For purposes of establishing the present law base, the distinction between new proposals and the adjustments to the base budget to develop the present law base is to be determined by the existence of constitutional or statutory requirements for the proposed expenditure. Any proposed increase or decrease that is not based on those requirements is considered a new proposal.

(10) (a) "Present law base" means, subject to subsection (10)(b), that level of funding needed under present law to maintain operations and services at the level authorized by the previous legislature, including but not limited to:

- (b)(ii) changes in funding requirements resulting from constitutional or statutory schedules or formulas;
- (c)(iii) inflationary or deflationary adjustments; and
- (d)(iv) elimination of nonrecurring appropriations.

(b) For the budget for the 2011 legislative session, present law base must be adjusted by reducing general fund budgets by the equivalent of that portion of the 2% across-the-board reduction assessed by the 61st legislature on selected agencies that was allocated by those agencies to personal services in the 2011 biennium. The director of the governor's office of budget and program planning and the legislative fiscal analyst shall agree on a mechanism for determining how agencies have allocated this reduction.

(11) "Program" means a principal organizational or budgetary unit within an agency.

(12) "Requesting agency" means the agency of state government that has requested a specific budget amendment.

(13) "University system unit" means the board of regents of higher education; office of the commissioner of higher education; university of Montana, with campuses at Missoula, Butte, Dillon, and Helena; Montana state university, with campuses at Bozeman, Billings, Havre, and Great Falls; the agricultural experiment station, with central offices at Bozeman; the forest and conservation experiment station, with central offices at Missoula; the cooperative extension service, with central offices at Bozeman; the bureau of mines and geology, with central offices at Butte; the fire services training school at Great Falls; and the community colleges at Miles City, Glendive, and Kalispell. Any proposed increase or decrease that is not based on those requirements is considered a new proposal.

(10) "Present law base" means that level of funding needed under present law to maintain operations and services at the level authorized by the previous legislature, including but not limited to:

"17-7-111. Preparation of state budget -- agency program budgets -- form distribution and contents. (1) (a) To prepare a state budget, the executive branch, the legislature, and the citizens of the state need information that is consistent and accurate. Necessary information includes detailed disbursements by fund type for each agency and program for the appropriate time period, recommendations for creating a balanced budget, and recommended disbursements and estimated receipts by fund type and fund category.

(b) Subject to the requirements of this chapter, the budget director and the legislative fiscal analyst shall by agreement:

(i) establish necessary standards, formats, and other matters necessary to share information between the agencies and to ensure that information is consistent and accurate for the preparation of the state's budget; and

(ii) provide for the collection and provision of budgetary and financial information that is in addition to or different from the information otherwise required to be provided pursuant to this section.

(2) In the preparation of a state budget, the budget director shall, not later than the date specified in 17-7-112(1), distribute to all agencies the proper forms and instructions necessary for the preparation of budget estimates by the budget director. These forms must be prescribed by the budget director to procure the information required by subsection (3). The forms must be submitted to the budget director by the date provided in 17-7-112(2)(a) or the agency's budget is subject to preparation based upon estimates as provided in 17-7-112(5). The budget director may refuse to accept forms that do not comply with the provisions of this section or the instructions given for completing the forms.

(3) ~~The Subject to subsection~~ SUBSECTIONS (7) AND (8), the agency budget request must set forth a balanced financial plan for the agency completing the forms for each fiscal year of the ensuing biennium. The plan

must consist of:

(a) a consolidated agency budget summary of funds subject to appropriation or enterprise funds that transfer profits to the general fund or to an account subject to appropriation for the current base budget expenditures, including statutory appropriations, and for each present law adjustment and new proposal request setting forth the aggregate figures of the full-time equivalent personnel positions (FTE) and the budget, showing a balance between the total proposed disbursements and the total anticipated receipts, together with the other means of financing the budget for each fiscal year of the ensuing biennium, contrasted with the corresponding figures for the last-completed fiscal year and the fiscal year in progress;

(b) a schedule of the actual and projected receipts, disbursements, and solvency of each fund for the current biennium and estimated for the subsequent biennium;

(c) a statement of the agency mission and a statement of goals and objectives for each program of the agency. The goals and objectives must include, in a concise form, sufficient specific information and quantifiable information to enable the legislature to formulate an appropriations policy regarding the agency and its programs and to allow a determination, at some future date, on whether the agency has succeeded in attaining its goals and objectives.

