AGENCY IMPACT DETERMINATION

The Solid Waste Management Bureau has conducted an environmental review of Mr. Leonard Adams's proposed motor vehicle wrecking facility.

The proposed wrecking facility is located west of the city of Livingston, south of U.S. Highway 10 on property owned by Mr. Leonard Adams. Fifteen acres have been set aside for the proposed facility.

The fifteen-acre parcel of land is naturally shielded from public view between the hills.

The Solid Waste Management Bureau will periodically inspect the facility for compliance with all applicable laws and rules governing such operations.

The Solid Waste Management Bureau has the responsibility of approving the proposed site location before a license will be issued. The disposal site location was inspected by a representative of this office and field approval granted on September 10, 1975.

After careful review of the disposal site location, our conclusion is that this proposed motor vehicle wrecking facility will not have a significant impact on the area.

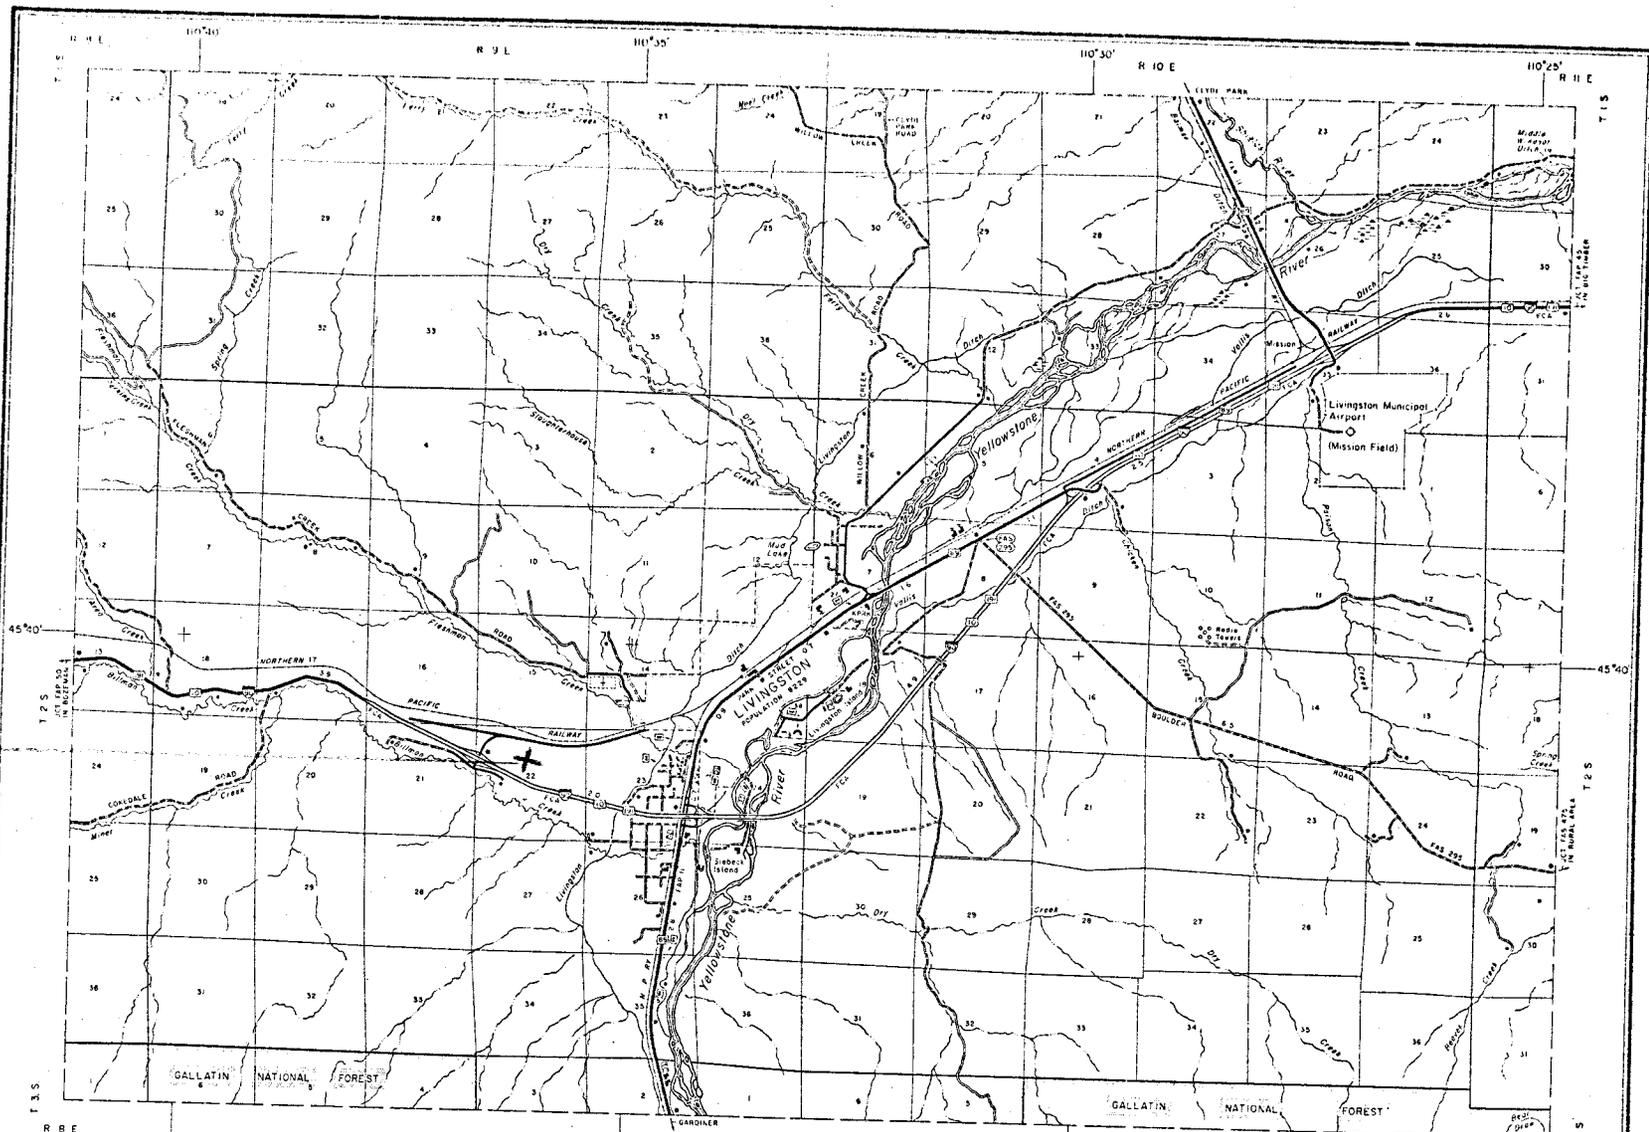

Respectfully submitted,

Duane L. Robertson
