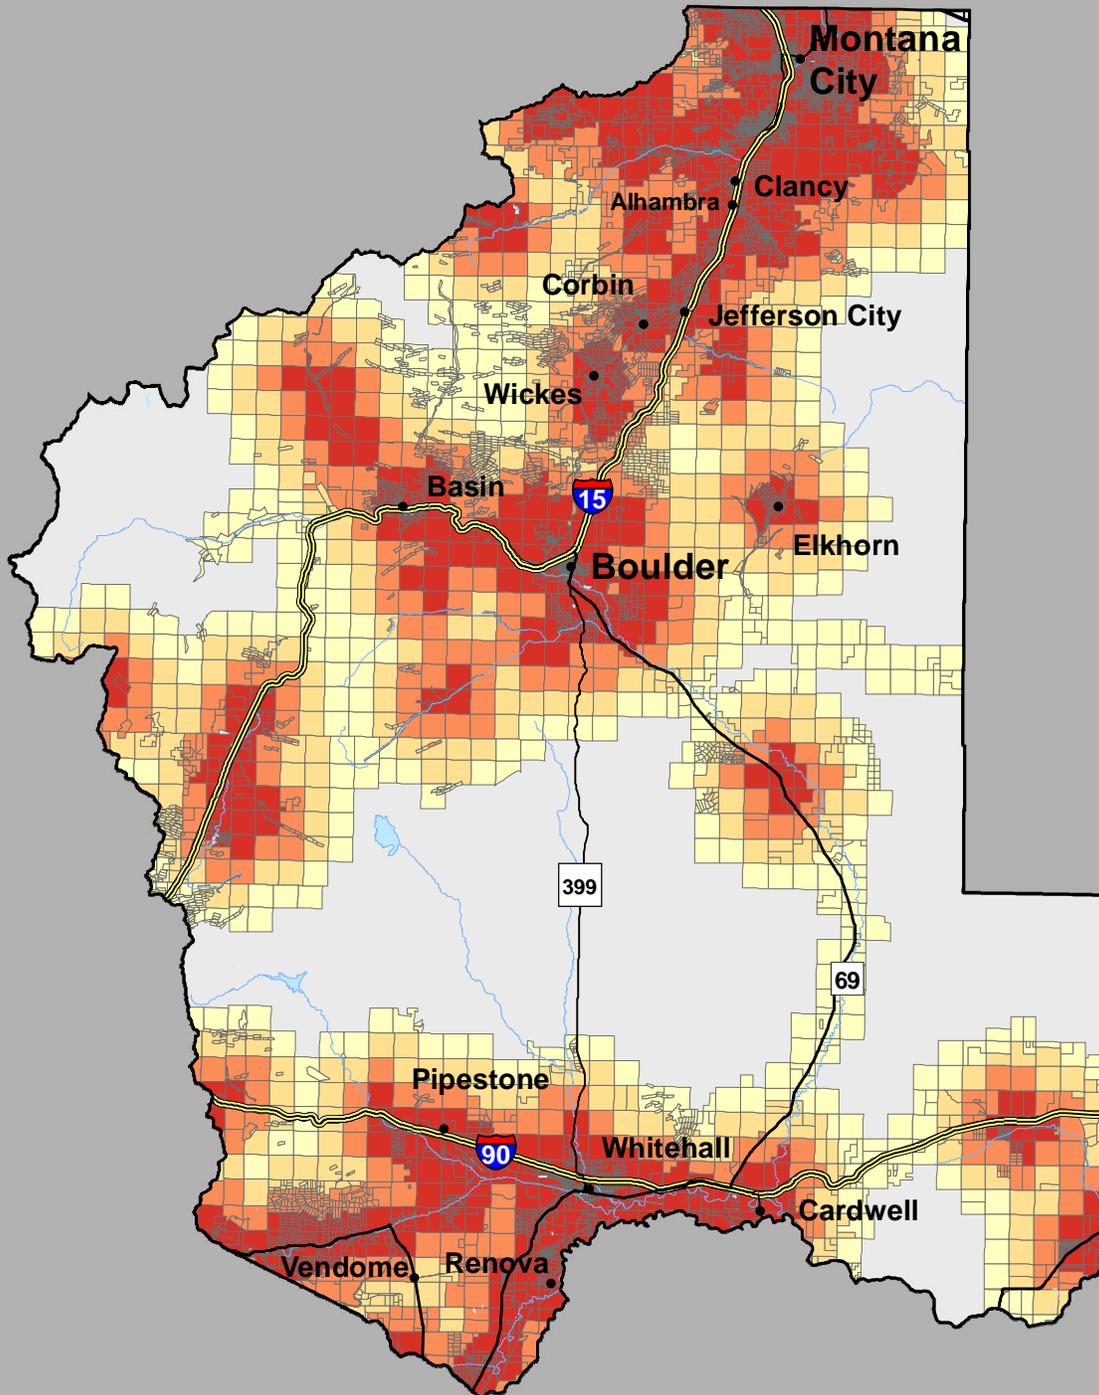

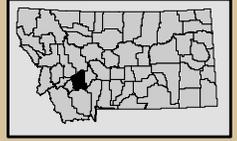

## Hill WUI Parcels 2011

- |                          |                         |
|--------------------------|-------------------------|
| High Density Interface   | High Density Intermix   |
| Medium Density Interface | Medium Density Intermix |
| Low Density Interface    | Low Density Intermix    |
| Indian Reservation       | Wildland Intermix       |

