NEW SECTION. Section 7. Duties of commission for oversight of authorizer. (1) The commission shall establish a statewide formula for authorizer funding, to be applied uniformly to every authorizer in the state.
Authorizer funding is financed through an oversight fee.

(2) The oversight fee must be calculated as a uniform percentage of the average enrollment operational funding allocated to each public charter school and is to be paid from the public charter school’s budget share of the per-pupil funding, not to exceed 2% of each public charter school’s state per-pupil funding in a single school year.

(3) The commission may establish a sliding scale for authorizer funding, with the funding percentage decreasing after the authorizer has achieved a certain threshold after a certain number of years of authorizing, after a certain number of schools have been authorized, or for other reasons determined at the discretion of the commission.

(4) An authorizer’s oversight fee may not include any costs incurred in delivering services that a public charter school may purchase at its discretion from the authorizer. The authorizer shall use the funding provided under this section exclusively for the purpose of fulfilling authorizing obligations in accordance with [sections 1 through 18].

(5) The commission is responsible for overseeing the performance and effectiveness of all authorizers established under [sections 1 through 18].

(6) The commission shall annually review the effectiveness of the state formula for authorizer funding and shall adjust the formula if necessary to maximize public benefit and strengthen the implementation of [sections 1 through 18].

(8) Persistently unsatisfactory performance of an authorizer’s portfolio of public charter schools, a pattern of well-founded complaints about the authorizer or its public charter schools, or other objective circumstances may trigger a special review by the commission.

(9) In reviewing or evaluating the performance of authorizers, the commission shall apply nationally recognized principles and standards for charter authorizing.

(10) If at any time the commission finds that an authorizer is not in compliance with an existing charter contract, its authorizing contract with the commission, or the requirements of authorizers under [sections 1 through 18], the commission shall notify the authorizer in writing of the identified problems and shall provide the authorizer reasonable opportunity to respond and remedy the problems.

(11) If an authorizer fails to respond and remedy the problems identified by the commission, the
commission shall notify the authorizer, within a reasonable amount of time under the circumstances, that it intends to revoke the authorizer's chartering authority unless the authorizer demonstrates a timely and satisfactory remedy for the violation or deficiencies.

(12) In the event of revocation of an authorizer's chartering authority, the commission shall manage the timely and orderly transfer of each charter contract held by that authorizer to another authorizer in the state, with the mutual agreement of each affected public charter school and proposed new authorizer. The new authorizer shall assume the existing charter contract for the remainder of the charter term.

(13) On or before December 1 of each year, beginning in the first year that public charter schools have been in operation for a full school year, the commission shall issue to the governor, the legislative auditor, the EDUCATION AND LOCAL GOVERNMENT INTERIM COMMITTEE, and the public an annual report on the state's public charter schools that includes data from the annual reports submitted by every authorizer, as well as any additional relevant data compiled by the commission, for the school year ending in the preceding calendar year. The annual report must include:

(a) a comparison of the performance of public charter school students with the performance of academically, ethnically, and economically comparable groups of students in noncharter public schools; and

(b) the commission's assessment of the successes, challenges, and areas for improvement in meeting the purposes of [sections 1 through 18], including the commission's assessment of the sufficiency of funding for public charter schools, the efficacy of the state formula for authorizer funding, and any suggested changes in state law or policy necessary to strengthen the state's public charter schools.

NEW SECTION. Section 8. Purchase of services by charter school. (1) With the exception of oversight services as required by [section 7], a public charter school may not be required to purchase services from the public charter school's authorizer as an express or implied condition of charter approval or of executing a charter contract.

(2) A public charter school may choose to purchase services from its authorizer. In that event, the public charter school and authorizer shall execute an annual service contract, separate from the charter contract, stating the parties' mutual agreement concerning any services to be provided by the authorizer and any service fees to be charged to the public charter school. An authorizer may not charge more than market rates for services provided to a public charter school.
NEW SECTION. Section 9. Charter school proposal process -- request for proposal -- charter term. (1) To solicit, encourage, and guide the development of public charter schools, every authorizer operating under [sections 1 through 18] shall issue and broadly publicize a request for proposal by June 1 of each year. The content and dissemination of the request for proposal must be consistent with the purposes and requirements of [sections 1 through 18].

