

MEPA Database on the Internet
<http://www.leg.state.mt.us/css/lepo/mepa/mepa.asp>

Summary Reports

See Online **Help** for description of what each report will show.

What: This report will summarize how many and what type of MEPA documents were prepared within a selected time period.

Exercise: How many of what type of MEPA documents were prepared by each state agency during the year 2000?

How: Simply enter the dates and hit Create Report.

Detailed Reports

What: This report will provide, within a selected time period, a list of the MEPA documents that were prepared selected by project type, document type, agency, and/or county location.

Exercise #1: What MEPA documents were prepared on water right permit applications in Judith Basin County in the year 2000?

How: Enter the dates, select Water Rights from the Project drop-down menu and select Judith Basin from Location drop-down menu, hit Create Report.

Exercise #2: What MEPA documents did the Dept of Fish, Wildlife, and Parks prepare for projects in Sanders County in the year 2000?

How: Enter the dates, select Fish, Wildlife, and Parks from the Agency drop-down menu and select Sanders County from the Location drop down menu, hit Create Report.

Advanced Detailed Report

What: Similar to the Detailed Report above, this report allows the selection of more than one item from any drop down menu. This can be useful when other searches don't produce any suspected results or when multiple items within each drop-down category are searched. Follow the instructions in the online **Help** to learn the keystrokes for selecting options (control/shift).

Exercise #1: How many/what MEPA documents were produced in the year 2000 for fishpond transplants in Gallatin and Madison Counties?

How: Enter dates, select Species Introduction under the Project drop-down menu and Gallatin and Madison under the Location drop-down menu, hit Create Report.

Exercise #2: What environmental impact statements were prepared for timber or timber salvage sales and on mining permits and operations in the year 2000?

How: Enter dates, select Timber Salvage or Sale and Mining Permits and Operations from the Project drop-down menu, select all Environmental Impact Statement possibilities from the Document Types drop-down menu (there are about 15 choices), hit Create Report.