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Jefferson County

## Jefferson WUI Parcels 2011

- 1 mile buffer
- 2 mile buffer
- 3 mile buffer
- 4 mile buffer

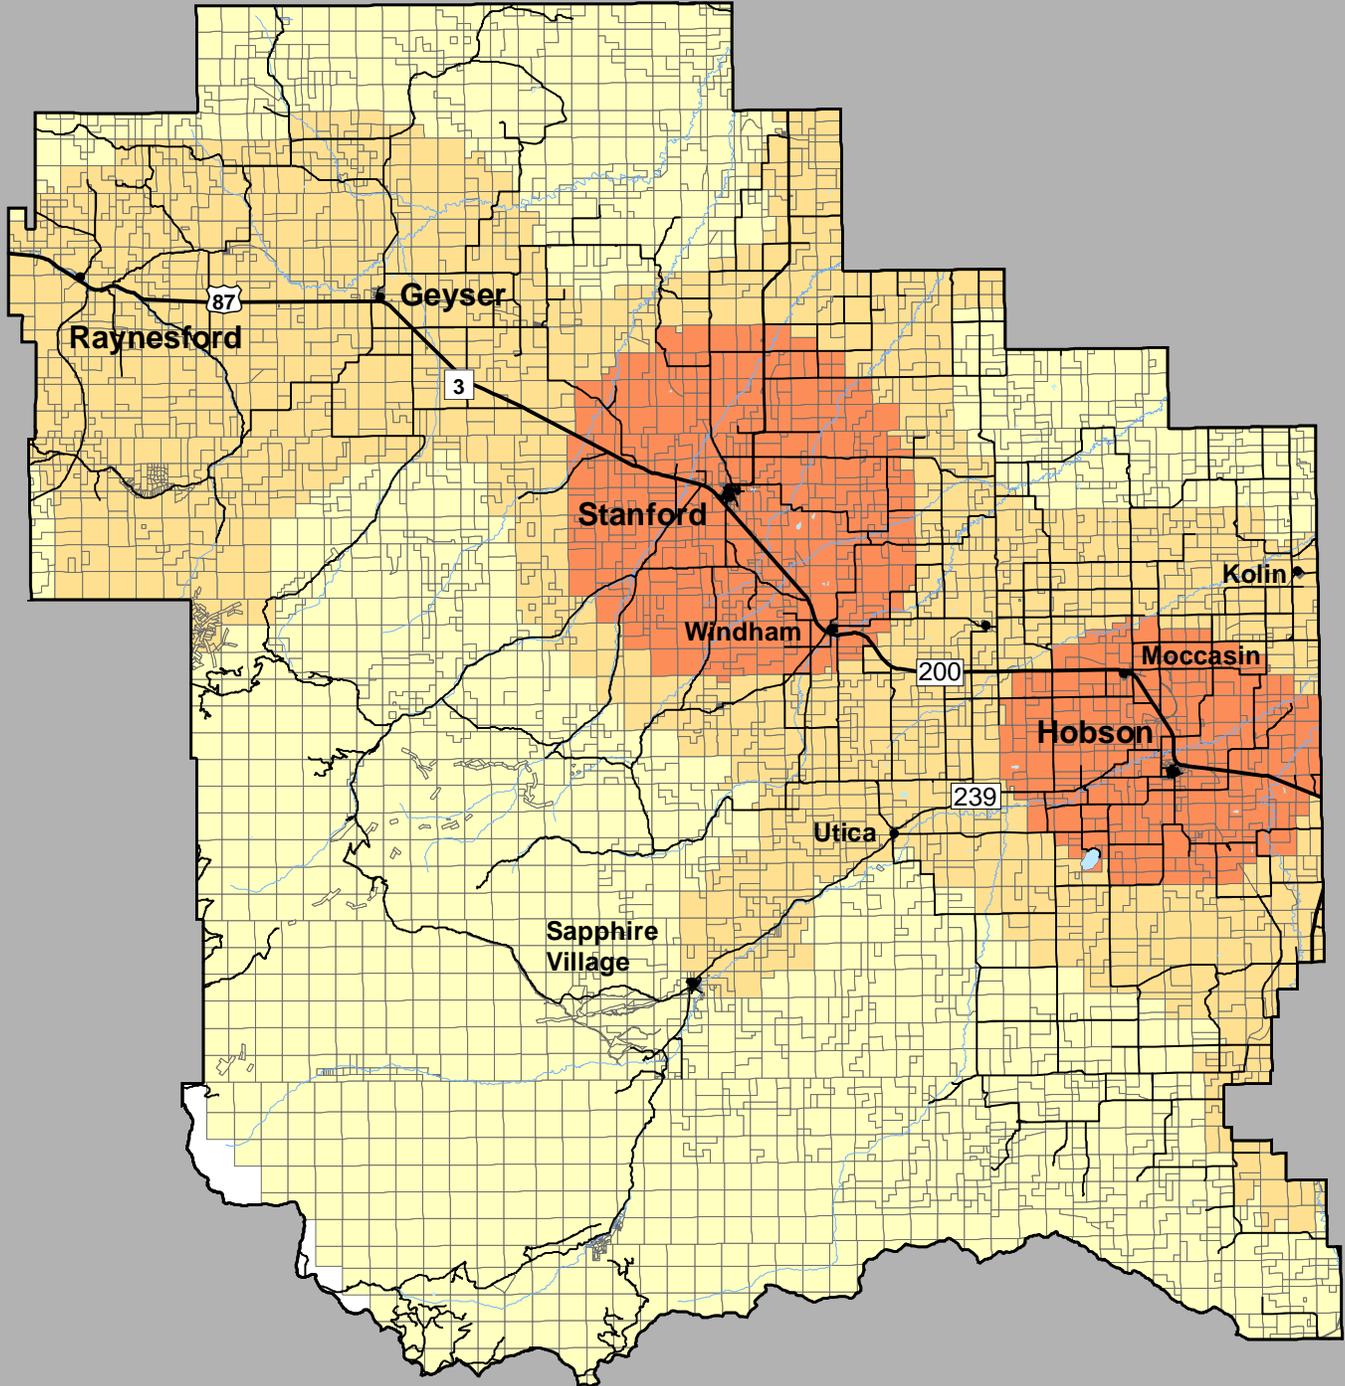

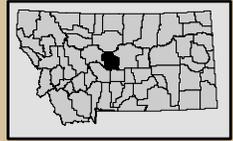

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

# Wildland Urban Interface Parcels Judith Basin County

## Judith Basin WUI Parcels 2011

- Moderate Density
- Low Density
- Rural wui

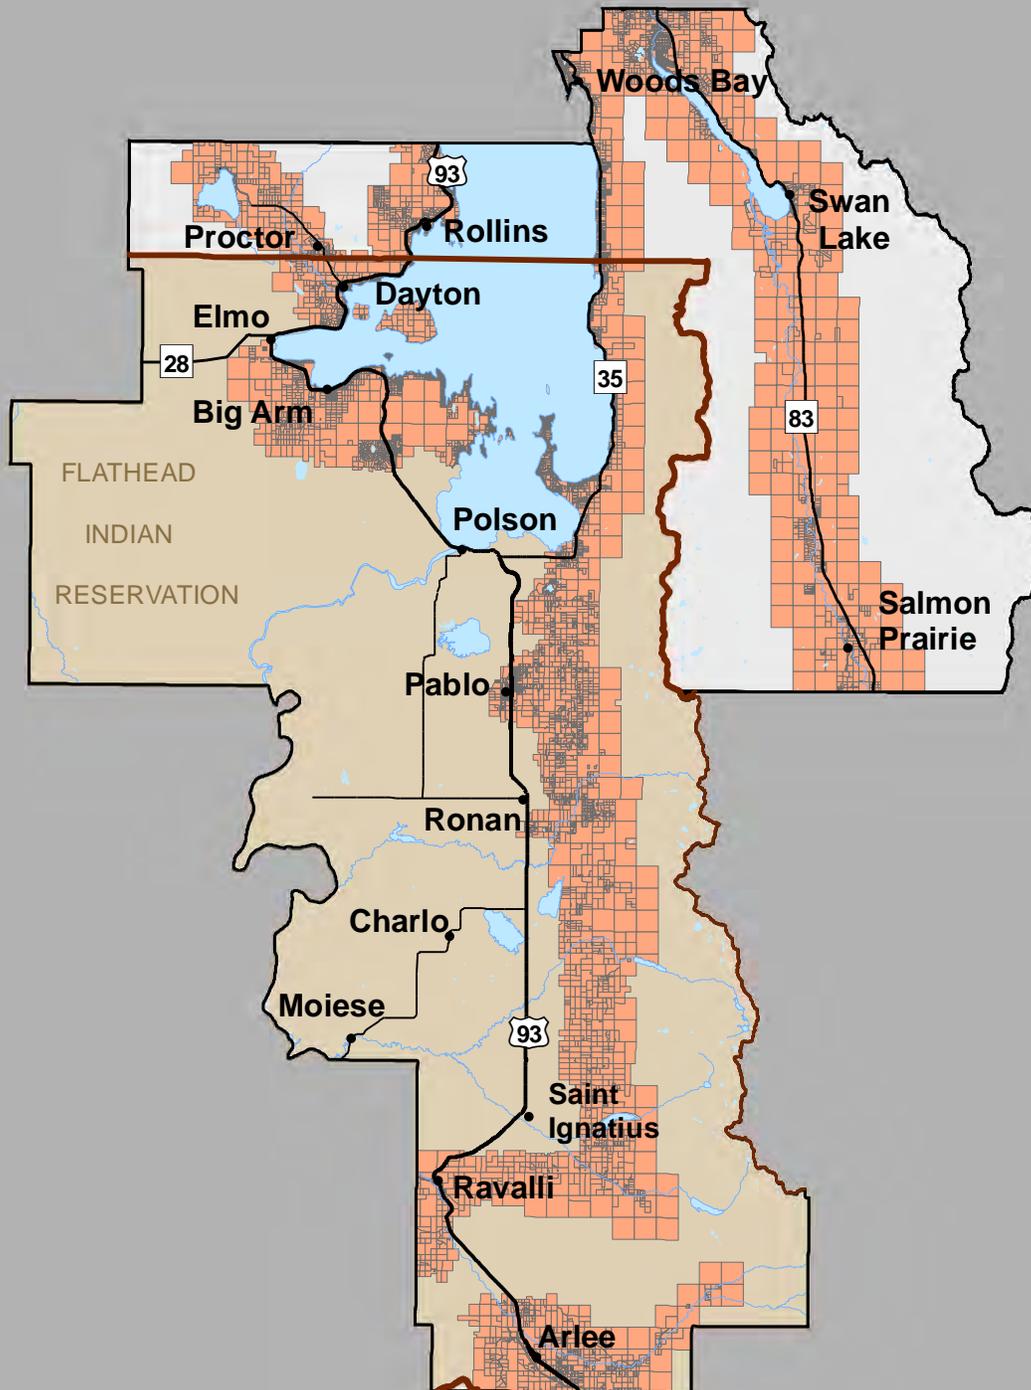

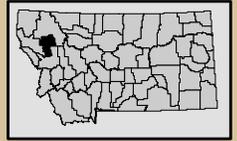

0 2 4 8 Miles

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

# Wildland Urban Interface Parcels Lake County

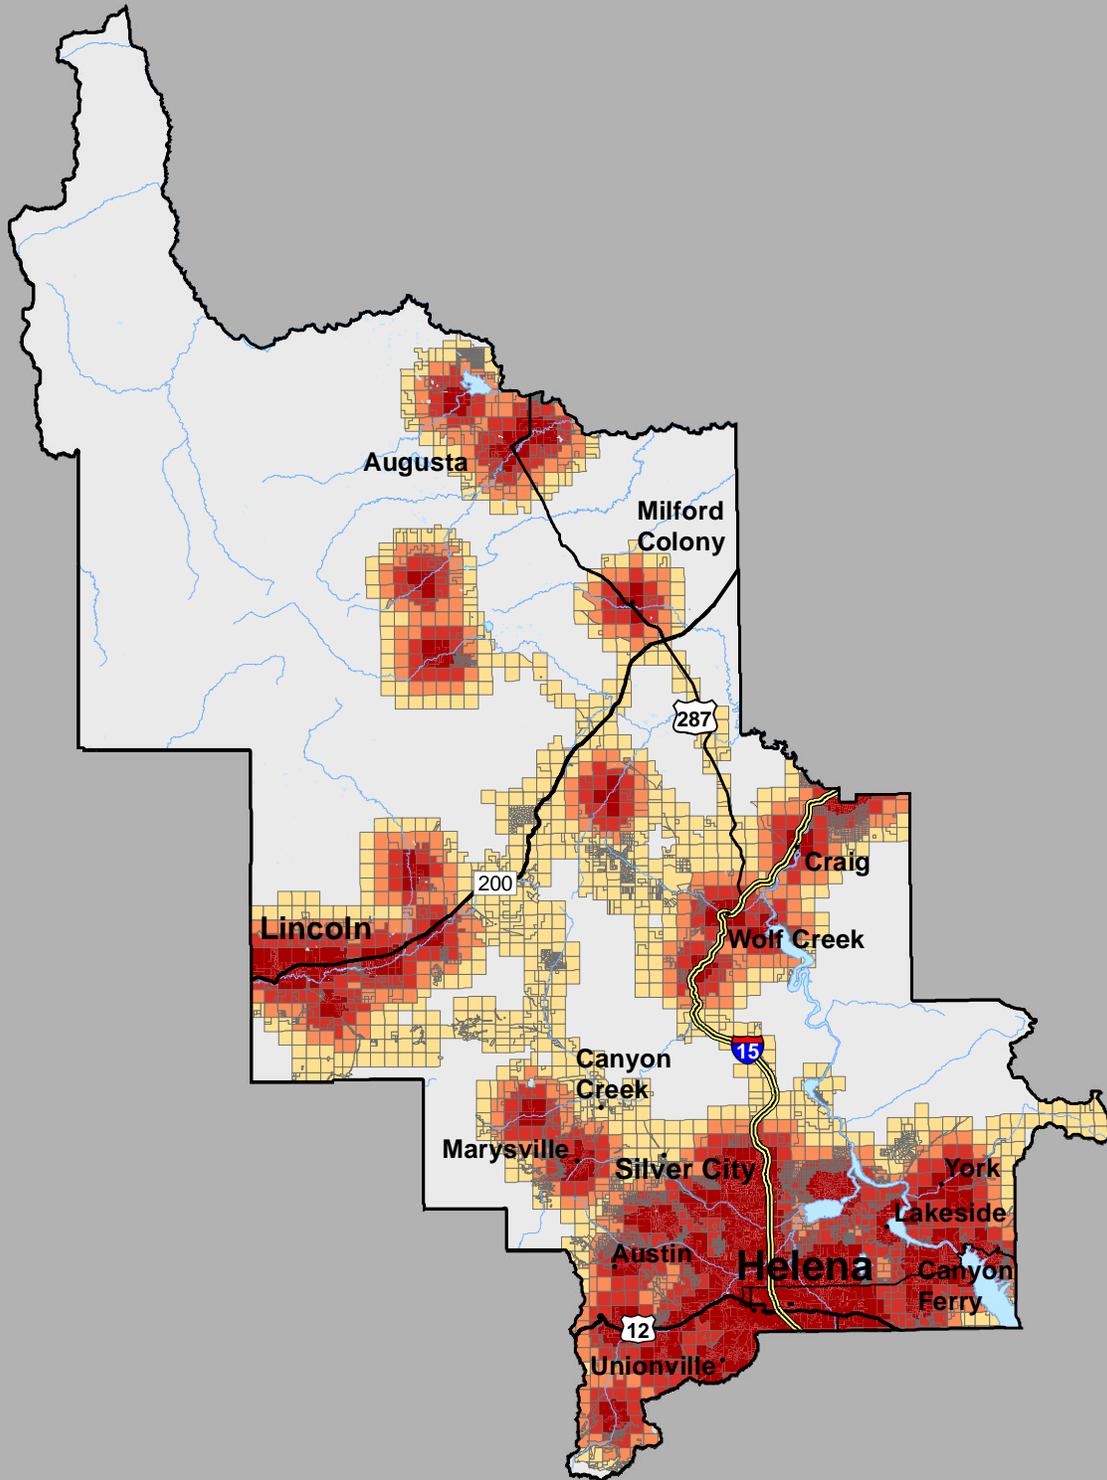

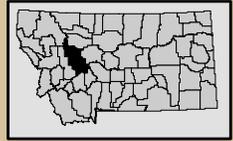

- Lake WUI Parcels 2011
- Indian Reservation

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Lewis and Clark County

## Lewis & Clark WUI Parcels 2011

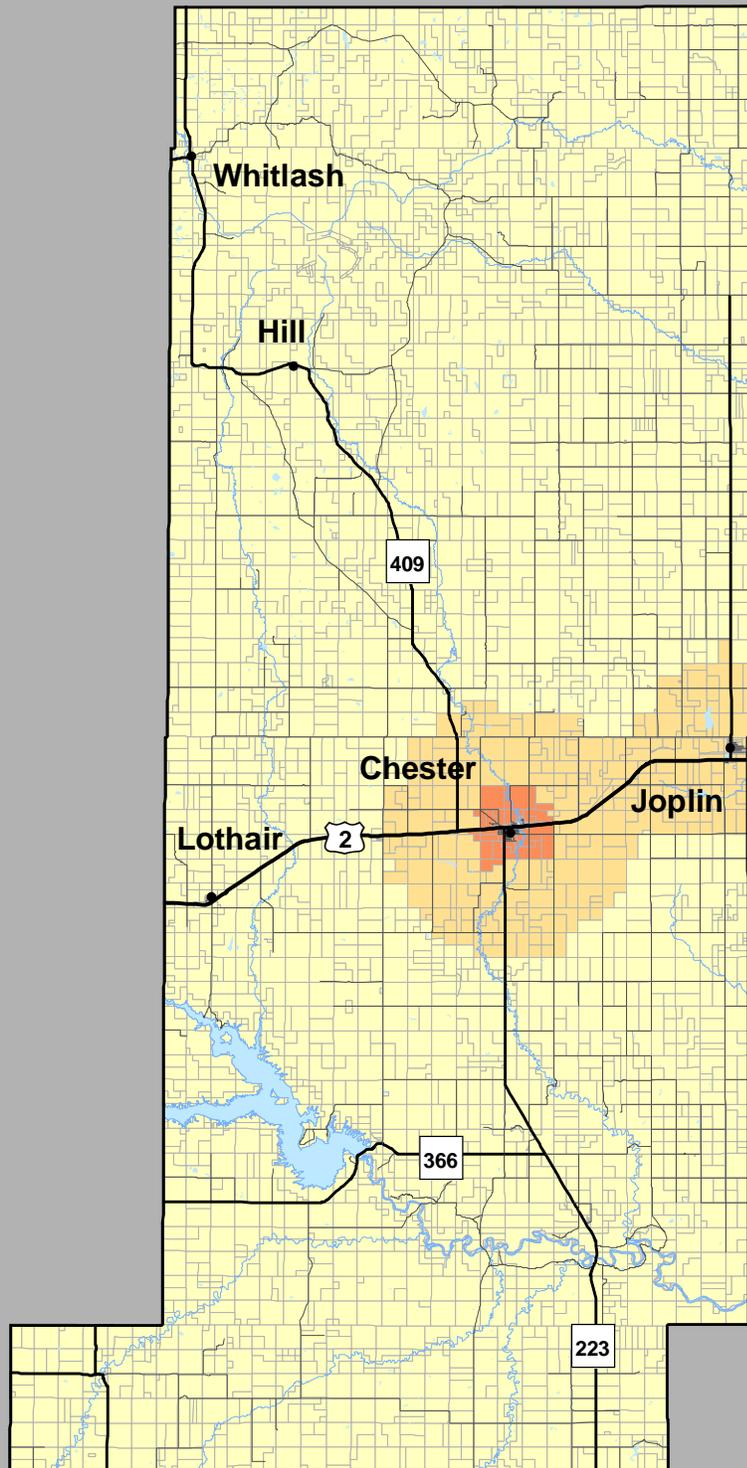

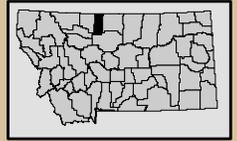

- Very High Risk
- High Risk
- Moderate Risk
- Low Risk

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Liberty County

## Liberty WUI Parcels 2011

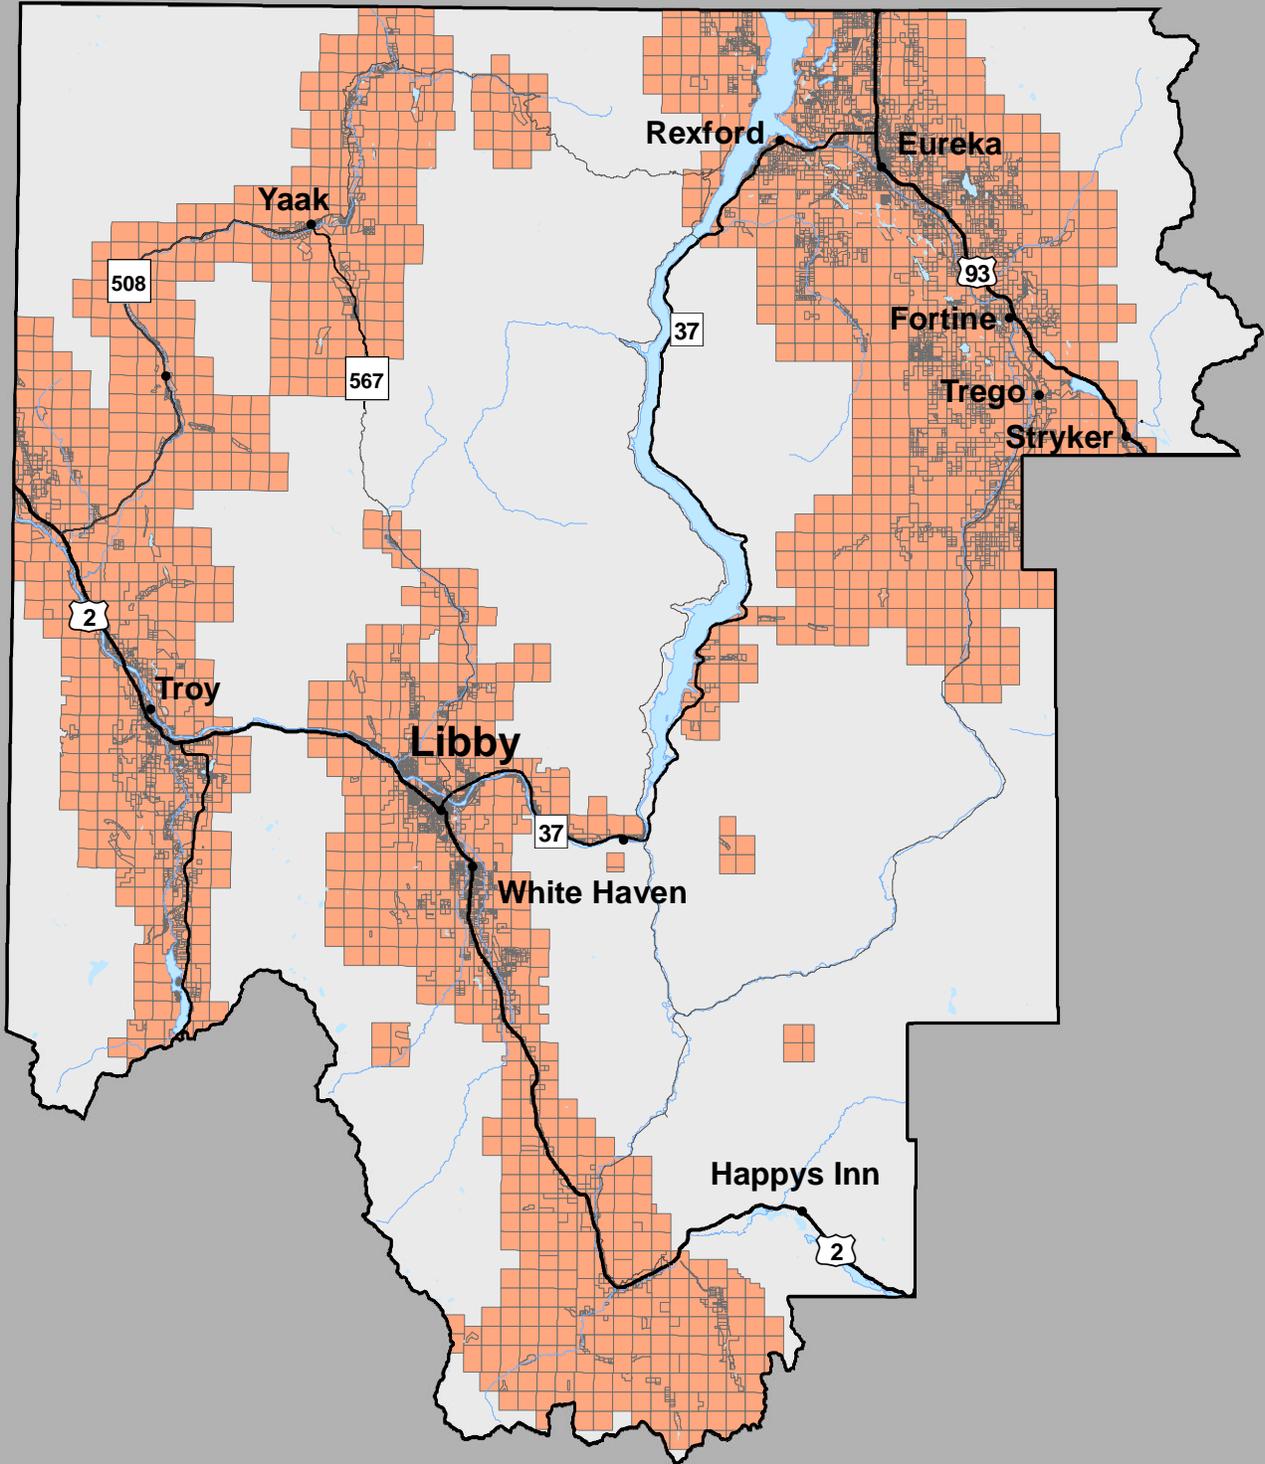

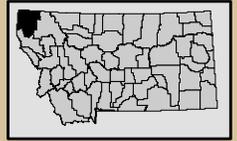

- Moderate Density
- Low Density
- Rural Density

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Lincoln County

