

**ENVIRONMENTAL ASSESSMENT FOR MINOR REVISION
COAL AND URANIUM PROGRAM
MONTANA DEPARTMENT OF ENVIRONMENTAL QUALITY**

COMPANY NAME: Signal Peak Energy LLC

DATE: March 15, 2012

PERMIT#: C1993017

REVISION NO: MR146

LOCATION: Bull Mountain Mine, Musselshell Co., T6N, R26E, S14

Type and Purpose of Action:

The mine operator is proposing to construct a new power line from the existing mine facility across and along the county road to an existing underground bore hole service pad. The total additional power line length is approximately 8,400 feet.

Potential Impacts and Mitigation Measures:

There will be some amount of disturbance during installation of the line. Vehicles will need to access the route to place power poles and string the power line. The disturbance should be minor and of short duration. The line will be removed when no longer needed for mining operations.

Alternative Actions:

Impacts are expected to be minor during the installation.