(2) Each authorizer's request for proposal must present the authorizer's strategic vision for chartering, including a clear statement of any preferences the authorizer wishes to grant to proposals that help at-risk students.

(3) A request for proposal must include or otherwise direct applicants to the performance framework that the authorizer has developed for public charter school oversight and evaluation in accordance with [section 6].

NEW SECTION. Section 10. Charter contract -- terms. (1) An initial charter must be granted for a term of 5 operating years, commencing on the public charter school's first day of operation. An approved public charter school may delay its opening for 1 school year to plan and prepare for the school's opening. If the school requires an opening delay of more than 1 school year, the school shall request an extension from its authorizer. The authorizer may grant or deny the extension depending on the particular school's circumstances.

(2) Within 30 days of approval of a charter proposal, the authorizer and the governing board of the approved public charter school shall execute a charter contract that clearly sets forth the academic and operational performance expectations and measures by which the public charter school will be judged and the administrative relationship between the authorizer and the public charter school, including each party's rights and duties.

(3) The performance expectations and measures set forth in the charter contract must include at a minimum the applicable federal and state accountability requirements. The performance provisions may be refined or amended by mutual agreement after the public charter school is operating and has collected baseline achievement data for its enrolled students.

(4) The charter contract for a virtual public charter school must include a description and agreement regarding the methods by which the school will:

(a) monitor and verify full-time student enrollment, student participation in a full course load, credit accrual, and course completion;

(c) conduct parent-teacher conferences; and

(d) administer state-required assessments to all students in a proctored setting.

(5) The charter contract must be signed by the president of the authorizer's governing body and the president of the public charter school's governing board. Within 10 days of executing a charter contract, the authorizer shall submit to the commission written notification of the charter contract execution, including a copy
of the executed charter contract and any attachments.

(6) A public charter school may not commence operations without a charter contract executed in accordance with this section and approved in an open meeting of the authorizer's governing body.

(7) Authorizers may establish reasonable preopening requirements or conditions to monitor the startup progress of a newly approved public charter school to ensure that the school is prepared to open smoothly on the date agreed and to ensure that each school meets all building, health, safety, insurance, and other legal requirements for school opening.

NEW SECTION. Section 11. Enrollment. (1) (a) A public charter school must be open to any student residing in the state.

(b) A school district may not require a student enrolled in the school district to attend a public charter school.

(c) A public charter school may limit admission to students within a given age group or grade level.

(d) A public charter school may be organized for a special emphasis, theme, or concept as stated in the school's proposal.

(e) A public charter school shall enroll all students who wish to attend the school unless the number of students exceeds the capacity of a program, class, grade level, or building.

(f) If capacity is insufficient to enroll all students who wish to attend the school, the public charter school shall select students through a lottery.

(2) A noncharter public school converting to a public charter school shall adopt and maintain a policy giving enrollment preference to students who reside within the former attendance area of that public school.

(3) (a) A public charter school shall give enrollment preference to students who were enrolled in the public charter school the previous school year and to siblings of students already enrolled in the public charter school. An enrollment preference for returning students excludes those students from entering into a lottery.

(b) A public charter school may give enrollment preference to children of a public charter school's founders, governing board, and full-time employees, limited to no more than 10% of the school's total student population.

(4) This section does not preclude the formation of a public charter school for the purpose of serving students with disabilities, students of the same gender, students who pose a sufficiently severe disciplinary problem to warrant a specific educational program, or students who are at risk of academic failure. If capacity is
insufficient to enroll all students who wish to attend such a school, the public charter school shall select students
through a lottery.

(5) If a student who was previously enrolled in a public charter school enrolls in any other public school
in this state, the student's new school shall accept credits earned by the student in courses or instructional
programs at the public charter school.