 Lincoln WUI Parcels 2011

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Madison County

## Madison WUI Parcels 2011

- High Risk
- Moderate Risk

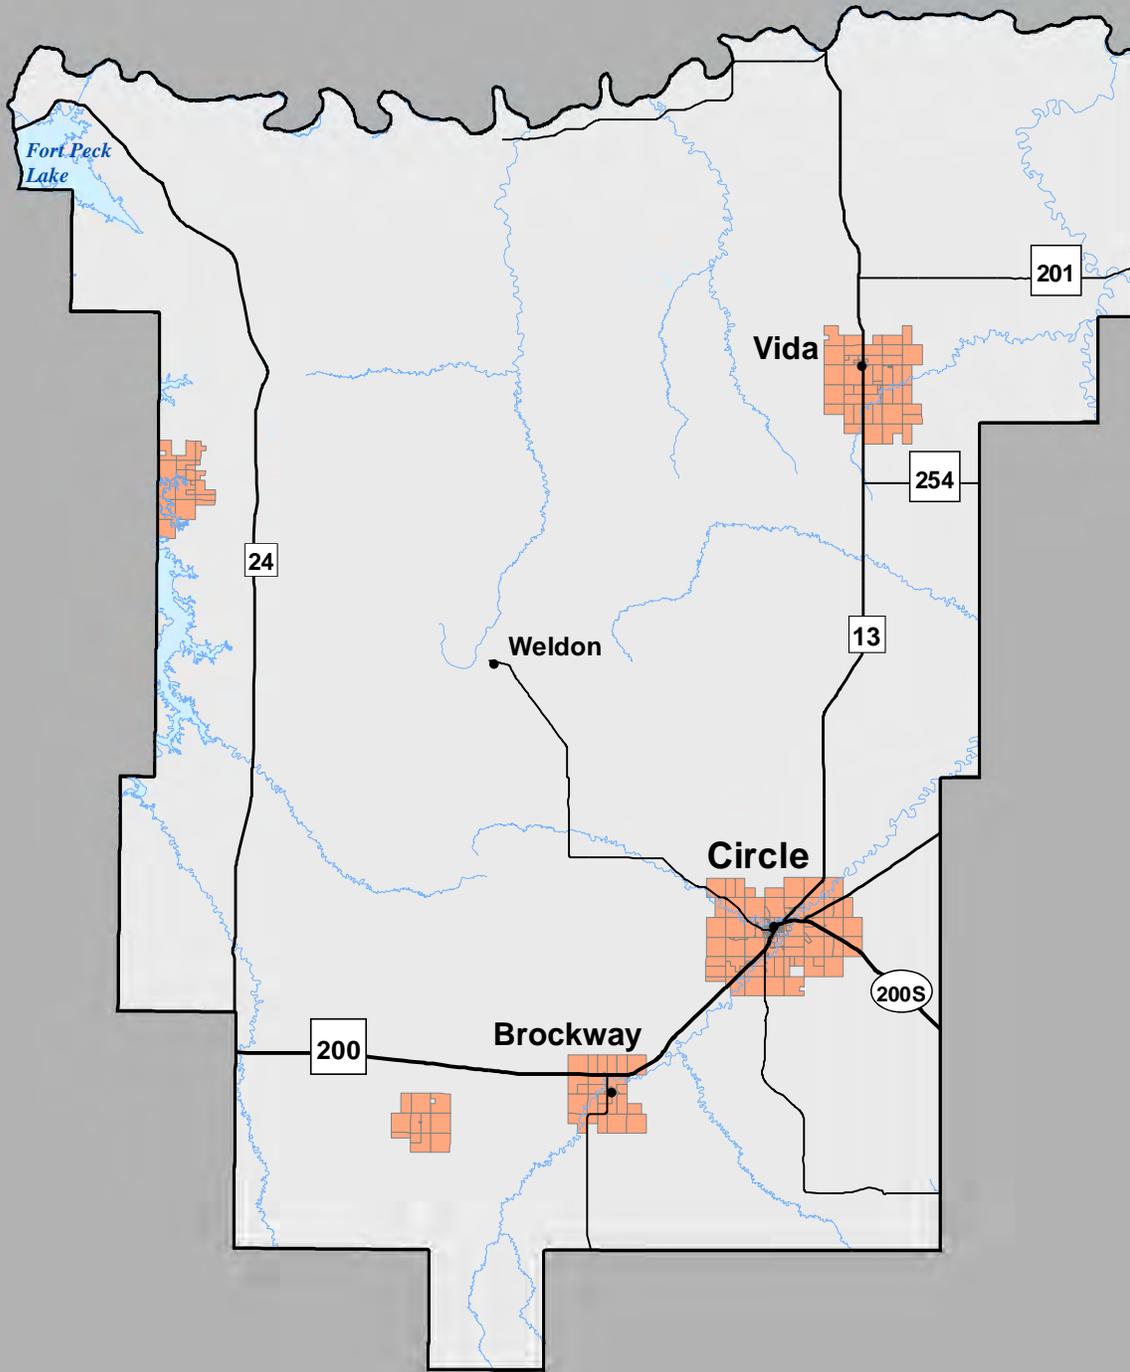

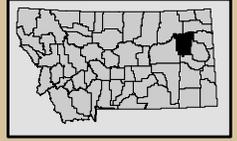

0 3 6 12 Miles

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

# Wildland Urban Interface Parcels McCone County

 **McCone WUI Parcels 2011**

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Meagher County

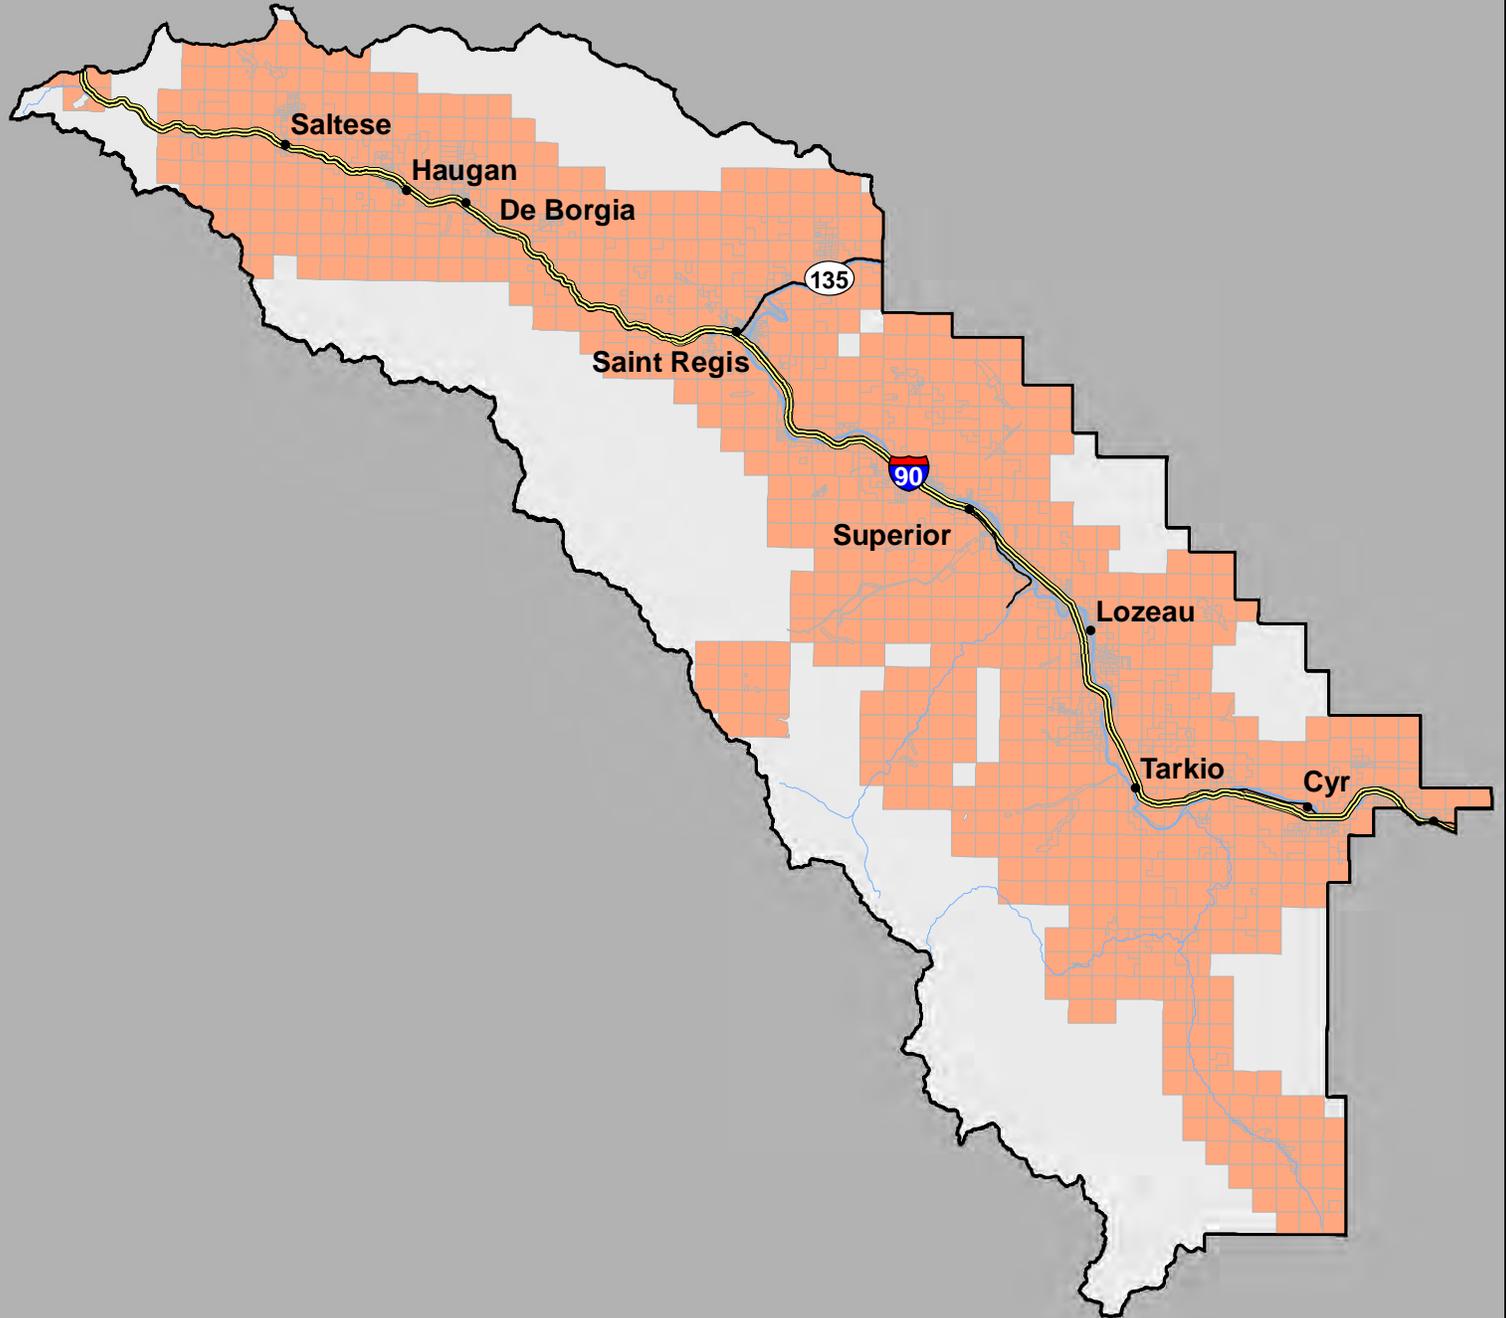

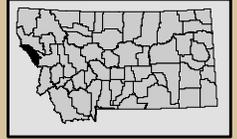

**Meagher WUI Parcels 2011**

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Mineral County

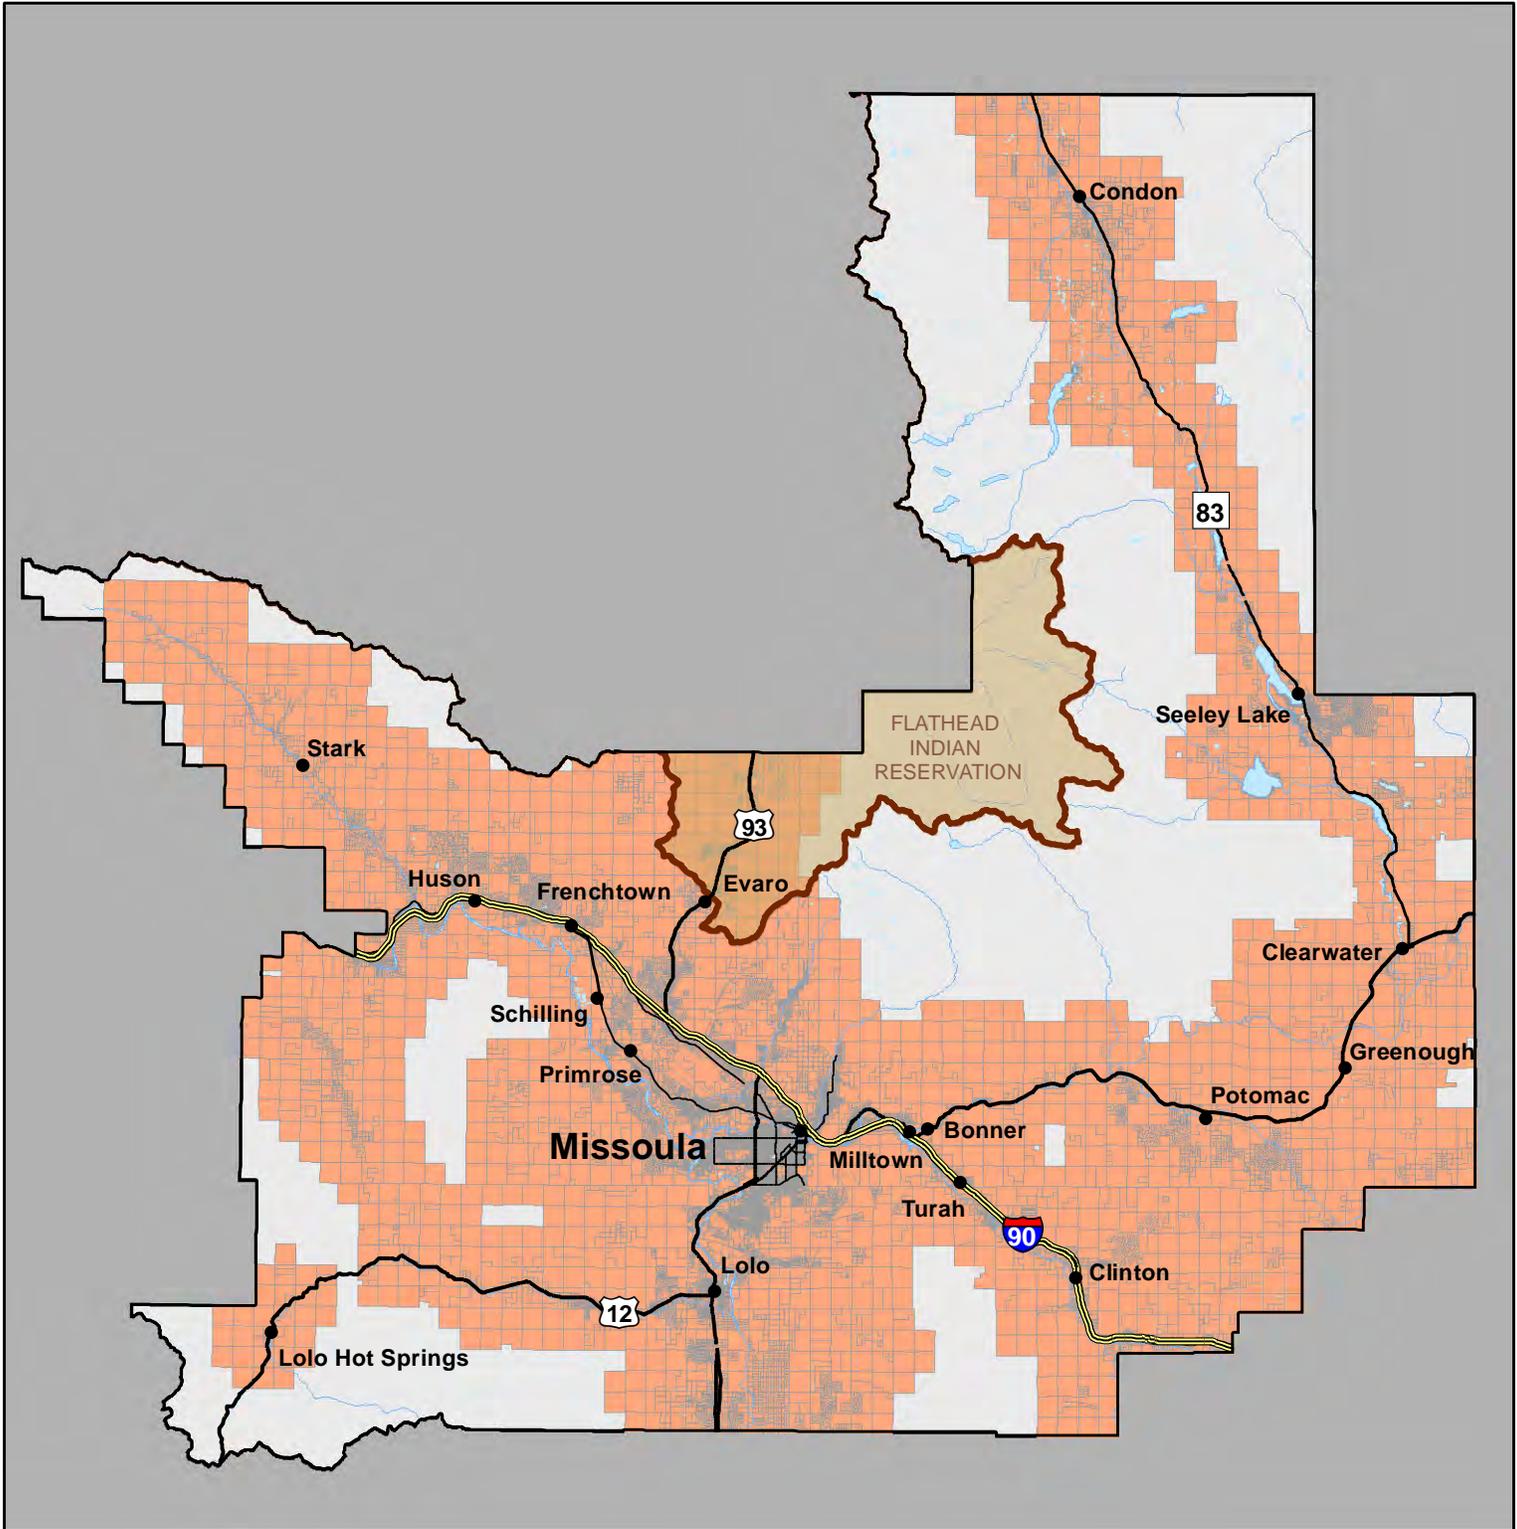

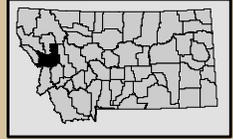

**Mineral WUI Parcels 2011**

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Missoula County

 Missoula WUI Parcels 2011  
 Indian Reservation

0 5 10 20 Miles

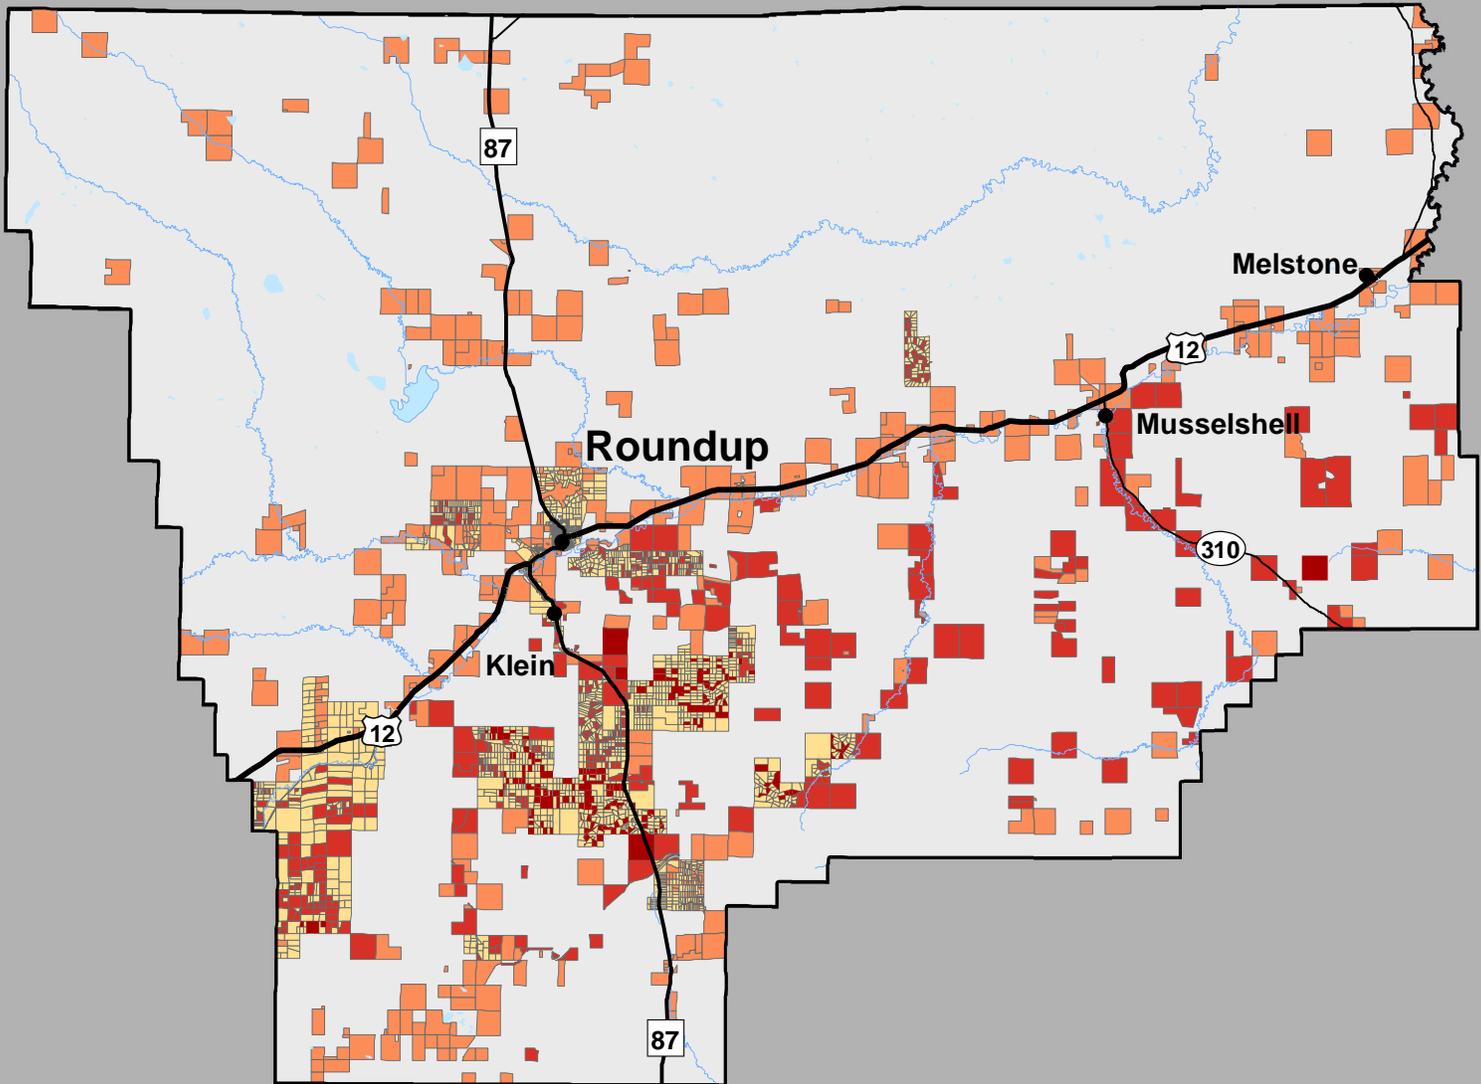

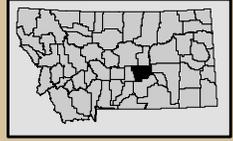

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

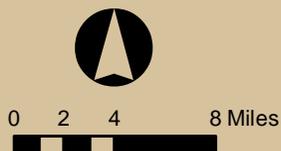

# Wildland Urban Interface Parcels Musselshell County

## Musselshell WUI Parcels 2011

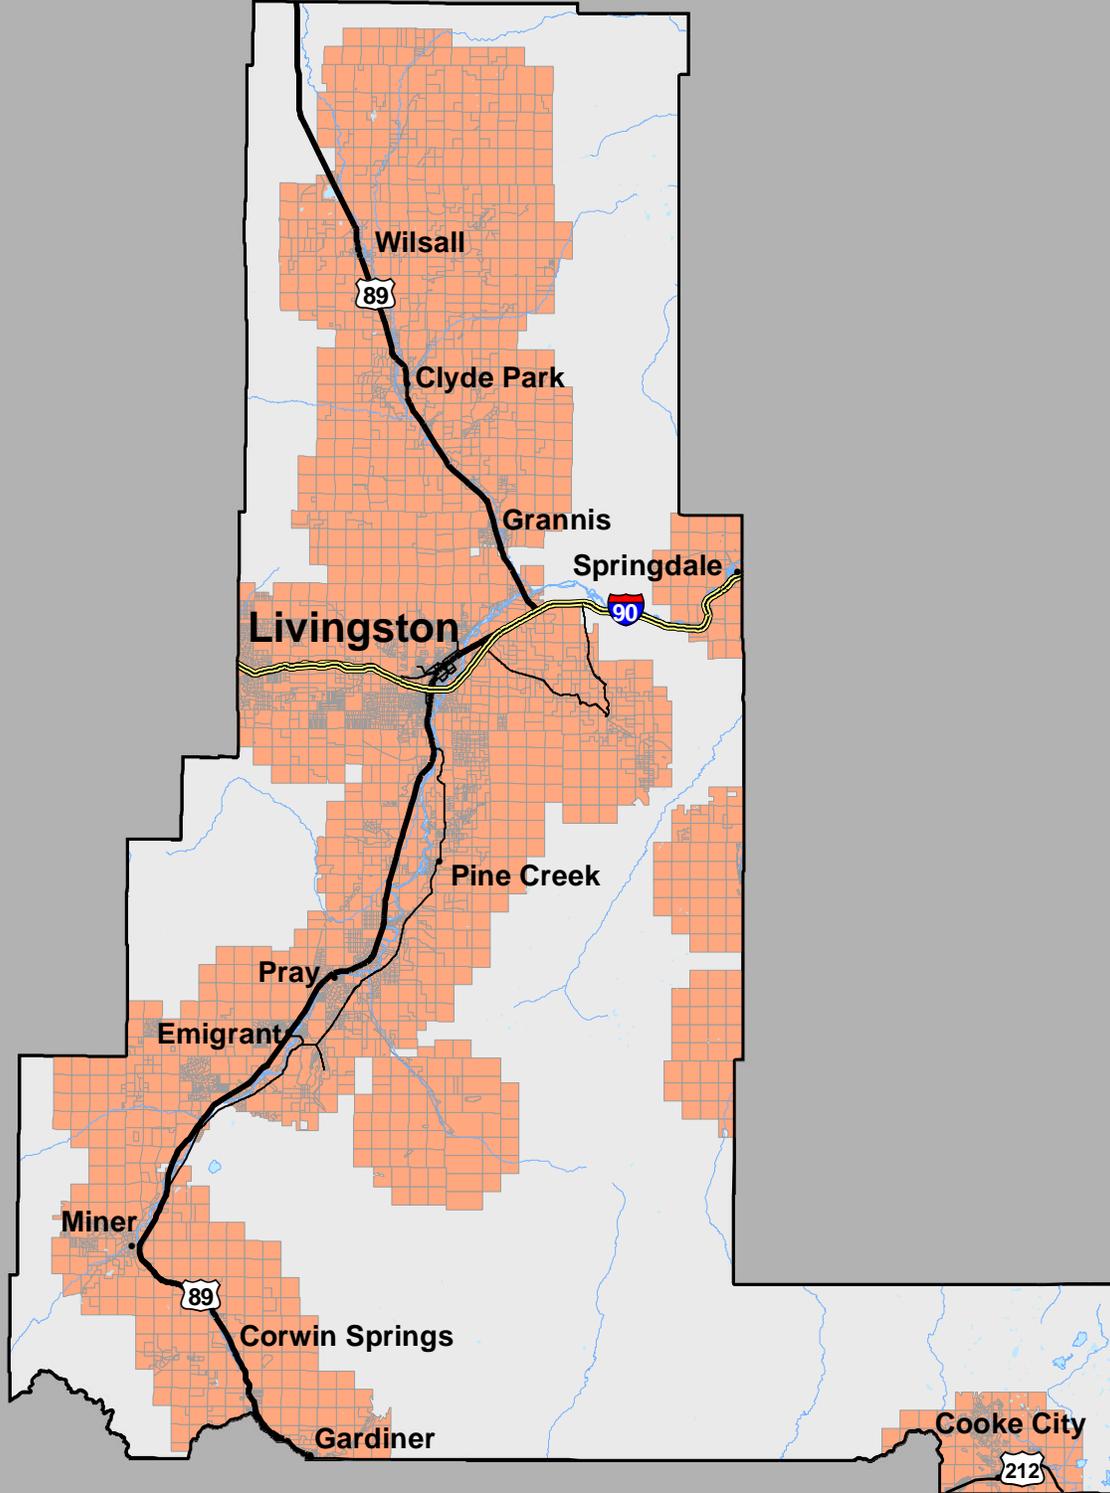

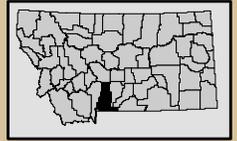

- Extreme Hazard WUI
- High Hazard WUI
- Moderate Hazard WUI
- Parcels within Potential WUI Blocks

