(1) (a) If the alcohol was produced in Montana from Montana agricultural products, including Montana wood or wood products, or if the alcohol was produced from non-Montana agricultural products when Montana products are not available, there is a tax incentive payable to alcohol distributors for distilling alcohol that:

(i) is to be blended with gasoline for sale as gasohol in Montana;

(ii) was exported from Montana to be blended with gasoline for sale as gasohol; or

(b) Payment must be made by the department out of the amount collected under 15-70-204.

(2) Except as provided in subsections (3) and (4), the tax incentive on each gallon of alcohol distilled in accordance with subsection (1) is 30 20 cents a gallon for each gallon that is 100% produced from Montana products, with the amount of the tax incentive for each gallon reduced proportionately, based upon the amount of agricultural or wood products not produced in Montana that is used in the production of the alcohol. ~~Beginning July 1, 2010, there is no tax incentive. The tax incentive is available to a facility for the first 6 years from the date that the facility begins production. (3) Regardless of the alcohol tax incentive provided in subsection (2);:

(a) the total payments made for the incentive under this part may not exceed \$6 million in any consecutive 12-month period;

(b) a plant or facility is not eligible to receive the tax incentive unless the facility paid the standard prevailing rate of wages for heavy construction, as provided in 18-2-401(13)(a), during the construction phase; and

(c) an alcohol distributor is not eligible to receive the tax incentive unless at least:

(i) 20% Montana product is used to produce alcohol at the facility in the first year of production;

(ii) 25% Montana product is used to produce alcohol at the facility in the second year of production;

(iii) 35% Montana product is used to produce alcohol at the facility in the third year of production;

(iv) 45% Montana product is used to produce alcohol at the facility in the fourth year of production;

(v) 55% Montana product is used to produce alcohol at the facility in the fifth year of production; and

(vi) 65% Montana product is used to produce alcohol at the facility in the sixth year of production.

(4) (a) An alcohol distributor may not receive tax incentive payments under subsection (2) that exceed \$3 \$2 million in any consecutive 12-month period. Subject to subsections (5) and (6), an alcohol distributor may receive tax incentive payments commencing the first quarter after a facility begins production. The distributor shall report its production to the department pursuant to 15-70-205.

(b) The distributor's report must include:

(i) the total number of gallons produced for the month;

(ii) the total amount of products purchased for the production of alcohol;

(iii) the percentage of the total amount of products purchased that are Montana products; and

(iv) other information that the department determines is necessary.

~~(5) An alcohol distributor may not receive tax incentive payments under subsection (2) unless the distributor has provided a written business plan to the department of transportation at least 24 months before the distributor's anticipated collection of the tax incentives and has complied with the schedule provided for in subsection (6). The plan must contain the following information:~~

~~———— (a) the source or sources of financing for the acquisition of the plant, land, and equipment used for the production of alcohol for use in gasohol;~~

~~———— (b) the anticipated source of agricultural products used in the production of alcohol for use in gasohol; and~~

~~———— (c) the anticipated time, quantity, and duration of production of alcohol for use in gasohol.~~

~~(6) An applicant that has provided the department with a written business plan shall meet the following schedule to be able to receive alcohol tax incentive payments:~~

"17-6-317. Participation by private financial institutions -- rulemaking. (1) (a) The board may jointly participate with private financial institutions in making loans to a business enterprise if the loan will:

(i) result in the creation of a business estimated to employ at least 10 people in Montana on a permanent, full-time basis;

(ii) result in the expansion of a business estimated to employ at least an additional 10 people in Montana on a permanent, full-time basis; or

(iii) prevent the elimination of the jobs of at least 10 Montana residents who are permanent, full-time employees of the business.

(b) Loans under this section may be made only to business enterprises that are producing or will produce value-added products or commodities.

(c) A loan made pursuant to this section does not qualify for a job credit interest rate reduction under 17-6-318.

