"15-2-301. Appeal of county tax appeal board decisions. (1) The county tax appeal board shall mail a copy of its decision to the taxpayer and to the property assessment division of the department of revenue. If the appearance provisions of 15-15-103 have been complied with, a person or the department on behalf of the state or any municipal corporation aggrieved by the action of the county tax appeal board may appeal to the state board by filing with the state tax appeal board a notice of appeal within 30 calendar days after the receipt of the decision of the county board. The notice must specify the action complained of and the reasons assigned for the complaint. Notice of acceptance of an appeal must be given to the county tax appeal board by the state tax appeal board. The state board shall set the appeal for hearing either in its office in the capital or the county seat as the board considers advisable to facilitate the performance of its duties or to accommodate parties in interest. The board shall give to the appellant and to the respondent at least 15 calendar days' notice of the time and place of the hearing.

(2) At the time of giving notice of acceptance of an appeal, the state board may require the county board to certify to it the minutes of the proceedings resulting in the action and all testimony taken in connection with its proceedings. The state board may, in its discretion, determine the appeal on the record if all parties receive a copy of the transcript and are permitted to submit additional sworn statements, or the state board may hear further testimony. For the purpose of expediting its work, the state board may refer any appeal to one of its members or to a designated hearings officer. The board member or hearings officer may exercise all the powers of the board in conducting a hearing and shall, as soon as possible after the hearing, report the proceedings, together with a transcript or a tape recording of the hearing, to the board. The state board shall determine the appeal on the record.

(3) On all hearings at county seats throughout the state, the state board or the member or hearings officer designated to conduct a hearing may employ a competent person to electronically record the testimony received. The cost of electronically recording testimony may be paid out of the general appropriation for the board.

(4) In connection with any appeal under this section, the state board is not bound by common law and statutory rules of evidence or rules of discovery and may affirm, reverse, or modify any decision. To the extent that this section is in conflict with the Montana Administrative Procedure Act, this section supersedes that act. The state tax appeal board may not amend or repeal any administrative rule of the department. The state tax appeal board shall give an administrative rule full effect unless the board finds a rule arbitrary, capricious, or otherwise unlawful.

(5) The decision of the state tax appeal board is final and binding upon all interested parties unless reversed or modified by judicial review. Proceedings for judicial review of a decision of the state tax appeal board under this section are subject to the provisions of 15-2-303 and the Montana Administrative Procedure Act to the extent that it does not conflict with 15-2-303.

(6) Sections 15-6-134 and 15-7-111 may not be construed to prevent the department from implementing an order to change the valuation of property."

"15-7-102. Notice of classification and appraisal to owners -- appeals. (1) (a) The department shall mail to each owner or purchaser under contract for deed a notice of the classification of the land owned or being purchased and the appraisal of the improvements on the land only if one or more of the following changes pertaining to the land or improvements have been made since the last notice:

(i) change in ownership;

(ii) change in classification;

(iii) except as provided in subsection (1)(b), change in valuation; or

(iv) addition or subtraction of personal property affixed to the land.

(b) After the first year, the department is not required to mail the notice provided for in subsection (1)(a)(iii) if the change in valuation is the result of an annual incremental change in valuation caused by the phasing in of a reappraisal under 15-7-111 or the application of the exemption under 15-6-201 or caused by an incremental change in the tax rate.

(c) The notice must include the following for the taxpayer's informational purposes:

(i) the total amount of mills levied against the property in the prior year; and

(ii) a statement that the notice is not a tax bill.

(d) Any misinformation provided in the information required by subsection (1)(c) does not affect the validity of the notice and may not be used as a basis for a challenge of the legality of the notice.

(2) (a) Except as provided in subsection (2)(c), the department shall assign each assessment to the correct owner or purchaser under contract for deed and mail the notice of classification and appraisal on a standardized form, adopted by the department, containing sufficient information in a comprehensible manner designed to fully inform the taxpayer as to the classification and appraisal of the property and of changes over the prior tax year.

(b) The notice must advise the taxpayer that in order to be eligible for a refund of taxes from an appeal of the classification or appraisal, the taxpayer is required to pay the taxes under protest as provided in 15-1-402.

(c) The department is not required to mail the notice of classification and appraisal to a new owner or purchaser under contract for deed unless the department has received the transfer certificate from the clerk and recorder as provided in 15-7-304 and has processed the certificate before the notices required by subsection (2)(a)

are mailed. The date of mailing is the date reported to the county tax appeal board pursuant to 15-15-101.

