

## Are you still driving to the recycling center?

### Consider these Inconvenient Truths:

1. You dread loading up the car.
2. Your garage is not your own anymore.
3. You burn fossil fuels and time to get there.
4. You don't ever make what you think you should.

Billings has 100,000 residents. If 10% of Billings residents recycle their paper, plastic and metal cans, that's 10,000 people burning fossil fuels to drop off their recycling. Doesn't it make more sense for one company to do it?

Feng shui your garage and become part of a convenient solution...

Printed on 60% recycled paper

*What if you could become part of the solution while adding a convenience to your life?*

### It's not just trash anymore!

Give yourself and the earth a break. Sign-up for curbside recycling with Earth First Aid today.

### What We Offer

Twice a month pick-up service for the Billings Area on the same day as your current trash service.

### How it Works

- You receive three bins for Paper, Plastic, and Aluminum, along with a handy reference guide showing you what you can and can't recycle.
- Every two weeks you put your bins and flattened corrugated cardboard boxes out to the pre-determined pick-up spot.
- Every three months you receive a bill for services.
- Every day you know you're doing your part.

### What It Costs You

A \$35 set-up fee includes the bins and all the information to get you started.

After that you pay \$11.50/ month without glass, or \$14 / month with glass, which is billed in advance every three months (\$34.50/quarter without glass, \$42.00/quarter with glass).

By recycling 1 ton of paper you save:

- 17 trees
- 6953 gallons of water
- 463 gallons of oil
- 587 pounds of air pollution
- 3.06 cubic yards of landfill space
- 4077 Kilowatt hours of energy

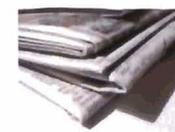

Since 2005 Earth First Aid and its customers recycled 852 tons of paper. Do the math!

Refer a friend, school or business and help spread the word that Billings cares!

Take a look at what your recyclables become...
