1. What is the problem or issue?

To implement enterprise-wide electronic records management standards and systems as identified by the eRIM (Electronic Records and Information Management) steering committee.

2. What do you want the legislation to do?

The electronic Records Management committee was formed by the Secretary of State's office and the department of administration. The committee includes stakeholders from all branches of state government and local government. As the committee develops a strategy for e-records information management, legislation will be necessary to implement the standards and requirements essential for compliance and process improvements.

3. If possible, please list the MCA (Montana Code Annotated) sections that would need to be amended.

To be determined by the eRIM steering committee and ITSD.

4. If the proposed change requires additional funding, what funding sources do you propose (e.g., an increase in or both)?

5**. Has similar legislation been requested in the past, been introduced in another state, or provided as a model act? If so, please provide a citation, reference, or point of contact.**

6. If you are a holdover senator or a legislative candidate running unopposed, do you want the Legislative Services Division staff to consider this a bill draft request?

PLEASE RETURN YOUR PROPOSAL FOR LEGISLATION by May 30, 2008
