 Kathleen Ports  
 USFWS Project Manager  
 406-542-4330  
[kports@mt.gov](mailto:kports@mt.gov)

We manage 727,000 forested acres  
  
 53.2 mmbf is the annual timber harvest  
 (~ 51mmbf from CLO, NWLO, SWLO)

**What is the HCP?**

- A long term plan for compliance with the Endangered Species Act (Section 10).
- Part of the application for an Incidental Take Permit.
- Explains the State's commitments for minimizing impacts to ESA-listed species while managing timber resources.

- Long Term ESA assurances
- Management flexibility
- Ability to handle land acquisitions and dispositions
- Clear directions for field practitioners

- Long-term conservation commitments for species
- Partnership with a large landholding agency
- Commitments that complement recovery efforts on federal lands
- Adaptive management

## Specifies...

- Geographic Area
- Covered Species
- Covered Activities
- Permit Term
- Conservation Strategies

## Grizzly Bears

- Transportation planning to minimize displacement and provide for seasonal habitat use and security
- Seasonal restrictions in spring habitat
- Implementing quiet zones
- Conserving den sites, avalanche chutes, riparian zones

## Canada Lynx

- Retain stand structures that provide for prey species
- Retain coarse woody debris for potential den sites
- Ensure adequate amounts "suitable" habitat and "foraging" habitat

## Aquatic Species

- Streamside buffers
- Fish passage protocols
- Road inventory and corrective actions

## Changed Circumstances

### Monitoring and Adaptive Management

### Transition Lands

## The EIS complies with MEPA and NEPA

- Public Scoping Period
- Developed Draft Conservation Strategies
- Public Review of Conservation Strategies
- Developed and Published Draft EIS/HCP
- Public Review of Draft EIS/HCP

- October 9: Public comment period ends
  - Winter 2009: Respond to comments
  - Spring 2010: Develop final EIS/HCP
  - Summer 2010: Publish final EIS/HCP
  - Fall 2010: Address public comments and prepare decision documents
  - Early 2011: Publish all decision documents and issue permit
  - 2011 on – Implementation, training, and monitoring
-