(6) A school district shall provide or publicize to parents and the general public information about public
charter schools as an enrollment option within the district to the same extent and through the same means that
the district provides and publicizes information about noncharter public schools in the district.

(7) An authorizer may not restrict the number of students a public charter school may enroll. The capacity
of the public charter school must be determined annually by its governing board in conjunction with the authorizer
and in consideration of the public charter school's ability to facilitate the academic success of its students, to
achieve the objectives specified in the charter contract, and to ensure that its student enrollment does not exceed
the capacity of its facility or site.

NEW SECTION. Section 12. Charter school performance and renewal. (1) The performance
provisions within the charter contract must be based on a performance framework that clearly sets forth the
academic and operational performance indicators, measures, and metrics that will guide the authorizer's
evaluations of each public charter school. The performance framework must include indicators, measures, and
metrics for, at a minimum:

(a) student academic proficiency;
(b) student academic growth;
(c) achievement gaps in both proficiency and growth between major student subgroups;
(d) attendance;
(e) recurrent enrollment from year to year;
(f) postsecondary readiness;
(g) financial performance and sustainability; and
(h) governing board performance and stewardship, including compliance with all applicable laws,
regulations, and terms of the charter contract.

(2) Each public charter school, in conjunction with its authorizer, shall set annual performance targets
designed to help each school meet applicable federal, state, and authorizer expectations.
(3) (a) The contract performance framework must allow the inclusion, with the authorizer’s approval, of additional rigorous, valid, and reliable indicators proposed by a public charter school to augment external evaluations of its performance that are consistent with the purposes of [sections 1 through 18].

(b) The performance framework must require the collection and reporting of all student performance data as required of other public schools.

(c) The authorizer shall collect state assessment data from each public charter school it oversees and shall analyze and report all data from state assessments in accordance with the performance framework.

(d) Multiple schools operating under a single charter contract or overseen by a single governing board shall report their performance as separate, individual schools, and each school must be held independently accountable for its performance.

(4) (a) An authorizer shall monitor the performance and legal compliance of the public charter schools it oversees, including collecting and analyzing data to support ongoing evaluation according to the charter contract. Every authorizer has the authority to conduct or require oversight activities that do not unduly inhibit the autonomy granted to public charter schools but that enable the authorizer to fulfill its responsibilities under [sections 1 through 18], including conducting appropriate inquiries and investigations consistent with the intent of [sections 1 through 18], and to adhere to the terms of the charter contract.

(b) Each authorizer shall annually publish and provide, as part of its annual report to the commission and the legislative auditor [EDUCATION AND LOCAL GOVERNMENT INTERIM COMMITTEE], a performance report for each public charter school it oversees, within the performance framework set forth in the charter contract and [section 10]. The authorizer may require each public charter school it oversees to submit an annual report to assist the authorizer in gathering complete information about each school, consistent with the performance framework.

(c) In the event that a public charter school’s performance or legal compliance appears unsatisfactory, the authorizer shall promptly notify the public charter school of the perceived problem and provide reasonable opportunity for the school to remedy the problem.

(d) An authorizer may take appropriate corrective action or exercise sanctions short of revocation in response to apparent deficiencies in public charter school performance or legal compliance. The action or sanctions may include, if warranted, requiring a public charter school to develop and execute a corrective action plan within a specified timeframe.

(5) (a) A charter may be renewed for successive 5-year terms, although the authorizer may vary the term based on the performance, demonstrated capacities, and particular circumstances of each public charter school.
An authorizer may grant renewal with specific conditions for necessary improvement to a public charter school.

(b) No later than June 30 of each year, the authorizer shall issue a public charter school performance report and charter renewal application guide to any public charter school whose charter will expire the following year. The performance report must summarize the public charter school's performance record to date, based on the data required by [sections 1 through 18] and the charter contract, and must provide notice of any weaknesses or concerns perceived by the authorizer concerning the public charter school that may jeopardize renewal if not promptly rectified. The public charter school shall respond to the performance report and submit any corrections or clarifications within 90 days.