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Park County

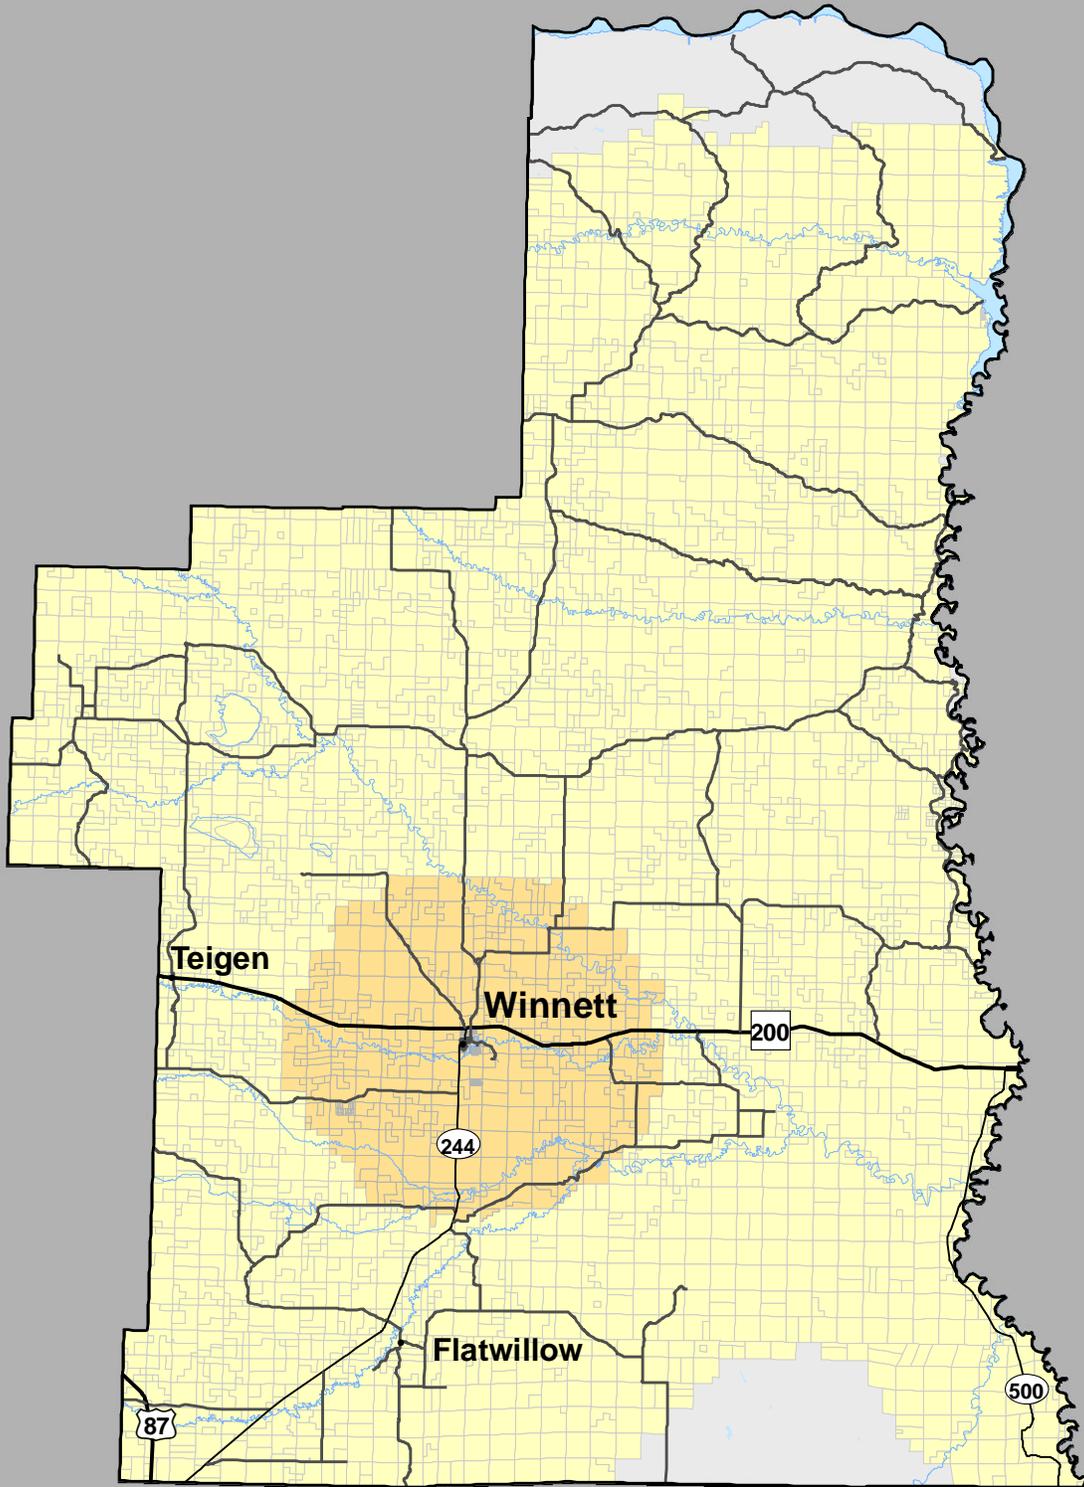

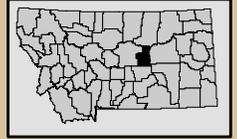

## Park WUI Parcels 2011

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Petroleum County

## Petroleum WUI Parcels 2011

 Low Density wui

 Rural wui

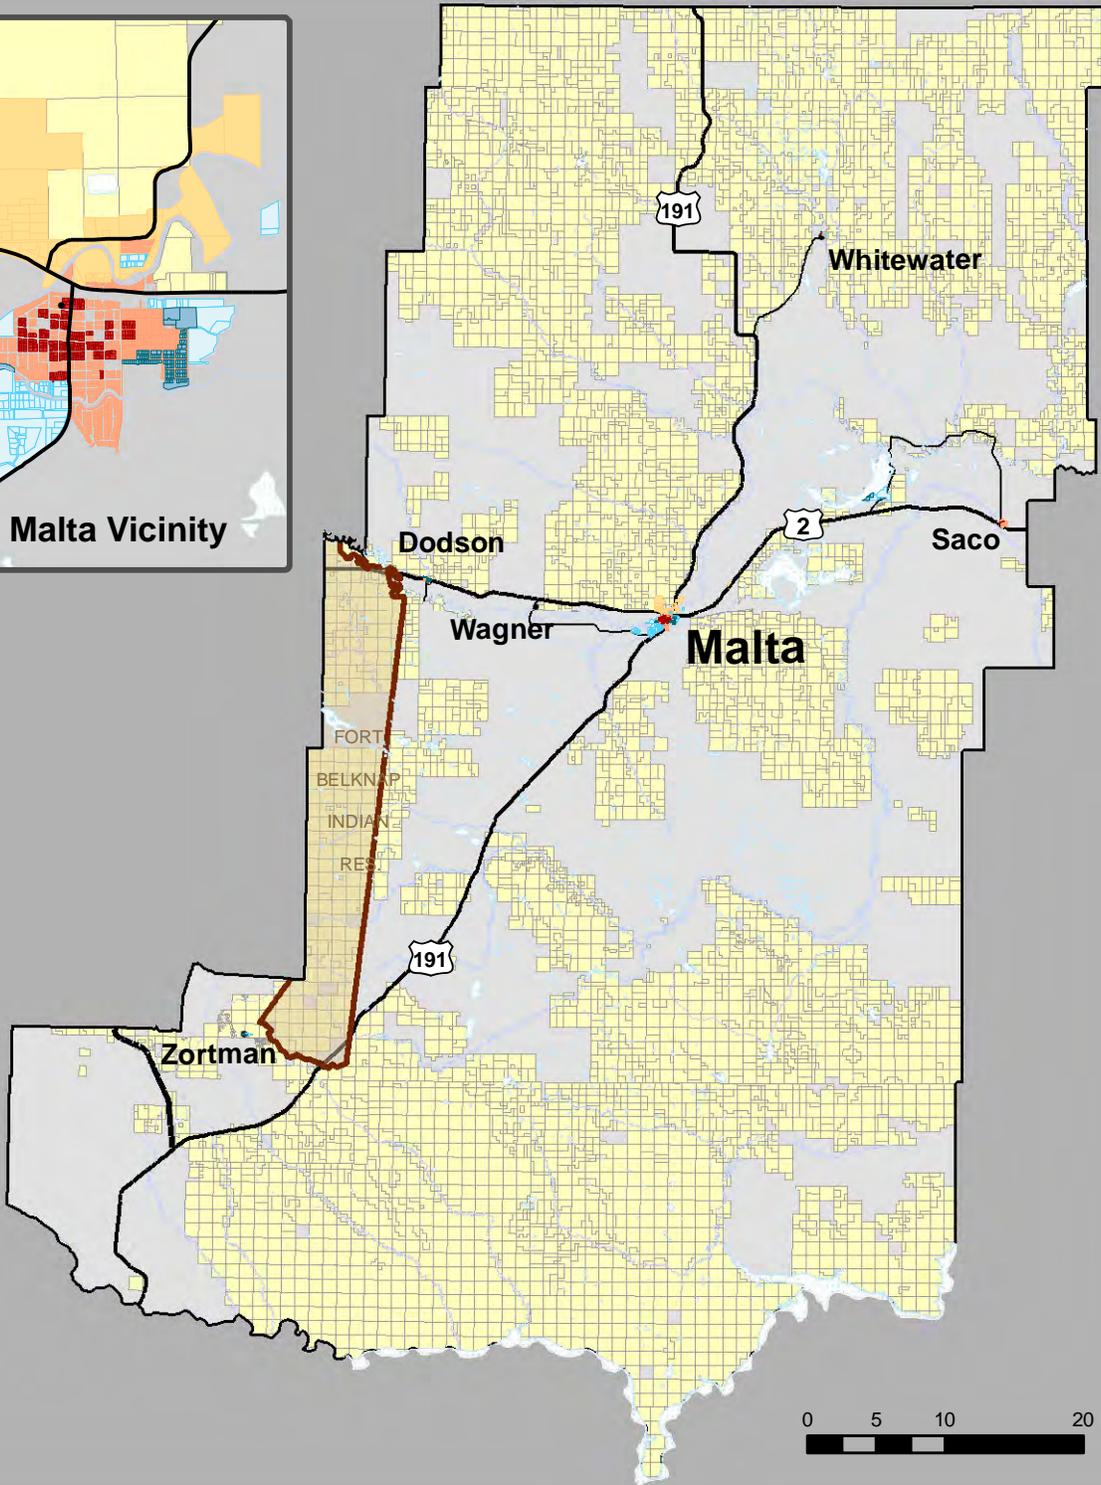

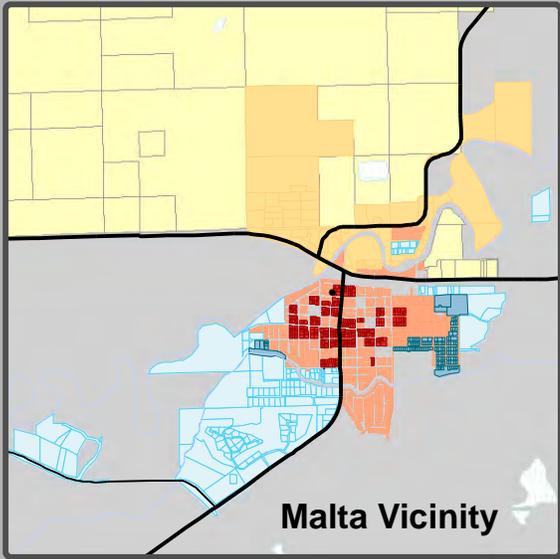

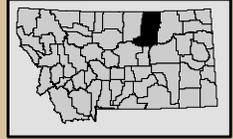

0 2 4 8 Miles  

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Phillips County

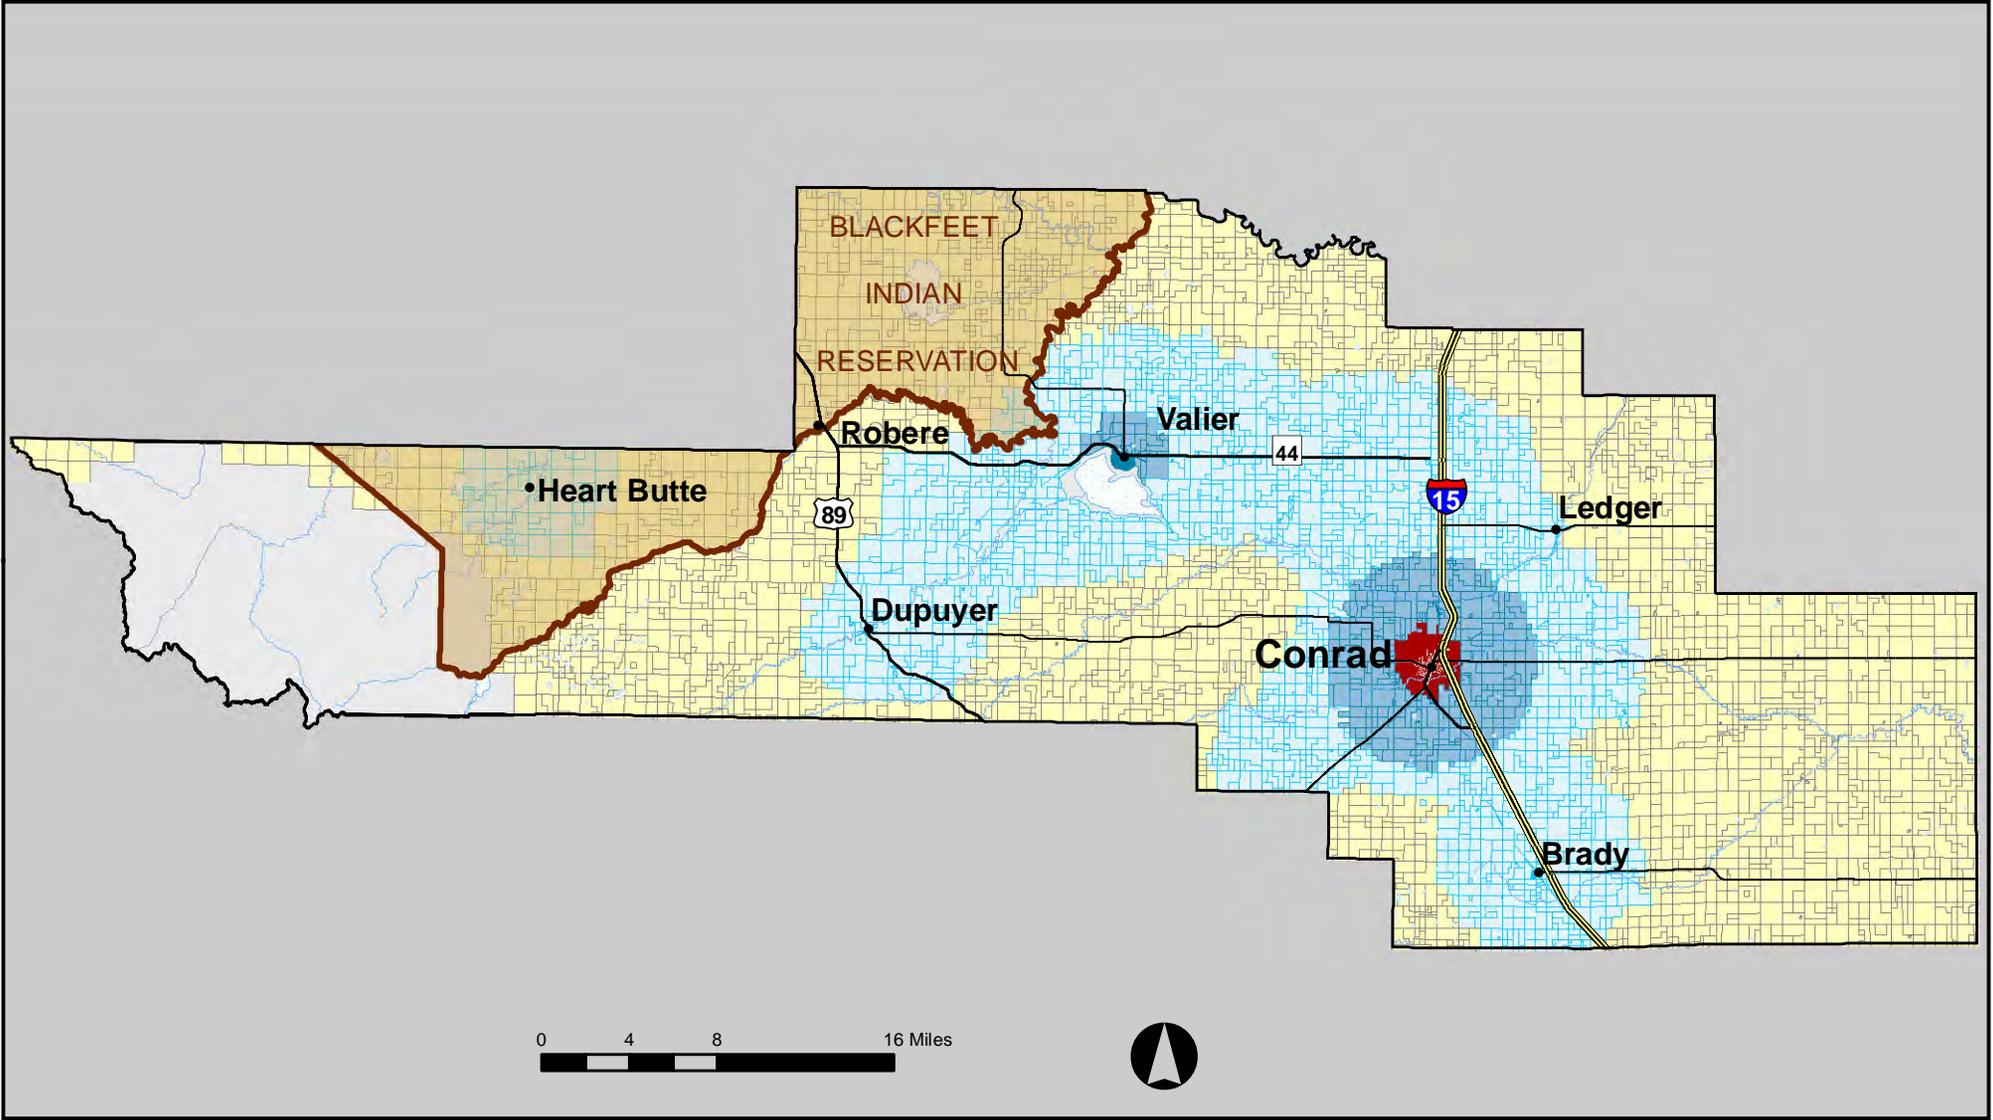

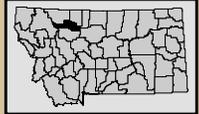

## Phillips WUI Parcels 2011

- High Density Interface
- Medium Density Interface
- Low Density Interface
- Medium Density Intermix
- Low Density Intermix
- Wildland Intermix
- Indian Reservation

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Pondera County

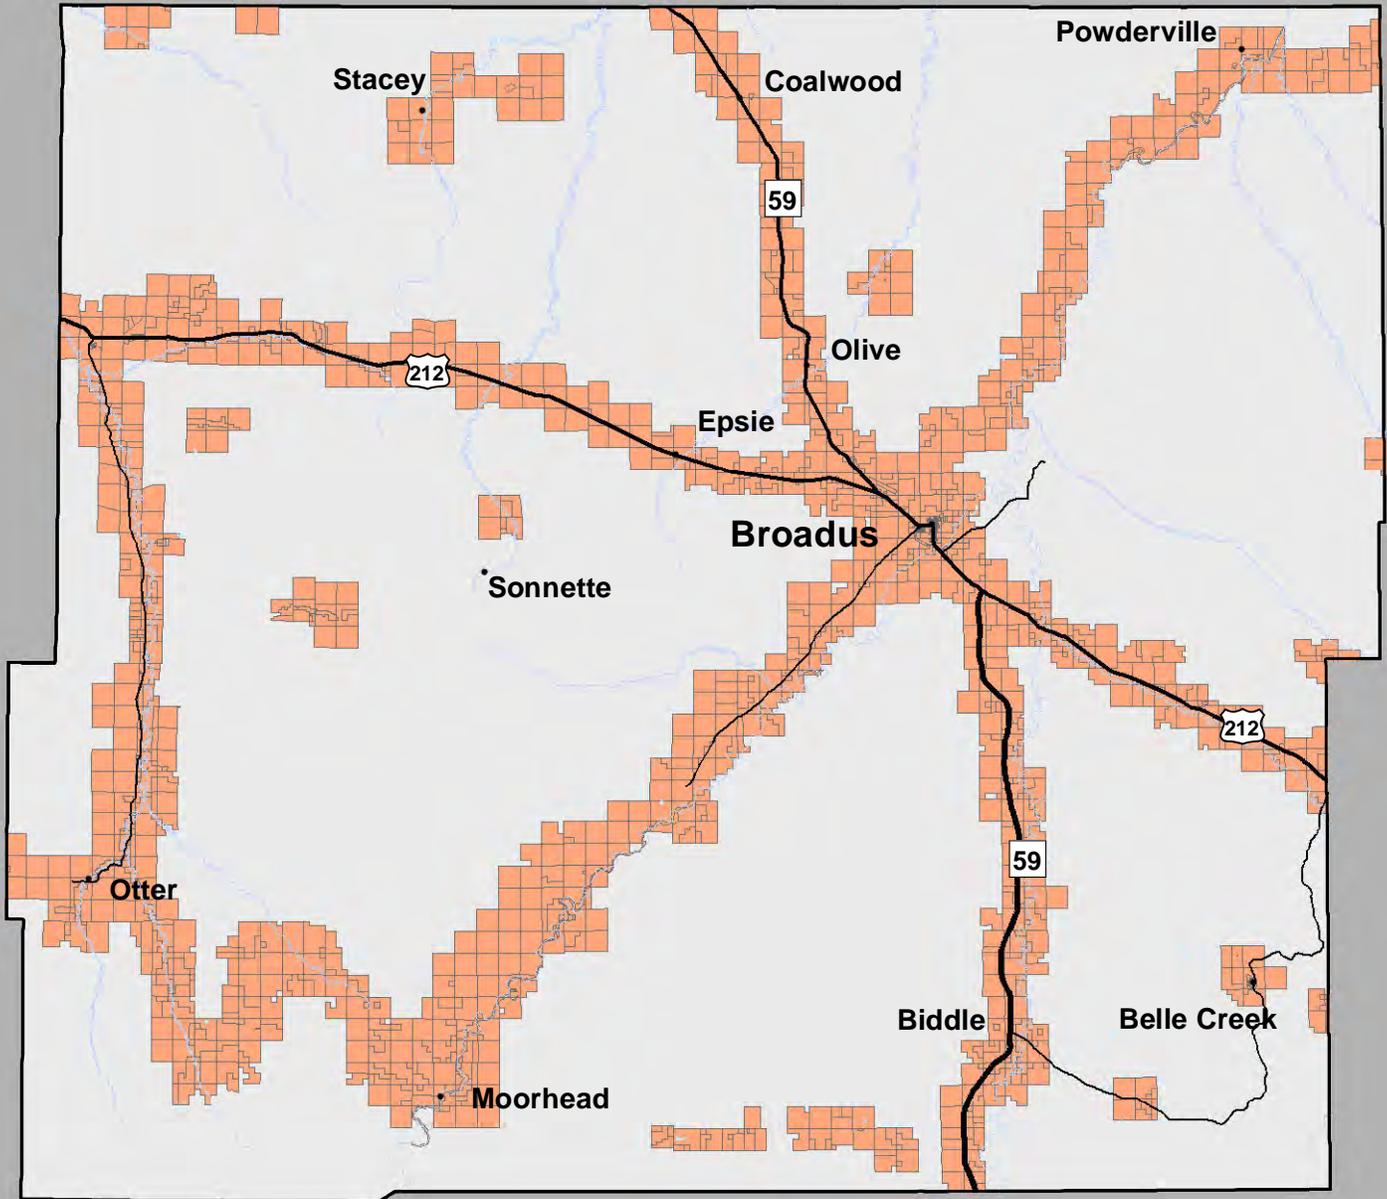

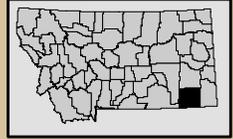

## Pondera WUI Parcels 2011

- High Density Interface
- Low Density Intermix
- Moderate Density Intermix
- Rural Lands WUI
- Indian Reservation

