WRD	BRO	EA Checklist	39F-30051190	12/31/15	Arbuckle Ranch, Inc.	discontinue irrigating the 84 acres, currently irrigated under Water Right Claim Numbers 39F 138991 00 and 39F 138992 00, from the Little Missouri River. Instead, the Applicant proposes to flood irrigate 75 acres in the E½ of Section 16, Township 7S, Range 61E (adjacent to the current place of use). Additionally, the proposed change eliminates 3 existing points of diversion to a single existing point of diversion in the NWSWSW of Section 16, Township 7S, Range 61E. The Applicant plans to divert 13.37 CFS from the Little Missouri River onto the river bank via a 16-inch Lloyds pump and 200-ft discharge hose. Water will run east along a dike to the place of use where water will gravity feed to the fields. The proposed change does not change the pattern of diversion from the Little Missouri River. Use of water will occur via the same flood irrigation practices used on the currently irrigated acres. Per the Applicant, the Little Missouri River runs high for a 2-6 week period each spring. During that time, water will be diverted (via pump) for 3 days to cover the fields. Water will be	9 16	7S 7S	61E 61E		Carter	11/28/11	3/22/12	3/22/12	4/16/12	Brad Bennett	NA	Little Missouri River

TLMD	NWLO - PUO	Final EA	Environmental Analysis for the Selow 2 and North Valley Creek Timber Sales	February 2012	DNRC - Plains Unit	The Department of Natural Resources and Conservation (DNRC) is proposing to sell approximately 25,000 tons (3.7 MMBF) of timber with two timber sale projects. This Environmental Assessment (EA) will address both projects. The two proposed timber sale projects addressed by this EA are: the Selow 2 timber sale and the North Fork Valley Creek (NFVC) timber sale. The Selow 2 timber sale would be located in Section 36, Township 18N, Range 22W, roughly 4 miles south of Dixon, Montana. NFVC timber sale would be located in Section 16, Township 17N, Range 21W, roughly 10 miles southwest of Ravalli, Montana.	16 36	17N 18N	21W 22W		Sanders	1/6/12	1/6/12	1/6/12	1/12/12	Kyle Johnson Larry Ballantyne	Common Schools	NA

WRD	BRO	EA Checklist	Application to Change a Water Right 40A 30051288	12/31/12	Paint Rock Angus Ranch, Inc.	The Applicant proposes to add a stock tank to Ground Water Certificate No. 40A 51394-00. The new tank will be located in the SWSESE Section 9 T8N R20E, approximately ¼ of a mile south of the current stock tank on the water right. They propose to extend the existing 1.25-inch pipeline with a 1.5-inch pipeline from the present stock tank to the new tank. The Applicant says the number of animal units, and therefore amount of historic use, will remain the same.	34 9 9	9N 8N 8N	20E 20E 20E	NESWNW SWNENE SWSESE	Cascade	1/10/12	1/10/12	1/11/12	1/12/12	Douglas Mann	NA	Groundwater
WRD	BRO	EA Checklist	Firehole Ranch, Loc	3/1/12	Firehole Ranch, LLC	Firehole Ranch, LLC (Applicant) proposes to reduce the diversion of water rights 41F 125476, 41F 125477, 41F 125478 to increase instream flows and protect the fishery resource during times when Watkins Creek flows drop to a flow rate of 5.5 cfs or less from July 1 to September 30. Water right 41F 125476 and 41F 125477 together, will have an instream flow rate of 2.10 cfs up to 76.4 acre feet and water right 41F 125478 will have an instream flow rate of 3.4 cfs up to 124.6 acre feet. The combined protected flow and volume for the change to instream fishery is up to 5.5 cfs and 201 acre feet.	17	12S	4E	SWSESW	Gallatin	1/10/12	1/11/12	1/11/12	1/12/12	Porter Dassenko	NA	Groundwater

TLMD	NWLO - LUO	Final EA	Iron Schoolhouse Timber Sale	Beginning 2012	DNRC - Libby Unit	The Montana Department of Natural Resources and Conservation (DNRC), Libby Unit, is proposing a commercial timber harvest approximately 2.5-4 air miles south to southeast of Troy, MT in: Par. 1 of COS 3069 in the S ½ NE ¼ Sec. 20 (Common Schools Trust), and N ½ NE ¼, SE ¼ NE ¼, NW ¼ SW ¼ Sec. 32 (School of Mines Trust), T31N, R33W, and W ½ Sec. 36 (Common Schools Trust), T31N, R34W (Attachment A, Vicinity Map). Under the proposed Iron Schoolhouse Timber Sale, DNRC would harvest and sell approximately 6.7 million board feet of wood products from approximately 8 harvest units, totaling approximately 470.6 acres using ground based, cable and possibly helicopter logging equipment to conduct seedtree, shelterwood, and individual tree selection harvest. As a result of this proposed timber sale, an estimated \$817,400.00 would be generated for the Common Schools and School of Mines Trusts.	20 32 36	Par. 1 of COS 3069 31N 31N	33W 33W	S2NE4 N2NE4SE4NW4S W4 W2	Lincoln	1/13/12	1/18/12	1/18/12	2/22/12	Dave Marsh Mark Peck	Common Schools Montana Tech	NA