(3) If the owner of any land and improvements is dissatisfied with the appraisal as it reflects the market value of the property as determined by the department or with the classification of the land or improvements, the owner may request an assessment review by submitting an objection in writing to the department, on forms provided by the department for that purpose, within 30 days after receiving the notice of classification and appraisal from the department. The review must be conducted informally and is not subject to the contested case procedures of the Montana Administrative Procedure Act. As a part of the review, the department may consider the actual selling price of the property, independent appraisals of the property, and other relevant information presented by the taxpayer in support of the taxpayer's opinion as to the market value of the property. The department shall give reasonable notice to the taxpayer of the time and place of the review. After the review, the department shall determine the correct appraisal and classification of the land or improvements and notify the taxpayer of its determination. In the notification, the department shall state its reasons for revising the classification or appraisal. When the proper appraisal and classification have been determined, the land must be classified and the improvements appraised in the manner ordered by the department.

(4) Whether a review as provided in subsection (3) is held or not, the department may not adjust an appraisal or classification upon the taxpayer's objection unless:

- (a) the taxpayer has submitted an objection in writing; and
- (b) the department has stated its reason in writing for making the adjustment.

(5) A taxpayer's written objection to a classification or appraisal and the department's notification to the taxpayer of its determination and the reason for that determination are public records. The department shall make the records available for inspection during regular office hours.

(6) If any property owner feels aggrieved by the classification or appraisal made by the department after the review provided for in subsection (3), the property owner has the right to first appeal to the county tax appeal board and then to the state tax appeal board, whose findings are final subject to the right of review in the courts. The appeal to the county tax appeal board must be filed within 30 days after notice of the department's determination is mailed to the taxpayer. A county tax appeal board or the state tax appeal board may consider the actual selling price of the property, independent appraisals of the property, and other relevant information presented by the taxpayer as evidence of the market value of the property. If the county tax appeal board or the state tax appeal board determines that an adjustment should be made, the department shall adjust the base value of the property in accordance with the board's order." "15-36-303. Definitions. As used in this part, the following definitions apply:

(1) "Board" means the board of oil and gas conservation provided for in 2-15-3303.

(2) "Department" means department of revenue provided for in 2-15-1301;

(3) "Enhanced recovery project" means the use of any process for the displacement of oil from the earth other than primary recovery and includes the use of an immiscible, miscible, chemical, thermal, or biological process.

(4) "Existing enhanced recovery project" means an enhanced recovery project that began development before January 1, 1994.

(5) "Expanded enhanced recovery project" or "expansion" means the addition of injection wells or production wells, the recompletion of existing wells as horizontally completed wells, the change of an injection pattern, or other operating changes to an existing enhanced recovery project that will result in the recovery of oil that would not otherwise be recovered. The project must be developed after December 31, 1993, and before January 1, 2002.

(6) "Gross taxable value", for the purpose of computing the oil and natural gas production tax, means the gross value of the product as determined in 15-36-305.

(7) "Horizontal drain hole" means that portion of a well bore with 70 degrees to 110 degrees deviation from the vertical and a horizontal projection within the common source of supply, as that term is defined by the board, that exceeds 100 feet.

(8) "Horizontally completed well" means:

(a) a well with one or more horizontal drain holes; and

(b) any other well classified by the board as a horizontally completed well.

(9) "Incremental production" means:

(a) the volume of oil produced by a new enhanced recovery project, by a well in primary recovery

HOUSE JOURNAL
EIGHTIETH LEGISLATIVE DAY - APRIL 13, 1999

recompleted as a horizontally completed well, or by an expanded enhanced recovery project, which volume of production is in excess of the production decline rate established under the conditions existing before:

- (i) the commencement of the recompletion of a well as a horizontally completed well;
- (ii) expansion of the existing enhanced recovery project; or
- (iii) commencing a new enhanced recovery project; or

(b) in the case of any project that had no taxable production prior to commencing the enhanced recovery project, all production of oil from the enhanced recovery project.

(10) "Natural gas" or "gas" means natural gas and other fluid hydrocarbons, other than oil, produced at the wellhead.

(11) "New enhanced recovery project" means an enhanced recovery project that began development after December 31, 1993, and before January 1, 2002.

(12) "Nonworking interest owner" means any interest owner who does not share in the exploration, development, and operation costs of the lease or unit, except for production taxes.

(13) "Oil" means crude petroleum or mineral oil and other hydrocarbons, regardless of gravity, that are produced at the wellhead in liquid form and that are not the result of condensation of gas after it leaves the wellhead.

(14) "Operator" or "producer" means a person who produces oil or natural gas within this state or who owns, controls, manages, leases, or operates within this state any well or wells from which any marketable oil or natural gas is extracted or produced.