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Powder River County

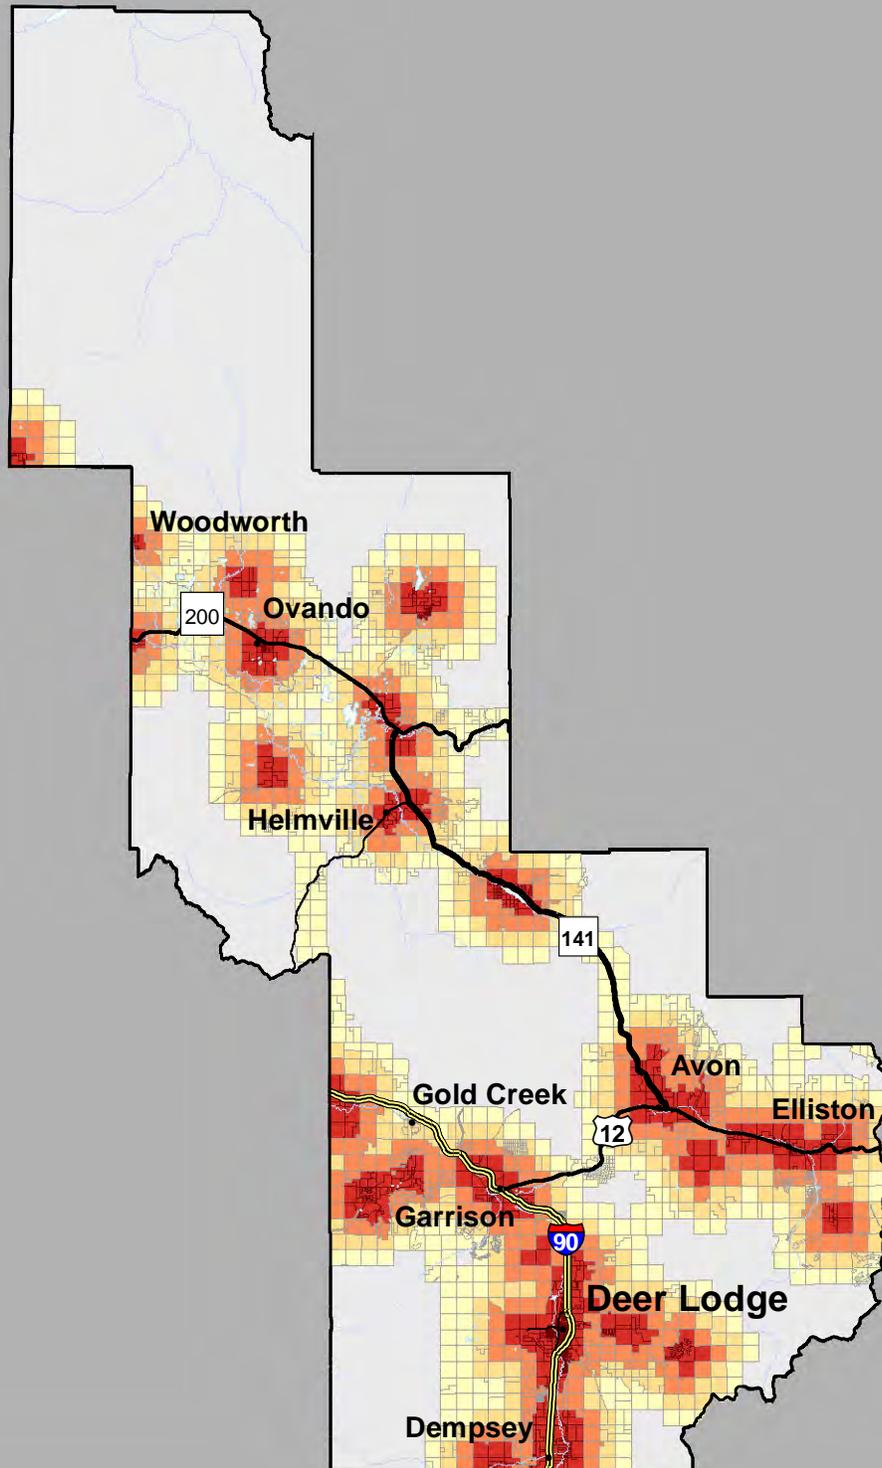

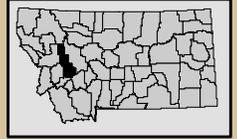

**Powder River WUI Parcels 2011**

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Powell County

## Powell WUI Parcels 2011

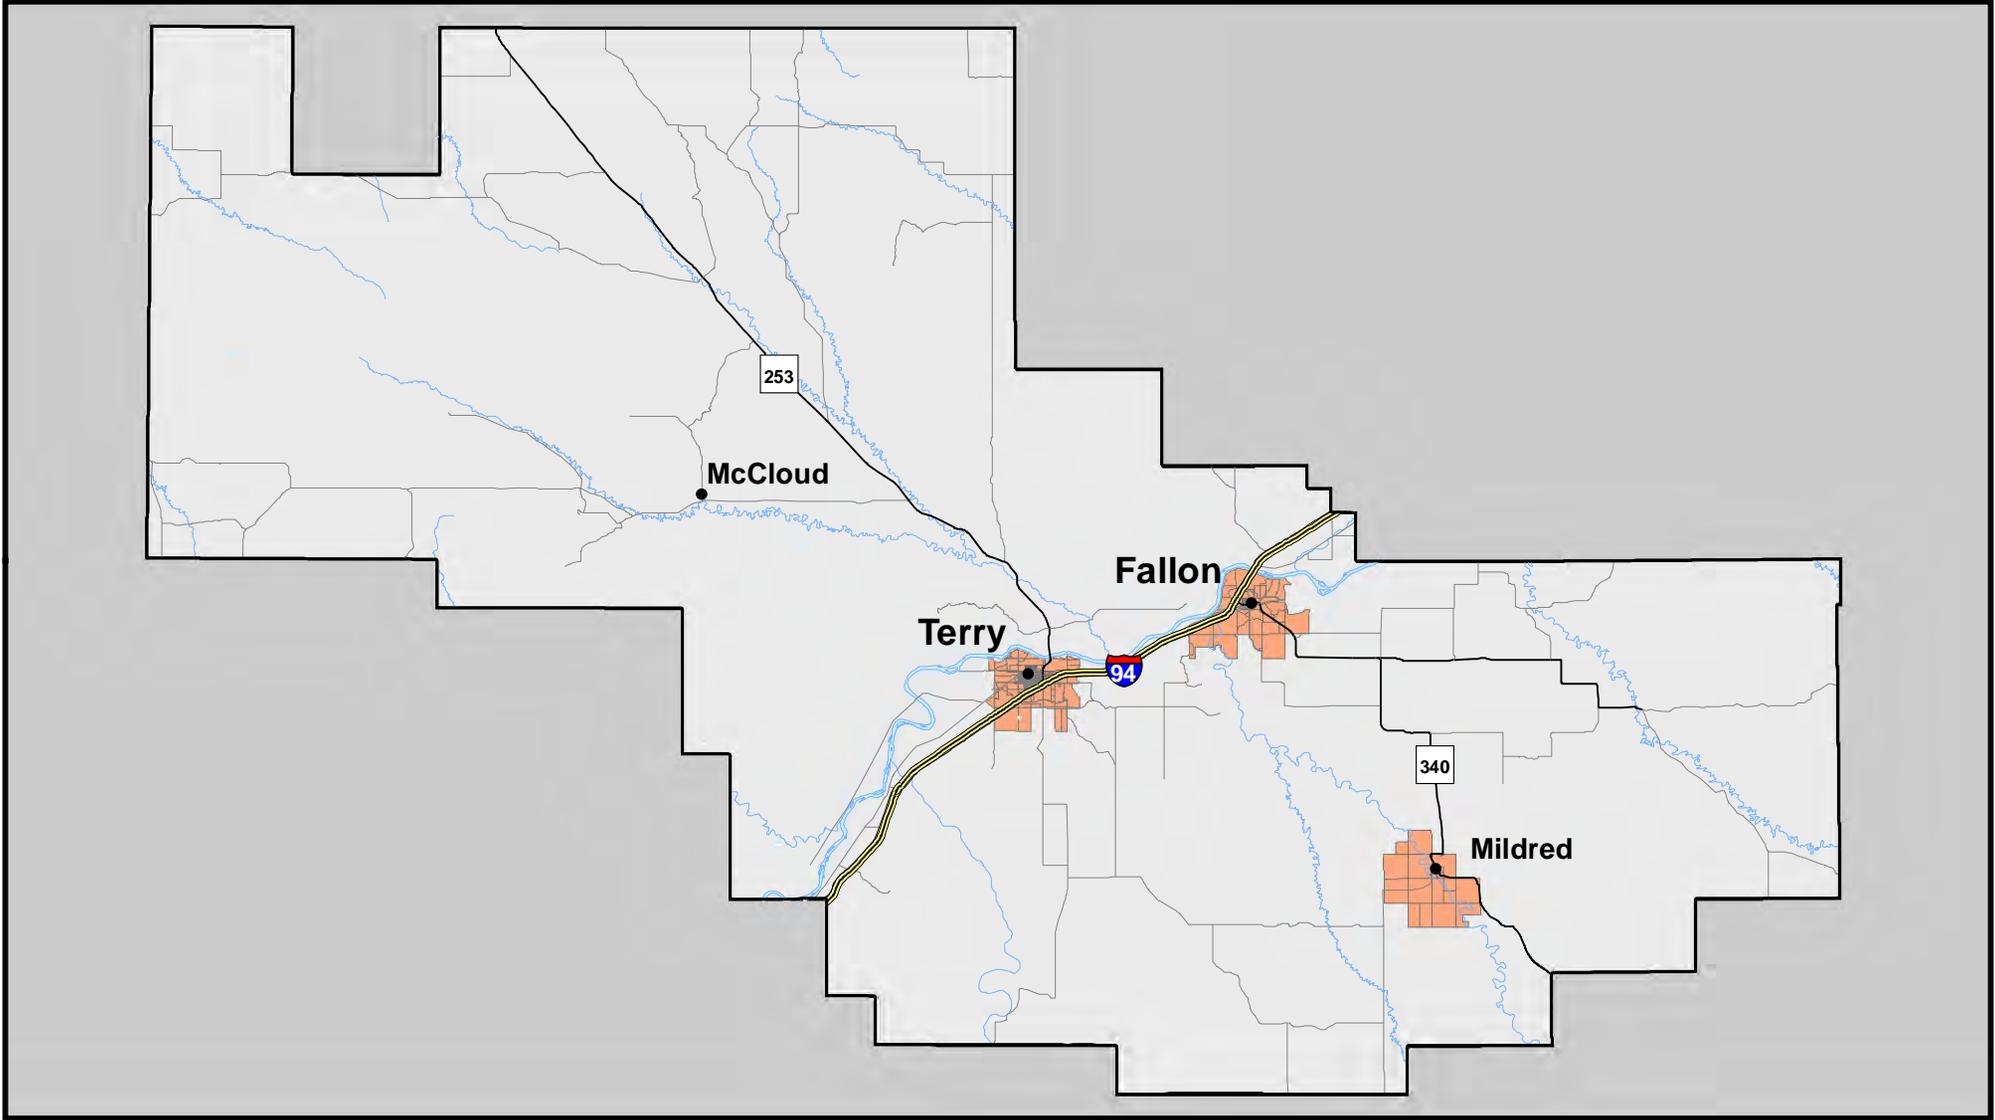

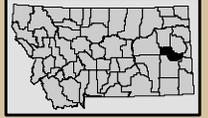

- 1 mile WUI Buffer
- 2 mile WUI Buffer
- 3 mile WUI Buffer
- 4 mile WUI Buffer

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Prairie County

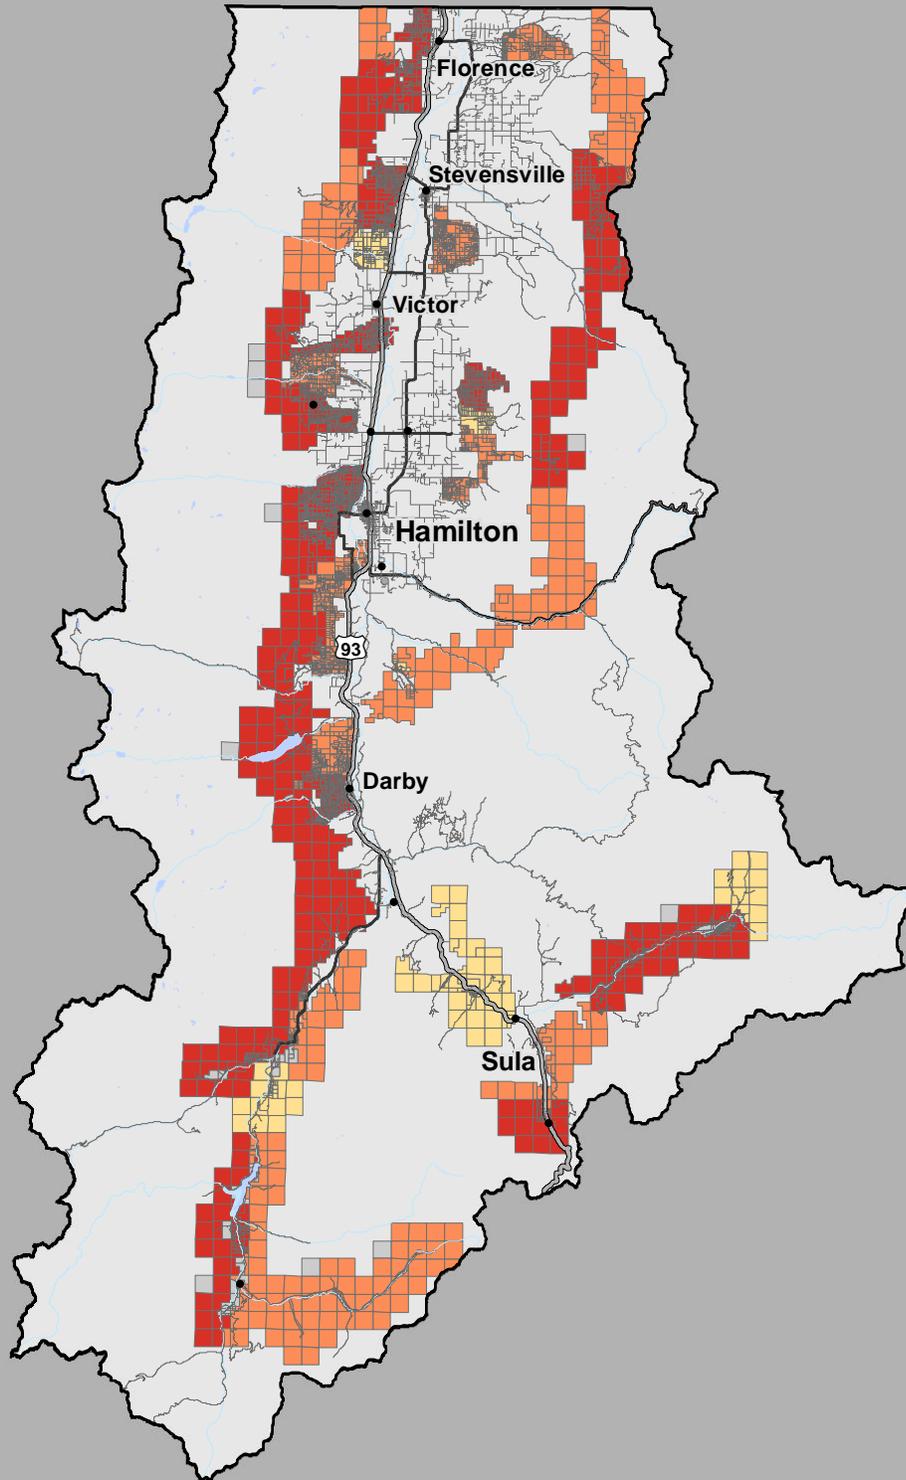

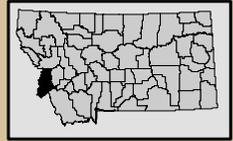

**Prairie WUI Parcels 2011**

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Ravalli County

## Ravalli WUI Parcels 2012

### WUI Priority Levels

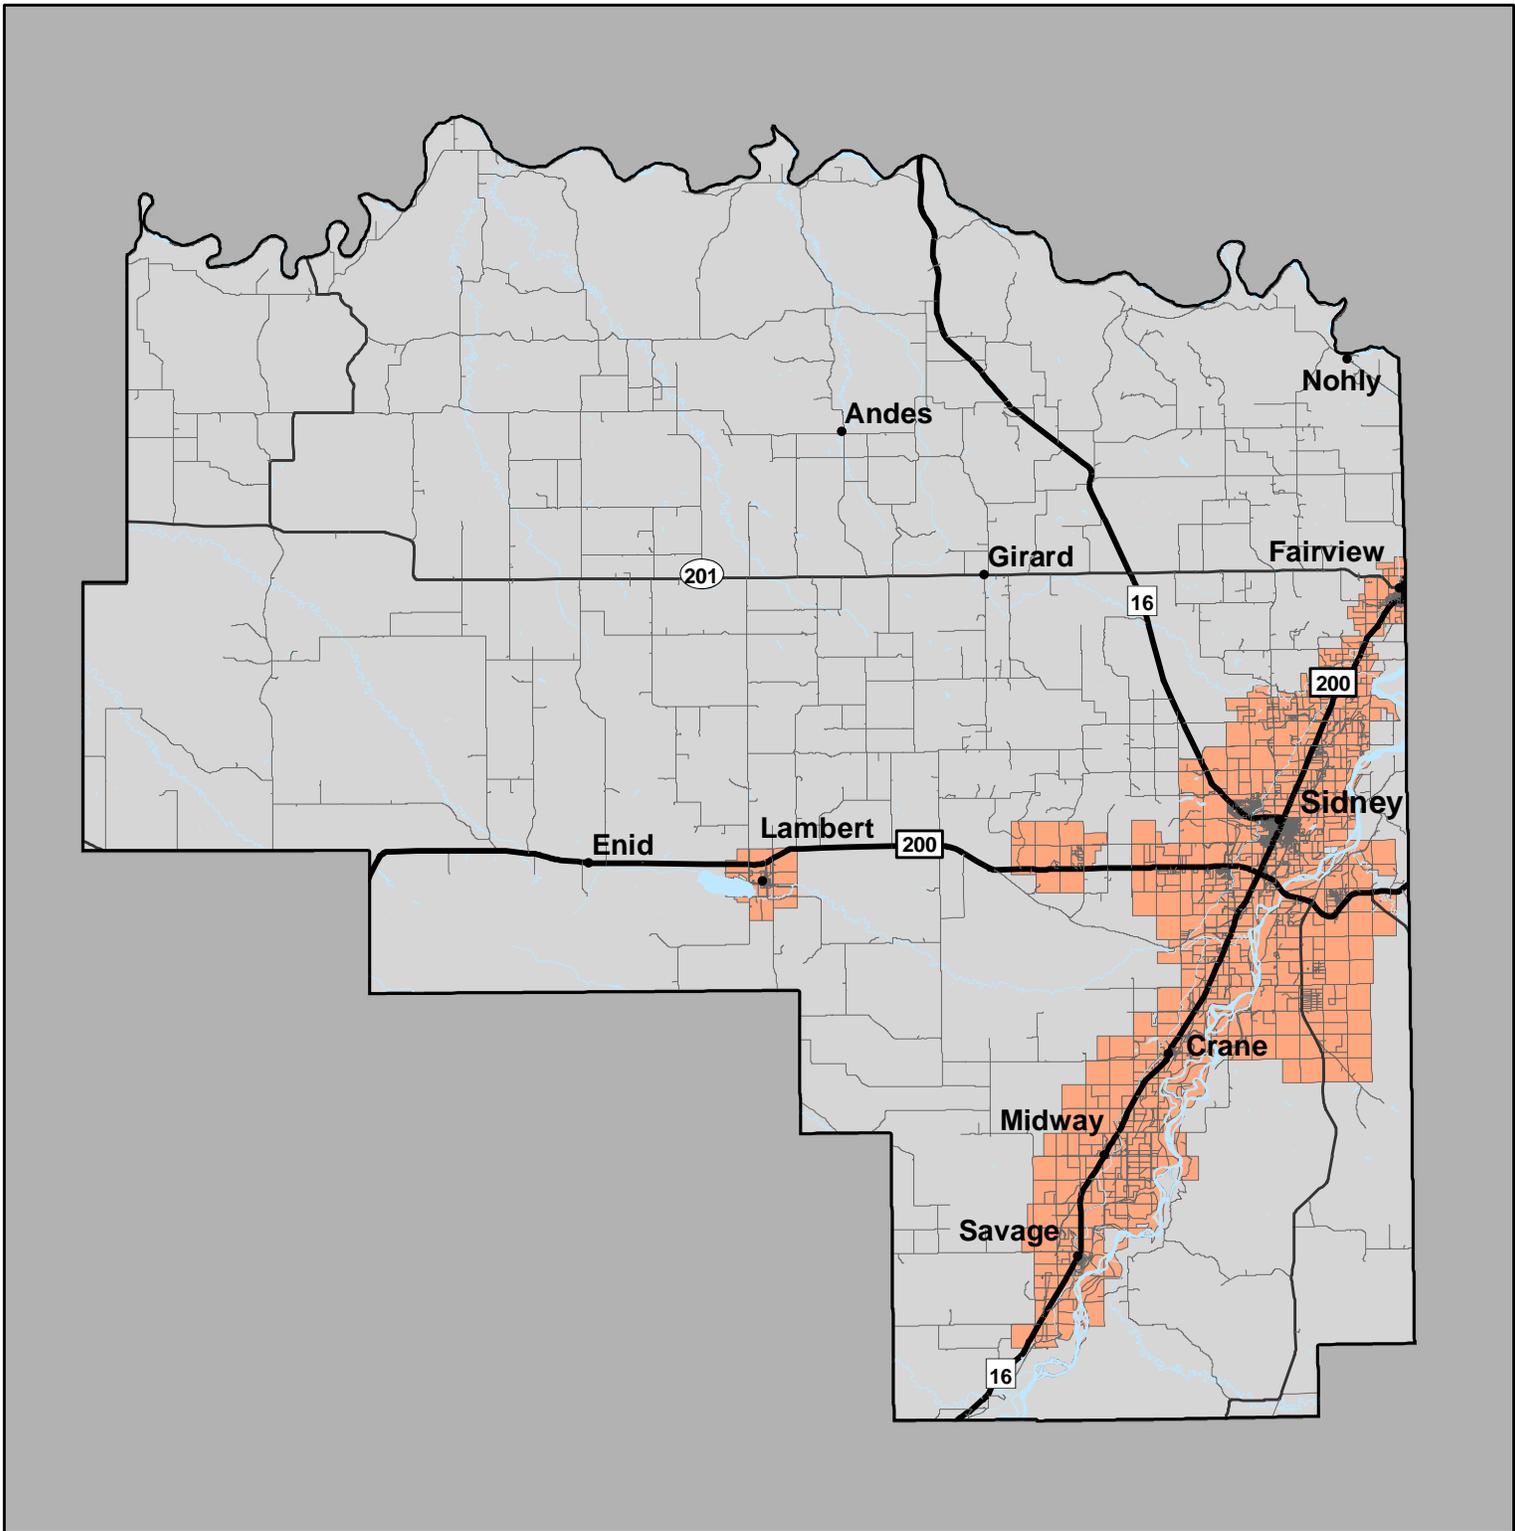

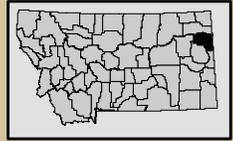

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

January 2012

# Wildland Urban Interface Parcels Richland County

 Richland WUI Parcels 2011

