Governor's Symposium to Discuss Energy Issues and
Formulate a Comprehensive Energy Policy for Montana

October 18-19, 2005
Montana State University
Bozeman, Montana

Step 1 of 3 - Enter Information

ABOUT MONTANA'S ENERGY FUTURE SYMPOSIUM

Brian Schweitzer

The State of Montana needs a comprehensive energy policy. The purpose of the policy will be to provide Montana's energy consumers with adequate, affordable power while making sure Montana strategically and proactively shapes its unique place within the ever-evolving world of energy. To help Montana form a solid, long-term energy vision, Governor Brian Schweitzer is convening the best and the brightest in the energy sector from across the nation to discuss energy production, renewable energy, conservation, transmission issues, environmental concerns, and other pertinent topics.

Registering consists of 3 easy steps:

Registration via this site uses a secure server to encrypt your information, including credit card information, for your safety and privacy.

1. Complete the registration form and click on the Process Registration button.
2. Review the information on the verification page and make any corrections necessary, then click on the Submit Registration button.
3. Record your Confirmation number and the amount you will be charged for future reference.

If you don't receive a confirmation number, your registration has not been processed. Please repeat steps 1-3. You must have a confirmation number in order to be properly registered.
