

PUBLIC NOTICE NO. MT-12-34
June 25, 2012

PURPOSE OF PUBLIC NOTICE

The purpose of this notice is to state the Department's intention to issue a wastewater discharge permit to the facility listed in this notice. This permit is issued by the Department under the authority of 75-5-402, Montana Code Annotated (MCA); the Administrative Rules of Montana (ARM) 17.30.1301 *et seq.*, Montana Pollutant Discharge Elimination System (MPDES); and Sections 402 and 303 of the Federal Clean Water Act. The Water Protection Bureau has prepared a draft permit for the facility listed below. Copies of the draft permit, statement of basis, and environmental assessment are available upon request from the Water Protection Bureau or on the Department's website www.deq.mt.gov.

APPLICANT INFORMATION

APPLICANT: Motel Partners I

FACILITY NAME: Econo Lodge

FACILITY LOCATION: 4953 N. Reserve St.
Missoula, MT 59808
Missoula County

RECEIVING WATER: Outfall 001: Grant Creek

PERMIT NUMBER: MT0029840

The proposed discharge is noncontact cooling water from a heat exchanger that will provide backup cooling for motel rooms during the summer. The discharge will be to Grant Creek.

On September 21, 2000, a U.S. District Judge issued an order stating that until all necessary total maximum daily loads (TMDLs) under Section 303(d) of the Clean Water Act are established for a particular water quality limited segment, the State is not to issue any new permits or increase permitted discharges under the MPDES program. The order was issued in the lawsuit *Friends of the Wild Swan v. U.S. EPA, et al.*, CV 97-35-M-DWM, District of Montana, Missoula Division. The DEQ finds that the issuance of this permit does not conflict with the order because the discharge will not cause a decline in water quality for parameters which the water body is impaired and this is not a new or increased discharge to Grant Creek.
