WRD	BRO	EA Checklist	39F 30051729	6/1/12 - 7/31/13	Bob Eberts - OneOK Bakken Pipeline	This application is for a temporary diversion of water to aide in the construction of the ONEOK Bakken natural gas pipeline project. The point of diversion is located in the SESWNW of Section 28, T6S, R62E, Carter County. The place of use for this application is generally located in Carter County, Montana and Crook County, Wyoming. Maps for pipeline locations are in the permit file located at the Billings Regional Water Resource office. The pipeline project will divert at a maximum flow rate of 2,000 gpm up to 8.46 acre-feet between June 1, 2012 and August 31, 2013. The water will be used for horizontal directional drilling, boring, pre-installation hydrostatic testing and hydrostatic testing along 60 miles of the pipeline route. The water used for hydrostatic testing, 5.82 acre feet, is non-consumptive and will be discharged back into the Little Missouri River at the point of diversion in Montana. The water used for horizontal directional drilling and boring, 2.64 acre-feet, is consumptive.	2	5S	61e		Carter	3/26/12	5/2/12	5/2/12	5/30/12	Brad Bennett	NA	Little Missouri River

TLMD	CLO - CUO	EA Checklist	Livestock Fence	Spring 2012	James Judisch Jr.	The proponent has requested to build approximately 1.15 miles of 4 barbed wire wood post fence along the two-track trail in the above listed sections. The fence will cross state owned rangeland in the three sections that are listed above. This fence will allow the proponent to utilize deeded, BOR, and state grazing land for fall grazing by preventing livestock from entering the steep areas. There is currently an old fence on a portion of the tracts which will be removed. The new fence will connect a fence on deeded and state land in Section 21 to a fence on BOR land in Section 16.	21 30N 20 30N 16 30N		1E 1E 1E	NE4NW4 NE4NE4 W2SW4	Toole	4/3/12	4/3/12	4/3/12	5/9/12	Tony Nickol Eric Eneboe	Common Schools Capital Buildings	NA

TLMD	ELO - GUO	EA Checklist	Land Breaking of crested wheatgrass/smooth brome grass conservation reserve program acreage for conversion to dryland agriculture. State of Montana Lease Number 4016.	Spring 2012	Randy J. Cromwell	Surface lessees, Randy J. Cromwell has made a written request for breaking of tame grass/alfalfa on former conservation reserve program acreage to the Glasgow Unit Office of the Department of Natural Resources & Conservation. The surface lessee has requested permission to break an estimated 239.4 acres of crested wheatgrass/smooth brome grass formerly enrolled in the conservation reserve program. The land breaking would be a conversion from present use of tame grass to dryland agriculture for the purpose of growing small grain or pulse crops. The acreage would be reclassified from dryland hay to dryland agriculture for small grain or pulse crop production.	13	37N	47E	NW4 N2SW4	Daniels	4/4/12	4/6/12	4/6/12	5/9/12	Randy Dirkson Hoyt Richards	Common Schools	NA