(6) The renewal application guide must, at a minimum, provide an opportunity for the public charter school to:

(a) present additional evidence, beyond the data contained in the performance report, supporting its case for charter renewal;

(b) describe improvements undertaken or planned for the public charter school; and

(c) detail the public charter school's plans for the next charter term.

(7) The renewal application guide must include or refer explicitly to the criteria that will guide the authorizer's renewal decisions, based on the performance framework set forth in the charter contract and consistent with [sections 1 through 18].

(8) (a) No later than February 1 of each year, the governing board of a public charter school seeking renewal shall submit a renewal application to the charter authorizer pursuant to the renewal application guide issued by the authorizer. The authorizer shall rule by resolution on the renewal application no later than 30 days after the filing of the renewal application.

(b) Every authorizer shall, when considering charter renewal:

(i) base its decision on evidence of the school's performance over the term of the charter contract in accordance with the performance framework set forth in the charter contract;

(ii) ensure that the data used in making renewal decisions is available to the school and the public; and

(iii) provide a public report summarizing the basis for each decision.

NEW SECTION. Section 13. Charter contract revocation and school closure or charter contract nonrenewal. (1) A charter contract may be subject to nonrenewal or revocation if the authorizer determines that the public charter school:
(a) committed a material and substantial violation of any of the terms, conditions, standards, or procedures required under [sections 1 through 18] or the charter contract and from which the public charter school was not exempted;

(b) failed to meet or make sufficient progress toward the performance expectations set forth in the charter contract;

(c) failed to meet public safety standards; or

(d) failed to meet generally accepted standards of fiscal management.

(2) An authorizer shall develop revocation and nonrenewal processes that:

(a) provide the charter holders with timely notification of the prospect of revocation or nonrenewal and of the reasons for the possible closure;

(b) allow the charter holders a reasonable amount of time in which to prepare a response;

(c) provide the charter holders an opportunity to submit documents and testimony at a hearing to challenge the rationale for the closure recommendation and in support of the continuation of the school;

(d) allow the charter holders to be represented by counsel and call witnesses on their behalf;

(e) permit the recording of the proceedings; and

(f) provide for a final determination conveyed in writing to the charter holders.

(3) If an authorizer revokes or denies renewal of a charter, the authorizer shall clearly state, by resolution of its governing body, the reasons for the revocation or nonrenewal.

(4) Within 10 days of taking action to renew, not renew, or revoke a charter, the authorizer shall report to the commission the action taken and at the same time shall provide a copy of the report to the public charter school. The report must include a copy of the authorizer governing body’s resolution setting forth the action taken and reasons for the decision and providing assurances of compliance with all of the requirements set forth in [sections 1 through 18]. The authorizer’s decision is appealable to the commission in writing within 30 days of the commission’s receipt of the authorizer’s report.

(5) (a) Prior to any public charter school closure, an authorizer shall develop a public charter school closure protocol to ensure timely notification to parents, orderly transition of students and student records to new schools, and proper disposition of school funds, property, and assets in accordance with the requirements of [sections 1 through 18]. The protocol must specify responsible parties, transition and closure timelines, and a delineation of the respective duties of the public charter school and the authorizer.

(b) The authorizer shall oversee the closure and work with the closing public charter school to ensure
a smooth and orderly closure and transition for students and parents.

(c) In the event of a public charter school closure for any reason, the assets of the public charter school must be distributed first to satisfy outstanding payroll obligations for employees of the public charter school, then to creditors of the public charter school, and then to the state general fund. If the assets of the public charter school are insufficient to pay all obligations, the prioritization of the distribution of assets may be determined by a court of law.

(d) If a closing public charter school was converted from an existing noncharter public school, the closing public charter school is not responsible for any financial obligation or debt of the previously existing noncharter public school unless the public charter school assumed the debt or obligation at the time of conversion.

