

PUBLIC NOTICE NO. MT-12-22
April 30, 2012

PURPOSE OF PUBLIC NOTICE

The purpose of this notice is to state the Department's intention to issue a wastewater discharge permit to the facility listed in this notice. This permit is issued by the Department under the authority of 75-5-402, Montana Code Annotated (MCA); the Administrative Rules of Montana (ARM) 17.30.1301 *et seq.*, Montana Pollutant Discharge Elimination System (MPDES); and Sections 402 and 303 of the Federal Clean Water Act. The Water Protection Bureau has prepared a draft permit for the facility listed below. Copies of the draft permit, statement of basis, and environmental assessment are available upon request from the Water Protection Bureau or on the Department's website www.deq.mt.gov.

APPLICANT INFORMATION

APPLICANT NAME: Montana Behavioral Health, Inc.
APPLICANT ADDRESS: 65 East Broadway
Butte, MT 59701
FACILITY LOCATION: 5824 Yellowstone Trail, Galen, MT
RECEIVING WATER: Unnamed field irrigation ditch
PERMIT NUMBER: MT0021431

This is a reissuance of the MPDES permit for the Montana Behavioral Health/Galen Wastewater Treatment Facility. The facility proposes to discharge treated domestic wastewater to an unnamed field irrigation ditch which is a tributary to the Clark Fork River. Wastewater is treated in a continuous discharge mechanical activated sludge plant with anaerobic sludge digestion. The permit contains existing technology-based effluent limits and revises the water quality-based effluent limits using data collected since the issuance of the previous permit in 2007. New final effluent limitations on nitrate plus nitrite (NO₃/NO₂) become effective January 1, 2017, and a compliance schedule is included in the permit for meeting the final effluent limits on NO₃/NO₂. Monitoring of the effluent is required at the mechanical plant effluent weir after the UV system

On September 21, 2000, a U.S. District Judge issued an order stating that until all necessary total maximum daily loads (TMDLs) under Section 303(d) of the Clean Water Act are established for a particular water quality limited segment, the State is not to issue any new permits or increase permitted discharges under the

MPDES program. The order was issued in the lawsuit Friends of the Wild Swan v. U.S. EPA, et al., CV 97-35-M-DWM, District of Montana, Missoula Division. The DEQ finds that the issuance of this proposed permit does not conflict with the order because it is not a new or increased source.

PUBLIC COMMENT

Public comments are invited ANYTIME PRIOR TO CLOSE OF BUSINESS May 30, 2012.

Comments may be directed to the DEQ Permitting & Compliance Division, Water Protection Bureau, PO Box 200901, Helena, MT 59620. All comments received or postmarked PRIOR TO CLOSE OF BUSINESS May 30, 2012 will be considered in the formulation of final determinations to be imposed on the permits. If you wish to comment electronically, you may e-mail Noelle Uncles or Barb Sharpe at WPBPublicNotices@mt.gov.

During the public comment period provided by the notice, the Department will accept requests for a public hearing. A request for a public hearing must be in writing and must state the nature of the issue proposed to be raised in the hearing (ARM 17.30.1373).

The Department will respond to all substantive comments and issue a final decision within sixty days of this notice or as soon as possible thereafter. Additional information may be obtained upon request by calling (406) 444-3080 or by writing to the aforementioned address. The complete administrative record, including permit application and other pertinent information, is maintained at the Water Protection Bureau office in Helena and is available for review during business hours.