(15) "Post-1985 well" means an oil or natural gas well drilled after June 30, 1985, but before January 1, 1999, other than horizontally completed or recompleted oil wells drilled after December 31, 1993, but before January 1, 1999, that produces oil or natural gas or a well that has not produced oil or natural gas during the 5 years immediately preceding the first month of qualifying as a post-1985 well.

(16) "Pre-1985 well" means an oil or natural gas well that was drilled before July 1, 1985.

(17) "Post-1999 well" means an oil or natural gas well drilled on or after January 1, 1999, that produces oil or natural gas or a well that has not produced oil or natural gas during the 5 years immediately preceding the first month of qualifying as a post-1999 well.

~~(17)~~(18) "Primary recovery" means the displacement of oil from the earth into the well bore by means of the natural pressure of the oil reservoir and includes artificial lift.

~~(18)~~(19) "Production decline rate" means the projected rate of future oil production, extrapolated by a method approved by the board, that must be determined for a project area prior to commencing a new or expanded enhanced recovery project or the recompletion of a well as a horizontally completed well. The approved production decline rate must be certified in writing to the department by the board. In that certification, the board shall identify the project area and shall specify the projected rate of future oil production by calendar year and by calendar quarter within each year. The certified rate of future oil production must be used to determine the volume of incremental production that qualifies for the tax rate imposed under 15-36-304(4)(d).

~~(19)~~(20)(a) "Qualifying production" means:

(i) the first 24 months of production of oil or natural gas from any post-1985 well drilled after March 31, 1995, but before January 1, 1999, or from a well that has not produced oil or natural gas during the 5 years immediately preceding the first month of qualifying production; ~~or~~

(ii) the first 12 months of production of oil or natural gas from a well drilled on or after January 1, 1999, or the first 18 months of production of oil or natural gas from a horizontally completed well drilled on or after January 1, 1999, or from a well that has not produced oil or natural gas during the 5 years immediately preceding the first month of qualifying production. (b) Qualifying production does not include oil production from a horizontally recompleted well.

~~(20)~~(21) "Secondary recovery project" means an enhanced recovery project, other than a tertiary recovery project, that commenced or was expanded after December 31, 1993, and before January 1, 2002, and meets each of the following requirements:

(a) The project must be certified as a secondary recovery project to the department by the board. The certification may be extended only after notice and hearing in accordance with Title 2, chapter 4.

HOUSE JOURNAL
EIGHTIETH LEGISLATIVE DAY - APRIL 13, 1999

(b) The property to be affected by the project must be adequately delineated according to the specifications required by the board.

(c) The project must involve the application of secondary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of oil that may potentially be recovered. For purposes of this part, secondary recovery methods include but are not limited to:

(i) the injection of water into the producing formation for the purposes of maintaining pressure in that formation or for the purpose of increasing the flow of oil from the producing formation to a producing well bore; or

(ii) any other method approved by the board as a secondary recovery method.

~~(21)~~(22) "Stripper exemption" means the first 3 barrels a day for petroleum and other mineral or crude oil produced by a stripper well if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than \$30 a barrel. If the price of oil is equal to or greater than \$30 a barrel in a calendar quarter, there is no stripper exemption in that quarter. The average price per barrel is computed by dividing the sum of the daily price for west Texas intermediate crude oil as reported in the Wall Street Journal for the calendar quarter by the number of days on which the price was reported in the quarter.

~~(22)~~(23) "Stripper natural gas" means the natural gas produced from any well that produces less than 60,000 cubic feet of natural gas a day during the calendar year immediately preceding the current year. Production must be determined by dividing the amount of production from a lease or unitized area for the year immediately preceding the current calendar year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365.

~~(23)~~(24) "Stripper oil" means the oil produced from any well that produces less than 10 barrels a day for the calendar year immediately preceding the current year. Production must be determined by dividing the amount of production from a lease or unitized area for the year immediately preceding the current calendar year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365.

~~(24)~~(25) "Tertiary recovery project" means an enhanced recovery project, other than a secondary recovery project, using a tertiary recovery method that meets the following requirements:

(a) The project must be certified as a tertiary recovery project to the department by the board. The certification may be extended only after notice and hearing in accordance with Title 2, chapter 4.

(b) The property to be affected by the project must be adequately delineated in the certification according to the specifications required by the board.

(c) The project must involve the application of one or more tertiary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of crude oil that may potentially be recovered. For purposes of this part, tertiary recovery methods include but are not limited to:

(i) miscible fluid displacement;

(ii) steam drive injection;

(iii) micellar/emulsion flooding;

(iv) in situ combustion;

(v) polymer augmented water flooding;

(vi) cyclic steam injection;

(vii) alkaline or caustic flooding;

(viii) carbon dioxide water flooding;

(ix) immiscible carbon dioxide displacement; or

(x) any other method approved by the board as a tertiary recovery method.