TLMD	SWLO - HUO	EA Checklist	Sula North Aerial Weed Spraying 2012	June 2012	DNRC Hamilton Unit	As part of an Integrated Weed Management Program (IWM) the DNRC, Hamilton Unit is proposing an aerial application of Transline, a clopyralid MEA salt, non-restricted use herbicide, on approximately 218 acres. The parcel is located within the Sula State Forest. The purpose is to treat an infestation of spotted knapweed with the desired outcome of increasing the coverage of native grasses and forbs. This proposed noxious weed treatment includes the proposed herbicide application in 2012.	10	2N	19W	SW4N2	Ravalli	5/8/12	5/8/12	5/8/12	5/30/12	Kurtis Gelderman Paul Moore	Common Schools Public Buildings	NA
TLMD	NELO - LUO	EA Checklist	3123 Renovation Request	6/15/12	Kyle Peterson,	The proponent is requesting permission to renovate approximately 220 acres of native rangeland on the State Land identified above in order improve forage production and increase trust income that has been impacted by dense clubmoss and Blue Grama soil capping. The project will be done in thirds to fit in the lessees management plan.	13	31N	11E	E2	Hill	5/9/12	5/9/12	5/9/12	5/30/12	Monte McNally Barney Smith	Common Schools	NA
WRD	HRO	EA Checklist	76G 30049295	2012	Spangler Ranch, LLC	groundwater points of diversion to five irrigation water right claims. The historic source for the claims is German Gulch, tributary to Silver Bow Creek. The proposal also seeks to leave an unprotected 1.5 cubic feet per second (CFS) and 267 acre-feet (AF) in an approximately 300 yard reach of German Gulch in Sec. 12, T3N, R10E, in order to reestablish a hydraulic connection between German Gulch and Silver Bow Creek. German Gulch hosts a westslope cutthroat trout fishery and the Applicant's representative, Trout Unlimited, seeks to enhance fish migration between German Gulch and the Upper Clark Fork River system during late summer low flow periods. The Applicant proposes to continue irrigation on 456 acres of the historic place of use, supplementing the German Gulch appropriations with groundwater from two new wells located in Sec. 25, T4N, R10W. At a maximum, the Applicant proposes to divert 9 CFS and 3,297 AF from German Gulch and 1.2 CFS and 214 AF from groundwater. The Applicant has shown that historically 1,066 acres of ground was irrigated by up to 60 CFS	25	4N	10W		Deer Lodge	5/9/12	5/17/12	5/17/12	6/14/12	Bryan Gartland	NA	Groundwater

WRD	MRO	EA Checklist	Application to Change a Water Right No. 76H-300504	NA	Canyon River Development, LLC	Canyon River Development, LLC submitted an Application to Change a Water Right to DNRC requesting authorization to change the points of diversion, place of use, purpose, and source type for Statement of Claim No. 76M-149703-00, adding 5 groundwater wells to irrigate lawn and garden around multiple home sites and common areas at a new place of use, adjacent to the historic place of use, and no longer pumping water directly from the Clark Fork River. The combined diverted flow rate from the five wells will not exceed 500 gallons per minute (GPM) up to 144.89 acre-feet (AF), pumping duration will not exceed 12.75 hours per day, and the period of diversion and use will remain May 1st through August 31st. The purpose will change from sprinkler/flood irrigation to sprinkler irrigation of lawn and garden. The proposed place of use is 106.71 acres generally located in the S2 of Section 18, and the N2N2 and NESWNW of Section 19, all in T13N, R18W, Missoula County; this is a reduction of 26.01 acres from the decreed 132.72 irrigated acres.	18 19 18 18 18	13N	18W	SWNESW SENEWW SESESE SESWSE SESESW	Missoula	5/9/12	5/22/12	5/22/12	6/14/12	Amy Groen	NA	Clark Fork River

WRD	MRO	EA Checklist	Beneficial Water Use Permit App# 76H 30051779	2012	Missoula County Municipal Golf Course (Larchmont)	flow rate of water currently diverted using three wells under the authority of Provisional Permit No. 76H 11085 00 by 1070 gallons per minute (GPM). Currently, the Applicant can pump 1250 GPM from well nos. 2, 3 and 4, in addition to another 80 GPM from a fourth well under the authority of Provisional Permit No. 76H 115949, which is manifold into the system. No flow rate increase is proposed for the fourth well, which is used to maintain system pressure. Well Nos. 2, 3 and 4 are constructed to depths of 120, 120 and 81 feet and will divert water at rates of 1200, 1000 and 120 GPM, respectively. These wells are currently pumped at 670, 500 and 80 GPM, respectively. Water will continue to be diverted from the Missoula Valley Aquifer by means of three new pumps (125, 100 and 15 hp) with Variable Frequency Drives, providing a combined flow rate of 2320 GPM (1200 GPM + 1000 GPM + 120 GPM = 2320 GPM). Total diverted volume will remain unchanged at 319.5 acre-feet (AF) for the purpose of irrigation of the 146.8 acre place of use, from April 1st to October 31st; 295.5 AF from Provisional Permit No. 76H 11085 00	31	13N	19W		Missoula	6/28/12	6/28/12	6/28/12	7/12/12	Amy Groen	NA	Bitterroot River