(6) Transfer of a charter contract, and of oversight of that public charter school from one authorizer to another before the expiration of the charter term, may occur only if the authorizer violates the provisions of [section 6] or by special petition to the commission by a public charter school or its authorizer. The commission shall consider a petition for transfer on a case-by-case basis and may grant transfer requests in response to special circumstances and to evidence that the transfer would serve the best interests of the public charter school’s students.

NEW SECTION. Section 14. Public charter school operation and autonomy. (1) (a) A public charter school must be a nonprofit education organization.

(b) A public charter school is subject to all federal laws and authorities as provided in [sections 1 through 18] or arranged by charter contract with the public charter school’s authorizer consistent with applicable laws, rules, and regulations.

(c) Except as provided in [sections 1 through 18], a public charter school is not subject to the provisions of Title 20 or any state or local rule, regulation, policy, or procedure relating to noncharter public schools within an applicable local school district.

(d) A single governing board may hold one or more charter contracts. A charter contract may consist of one or more schools, to the extent approved by the authorizer and consistent with applicable law. Each public charter school that is part of a charter contract is separate and distinct from any other public charter school.

(2) A startup public charter school may not be created within the geographical boundaries of a third-class elementary district, as defined in 20-6-201, or a third-class high school district, as defined in 20-6-301, unless:

(a) the public charter school is being converted from an existing public school;
(b) the school district elects to establish a public charter school;

c) the school district elects to convert a grade or grades to a public charter school from an existing school;

d) the public charter school is a tribal charter school; or

e) the public charter school is a virtual public charter school.

(3) A public charter school is primarily responsible for special education at the school, including identification and service provisions, and is responsible for meeting the needs of enrolled students with disabilities. If a student's individualized education program team determines that a student's needs are so profound that they cannot be met in the public charter school and that the public charter school cannot provide a free, appropriate public education to that student, the student's district of residence shall place the student in a more appropriate setting.

(4) A public charter school has all the powers necessary for carrying out the terms of its charter contract, including the following powers:

(a) to receive and disburse funds for school purposes;

(b) to secure appropriate insurance and to enter into contracts and leases, free from prevailing wage laws;

(c) to contract with an education service provider for the management and operation of the public charter school only if the school's governing board retains oversight authority over the school;

(d) to incur debt in reasonable anticipation of the receipt of public or private funds;

(e) to pledge, assign, or encumber its assets to be used as collateral for loans or extensions of credit;

(f) to solicit and accept gifts or grants for school purposes subject to applicable laws and the terms of its charter contract;

(g) to acquire real property, for use as its facility or facilities, from public or private sources; and

(h) to sue and be sued in its own name.

(5) (a) A public charter school may not engage in any sectarian practices in its educational program, admissions policies, employment policies or practices, or operations.

(b) The powers, obligations, and responsibilities set forth in the charter contract may not be delegated or assigned by either party, except as otherwise specifically provided in [sections 1 through 18].

(6) (a) A public charter school is subject to the same civil rights, health, and safety requirements applicable to other public schools in the state, except as otherwise specifically provided in [sections 1 through
(b) A public charter school is subject to the student assessment, accountability, and data reporting requirements applicable to other public schools in the state, but [sections 1 through 18] do not preclude a public charter school from establishing additional student assessment measures that exceed state requirements.

(c) The governing board shall establish graduation requirements and may award degrees and issue diplomas.

(d) A governing board is subject to and shall comply with state open meeting and public records laws pursuant to Title 2, chapters 3 and 6.

(7) (a) A public charter school shall comply with applicable federal laws, rules, and regulations regarding the qualification of teachers and other instructional staff. Public charter school teachers are exempt from state teacher certification requirements provided in 20-4-101.

(b) Employees in public charter schools have the same rights and privileges as other public school employees except as otherwise provided in [sections 1 through 18].

(c) Employees in a public charter school are eligible for participation in retirement and other benefits programs of the state pursuant to Title 19, chapters 2, 3, and 20, if the governing board elects to participate.

(d) Teachers and other school personnel, as well as governing board trustees, are subject to criminal history record checks and fingerprinting requirements.