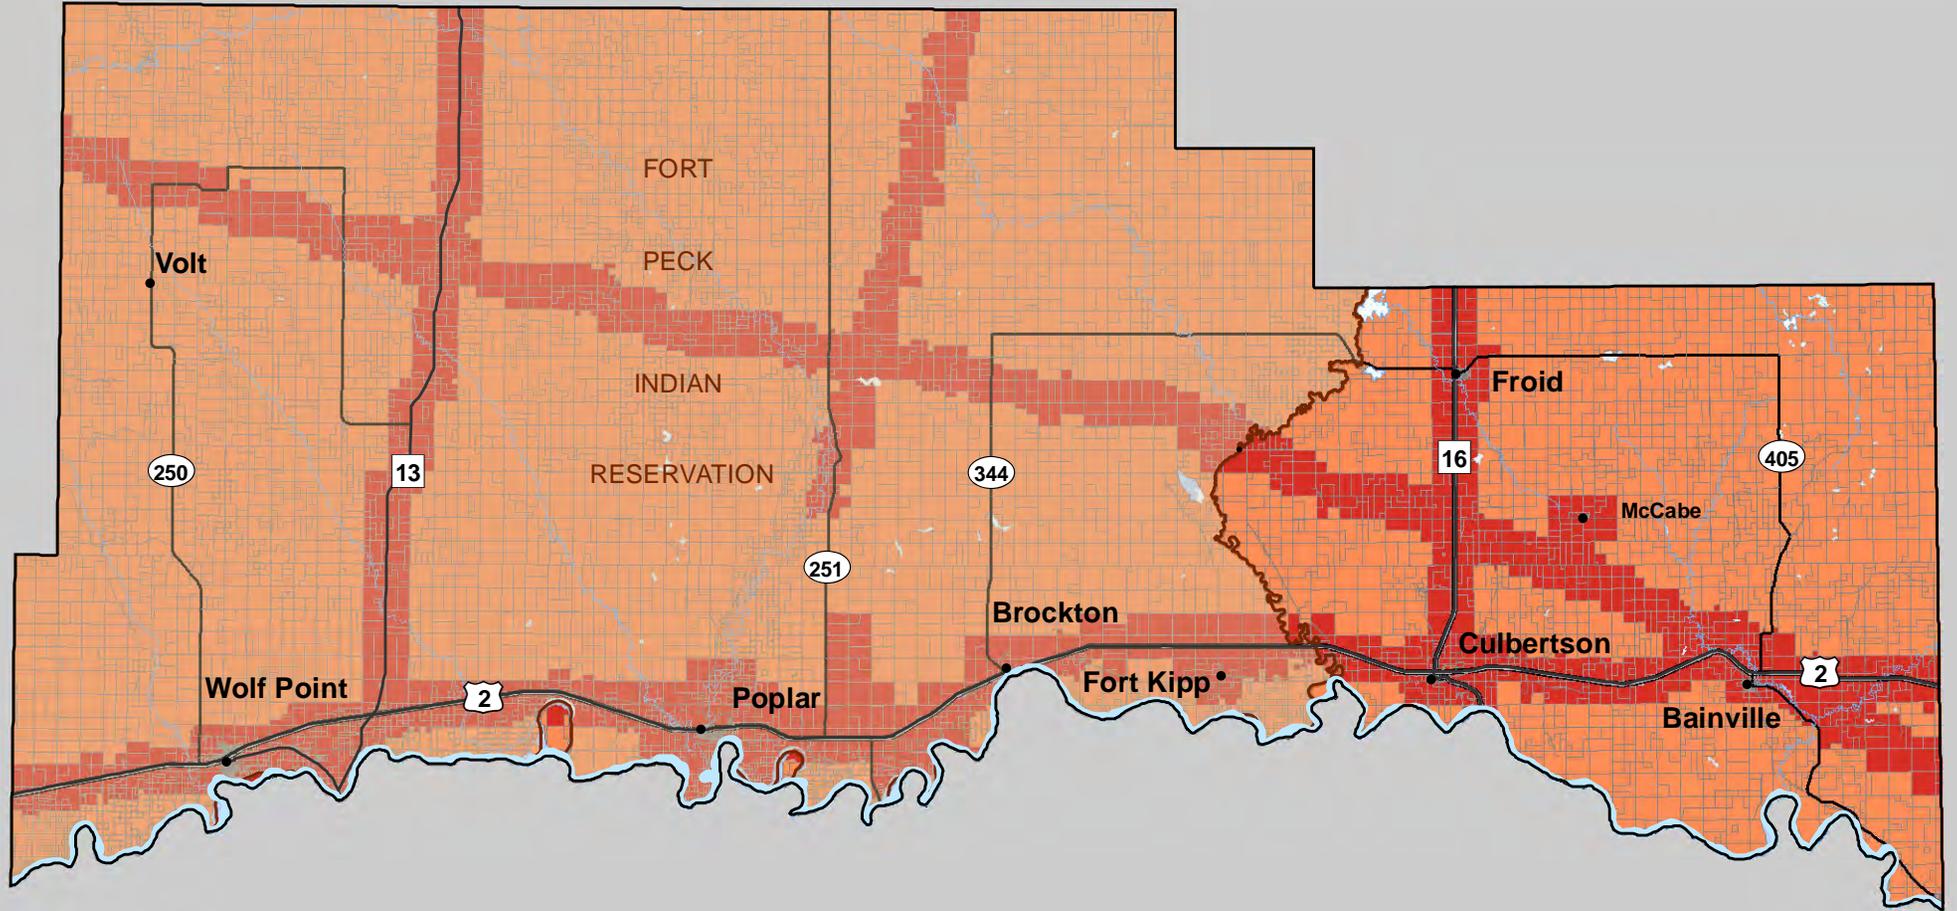

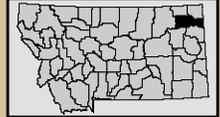

0 2.5 5 10 Miles

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Roosevelt County

## Roosevelt WUI Parcels 2011

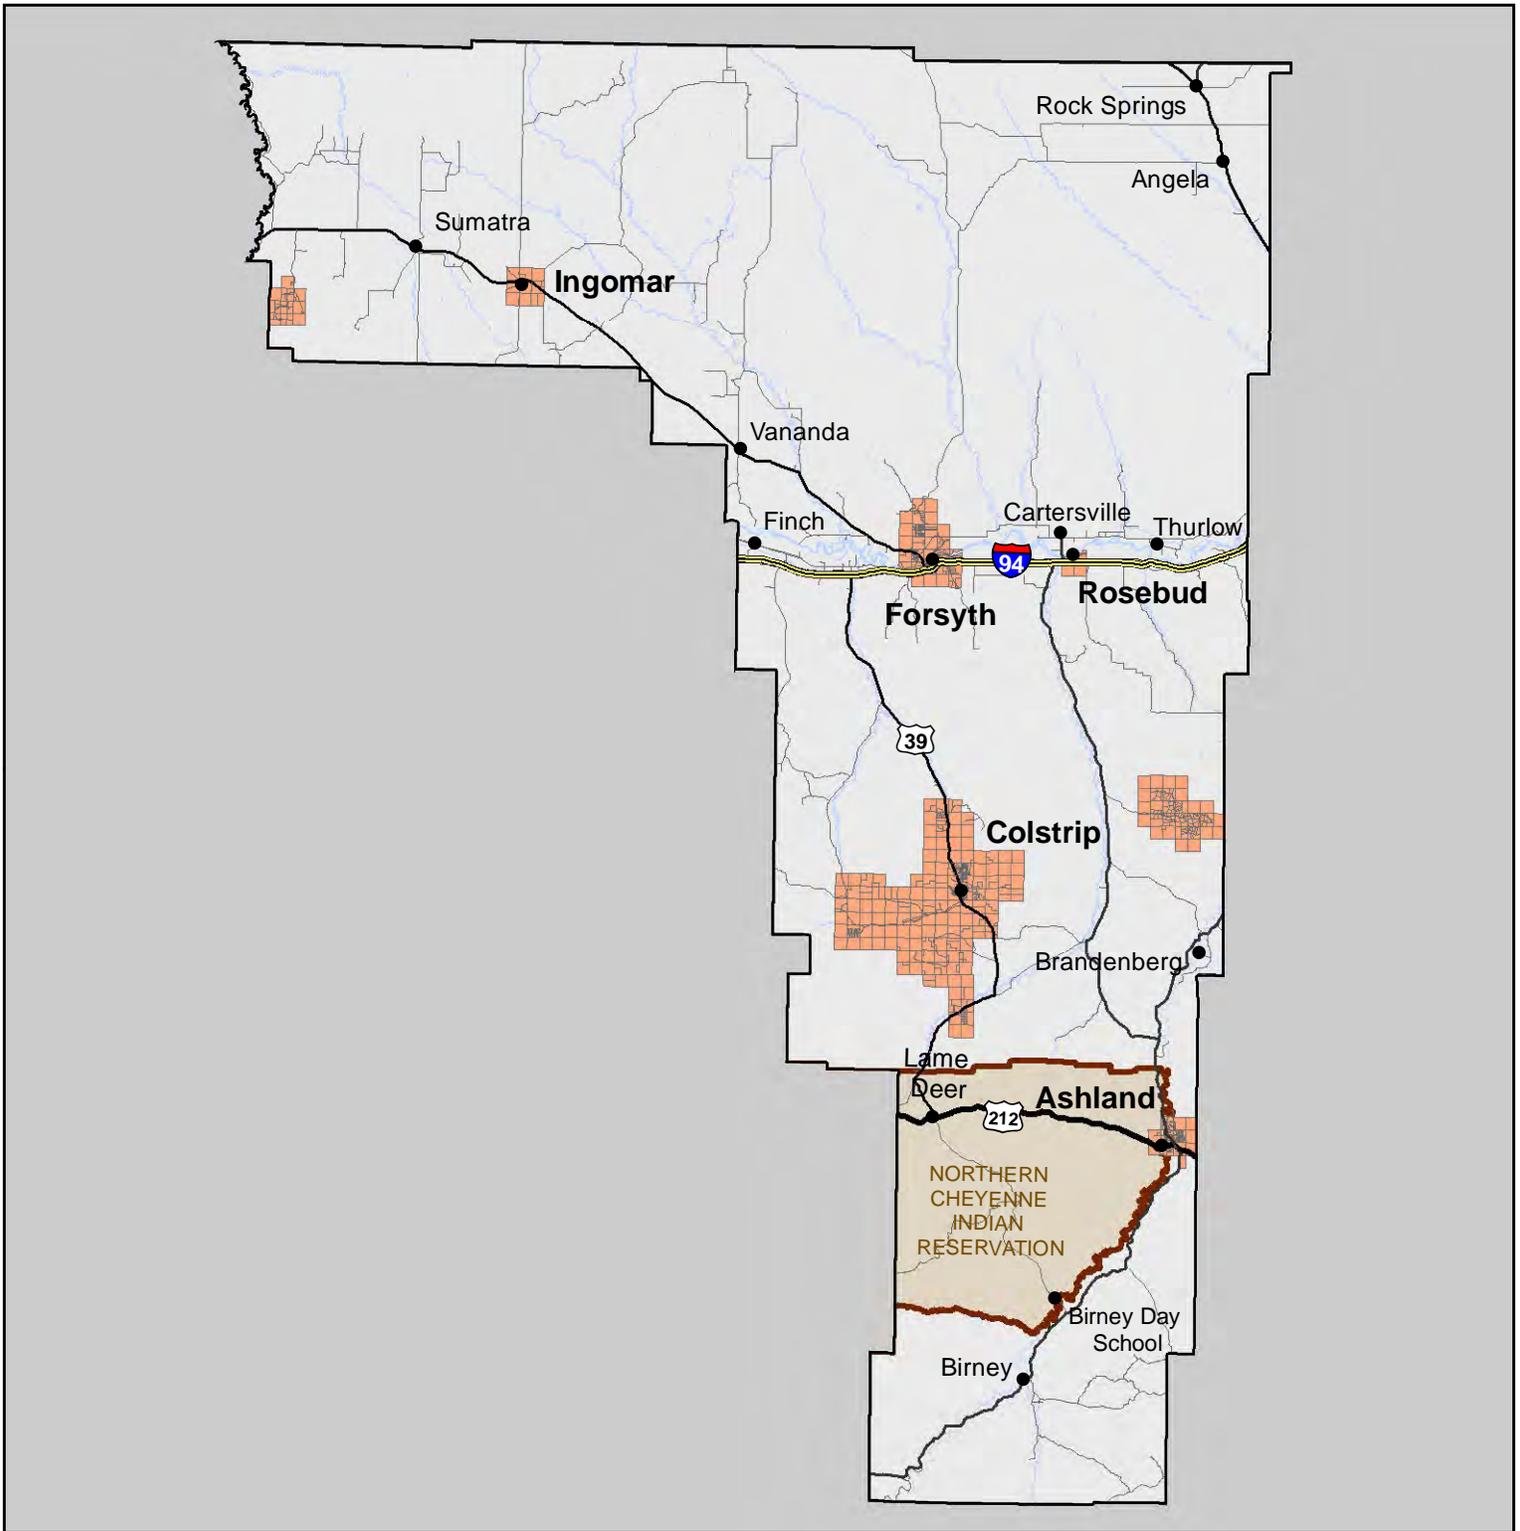

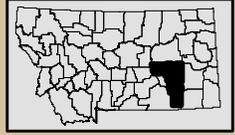

- High Risk
- Moderate Risk
- Fort Peck Indian Reservation

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Rosebud County

 Rosebud WUI Parcels 2011

 Indian Reservation

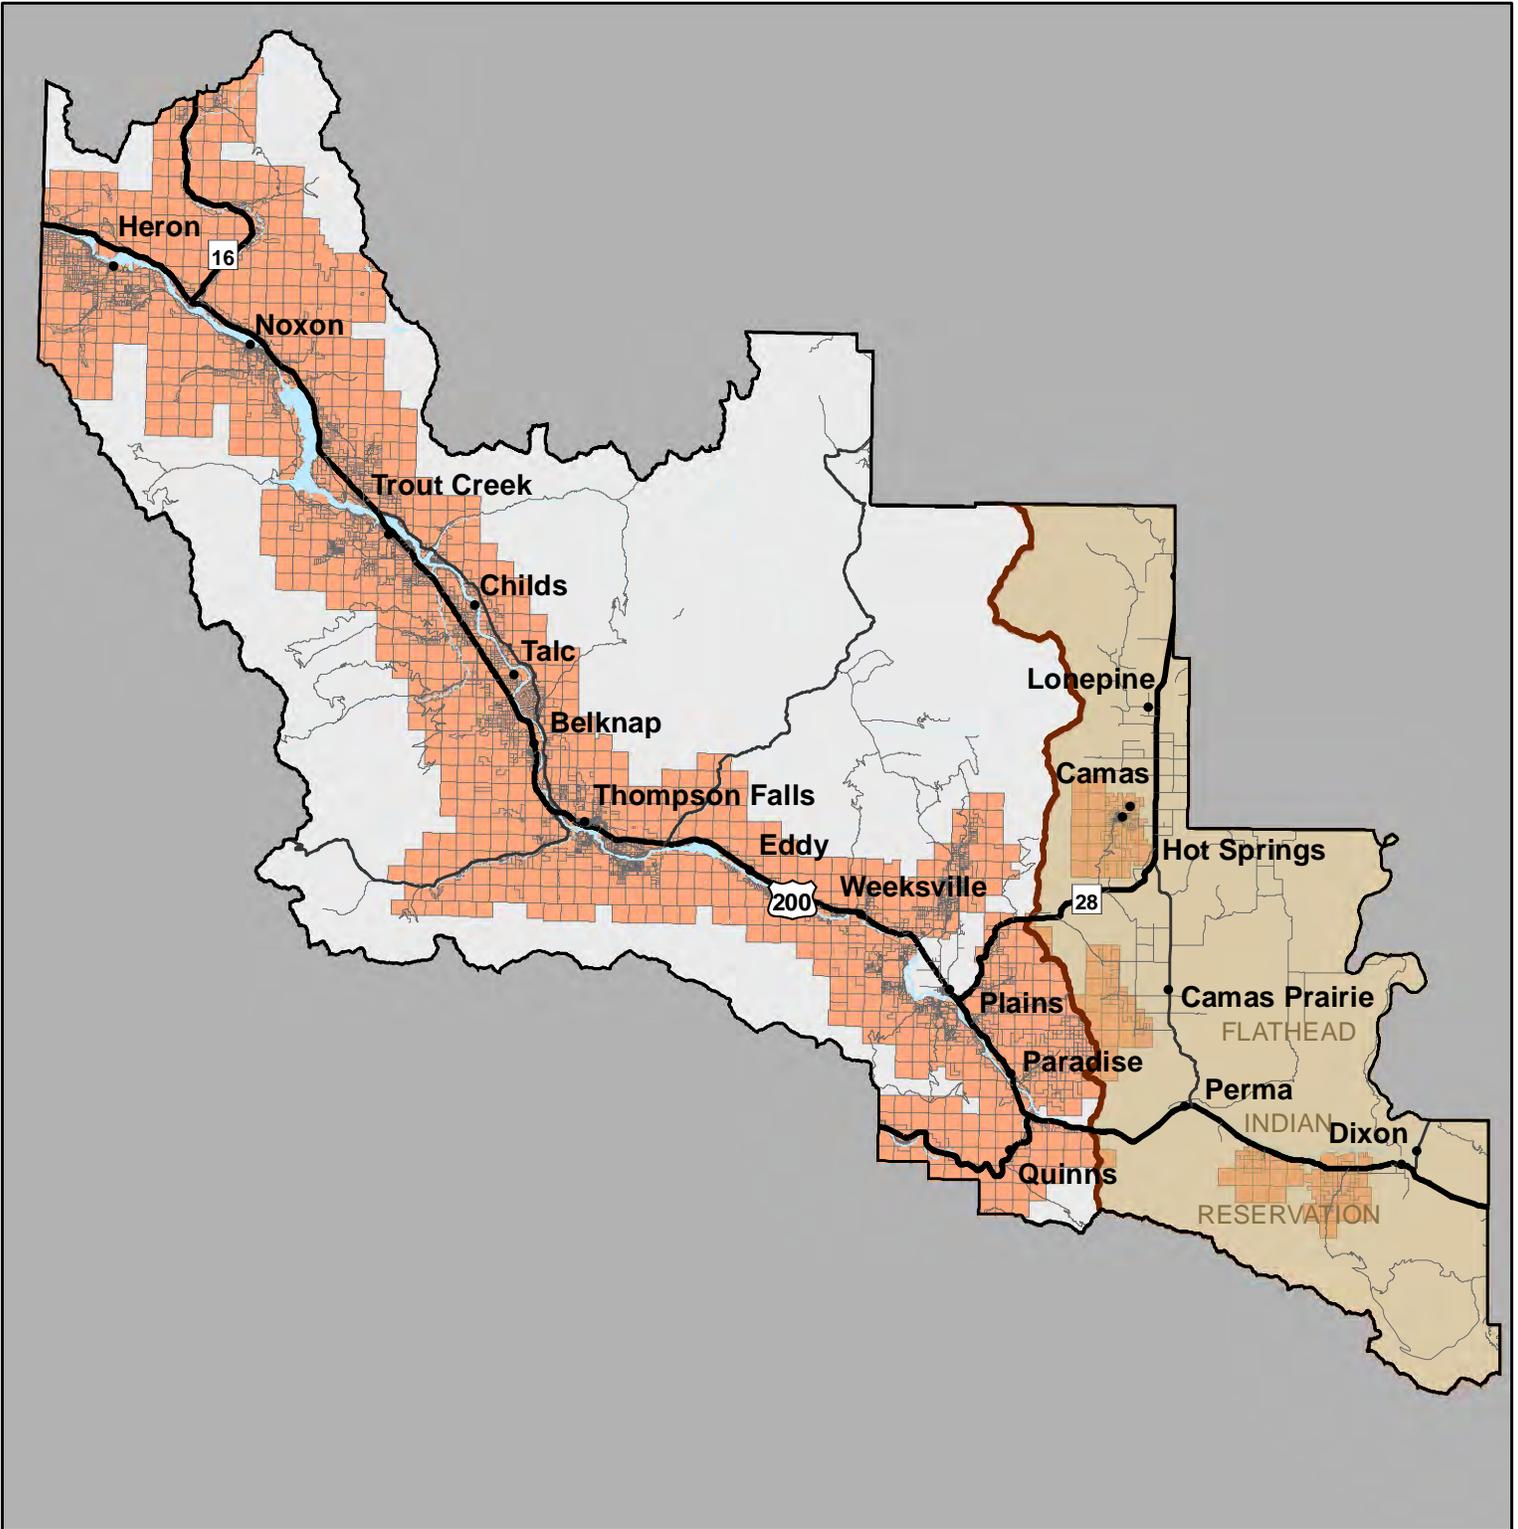

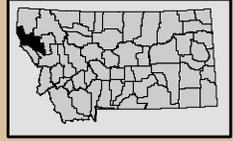

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

# Wildland Urban Interface Parcels Sanders County

 Sanders WUI Parcels 2011

 Indian Reservation

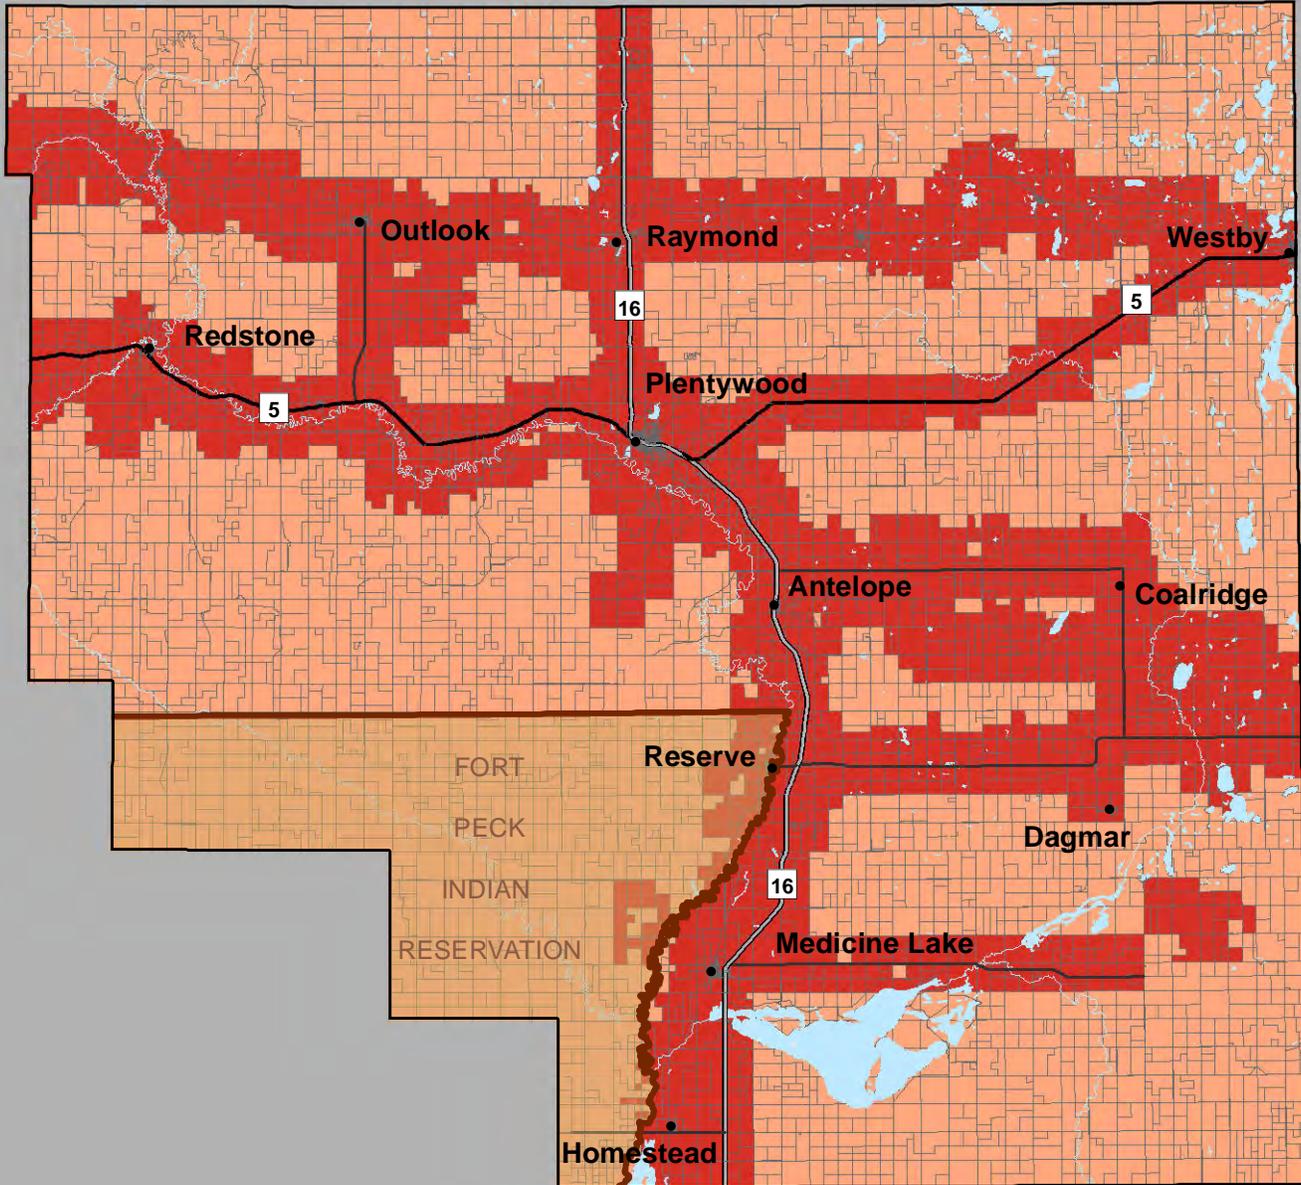

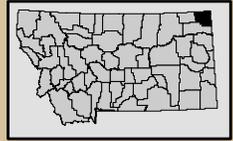

0 4 8 16 Miles

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

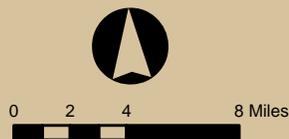

# Wildland Urban Interface Parcels Sheridan County

## Sheridan WUI Parcels 2011

- High Risk
