

AN ACT APPROPRIATING MONEY TO THE DEPARTMENT OF NATURAL RESOURCES AND CONSERVATION FOR GRANTS UNDER THE RENEWABLE RESOURCE GRANT AND LOAN PROGRAM; PRIORITIZING GRANTS AND AMOUNTS; ESTABLISHING CONDITIONS FOR GRANTS; AND PROVIDING EFFECTIVE DATES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

Section 1. Appropriations from the renewable resource grant and loan state special revenue account. (1) There is appropriated to the department of natural resources and conservation \$4 million from the amount that is available in the renewable resource grant and loan state special revenue account. Up to \$220,932 of this amount is to be used for emergency projects, and \$100,000 is to be used for project planning grants to be awarded by the department over the course of the biennium.

(2) The remaining funds appropriated in this section must be awarded by the department to the named entities for the described purposes and in the described grant amounts set out in subsection (3), subject to the conditions set forth in [sections 1 through 4] and the contingencies described in the renewable resource grant and loan program January 2003 report to the 58th legislature. The legislature, pursuant to 85-1-605, approves the grants listed in subsection (3), with grants to be made in the order indicated in the prioritized list of projects and activities. Funds must be awarded up to the amounts approved in this section in order of priority until available funds are expended. Funds not accepted or used by higher-ranked projects must be provided for projects further down the priority list that would not otherwise receive funding. For each of the grant projects listed after the city of Troy project in subsection (3), grant funds may not be received until sufficient funds are available for that purpose. Any projects that are funded by the reclamation and development grants program may not be funded under [sections 1 through 4].

(3) The following are the prioritized grant projects:

(4) The department of natural resources and conservation may determine the dollar portions for each project identified with an asterisk (*).

(5) For grant projects for which the department of natural resources and conservation also has recommended a loan, the authorization for the loan is contained in House Bill No. 8.

(6) The funding provided to the projects approved in this section and identified with an asterisk (*) following the applicant's name is eligible for and may be designated for use as a nonfederal match for the federal funding required for the settlement of the Fort Belknap/Montana Water Right Compact.

(7) To the entities listed in this section, this appropriation constitutes a valid obligation of these funds for purposes of encumbering the funds within the 2005 biennium pursuant to 17-7-302.

Section 2. Condition of grants. Disbursement of funds under [sections 1 through 4] for grants is subject to the following conditions that must be met by project sponsors:

(1) approval of a scope of work and budget for the project by the department of natural resources and conservation. Changes in the project scope of work or budget that reduce the public or natural resource benefits as presented in department reports and applicant testimony to the 58th legislature will result in the proportional reduction in grant amount.

(2) documented commitment of other funds required for project completion;

(3) satisfactory completion of conditions described in the recommendation section of the project narrative in the renewable resource grant and loan program project recommendations and biennium report submitted to the 58th legislature for the 2005 biennium or, in the case of emergency applications, conditions specified at the time of written notification of approved grant authority;

(4) execution of a grant agreement with the department; and

(5) accomplishment of other specific requirements considered necessary by the department to accomplish the purpose of the grant as evidenced from the application to the department or from the proposal to the legislature.

Section 3. Conditions for grants. Notwithstanding the conditions described in [section 2], grant funds are disbursed in the order of priority listed in [section 1] as resource indemnity trust account interest income revenue is received. A project approved by [section 1] is not entitled to receive grant funds that are not collected and allocated to the renewable resource grant and loan program state special revenue account.

Section 4. Appropriations established. (1) For any entity of state government that receives a grant under [sections 1 through 3], an appropriation is established for the amount of the grant listed in [section 1(3)]. Grants to state entities from prior biennia are reauthorized for completion of contract work.

(2) Any funds in excess of the amount appropriated for grants under [sections 1 through 3] are available for appropriation for authorized purposes from the renewable resource grant and loan state special revenue account.

Section 5. Review of previously authorized grants. Recipients of renewable resource grants authorized by previous legislatures that have not completed startup conditions must be notified by the department of natural resources and conservation that the legislature, at the next regular session, will review renewable resource grants to determine if the commitment of the renewable resource grant should be withdrawn.

Section 6. Severability. If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

Section 7. Notification to tribal governments. The secretary of state shall send a copy of [this act] to each tribal government located on the seven Montana reservations and to the Little Shell band of Chippewa.

Section 8. Effective dates. (1) [Sections 2 through 7 and this section] are effective on passage and approval.

(2) [Section 1] is effective July 1, 2003.