(e) Public charter school employees may not be required to be members of any existing collective bargaining agreement between a school district and its employees. However, a public charter school may not interfere with laws and other applicable rules protecting the rights of employees to organize and to be free from discrimination.

NEW SECTION. Section 15. Funding of public charter schools. (1) It is the intent of the legislature that public charter schools receive funding on a per-pupil basis that is equitable with the average per-pupil spending of the resident school district.

(2) (a) If a district that consists of only one school desires to convert to a public charter school, this section does not apply and the district funding formula under Title 20 applies. The district shall transfer funds to the governing board of the public charter school that maintains the operational and programmatic autonomy described in [sections 1 through 18].

(b) If the funding payments from the district to the public charter school are not made by the sixth day
of the month following the month the payment was due, a penalty of $10 per student must be assessed and will continue to accrue at the same rate for each week the payment is late.

(3) A public charter school may not charge tuition pursuant to 20-5-323 and may charge only fees that may be imposed by noncharter public schools in the state.

(4) Students of a public charter school are considered to be enrollees of the resident school district for the purposes of the resident school district's ANB count.

(5) For each student attending a public charter school, the superintendent of public instruction shall pay to that public charter school an amount equal to the per-pupil average, but not the per-ANB average, of total school expenditures for the student's resident school district for the previous school year. The superintendent of public instruction shall determine this figure. Funds to be included in total school expenditures must include:

(a) general fund;

(p) technology acquisition;
(q) flexibility fund;
(r) debt service;
(s) building reserve; and
(t) interlocal agreement.
(6) Payment of the amount described in subsection (5) must be made by the superintendent of public instruction to the public charter school in 10 equal monthly payments, payable by the last day of the month, beginning in August of each school year and continuing through May of each school year.

(7) If the per-pupil funding payments from the superintendent of public instruction to the public charter school are not made by the sixth day of the month following the month the payment was due, a penalty of $10 per student must be assessed and will continue to accrue at the same rate for each week the payment is late.

(8) The superintendent of public instruction shall deduct the amount described in subsection (5) from the resident school district's aid payments in 10 equal monthly payments beginning in August of each year and continuing through May of each year.

(9) A public charter school may expend funds according to its charter contract and is not subject to budget restrictions under Title 20, chapter 9.

(10) A public charter school may obligate the public charter school to indebtedness and is solely responsible for those debts. A public charter school is not responsible for any debt service obligations that exist in the school district in which the public charter school is located.

(11) Nothing in [sections 1 through 18] may be construed to prohibit any person or organization from providing funding or other assistance for the establishment or operation of a public charter school. The governing board of a public charter school is authorized to accept gifts, donations, and grants of any kind made to the public charter school and to expend or use the gifts, donations, or grants in accordance with the conditions prescribed by the donor. A gift, donation, or grant may not be accepted if the gift, donation, or grant is subject to a condition that is contrary to any provision of law or term of the charter contract.

(12) Money received by a public charter school from any source and remaining in the public charter school's accounts at the end of a budget year must remain in the public charter school's accounts for use by the public charter school in subsequent years.

NEW SECTION. Section 16. Public charter school facility revolving loan account -- rulemaking.

(1) There is a special revenue account to be known as the public charter school facility revolving loan account to be administered by the commission. The public charter school facility revolving loan account is composed of state, federal, and other funds obtained for public charter schools, loan repayments, and any other funds appropriated or transferred to the account by the state. Any interest earned by the account or generated from a loan repayment must be deposited in the account.
(2) (a) The commission may provide loans from funds in the public charter school facility revolving loan account to a public charter school upon application by a public charter school and approval by the authorizer.
(b) Money loaned to a public charter school pursuant to this section is for construction, purchase, renovation, and maintenance of public charter school facilities.
(c) A loan to a public charter school may not exceed $20 million over 15 years. A public charter school may receive multiple loans from the public charter school facility revolving loan account, as long as the total amount received from the account is within the conditions provided in this section.
(3) The authorizer and commission may consider all of the following when making a determination as to the approval of a public charter school's loan application:
(a) soundness of the financial business plans of the public charter school;
(b) availability of other sources of funding to the public charter school;
(c) geographic distribution of loans made from the public charter school facility revolving loan account;

(f) the financial needs of the public charter school.
(4) Commencing with the first fiscal year following the fiscal year the public charter school receives the loan, the public charter school shall repay the loan in equal annual amounts over a number of years agreed upon between the public charter school and the commission.
(5) In the case of default of a loan made directly to a public charter school pursuant to this section, the public charter school is solely liable for repayment of the loan.
(6) The commission may adopt rules to implement this section.