(d) actual FTE and disbursements for the completed fiscal year of the current biennium, estimated FTE and disbursements for the current fiscal year, and the agency's request for the ensuing biennium, by program;

(e) actual disbursements for the completed fiscal year of the current biennium, estimated disbursements for the current fiscal year, and the agency's recommendations for the ensuing biennium, by disbursement category;

(f) for only agencies with more than 20 FTE, a plan to reduce the proposed base budget for the general appropriations act and the proposed state pay plan to 95% of the current base budget or lower if directed by the budget director. Each agency plan must include base budget reductions that reflect the required percentage reduction by fund type for the general fund and state special revenue fund types. Exempt from the calculations of the 5% target amounts are legislative audit costs, administratively attached entities that hire their own staff under 2-15-121, and state special revenue accounts that do not transfer their investment earnings or fund balances to the general fund. The plan must include:

(i) a prioritized list of services that would be eliminated or reduced;

(ii) for each service included in the prioritized list, the savings that would result from the elimination or reduction; and

(iii) the consequences or impacts of the proposed elimination or reduction of each service.

(g) a reference for each new information technology proposal stating whether the new proposal is included in the approved agency information technology plan as required in 2-17-523; and

(h) other information the budget director feels is necessary for the preparation of a budget.

(4) The budget director shall prepare and submit to the legislative fiscal analyst in accordance with 17-7-112:

(b) a statewide project budget summary as provided in 2-17-526;

(c) the proposed pay plan schedule for all executive branch employees at the program level by fund, with the specific cost and funding recommendations for each agency. Submission of a pay plan schedule under this subsection is not an unfair labor practice under 39-31-401.

(d) agency proposals for the use of cultural and aesthetic project grants under Title 22, chapter 2, part 3, the renewable resource grant and loan program under Title 85, chapter 1, part 6, the reclamation and development grants program under Title 90, chapter 2, part 11, and the treasure state endowment program under Title 90, chapter 6, part 7.

(5) The board of regents shall submit, with its budget request for each university unit in accordance with 17-7-112, a report on the university system bonded indebtedness and related finances as provided in this subsection (5). The report must include the following information for each year of the biennium, contrasted with the same information for the last-completed fiscal year and the fiscal year in progress:

(a) a schedule of estimated total bonded indebtedness for each university unit by bond indenture;

(b) a schedule of estimated revenue, expenditures, and fund balances by fiscal year for each outstanding bond indenture, clearly delineating the accounts relating to each indenture and the minimum legal funding requirements for each bond indenture; and

(c) a schedule showing the total funds available from each bond indenture and its associated accounts, with a list of commitments and planned expenditures from such accounts, itemized by revenue source and project for each year of the current and ensuing bienniums.

(6) (a) The department of revenue shall make Montana individual income tax information available by removing names, addresses, and social security numbers and substituting in their place a state accounting record identifier number. Except for the purposes of complying with federal law, the department may not alter the data in any other way.

(b) The department of revenue shall provide the name and address of a taxpayer on written request of

the budget director when the values on the requested return, including estimated payments, are considered necessary by the budget director to properly analyze state revenue and are of a sufficient magnitude to materially affect the analysis and when the identity of the taxpayer is necessary to evaluate the effect of the return or payments on the analysis being performed.

(7) (a) The department of public health and human services' budget request for the 2013 biennium must identify changes necessary to reduce the 2013 biennium expenditures to the level funded in the general appropriations act. The department may include changes such as reducing administrative costs, developing more cost-efficient methods to deliver services, limiting the number of medicaid services that adults may receive, changing medicaid services included in the Montana medicaid state plan, changing eligibility or level-of-care requirements for medicaid waiver services, limiting or changing services that are fully state-funded, or implementing other initiatives that reduce state funds. Achieving the necessary general fund reduction in the 2013 biennium budget request may not include shifting costs to state special revenue funds.

(b) The department of public health and human services shall prepare a work plan with goals, milestones, and measures to guide its review of alternatives to identify, evaluate, and select initiatives to reduce ongoing state spending in its 2013 biennium budget submission. The department shall submit the work plan, goals, milestones, and measures to the legislative finance committee at its first meeting after the adjournment of the 2009 legislative session for its review and comment. The department shall provide an update of its budget reduction for review and comment at each legislative finance committee meeting in a format developed with and agreed upon by the committee.
