AGENCY IMPACT DETERMINATION ENVIRONMENTAL QUALITY  
COUNCIL

The Solid Waste Management Bureau has conducted an environmental reievew of the Park County free motor vehicle graveyard.

The free motor vehicle graveyard is located approximately two miles northeast of Livingston on property owned by Park County. Two acres have been set aside as the Park County motor vehicle graveyard. Attached is a map showing the exact location.

Part of the two-acre parcel is naturally screened by the surrounding topography. The north, south and east sides will have to be shielded in order to remove the junk vehicles from public view. The shielding must be accomplished in compliance with Rule 16-2.14(2)-S14261, Motor Vehicle Wrecking Facilities.

The Solid Waste Management Bureau will periodically inspect the free motor vehicle graveyard for compliance with all the applicable laws and rules governing such operations.

The Solid Waste Management Bureau has the responsibility of approving the graveyard site location before a license will be issued. The graveyard site location was inspected by a representative of this office and field approval granted on June 19, 1975.

After careful review of the disposal site location, our conclusion is that the free motor vehicle graveyard would not have a significant impact on the area.
