The Solid Waste Management Bureau has conducted an environmental review of the Rosebud County free motor vehicle graveyard. The free motor vehicle graveyard is located approximately three miles southwest of Forsyth at the south end of the Country Club golf course. The site is in Range 40 East, Township 6 North, and contains approximately one and three-fourths acres. The land is owned by the state of Montana. Attached is a map showing the exact location.

The site is naturally screened by the surrounding topography. The access will be from the Dry Creek road. The site will have a road built into it on the southeast corner. In the event that junk vehicles could be seen from the public road, the site would have to be shielded in accordance with Rule 16-2. 14(2)-S14261, Motor Vehicle Wrecking Facilities, at that time.

The Solid Waste Management Bureau will periodically inspect the free motor vehicle graveyard for compliance with all the applicable laws and rules governing such operations.

The Solid Waste Management Bureau has the responsibility of approving the Rosebud County plan and budget, along with the approval of the graveyard site location before a license will be issued. The plan and budget were approved on April 9, 1974. The disposal site location was inspected by a representative of this office and field approval granted on January 10, 1974.

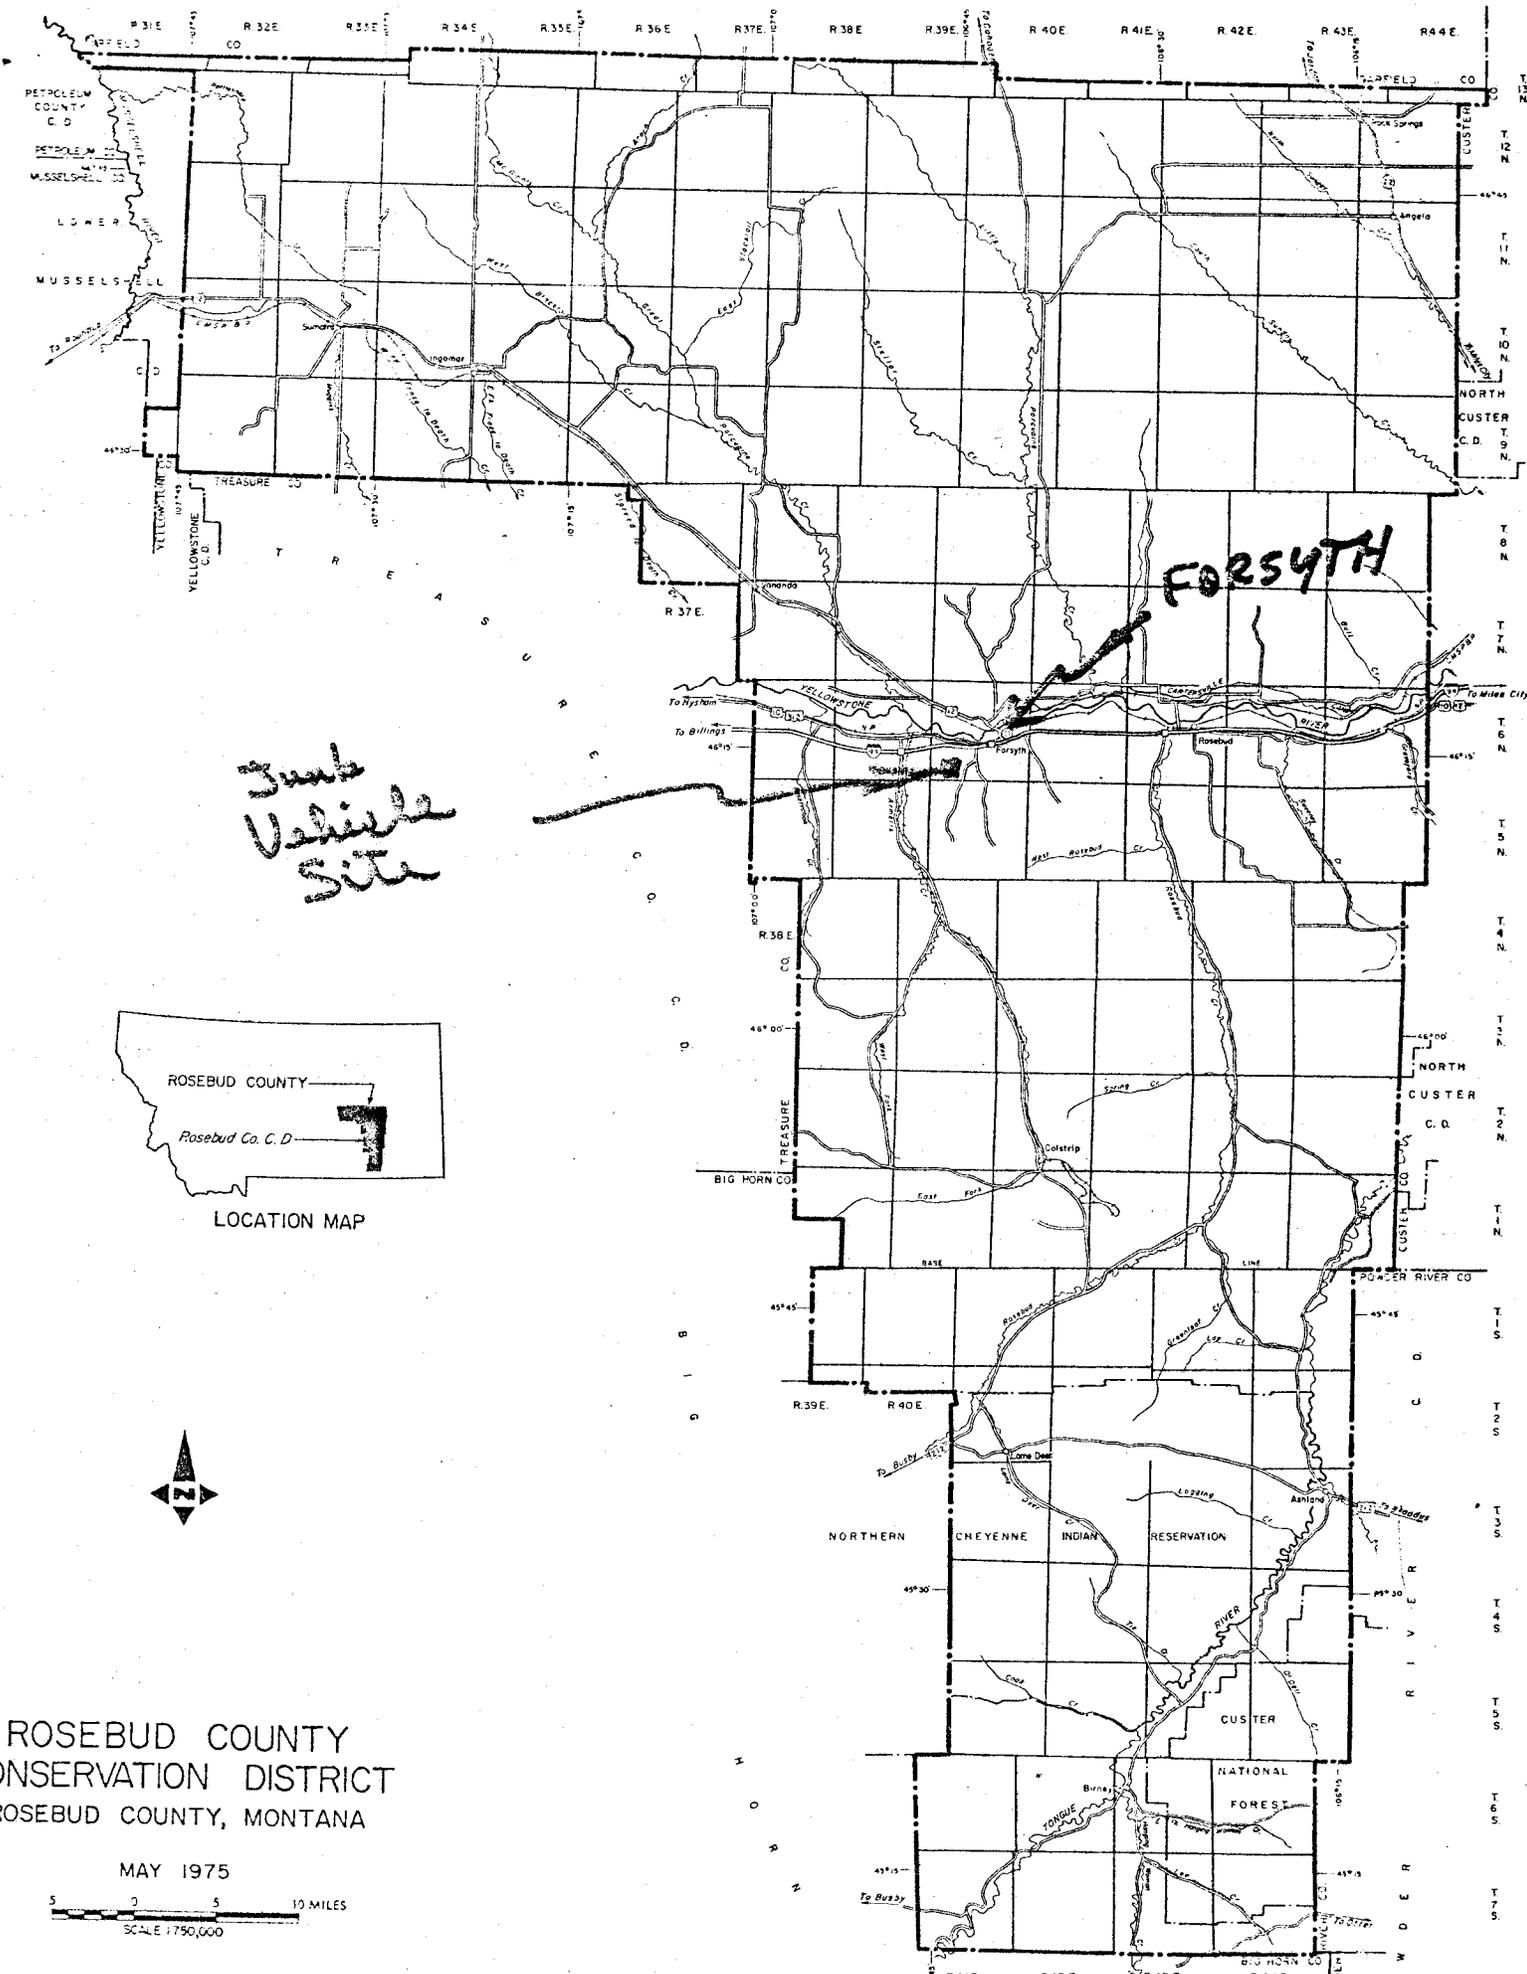

After careful review of the disposal site location, our conclusion is the free motor vehicle graveyard would not have a significant impact on the area.

Respectfully submitted,

Vic R. Andersen, R.S.
