(3) (a) An individual taxpayer who purchases biodiesel or biodiesel blend from biodiesel producers or biodiesel distributors or at retail for use in the taxpayer's diesel vehicles and equipment after December 31, 2007, is entitled to claim a tax credit against taxes imposed by this chapter.

(b) (i) Except as provided in subsection (3)(b)(ii), the maximum credit that a taxpayer may claim in a year under this section is an amount equal to the cost of the biodiesel or biodiesel blend purchased, not to exceed \$500.

(ii) The credit is nonrefundable and may not exceed the amount of the individual's tax liability. The credit may not be carried forward or carried back.

(d) for a biodiesel blend that contains at least 20% biodiesel but less than 100%, the credit is equal to 0.2 times the total cost of the diesel fuel purchased;

(e) for biodiesel that meets the requirements of 15-70-301(2), the credit is equal to the total cost of the diesel fuel purchased.

(5) A taxpayer shall keep records of biodiesel and biodiesel blend purchases in order to substantiate the claimed tax credit.

(b) The credit may be claimed only by a corporation, a small business corporation, a partnership, or a limited liability company that employs fewer than 16 employees.

(2) If the credit allowed under this section is claimed, the amount of the deduction allowed or allowable under this chapter for the amount that qualifies for the credit must be reduced by the dollar amount of the credit allowed.

(3) The credit must be attributed to shareholders, partners, or members of a limited liability company in the same proportion used to report the corporation's, partnership's, or limited liability company's income or loss for Montana income tax purposes.
