BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

~~NEW SECTION. Section 1. Homestead.~~ (1) "Homestead", for the purposes of property taxation, means the owner-occupied dwelling used as the primary dwelling place of the owner. The primary dwelling place is the single place where an individual has a fixed and permanent home and principal establishment and to which whenever the individual is absent the individual has the intention of returning. The homestead may be occupied by any members of the owner's household as their home. The homestead includes appurtenant land not exceeding 5 acres owned or under contract for deed and that is reasonably necessary for the use of the dwelling as a home.

~~(2) (a) To qualify as a homestead, the property must be the owner's primary dwelling place on January 1 of the year for which the claim is made and at least 7 months during the prior year. If the dwelling was owned by the claimant for less than 1 year, the claimant must have resided in the dwelling for a majority of the time that the claimant owned the dwelling.~~

~~(b) A primary dwelling that qualified as a homestead continues to qualify as a homestead if the claimant resides in a health care facility and the owner does not rent or lease the dwelling to others.~~

~~(3) The owner of a homestead and other residential dwellings may elect to have the homestead exemption apply to the homestead or any one of the other residential dwellings. The homestead exemption may not apply to a dwelling that the owner rents or leases to others.~~

NEW SECTION. Section 1. Extended property tax assistance -- phasein. (1) For the purpose of mitigating extraordinary market value increases during the revaluation cycle that ended December 31, 2002, the rate of taxation of class four ~~homestead residential property~~ DWELLINGS AND APPURTENANT LAND NOT TO EXCEED 5 ACRES otherwise set in 15-6-134(2)(a) is adjusted in this section for properties with extraordinary increases in market value ~~occupied by households~~ WITH OWNERS that meet income requirements.

(2) An annual application is required to receive a rate adjustment under this section. A rate adjustment may be granted only for the current tax year and may not be granted for a previous year.

(3) A rate adjustment may not be granted for:

(a) any property that was sold or for which the ownership was changed after December 31, 2002, unless the change in ownership is between husband and wife or parent and child with only nominal actual consideration or the change is pursuant to a divorce decree;

(b) the value of new construction, including remodeling, on the property occurring after December 31, 2002, that is greater than 25% of the market value of the improvements; or

(c) a land use change that increases the market value of the land by more than 25%.

(4) For the purposes of determining the adjustment in the class four property tax rate in this section, the following provisions apply:

(a) The change in taxable value before reappraisal is the 2002 tax year value adjusted for any new construction or destruction that occurred in the prior year. The taxable value before reappraisal for the 2003 tax year and subsequent years is the same as the 2002 tax year value if no new construction, destruction, land splits, land use changes, land reclassifications, land productivity changes, improvement grade changes, or other changes are made to the property during 2002 or subsequent tax years.

(b) The percentage increase in taxable value is measured as the percentage change in taxable value before reappraisal to the taxable value after reappraisal. The taxable value before reappraisal is calculated by multiplying the value before reappraisal in 2003 times 0.69 times 0.0346. The taxable value after reappraisal is calculated by multiplying the 2003 market value after reappraisal times 0.52 times 0.0300.

(c) The dollar increase in tax liability is measured as the change in tax liability before reappraisal to the tax liability after reappraisal. The tax liability before reappraisal is calculated by multiplying the value before reappraisal in 2003 times 0.69 times 0.0346 times the tax year 2002 mill levy applied to the property. The taxable value after reappraisal is calculated by multiplying the 2003 market value after reappraisal times 0.52 times 0.0300 times the tax year 2002 mill levy applied to the property. The tax year 2002 mill levy is the total of all mills applied to the property for fiscal year 2003.

(d) Total household income is income from all sources, including net business income and otherwise tax-exempt income of all types but not including social security income paid directly to a nursing home. Net business income is gross income less ordinary expenses. A household is an association of persons who live in the same dwelling, sharing its furnishings, facilities, accommodations, and expenses. FOR SINGLE-FAMILY RENTAL DWELLINGS, THE TOTAL HOUSEHOLD INCOME IS THE OWNER'S INCOME.

(e) The phase-in value is the valuation change made pursuant to 15-7-111(3) since the last reappraisal.

(5) (a) If total household income is \$25,000 or less, the percentage increase in taxable value is greater than 25%, and the dollar increase in taxable liability is \$250 or greater, then the property qualifies for an adjusted tax rate as follows:

(i) For tax year 2003, the tax rate is 0.03706 times the value before reappraisal divided by the 2003 phase-in value.

(ii) For tax year 2004, the tax rate is 0.04041 times the value before reappraisal divided by the 2004 phase-in value.

(iii) For tax year 2005, the tax rate is 0.04398 times the value before reappraisal divided by the 2005 phase-in value.

(iv) For tax year 2006, the tax rate is 0.04783 times the value before reappraisal divided by the 2006 phase-in value.

(v) For tax year 2007, the tax rate is 0.05218 times the value before reappraisal divided by the 2007 phase-in value.

(vi) For tax year 2008 and after, the tax rate is 0.05693 times the value before reappraisal divided by the 2008 phase-in value.

(b) If total household income is greater than \$25,000 but less than or equal to \$50,000, the percentage increase in taxable value is greater than 30%, and the dollar increase in taxable liability is \$250 or greater, then the property qualifies for an adjusted tax rate as follows:

(i) For tax year 2003, the tax rate is 0.03741 times the value before reappraisal divided by the 2003

phase-in value.

(ii) For tax year 2004, the tax rate is 0.04116 times the value before reappraisal divided by the 2004 phase-in value.

(iii) For tax year 2005, the tax rate is 0.04516 times the value before reappraisal divided by the 2005 phase-in value.

(iv) For tax year 2006, the tax rate is 0.04948 times the value before reappraisal divided by the 2006 phase-in value.

(v) For tax year 2007, the tax rate is 0.05436 times the value before reappraisal divided by the 2007 phase-in value.

(vi) For tax year 2008 and after, the tax rate is 0.05969 times the value before reappraisal divided by the 2008 phase-in value.

(c) If total household income is greater than \$50,000 but less than or equal to \$75,000, the percentage increase in taxable value is greater than 36%, and the dollar increase in taxable liability is \$250 or greater, then the property qualifies for an adjusted tax rate as follows:

(i) For tax year 2003, the tax rate is 0.03777 times the value before reappraisal divided by the 2003 phase-in value.

(ii) For tax year 2004, the tax rate is 0.04191 times the value before reappraisal divided by the 2004 phase-in value.

(iii) For tax year 2005, the tax rate is 0.04633 times the value before reappraisal divided by the 2005 phase-in value.

(iv) For tax year 2006, the tax rate is 0.05113 times the value before reappraisal divided by the 2006 phase-in value.

(v) For tax year 2007, the tax rate is 0.05653 times the value before reappraisal divided by the 2007 phase-in value.

(vi) For tax year 2008 and after, the tax rate is 0.06244 times the value before reappraisal divided by the 2008 phase-in value.

(d) The adjusted tax rate computed under this subsection (5) must be rounded to the nearest one-hundredth of 1%.
