BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

Section 1. Section 85-2-302, MCA, is amended to read:

(2) The department shall adopt rules that are necessary to determine whether or not an application is correct and complete, based on the provisions applicable to issuance of a permit under this part. The rules must be adopted in compliance with Title 2, chapter 4.

(3) The application must be made on a form prescribed by the department. The department shall make the forms available through its offices.

(4) The applicant shall submit a correct and complete application. The determination of whether an application is correct and complete must be based on rules adopted under subsection (2) that are in effect at the time the application is submitted.

(5) The department shall notify the applicant of any defects in an application within 180 days. The defects must be identified by reference to the rules adopted under subsection (2). If the department does not notify the applicant of any defects within 180 days, the application must be treated as a correct and complete application.

(6) An application does not lose priority of filing because of defects if the application is corrected or completed within 30 days of the date of notification of the defects or within a further time as the department may allow, but not to exceed 90 days from the date of notification. If an application is made correct and complete after

the mandated time period, but within 90 days of the date of notification of the defects, the priority date of the application is the date the application is made correct and complete.

(3) A person has standing to file an objection under this section if the property, water rights, or interests of the objector would be adversely affected by the proposed appropriation.

(4) For an application for a reservation of water, the objection must state the name and address of the objector and facts indicating that one or more of the criteria in 85-2-316 are not met.

(5) An objector to an application under this chapter shall file a correct and complete objection on a form prescribed by the department within the time period stated on the public notice associated with the application. In order to assist both applicants and objectors, the department shall adopt rules in accordance with this chapter delineating the components of a correct and complete objection. The department shall notify the objector of any defects in an objection. An objection not corrected or completed within 15 days from the date of notification of the defects is terminated.

(6) An objection is valid if the objector has standing pursuant to subsection (3), has filed a correct and complete objection within the prescribed time period, and has stated the applicable information required under ~~subsection (1), (2), or (4)~~ this section and rules of the department."
