

POSSIBLE CODES AND/OR STANDARDS FOR WILDLAND URBAN INTERFACE HAZARD MITIGATION

Current model codes, standards and guidelines from a variety of stakeholders can be assembled into a comprehensive document. Examples of some sources are:

1. DNRC - Protection Guidelines for Wildland Residential Interface Development
2. NFPA 1141 – Standard for Fire Protection Infrastructure for land Development in Suburban and Rural Areas - 2008
3. NFPA 1142 – Standard on Water Supplies for Suburban and Rural Fire Fighting - 2007
4. NFPA 1144 – Standard for Reducing Structure Ignition Hazards from Wildland Fire – 2008
5. International Wildland-Urban Interface Code - 2006
6. ASTM E84-04 Test Methods for Surface-Burning Characteristics of Building Materials
7. International Fire Code - 2006
8. ASTM E136-99e01 Test Method for Behavior of Materials in a Vertical Tube Furnace at 750°C
9. International Building Code – 2006
10. International Residential Code – 2006
11. NFPA -1 Uniform Fire Code
