<p>6. AIR QUALITY: Will pollutants or particulate be produced? Is the project influenced by air quality regulations or zones (Class I airshed)?</p>	<p>[N]</p> <p>Action: Pollutants and particulates will be produced at the time of installation. After installation is complete pollutant and particulate levels will return to normal. With the relatively small scale of the proposed project no impacts are anticipated.</p> <p>Action: No effect.</p>
<p>7. VEGETATION COVER, QUANTITY AND QUALITY: Will vegetative communities be permanently altered? Are any rare plants or cover types present?</p>	<p>[N] The area where the project is proposed is presently in native range. The primary grass species are western wheatgrass, bluebunch wheatgrass, green needlegrass, and needle & thread grass. An on site inspection reveled no evidence of any rare plant species within the proposed project area.</p> <p>Action: Impacts to the vegetative community will occur within the proposed action location. Due to the limited scope of the proposed project, permanent impacts to the vegetative community are not anticipated</p> <p>No Action: No effect.</p>
<p>8. TERRESTRIAL, AVIAN AND AQUATIC LIFE AND HABITATS: Is there substantial use of the area by important wildlife, birds or fish?</p>	<p>[N] No wildlife were seen at the time of the field inspection, however the area is known to be deer, antelope, and turkey habitat.</p> <p>Action: The limited scope of the project will be such that impacts to fawning and nesting activities will be limited.</p> <p>No Action: No effect.</p>

II. IMPACTS ON THE PHYSICAL ENVIRONMENT

<p>9. UNIQUE, ENDANGERED, FRAGILE OR LIMITED ENVIRONMENTAL RESOURCES: Are any federally listed threatened or endangered species or identified habitat present? Any wetlands? Sensitive Species or Species of special concern?</p>	<p>[N] The habitat available on this section is conducive to several species of concern (sage grouse, prairie dogs, etc.). An on site inspection of the proposed action area revealed no evidence of any federally listed threatened, endangered, sensitive, or species of concern. Due to the limited scope of the proposed action, no impacts to federally listed threatened, endangered, sensitive, or species of concern are anticipated.</p> <p>Action: No effect.</p> <p>No Action: No effect.</p>
<p>10. HISTORICAL AND ARCHAEOLOGICAL SITES: Are any historical, archaeological or paleontological resources present?</p>	<p>[N] Eastern Land Office staff inspected the area of potential effect for the oil pipeline route, and identified no cultural or paleontologic resources.</p> <p>Action: If cultural sites within the project area are impacted, alternatives will be assessed and mitigation measures will be taken.</p> <p>No Action: No effect.</p>
<p>11. AESTHETICS: Is the project on a prominent topographic feature? Will it be visible from populated or scenic areas? Will there be excessive noise or light?</p>	<p>[N] With the rural aspects of this part Richland County and the predominant enterprise of livestock grazing and farming in the area the visual impacts will not be significant.</p> <p>Action: No visual impacts are anticipated from the proposed action.</p> <p>No Action: No effect.</p>
<p>12. DEMANDS ON ENVIRONMENTAL RESOURCES OF LAND, WATER, AIR OR ENERGY: Will the project use resources that are limited in the area? Are there other activities nearby that will affect the project?</p>	<p>[N]</p> <p>Action: The proposed action will not use resources that are limited in the area. Livestock grazing and dryland farming are the only other activities in the area.</p> <p>No Action: No effect.</p>
