25 **"23-1-126. (Temporary) Good neighbor policy -- public recreational land.** (1) The good neighbor

2 (2) In order to implement the good neighbor policy expeditiously, the legislature finds it necessary to  
3 require the department of fish, wildlife, and parks to place maintenance as a priority:

4 (a) over additional development at all state parks and fishing access sites; ~~and~~

5 (b) on recreational land or water acquired pursuant to 87-1-209 for public hunting, fishing, trapping, or  
6 outdoor recreation; and

7 (c) over additional land acquisition.

22 litter, noise and light pollution, streambank erosion, and loss of privacy.~~

23 ~~————— (2) In order to implement the good neighbor policy expeditiously, the legislature finds it necessary to  
24 require the department of fish, wildlife, and parks to place maintenance as a priority over additional development  
25 at all state parks and fishing access sites.~~

26 ~~————— (3) The restriction in subsection (2) does not apply to:~~

27 ~~————— (a) development and improvement projects for which the legislature has appropriated funds prior to

10 **Section 3.** Section 87-1-209, MCA, is amended to read:

11 **"87-1-209. (Temporary) Acquisition and sale of land or water.** (1) Subject to 87-1-218, the  
 12 department, with the consent of the commission and, in the case of land acquisition involving more than 100  
 13 acres or \$100,000 in value, the approval of the board of land commissioners, may acquire by purchase, lease,  
 14 agreement, gift, or devise and may acquire easements upon land or water for the purposes listed in this  
 15 subsection. Any acquisition of land or water rights for purposes of this subsection, except that portion of  
 16 acquisitions made with funds provided under 87-1-242(1), must include an additional 20% above the purchase  
 17 price to be used for maintenance of land or water acquired by the department. The additional amount above the  
 18 purchase price or \$300,000, whichever is less, must be deposited in the account established in 87-1-230. As used  
 19 in this subsection, "maintenance" means that term as defined in and consistent with the good neighbor policy in  
 20 23-1-127(2). The department may develop, operate, and maintain acquired land or water rights:

- 21 (a) for fish hatcheries or nursery ponds;  
 22 (b) as land or water suitable for game, bird, fish, or fur-bearing animal restoration, propagation, or  
 23 protection;  
 24 (c) for public hunting, fishing, or trapping areas;  
 25 (d) to capture, propagate, transport, buy, sell, or exchange any game, birds, fish, fish eggs, or fur-bearing  
 26 animals needed for propagation or stocking purposes or to exercise control measures of undesirable species;  
 27 (e) for state parks and outdoor recreation;  
 28 (f) to extend and consolidate by exchange, land or water rights suitable for these purposes.

29 (2) The department, with the consent of the commission, may acquire by condemnation, as provided in  
 30 Title 70, chapter 30, land or structures for the preservation of historical or archaeological sites that are threatened

1 with destruction or alteration.

2 (3) (a) Subject to section 2(3), Chapter 560, Laws of 2005, the department, with the consent of the  
3 commission, may dispose of land and water rights acquired by it on those terms after public notice as required  
4 by subsection (3)(b) of this section, without regard to other laws that provide for sale or disposal of state land and  
5 with or without reservation, as it considers necessary and advisable. The department, with the consent of the  
6 commission, may convey department land and water rights for full market value to other governmental entities  
7 or to adjacent landowners without regard to the requirements of subsection (3)(b) or (3)(c) if the land is less than  
8 10 acres or if the full market value of the interest to be conveyed is less than \$20,000. When the department  
9 conveys land or water rights to another governmental entity or to an adjacent landowner pursuant to this  
10 subsection, the department, in addition to giving notice pursuant to subsection (3)(b), shall give notice by mail  
11 to the landowners whose property adjoins the department property being conveyed.

12 (b) Subject to section 2(3), Chapter 560, Laws of 2005, notice of sale describing the land or water rights  
13 to be disposed of must be published once a week for 3 successive weeks in a newspaper with general circulation  
14 printed and published in the county where the land or water right is situated or, if a newspaper is not published  
15 in that county, then in any newspaper with general circulation in that county.

16 (c) The notice must advertise for cash bids to be presented to the director within 60 days from the date  
17 of the first publication. Each bid must be accompanied by a cashier's check or cash deposit in an amount equal  
18 to 10% of the amount bid. The highest bid must be accepted upon payment of the balance due within 10 days  
19 after mailing notice by certified mail to the highest bidder. If that bidder defaults on payment of the balance due,  
20 then the next highest bidders must be similarly notified in succession until a sale is completed. Deposits must be  
21 returned to the unsuccessful bidders except bidders defaulting after notification.

22 (d) The department shall reserve the right to reject any bids that do not equal or exceed the full market  
23 value of the land or water right as determined by the department. If the department does not receive a bid that  
24 equals or exceeds fair market value, it may then sell the land or water rights at private sale. The price accepted  
25 on any private sale must exceed the highest bid rejected in the bid process.

26 (e) When spending money from the sale or disposal of land or water rights pursuant to this subsection  
27 (3), the department shall, as a first option, use the money for maintenance of other land or water in the  
28 department's possession before using the money to acquire additional land or water rights.

29 (4) When necessary and advisable for the management and use of department property, the director  
30 is authorized to grant or acquire from willing sellers right-of-way easements for purposes of utilities, roads,

 2 acquired is less than \$20,000. Whenever possible, easements must include a weed management plan. Approval

 4 right-of-way pursuant to this subsection, the department shall obtain a fair market value, but the department is  
 5 not otherwise required to follow the disposal requirements of subsection (3). The director shall report any  
 6 easement grant or acquisition made pursuant to this subsection to the commission at its next regular meeting.

7 (5) The department shall convey land and water rights without covenants of warranty by deed executed  
 8 by the governor or in the governor's absence or disability by the lieutenant governor, attested by the secretary  
 9 of state and further countersigned by the director.

 11 installment contract method to facilitate the acquisition of wildlife management areas in which game and nongame  
 12 fur-bearing animals and game and nongame birds may breed and replenish and areas that provide access to  
 13 fishing sites for the public. The total cost of installment contracts may not exceed the cost of purchases authorized  
 14 by the department and appropriated by the legislature.
