PUBLIC NOTICE NO. MT-06-16
July 17, 2006

LEGISLATIVE ENVIRONMENTAL
POLICY OFFICE

PURPOSE OF PUBLIC NOTICE

The purpose of this notice is to state the Department's intention to issue a *General Permit for Storm Water Discharges Associated with Industrial Activity* ("General Permit") and to hold a public hearing on the issuance. This General Permit is issued by the Department under the authority of 75-5-402, Montana Code Annotated (MCA); the Administrative Rules of Montana (ARM) 17.30.1101 *et seq.* and 17.30.1301 *et seq.*, Montana Pollutant Discharge Elimination System (MPDES); and Sections 402 and 303 of the Federal Clean Water Act. Copies of the draft General Permit are available upon request from the Water Protection Bureau or on the Department's website www.deq.mt.gov. Copies of the General Permit can also be viewed at the Department of Environmental Quality (1520 East Sixth Avenue; Helena, Montana).

This MPDES General Permit authorizes storm water discharges from various types of industrial facilities or activities to state surface waters. These storm water discharges may contain pollutants which could cause impairment of receiving waters. The primary requirement in the General Permit pertains to the development and implementation of a Storm Water Pollution Prevention Plan which characterizes the facility and site, identifies potential sources of pollutants, and addresses Best Management Practices to minimize pollutant generation and discharge.

On September 21, 2000, a U.S. District Judge issued an order stating that until all necessary total maximum daily loads (TMDLs) under Section 303(d) of the Clean Water Act are established for a particular water quality limited segment (WQLS), the State is not to issue any new permits or increase permitted discharges under the MPDES program. The order was issued in the lawsuit Friends of the Wild Swan v. U.S. EPA. et al., CV 97-35-M-DWM, District of Montana, Missoula Division. The DEQ finds that the issuance of this proposed permit does not conflict with the order, because: 1) the permit does not authorize the discharge of any new or increased pollutant load; 2) facilities are required by state and federal regulation to obtain authorization for these discharges under the National Pollutant Discharge Elimination System (NPDES) program or a delegated state program.

PUBLIC COMMENT

Public comments are invited ANYTIME PRIOR TO CLOSE OF BUSINESS August 18, 2006. Comments may be directed to the DEQ Permitting & Compliance Division, Water Protection

Public Notice No.: MT-06-16

Bureau, PO Box 200901, Helena, MT 59620. All comments received or postmarked PRIOR TO CLOSE OF BUSINESS August 18, 2006 will be considered in the formulation of final determinations to be imposed on the permits. If you wish to comment electronically, you may e-mail Dianne McKittrick at WPBPublicNotices@mt.gov.

A public hearing will be held on the draft wastewater discharge permit, the fact sheet, environmental assessment, and the Department's tentative determination at **1:30 p.m. on August 17, 2006 in Room 111, Department of Environmental Quality, Metcalf Building, 1520 East Sixth Avenue, Helena, Montana.**

The Department will respond to all substantive comments and issue a final decision within sixty days of this notice or as soon as possible thereafter. Additional information may be obtained upon request by calling (406) 444-3080 or by writing to the aforementioned address. The complete administrative record, including permit application and other pertinent information, is maintained at the Water Protection Bureau office in Helena and is available for review during business hours.