~~(25)~~(26) "Well" or "wells" means a single well or a group of wells in one field or production unit and under the control of one operator or producer.

~~(26)~~(27) "Working interest owner" means the owner of an interest in an oil or natural gas well or wells who bears any portion of the exploration, development, and operating costs of the well or wells."

~~(11)~~(12) (a) For the purpose of distribution of the oil and natural gas production taxes from pre-1985 wells, the department shall each calendar quarter adjust the unit value determined under 15-36-323 according to the ratio that the oil and natural gas production taxes from pre-1985 wells collected during the calendar quarter for which the distribution occurs plus penalties and interest on delinquent oil and natural gas production taxes from pre-1985 wells bears to the total liability for the oil and natural gas production taxes from pre-1985 wells for the quarter for which the distribution occurs. The amount of oil and natural gas production taxes distributions must be calculated and distributed as follows:

(i) By the dates referred to in subsection ~~(12)~~(13), the department shall calculate and distribute to each eligible county the amount of oil and natural gas production taxes from pre-1985 wells for the quarter, determined by multiplying the unit value, as adjusted in this subsection ~~(12)(a)~~ (12)(a), by the units of production on which oil and natural gas production taxes from pre-1985 wells were owed for the calendar quarter for which the distribution occurs.

(A) The excess amount or shortage must be divided by the total distribution determined for that period to obtain an excess or shortage percentage.

(B) The excess percentage must be multiplied by the distribution to each taxing unit, and this amount must be added to the distribution to each respective taxing unit.

(C) The shortage percentage must be multiplied by the distribution to each taxing unit, and this amount must be subtracted from the distribution to each respective taxing unit.

(b) Except as provided in subsection ~~(12)~~(13) from pre-1985 wells to the taxing units that levied mills in fiscal year 1990 against calendar year 1988 production in the same manner that all other property tax proceeds were distributed during fiscal year 1990 in the taxing unit, except that a distribution may not be made to a municipal taxing unit.

(c) The board of county commissioners of a county may direct the county treasurer to reallocate the distribution of oil and natural gas production tax money that would have gone to a taxing unit, as provided in subsection ~~(12)(b)~~ (12)(b), to another taxing unit or taxing units, other than an elementary school or high school, within the county under the following conditions:

(i) The county treasurer shall first allocate the oil and natural gas production taxes to the taxing units within the county in the same proportion that all other property tax proceeds were distributed in the county in fiscal year 1990.

(ii) If the allocation in subsection ~~(12)(c)(i)~~ (12)(c)(i) exceeds the total budget for a taxing unit, the commissioners may direct the county treasurer to allocate the excess to any taxing unit within the county.

HOUSE JOURNAL

(j) The amount of oil and natural gas production taxes remaining after the treasurer has remitted the amounts determined in subsections ~~(11)(h)~~ (12)(h) and ~~(11)(i)~~ (12)(i) is for the exclusive use and benefit of the county and school taxing units.

~~(12)(13)~~ (12)(13) The department shall remit the amounts to be distributed in subsection ~~(11)(12)~~ (12)(12) to the county treasurer by the following dates:

(c) On or before February 1 of each year, the department shall remit to the county treasurer oil and natural gas production tax payments received for the calendar quarter ending September 30 of the previous year.

(d) On or before May 1 of each year, the department shall remit to the county treasurer oil and natural gas production tax payments received for the calendar quarter ending December 31 of the previous calendar year.

~~(13)(14)~~ (13)(14) The department shall provide to each county by May 31 of each year the amount of gross taxable value represented by all types of production taxed under 15-36-304 for the previous calendar year multiplied by 60%. The resulting value must be treated as taxable value for county classification purposes and for county bonding purposes.

~~(14)(15)~~ (14)(15) (a) In the event that the board of oil and gas conservation revises the privilege and license tax pursuant to 82-11-131, the department shall, by rule, change the formula under this section for distribution of taxes collected under 15-36-304. The revised formula must provide for the distribution of taxes in an amount equal to the rate adopted by the board of oil and gas conservation for the expenses of the board.

(b) Before the department adopts a rule pursuant to subsection ~~(14)(a)~~ (15)(a), it shall present the proposed rule to the revenue oversight committee.

~~(15)(16)~~ (15)(16) The distribution to taxing units under this section is statutorily appropriated as provided in 17-7-