(2) A loan made pursuant to this section may not exceed 1% of the coal severance tax permanent fund and must comply with each of the following requirements:

(a) (i) The business enterprise seeking a loan must have a cash equity position equal to at least 25% of the total loan amount.

(ii) A participating private financial institution may not require the business to have an equity position greater than 50% of the total loan amount.

(iii) If additional security or guarantees, exclusive of federal guarantees, are required to cover a participating private financial institution, then the additional security or guarantees must be proportional to the amount loaned by all participants, including the board of investments.

(b) The board shall provide 75% of the total loan amount.

(c) The term of the loan may not exceed 15 years.

(d) The board shall charge interest at the following annual rate:

(i) 2% for the first 5 years if 15 or more jobs are created or retained;

(ii) 4% for the first 5 years if 10 to 14 jobs are created or retained;

(iii) 6% for the second 5 years; and

(iv) the board's posted interest rate for the third 5 years, but not to exceed 10% a year.

(e) (i) The interest rates in subsections (2)(d)(i) and (2)(d)(ii) become effective when the board receives certification that the required number of jobs has been created or as provided in subsection (2)(e)(ii). If the board disburses loan proceeds prior to creation of the required jobs, the loan must bear interest at the board's posted rate.

(ii) In establishing interest rates under subsections (2)(d)(i) and (2)(d)(ii) for preventing the elimination of jobs, the board shall require the submission of financial data that allows the board to determine if the loan and interest rate will in fact prevent the elimination of jobs.

(f) If a business entitled to the interest rate in subsection (2)(d)(i) or (2)(d)(ii) reduces the number of required jobs, the board may apply a graduated scale to increase the interest rate, not to exceed the board's posted rate.

(g) For purposes of calculating job creation or retention requirements, the board shall use the average weekly salary, as defined in 39-71-116, multiplied by the number of jobs required. This calculated number is the minimum aggregate salary threshold that is required to be eligible for a reduced interest rate. If individual jobs created pay less than the average weekly salary, the borrower shall create more jobs to meet the minimum aggregate salary threshold. If fewer

jobs are created or retained than required in subsection (2)(d)(i) or (2)(d)(ii) but aggregate salaries meet the minimum aggregate salary threshold, the borrower is eligible for the reduced interest rate. A job paying less than the minimum wage, provided for in 39-3-409, may not be included in the required number of jobs.

(h) (i) A participating private financial institution may charge interest in an amount equal to the national prime interest rate, adjusted on January 1 of each year, but the interest rate may not be less than 6% or greater than 12%.

(ii) At the borrower's discretion, the borrower may request the lead lender to change this prime rate to an adjustable or fixed rate on terms acceptable to the borrower and lender.

(iii) A participating private financial institution, or lead private financial institution if more than one is participating, may charge a 0.5% annual service fee.

(i) The business enterprise may not be charged a loan prepayment penalty.

(j) The loan agreement must contain provisions providing for pro rata lien priority and pro rata liquidation provisions based upon the loan percentage of the board and each participating private lender.

(3) If a portion of a loan made pursuant to this section is for construction, disbursement of that portion of the loan must be made based upon the percentage of completion to ensure that the construction portion of the loan is advanced prior to completion of the project.

(4) A private financial institution shall participate in a loan made pursuant to this section to the extent of 85% of its lending limit or 25% of the loan, whichever is less. However, the board's participation in the loan must be 75% of the loan amount.

(5) (a) ~~★~~ Except as provided in subsection (5)(b), a business enterprise receiving a loan under the provisions of this section may not pay bonuses or dividends to investors until the loan has been paid off, except that incentives may be paid to employees for achieving performance standards or goals.

(b) A business enterprise for the production of alcohol to be used as provided in Title 15, chapter 70, part 5, may pay dividends to investors and bonuses to employees if the business enterprise is current on its loan payments and has available funds equal to at least 15% of the outstanding principal balance of the loan.

(6) The board may adopt rules that it considers necessary to implement this section.""
