 19 owned wild buffalo or wild bison from a herd that is infected with a dangerous disease enters the state of Montana
 20 on public or private land and the disease may spread to persons or livestock or whenever the presence of wild
 21 buffalo or wild bison may jeopardize Montana's compliance with other state-administered or federally
 22 administered livestock disease control programs, the department may, under a plan approved by the governor,
 23 use any feasible method in taking one or more of the following actions:

24 (a) The live wild buffalo or wild bison may be physically removed by the safest and most expeditious
 25 means from within the state boundaries, including but not limited to hazing and aversion tactics or capture,
 26 transportation, quarantine, or delivery to a department-approved slaughterhouse.

27 (b) The live wild buffalo or wild bison may be destroyed by the use of firearms. If a firearm cannot be
 28 used for reasons of public safety or regard for public or private property, the animal may be relocated to a place
 29 that is free from public or private hazards and destroyed by firearms or by a humane means of euthanasia.

30 (c) The live wild buffalo or wild bison may be taken through limited public hunts pursuant to 87-2-730

9 program. The department may adopt rules consistent with this section governing tribal participation in the program
10 or enter into cooperative agreements with tribal organizations for the purposes of carrying out the disease control
11 program.

12 (e) Proceeds from the sale of live, brucellosis-free, vaccinated wild buffalo or wild bison must be
13 deposited in the state special revenue fund to the credit of the department.

14 (f) Any revenue generated in excess of the costs referred to in subsection (1)(d)(i) must be deposited
15 in the state special revenue fund provided for in 87-1-513(2).

16 (2) Whenever the department is responsible for the death of a wild buffalo or wild bison, either
17 purposefully or unintentionally, the carcass of the animal must be disposed of by the most economical means,
18 including but not limited to burying, incineration, rendering, or field dressing for donation or delivery to a
19 department-approved slaughterhouse or slaughter destination.

20 (3) In disposing of the carcass, the department:

21 (a) as first priority, may donate a wild buffalo or wild bison carcass to a charity or to an Indian tribal
22 organization; or