- Moderate Risk
- Indian Reservation

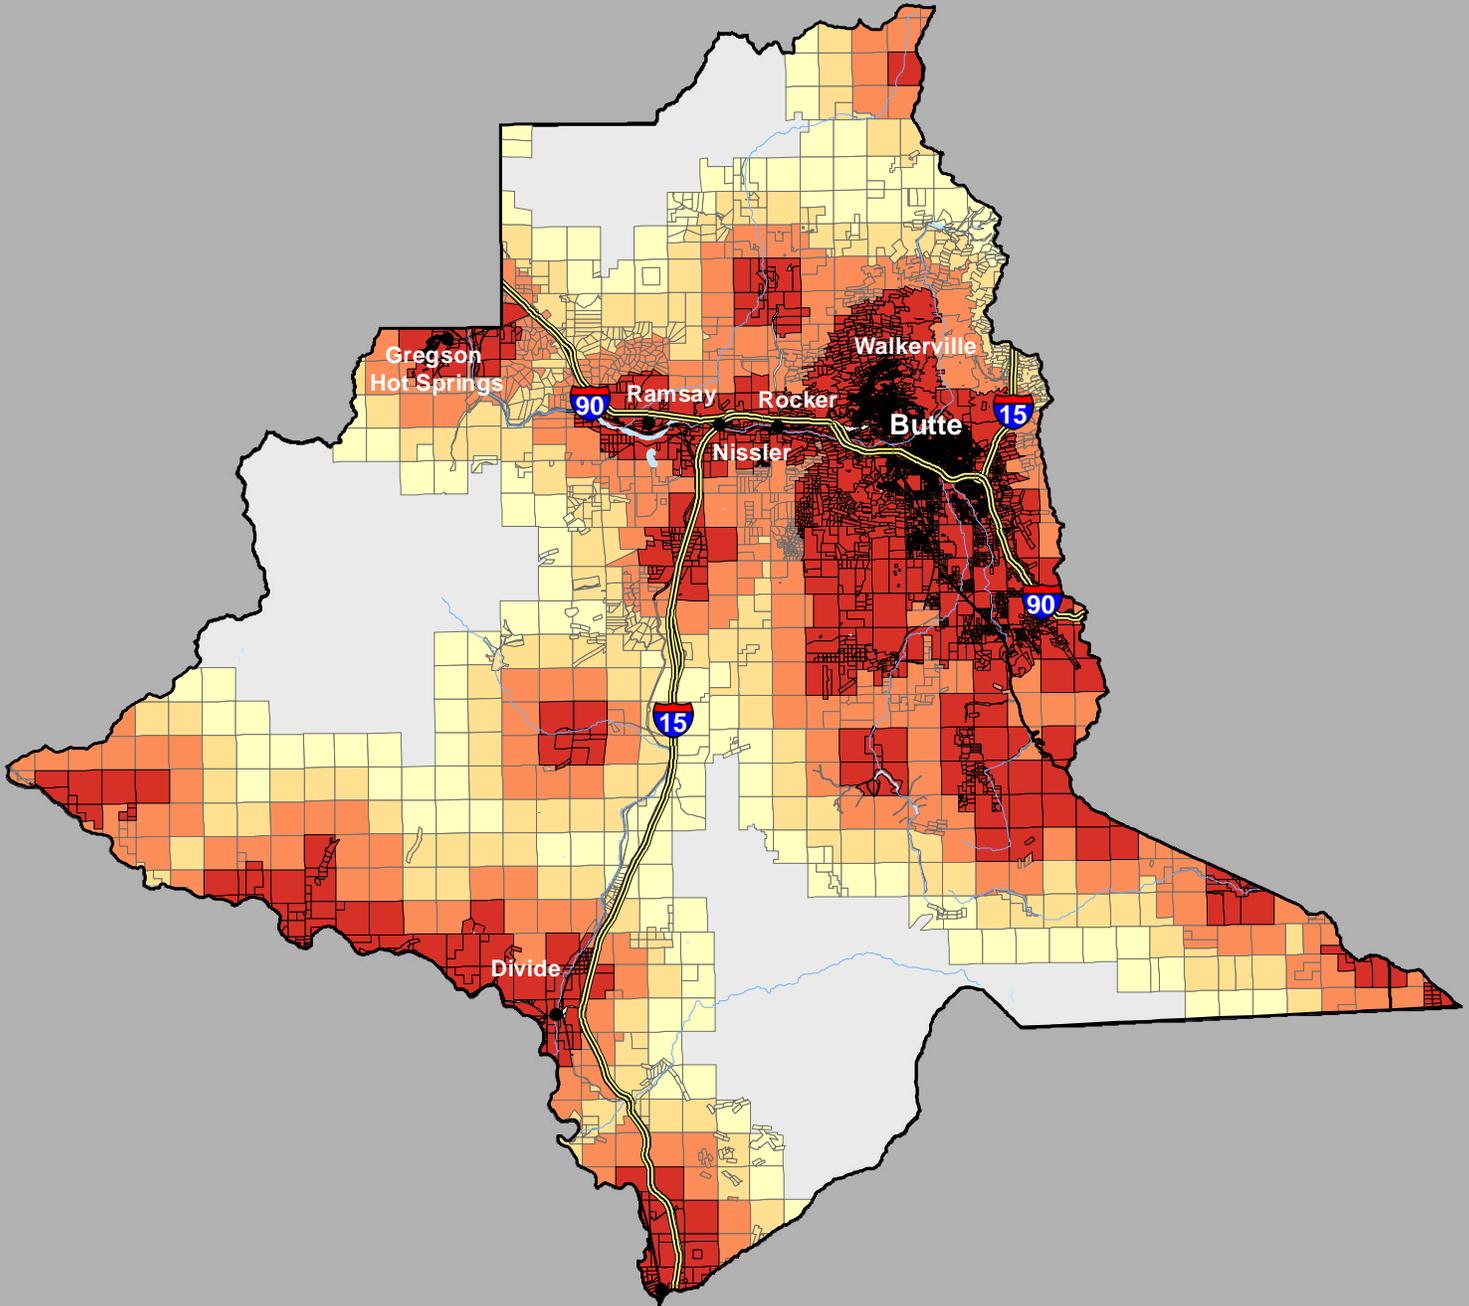

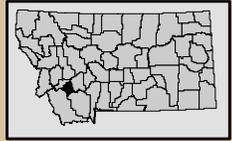

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

# Wildland Urban Interface Parcels Silver Bow County

### Silver Bow WUI Parcels 2011

- 1 mile buffer
- 2 mile buffer
- 3 mile buffer
- 4 mile buffer/ 1 mile Highway and Powerline

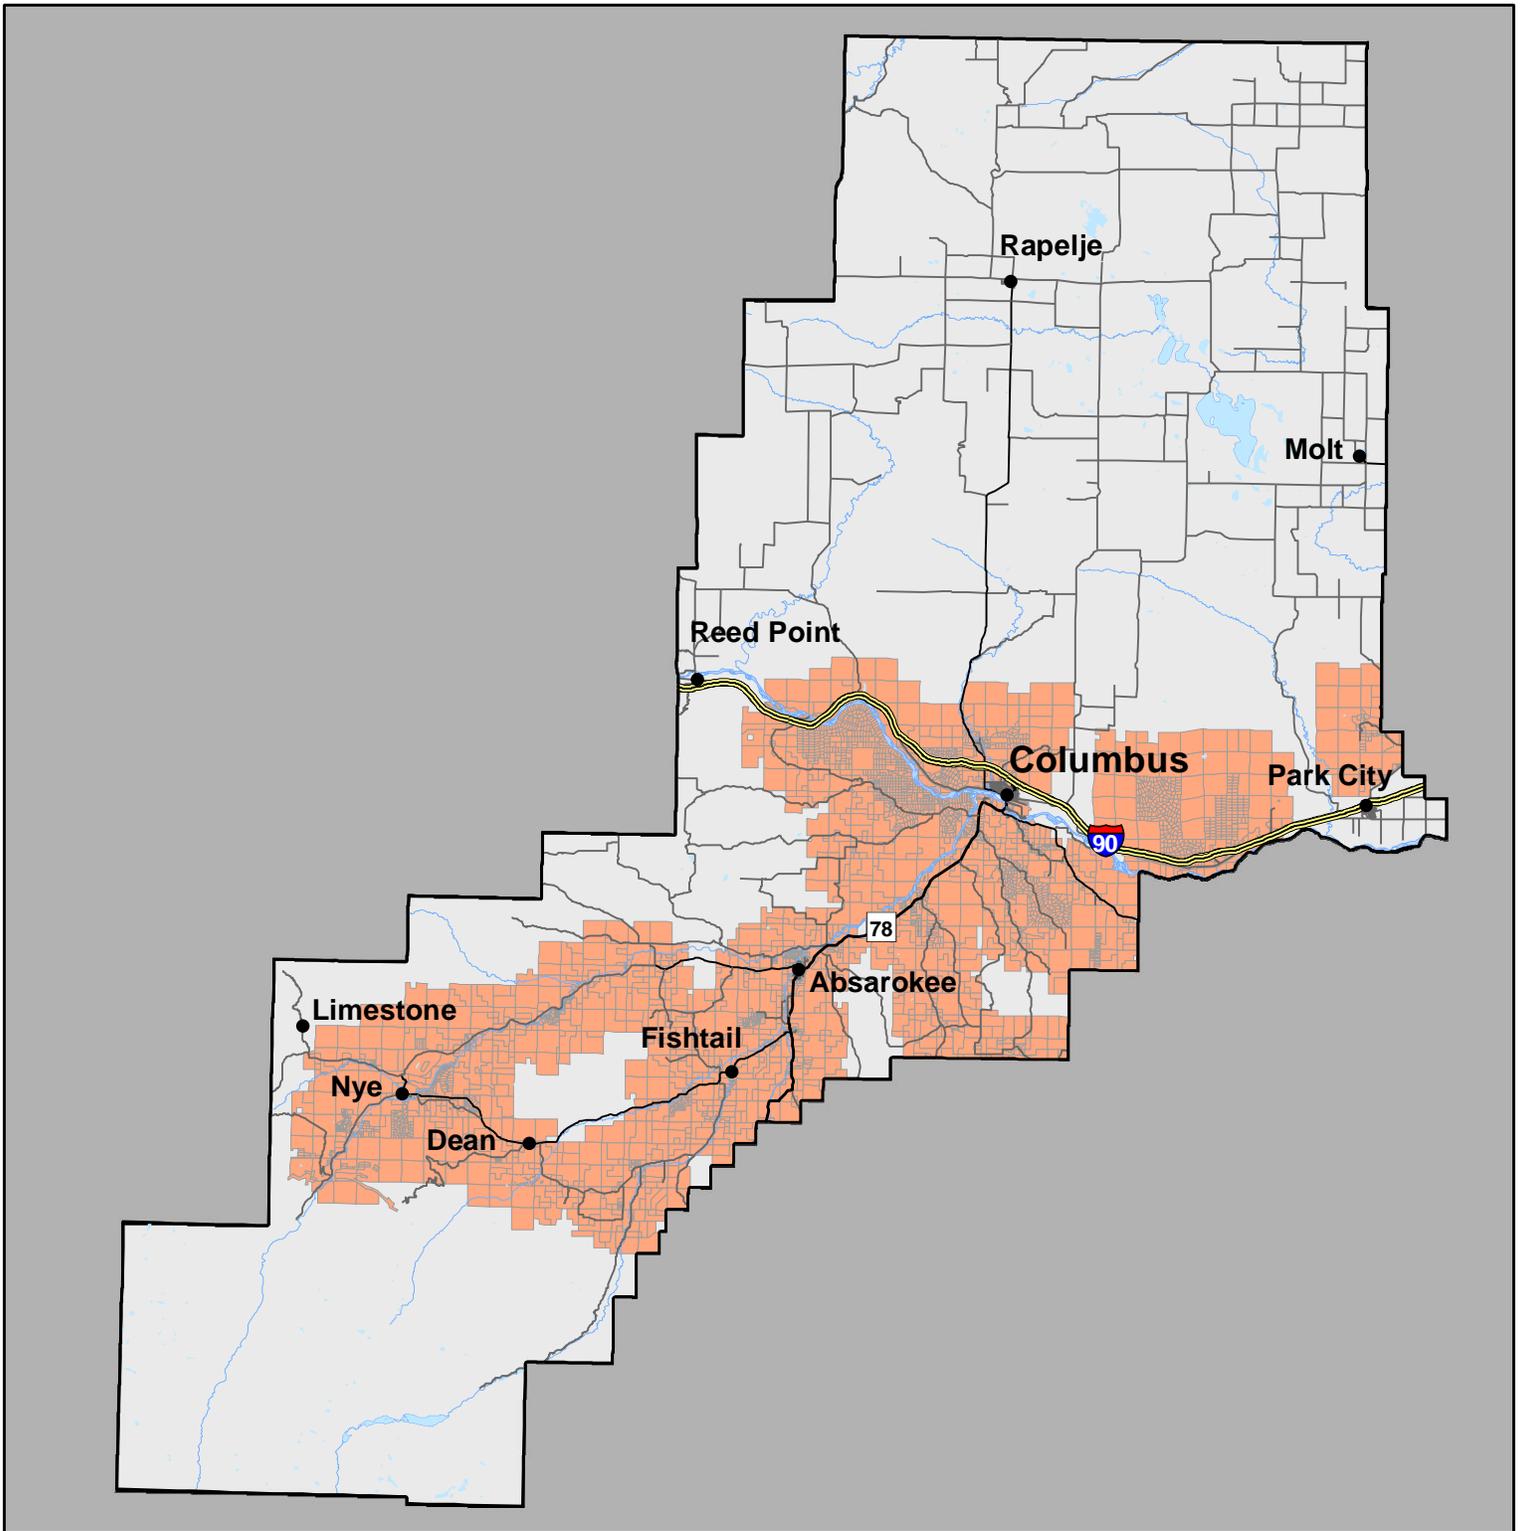

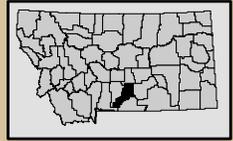

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

# Wildland Urban Interface Parcels Stillwater County

 Stillwater WUI Parcels 2011

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Sweet Grass County

 Sweet Grass WUI Parcels 2011

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in county WUI representations that are inconsistent at the state level. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by 2009 S. B. 131 to identify wildland urban interface parcels using CWPP WUIs.