TLMD	NWLO - LUO	EA Checklist	Libby Pre- commercial Thinning	2012 - 2014	DNRC - Libby Unit	Pre-commercial hand thinning of young tree stands that have been regenerated from past timber sales. The thinning would follow through with the prescribed silvicultural prescriptions and environmental assessments of these past timber sales and incorporate all requirements of the State Forest Land Management Plan (SFLMP) and Montana Administrative Rules for Forest Management. Additionally, the Montana DNRC Habitat Conservation Plan (HCP) would be employed on all covered lands. The purpose of the thinning is to promote tree health and vigor. This environmental assessment checklist will cover pre-commercial thinning for the next two years. TLMD	CLO - CUO	EA Checklist	Lease Improvement Request - Ne Fence	Winter 2012	Deep Creek Ranch & Management Co	The proponent has requested to build approximately 0.5 miles of 4 barbed wire wood post fence along the East side of Deep Creek Road. The fence will cross state owned rangeland in the three sections that are listed above. This fence will allow the proponent to utilize deeded and state grazing land to the East of Deep Creek Road. There is currently an old fence on a portion of the tract which will be removed. The new fence will connect a fence on deeded land in Section 13 to a fence on deeded land in Section 23. The fence will be placed just outside of the 60' county road ROW which will keep the livestock off of Deep Creek Road.	13 23 24	23N 23N 23N	8W 8W 8W	SW4SW4 NE4NE4 NW4NW4	Teton	2/2/12	2/2/12	2/2/12	2/22/12	Tony Nickol Eric Eneboe	Common Schools	NA

TLMD	CLO - CUO	EA Checklist	Land Use License. #3071011 for a water pipeline and two stock water tanks.	Spring 2012	Meissner Ranches Inc.	Meissner Ranches Inc. lessees of state leases #6655, #7829, and #7830 have requested to place a livestock water line and two stock water tanks on and across state land located in Section 33, T36N, R5E and Sections 3, 10, and 15, T35N, R5E. This will allow them to connect to a spring located on deeded land in SE4SE4, Section 29, T36N, R5E to a private water system located on deeded land in the NE4SW4, Section 15, T35N, R5E. The water line will be 2.0" HDPE pipe static plowed to a depth of 6' for a distance of approximately 10,513.00' on state land and 12,508.00 on deeded land. Two stock water tanks will be placed on state land. One tank will be located in the SW4NW4, Section 3, T35N, R6E and in the NW4SW4, Section 10, T35N, R6E. A detailed map showing the location for this project lay out is included within this assessment. The primary objective is to provide reliable stock water to deeded and state pasture in order to allow for better livestock distribution.	33 33 3 10	36N 36N 35N 35N	5E 5E 5E 5E		Liberty	2/14/12	2/14/12	2/14/12	2/22/12	Tony Nickol Eric Eneboe	Common Schools	NA

TLMD	SWLO - MUO	EA Checklist	Yellowstone Pipeline replacement pipeline	2/29/12	Yellowstone Pipeline Company/Conoco Phillips	ConocoPhillips has requested to replace an existing 10 inch refined petroleum products pipeline due to affects from recent hydrological events on the Clark's Fork River. The current pipeline was likely scrubbed to the surface during high water in the Spring of 2011 which leaves the pipe vulnerable to damage which could cause great harm to life and property downstream, should it be struck by debris during future annual runoff.  The current pipeline is now estimated to have approximately 2-4 feet of fill above it. It was placed in the Clark's Fork in 1954 (state easement grant D-3542). The pipeline was trenched in at that time. The replacement pipe would be bored below the bed of the river to a depth of approximately 40 feet.	34	13N	18W		Missoula	2/23/12	2/23/12	2/23/12	4/16/12	Dana Boruch Jonathan Hansen	Public Land Trust	NA

TLMD	SWLO - MUO	EA Checklist	Montana Highway 200 gabion wall repair	April 2012	Montana Department of Transportation	To prevent further damage and potential collapse of a portion of Montana Highway 200, MDOT is requesting to repair/replace approximately 200 feet of existing gabion retaining wall along Highway 200, east of Bonner. During high runoff of the Blackfoot River during 2011, up to 10 feet of vertical foundation soil material has been exposed below the bottom basket. With the toe material removed, overall stability of the wall at this site is a concern. Work would include placement of special backfill and/or concrete, geotextile and riprap.	14	13N	18W		Missoula	3/1/12	3/2/12	3/5/12	4/16/12	Dana Boruch Jonathan Hansen	Public Land Trust	NA

WRD	LRO	EA Checklist	Application for Beneficial Water Use Permit 40A 30049157	12/31/16	Signal Peak Energy LLC	The application proposes to divert groundwater from the Madison Formation by means of two wells located in Musselshell County and identified in the application materials as Madison Well #2 (MW2) and Madison Well #3 (MW3). Water will be used for industrial purposes from January 1 to December 31 of each year. The purpose is associated with coal mining operations at Bull Mountains Mine #1, a mine located approximately 13 miles southeast of Roundup, MT. Water will be diverted from the two wells at a maximum flow rate of 700 gallons per minute (GPM), up to 1,130 acre-feet (AF) annually.	14 14 14	6N 6N 6N	26E 26E 27E		Musselshell Yellowstone	3/30/12	3/30/12	3/30/12	4/16/12	Douglas Mann	NA	Madison Formation Groundwater
