

MONTANA DEPARTMENT OF NATURAL RESOURCES AND CONSERVATION  
WATER RESOURCES DIVISION  
WATER RIGHTS BUREAU

**ENVIRONMENTAL ASSESSMENT**

**PART I. PROPOSED ACTION DESCRIPTION**

- Type of action:** Water right change application no. 411-G(W)003834-03
- Applicant/Contact name and address:** Betty R. McArthur  
306 N Walnut St  
Townsend MT 59644-2316
- Water source name:** Deep Creek
- Location affected by action:** S36, T07N, R02E & S1, 2, & 3, T06N, R02E, Broadwater County
- Narrative summary of the proposed project and action to be taken:**  
  
The application proposes to remove 245 acres in Sec 15 (has been sold) and add 7 acres in Sec 03, Twp 06N, Rge 02E, Broadwater County.
- Agencies consulted during preparation of the environmental assessment:**  
  
None

**PART II. ENVIRONMENTAL REVIEW**

- Environmental Impact Checklist:

**PHYSICAL ENVIRONMENT**

**Soils/Geologic Features:**

Degradation of soil quality or alteration of soil stability, moisture content, geologic substructure, unique geologic features, archeological sites?

None

**Erosion:**

Alteration of erosion or siltation patterns which modify stream beds or lake shores?

None

**Vegetation/Noxious weeds:**

Change in or adverse affect on diversity and production of local plant species including any unique or endangered species (including trees, shrubs, grass, and aquatic plants)? Establishment or spread of noxious weeds?

None

**Air:**

Deterioration of air quality, or adverse effects on vegetation due to increased air pollutants.

None

**Water:**

Alteration of surface water or groundwater quality including but not limited to temperature, dissolved oxygen or turbidity or quantity or distribution?

None

**Floodplain:**

Changes in drainage patterns, course or magnitude of flood flows, or exposure of people/property to hazards (flood)?

None

**Wildlife Habitat/Migration:**

Deterioration of critical fish or wildlife habitat? Creation of a barrier to the migration or movement of fish or wildlife?

None

**Endangered Species:**

Adverse effects on any unique or endangered species?

None

**HUMAN ENVIRONMENT**

**Existing Land Use:**

Alteration of or interference with the productivity or profitability of the existing land use of an area?

None

**Historical Significance:**

Destruction or alteration of a natural area of scientific or educational value or prehistoric or paleontological importance?

None

**Populace:**

Alteration of the location, distribution, density, or growth rate of the human population of an area? Alteration of social structure of community?

None

**Transportation:**

Increased traffic hazards or effects on existing transportation facilities or patterns of movement of people and goods?

None

**Safety:**

Creation of any health hazard or affect on existing emergency response or evacuation plans?

None

**Public Services:**

Have an effect upon or result in a need for new or altered governmental services in any of the following areas: fire or police protection, schools, parks/recreational facilities, roads or other public maintenance, water supply, sewer or septic systems, solid waste disposal, health, or other governmental services? Have an effect upon local or state tax base?

None

**Utilities:**

Creates need for new or altered facilities for any of the following utilities: electric power, natural gas, other fuel supply or distribution systems, or communications?

None

**Aesthetics:**

Alteration of any scenic vista or recreation opportunity or creation of an aesthetically offensive site to the public?

None

**Other:**

None

---

**2. Secondary and cumulative impacts:** None

**3. Reasonable alternatives to the proposed action, including the no action alternative:**

Property has already been sold. A portion of these water rights were historically used on this property. The water rights were severed from Section 15 when the real estate was sold. The proposed change will allow the applicant to use all of the water on her currently owned land.

**PART III. CONCLUSION**

Based on the significance criteria evaluated in this EA, is an EIS required? No

If an EIS is not required, explain why the EA is the appropriate level of analysis for this proposed action: An EIS is not required. The points of diversion are remaining as is, so there will be no construction or alterations. The place of use is already irrigated and the change to sprinkler irrigation will merely be a more efficient use of the water.

There is absolutely no way the environment can be affected by this change.
