

**ENVIRONMENTAL ASSESSMENT FOR MINOR REVISION  
COAL AND URANIUM PROGRAM  
MONTANA DEPARTMENT OF ENVIRONMENTAL QUALITY**

COMPANY NAME: Signal Peak Energy LLC

DATE: June 25, 2013

PERMIT#: C1993017

REVISION NO: MR171

LOCATION: Spring monitoring station 17185, T6N R27E Section 29

Type and Purpose of Action:

The action modifies the temporary mitigation procedures given in Appendix 313-2, Addendum 313-2-13 to supply trucked water to on-site stock tanks rather than piping water from nearby wells.

Potential Impacts and Mitigation Measures:

Trucking water to on-site stock tanks lessens environmental impacts resultant from existing temporary mitigation measures. No additional disturbance will occur from trucking water under the new temporary mitigation plan.

Alternative Actions:

Maintain existing temporary mitigation procedures
