(2) In accordance with 85-1-101, the department of natural resources and conservation shall coordinate

and manage the projects.

NEW SECTION. Section 6. Transfer of funds. The department of fish, wildlife, and parks and the department of transportation are authorized to transfer money appropriated in [sections 3 through 5] among fund types.

NEW SECTION. Section 7. Capital land grant revenue. (1) The appropriation of \$530,000 to the department of administration to repair the front stairs of the state capitol building consists of \$400,000 of state capitol land grant revenue and \$130,000 of federal community transportation enhancement program special revenue (CTEP). If CTEP revenue falls below this amount, the shortfall must be funded with capitol land grant revenue, if available, and the federal authority will be reduced by a like amount. The department is authorized to transfer money appropriated for this purpose between the two fund types.

(2) The appropriation of \$600,000 in capitol land grant revenue to the department of administration for capitol complex land acquisition is the last priority for use of these funds during the 2005 biennium and is dependent upon the availability of revenue. If necessary, both of these projects may be phased in as capitol land grant revenue becomes available.

NEW SECTION. Section 8. Planning and design. The department of administration may proceed with the planning and design of capital projects prior to the receipt of other funding sources. The department may use interaccount loans in accordance with 17-2-107 to pay planning and design costs incurred before the receipt of other funding sources.

NEW SECTION. Section 9. Capital projects -- contingent funds. If a capital project is financed, in whole or in part, with appropriations contingent upon the receipt of other funding sources, the department of administration may not let the projects for bid until the agency has submitted a financial plan for approval by the director of the department of administration. A financial plan may not be approved by the director if:

(1) the level of funding provided under the financial plan deviates substantially from the funding level provided in [sections 2 through 5] for that project; or

(2) the scope of the project is substantially altered or revised from the preliminary plans presented for that project in the 2005 biennium long-range building program presented to the 58th legislature.

NEW SECTION. Section 10. Review by department of environmental quality. The department of environmental quality shall review capital projects authorized in [sections 2 through 5] for potential inclusion in the state building energy conservation program under Title 90, chapter 4, part 6. When a review shows that a capital project will result in energy improvements, that project must be submitted to the energy conservation program for funding consideration. Funding provided under the energy conservation program guidelines must be used to offset or add to the authorized funding for the project, and the amount will be dependent on the annual utility savings resulting from the facility improvement. Agencies must be notified of potential funding after the review.

NEW SECTION. Section 11. Sale of old Dillon armory. The 57th legislature appropriated \$3,800,000 of federal special revenue and \$1,940,000 of bonds for construction of a new Dillon armory. All proceeds derived from the sale of the national guard armory located in Dillon must be used to pay the general obligation debt service on the bonds issued for construction of the new Dillon armory. The proceeds of the sale must be deposited in the general fund for this purpose. In the event that the facility is sold prior to issuance of the bonds, the board of examiners may use all or a portion of the amount deposited in the general fund to reduce the amount of the bond issue required to finance the construction.

NEW SECTION. Section 12. Legislative consent. The appropriations authorized in [sections 1 through 11] constitute legislative consent for the capital projects contained in [sections 1 through 11] within the meaning of 18-2-102.

NEW SECTION. Section 13. Severability. If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

NEW SECTION. Section 14. Effective date. [This act] is effective on passage and approval.