# Wildland Urban Interface Parcels Teton County

 Teton WUI Parcels 2011

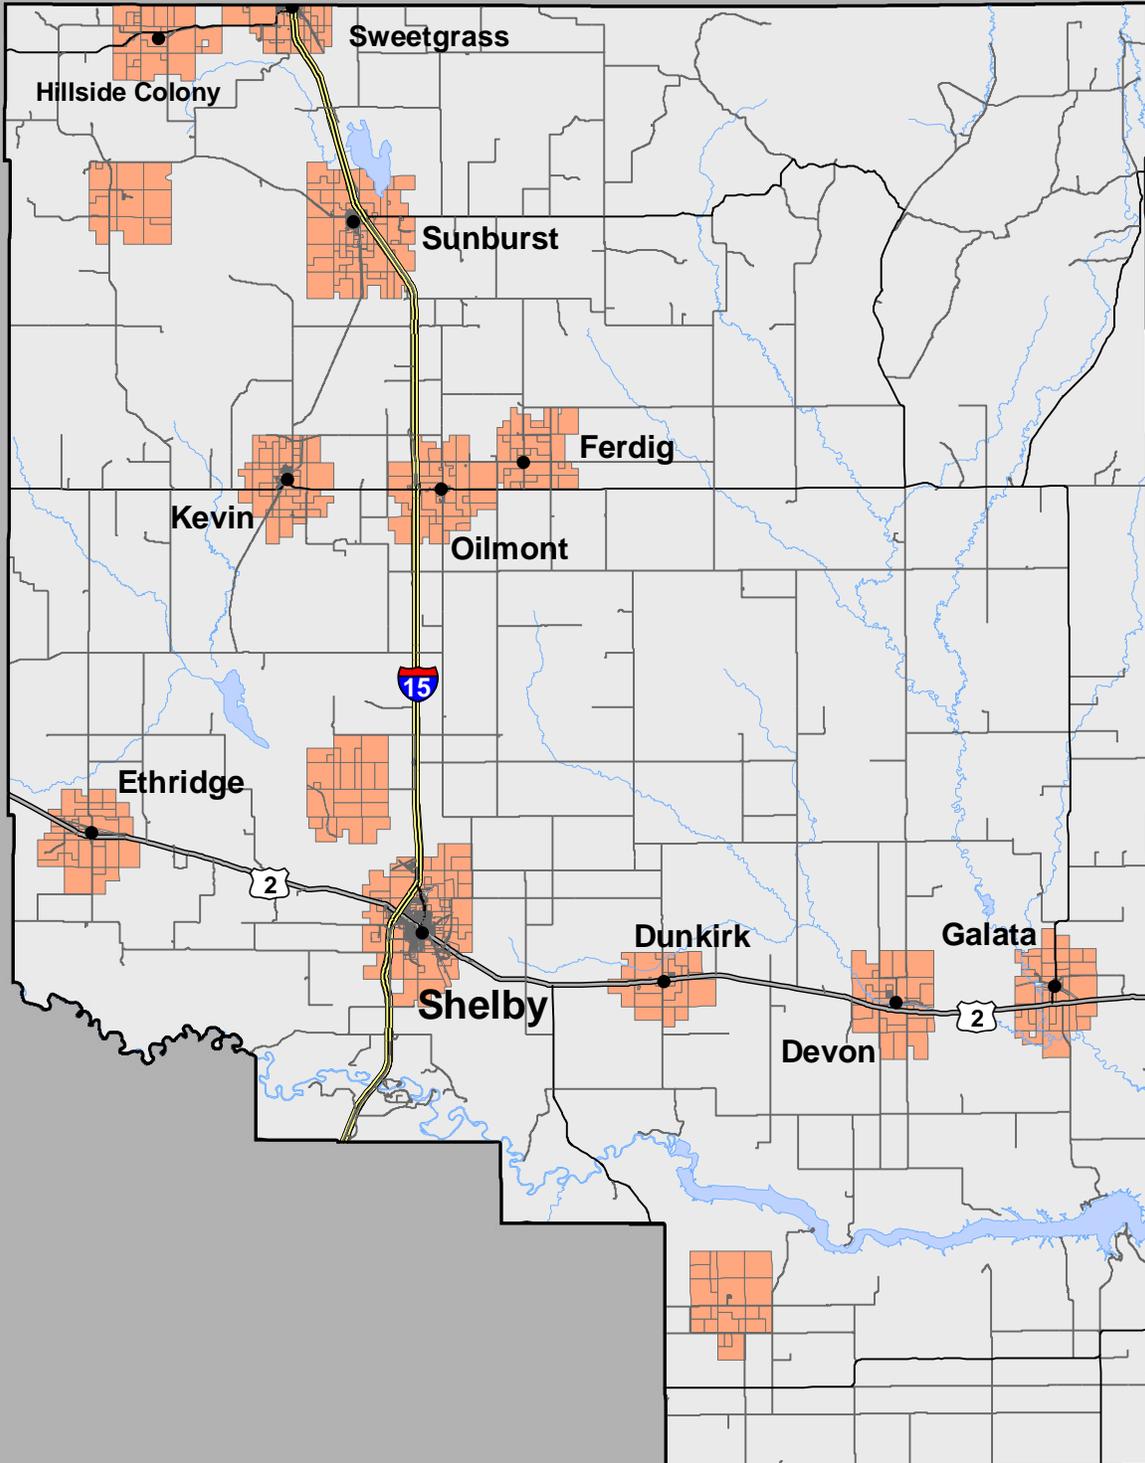

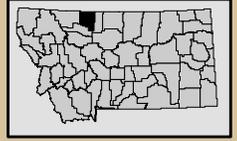

0 3 6 12 Miles

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Toole County

 Toole WUI Parcels 2011

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Treasure County

## Treasure WUI Parcels 2011

- Highest Hazard WUI
- High Hazard WUI
- Moderate Hazard WUI
- Low Hazard WUI

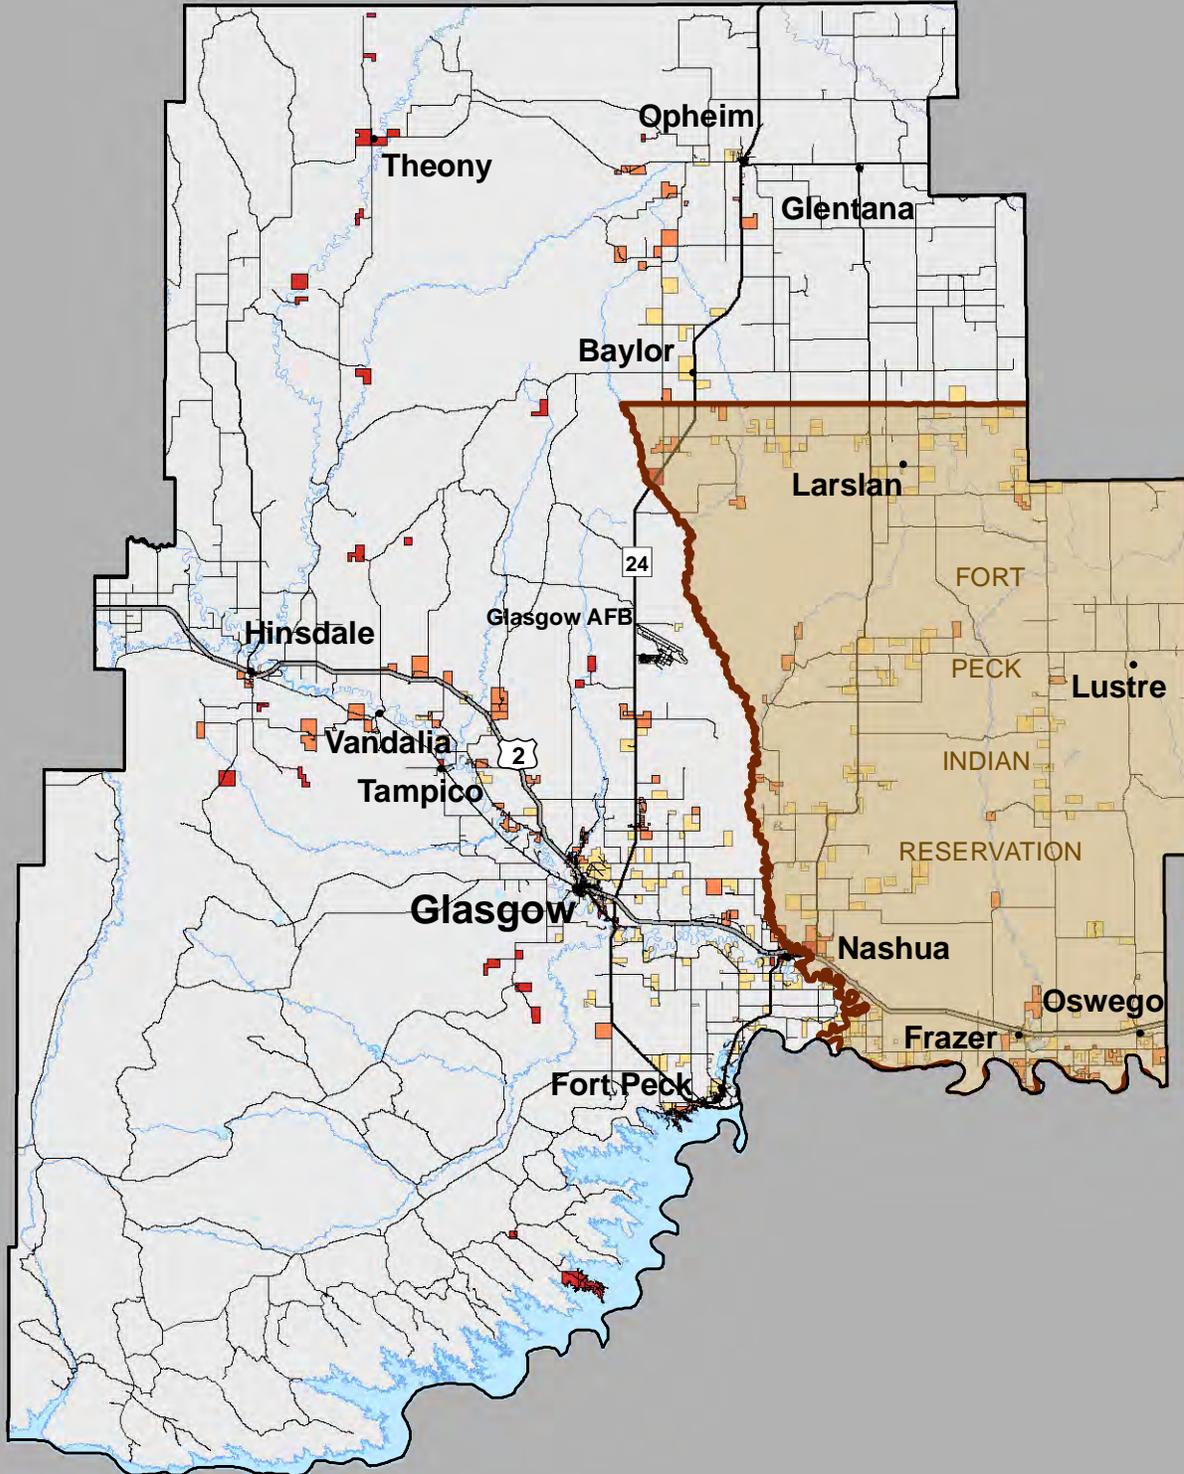

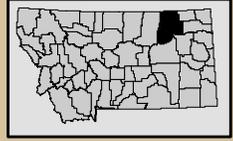

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

# Wildland Urban Interface Parcels Valley County

## Valley WUI Parcels 2011

- High Hazard (Vegetation, Pines Area, Railroad)
- Moderate Hazard
- Low Hazard
- Indian Reservation

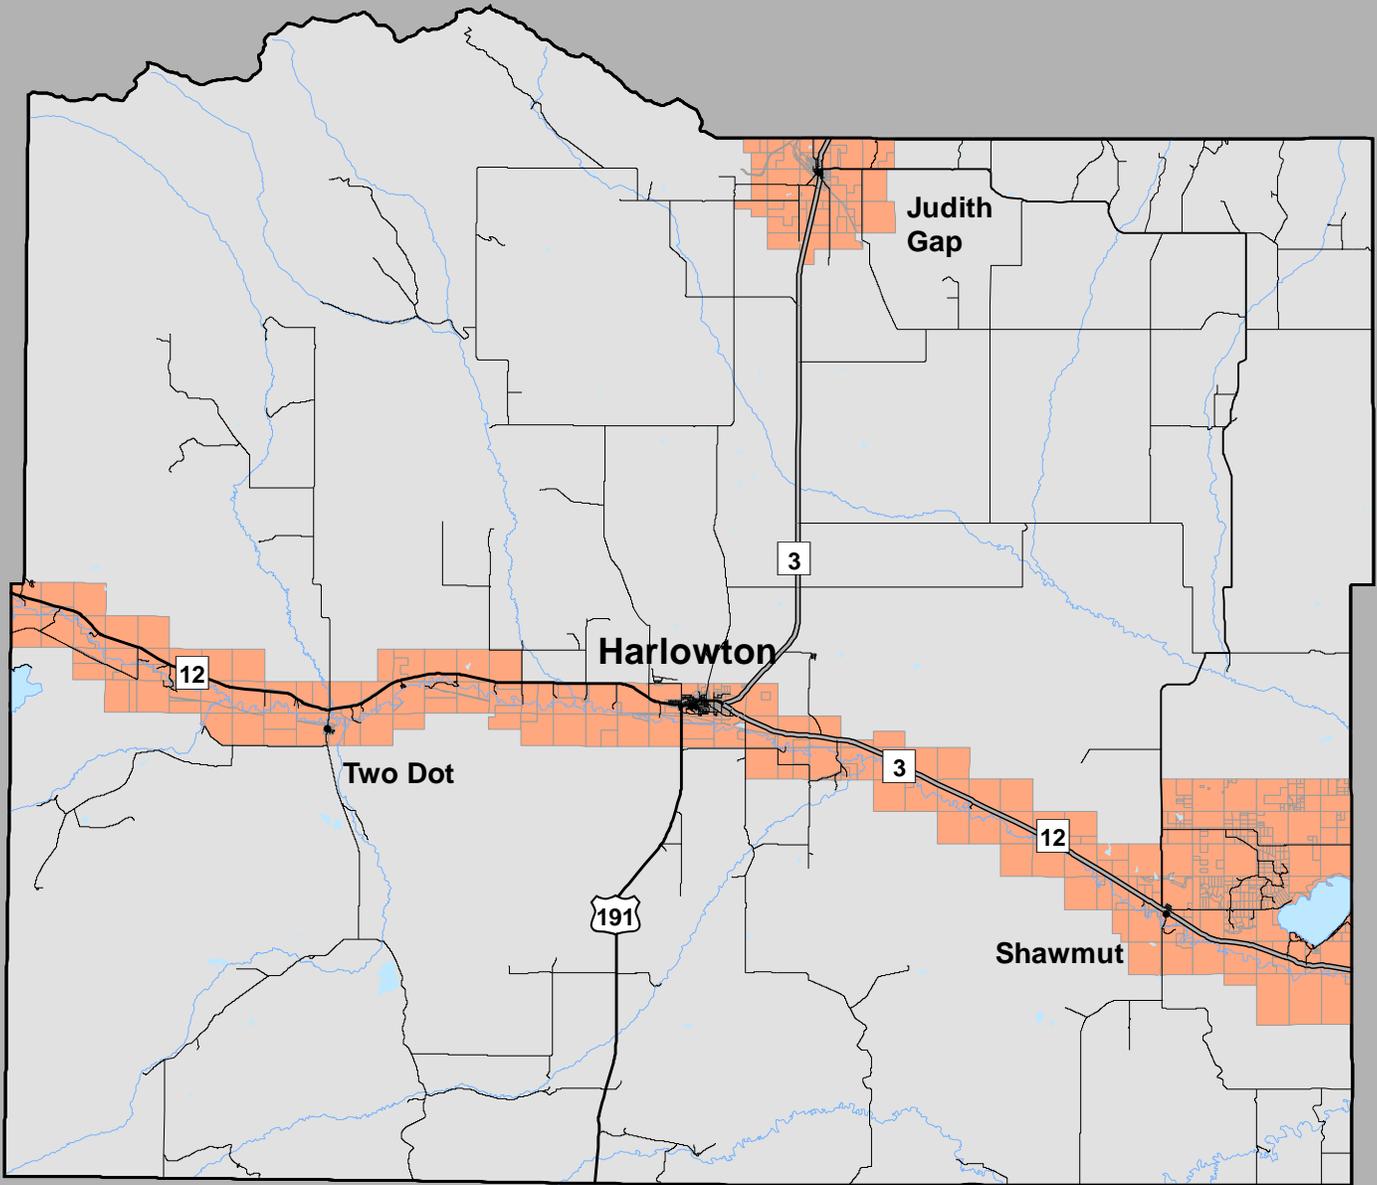

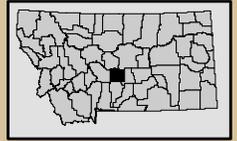

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

December 2011

# Wildland Urban Interface Parcels Wheatland County

 Wheatland WUI Parcels 2011

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

# Wildland Urban Interface Parcels Wibaux County

 Wibaux WUI Parcels 2011

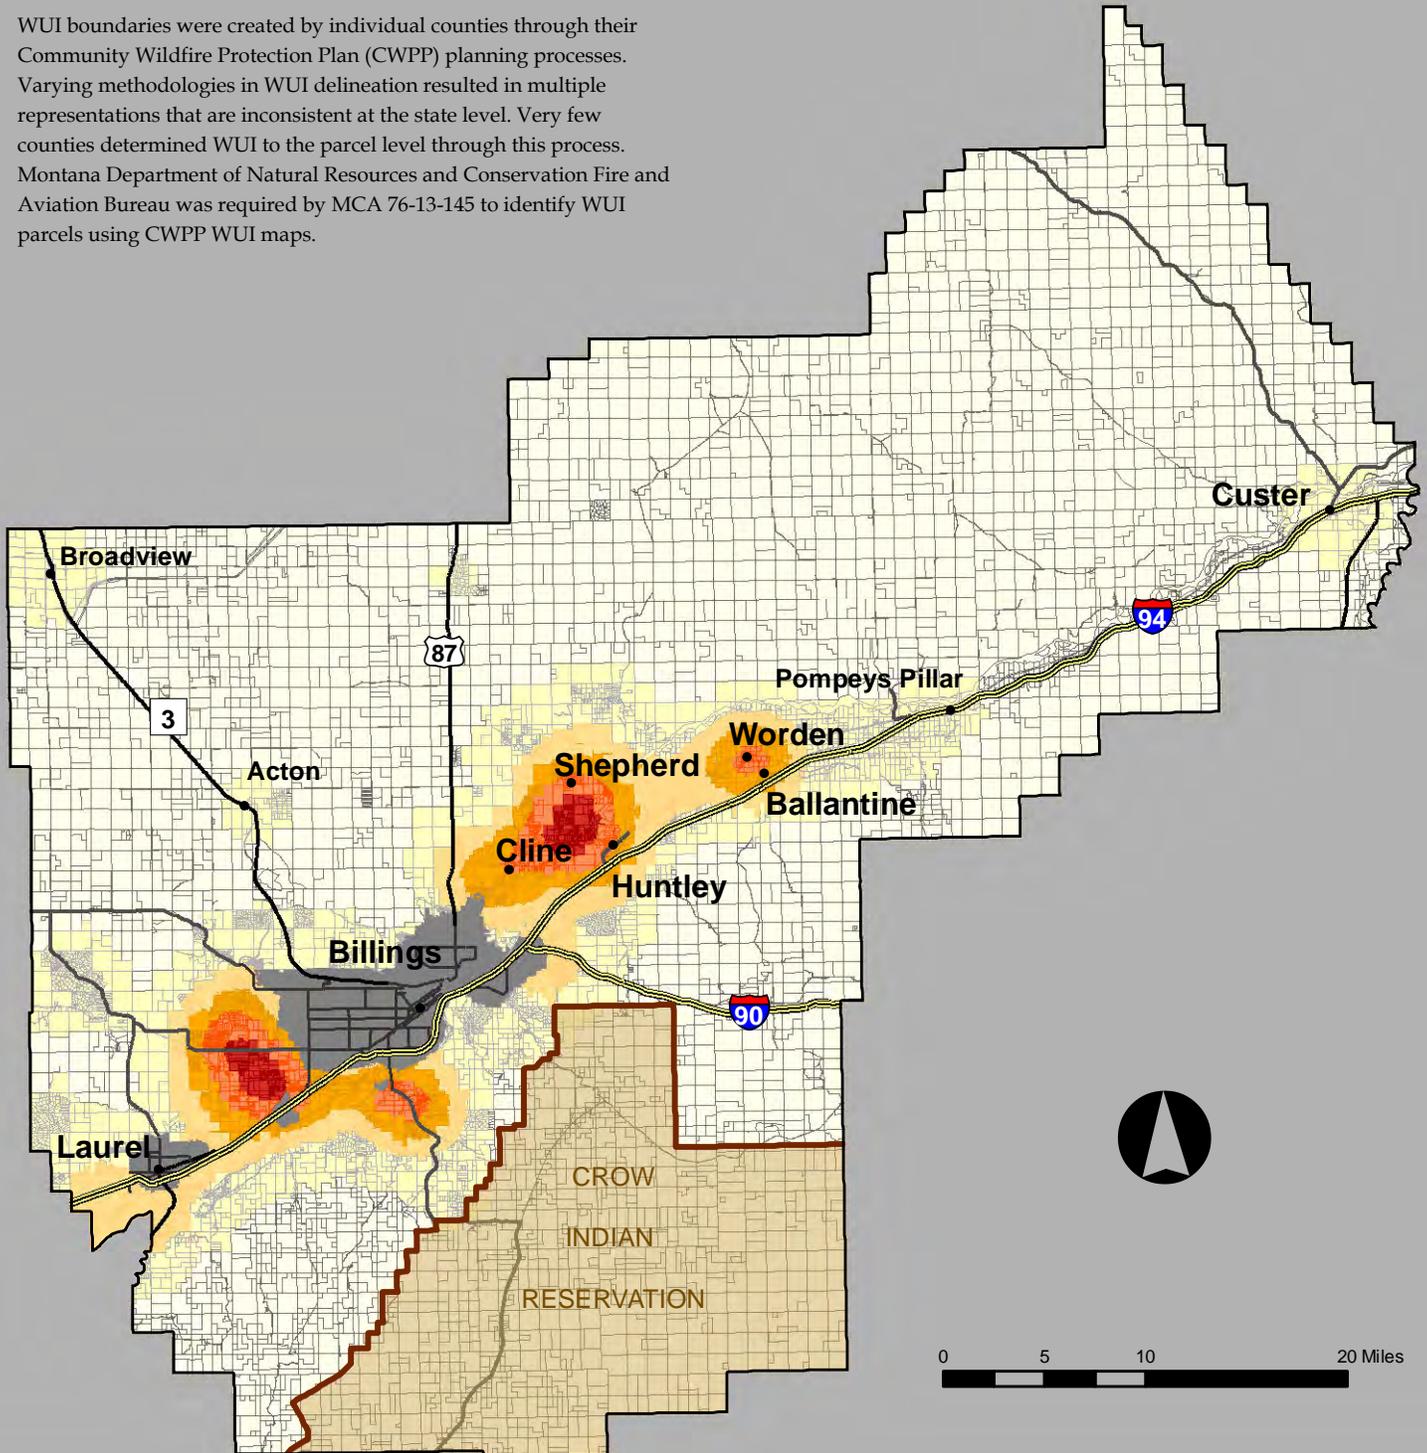

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in county WUI representations that are inconsistent at the state level. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by 2009 S. B. 131 to identify wildland urban interface parcels using CWPP WUIs.

# Wildland Urban Interface Parcels Yellowstone County

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in multiple representations that are inconsistent at the state level. Very few counties determined WUI to the parcel level through this process. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by MCA 76-13-145 to identify WUI parcels using CWPP WUI maps.

## Yellowstone WUI Parcels 2011

- High Interface Density
- Moderate-High Interface Density
- Moderate Interface Density
- Low-Moderate Interface Density
- Low Intermix Density
- Rural WUI
- Urban Density-Not WUI
- Indian Reservation
