THE LEGISLATIVE REFERENCE CENTER AT 406-444-2957

*TBA: To Be Announced – Vaccine is under development; unnamed at present.

NOTE: ALL CURRENT FLU VACCINES USE ETHICAL CELL LINES.

Note: Immune-Globulin shots will provide temporary immunity (3-5 months) for Hepatitis-A and Rubella. IGIM is a series of antibodies taken from donor blood designed to boost the immune system against specific diseases. No aborted fetal cell lines are used.