NEW SECTION. Section 17. Public charter school access to district facilities and land. (1) A public charter school has a right of first refusal to purchase or lease at or below fair market value a closed public school facility or property or an unused portion of a public school facility or property located in a school district from which the public charter school draws its students.
(2) A public charter school may negotiate and contract at or below fair market value with a school district, the governing body of a college or university or community college, or any other public entity or for-profit or
nonprofit private entity for the use of a facility for a school building.

NEW SECTION. Section 18. Public charter school endowment account -- rulemaking. (1) There is a special revenue account to be known as the public charter school endowment account administered by the commission. The purpose of the account is the receipt and expenditure of gifts, grants, legacies, devises, and donations given specifically for the creation and operation of the Montana public charter school system but not given to the public charter school facility revolving loan account provided for in [section 16].

(2) All donations must be from a private source and may not be expended for any purpose other than for the benefit of qualifying public charter schools as determined by the commission. A gift, donation, or grant made directly to a public charter school or schools is not prohibited by this subsection.

(3) The commission may adopt rules to implement this section.

that is exempt from taxation under section 501(c) of the Internal Revenue Code and incorporated and admitted
under the Montana Nonprofit Corporation Act.
(p) property leased, owned, or used by a public charter school established pursuant to [sections 1

(2) (a) (i) For the purposes of tribal property under subsection (1)(a)(viii), the property subject to

(c) For the purposes of subsection (1)(i):

   (A) The organization offers its charitable goods or services to persons without regard to race, religion, creed, or gender and qualifies as a tax-exempt organization under the provisions of section 501(c)(3), Internal Revenue Code, as amended.
   (B) The organization accomplishes its activities through absolute gratuity or grants. However, the organization may solicit or raise funds by the sale of merchandise, memberships, or tickets to public performances or entertainment or by other similar types of fundraising activities.
(ii) agricultural property owned by a purely public charity is not exempt if the agricultural property is used by the charity to produce unrelated business taxable income as that term is defined in section 512 of the Internal Revenue Code, 26 U.S.C. 512. A public charity claiming an exemption for agricultural property shall file annually with the department a copy of its federal tax return reporting any unrelated business taxable income received by the charity during the tax year, together with a statement indicating whether the exempt property was used to
generate any unrelated business taxable income.

(iii) up to 15 acres of property owned by a purely public charity is exempt at the time of its purchase even if the property must be improved before it can directly be used for its intended charitable purpose. If the property is not directly used for the charitable purpose within 8 years of receiving an exemption under this section or if the property is sold or transferred before it entered direct charitable use, the exemption is revoked and the property is taxable. In addition to taxes due for the first year that the property becomes taxable, the owner of the property shall pay an amount equal to the amount of the tax due that year times the number of years that the property was tax-exempt under this section. The amount due is a lien upon the property and when collected must be distributed by the treasurer to funds and accounts in the same ratio as property tax collected on the property is distributed. The notice must indicate that an exemption pursuant to this section has been granted. The notice must describe the penalty for default under this section and must specify that a default under this section will create a lien on the property by operation of law. The notice must be on a form prescribed by the department.

(iv) not more than 160 acres may be exempted by a purely public charity under any exemption originally applied for after December 31, 2004. An application for exemption under this section must contain a legal description of the property for which the exemption is requested.

Unless the property is leased for a profit to a governmental entity or nonprofit organization by an individual or for-profit organization, real and personal property owned by other persons is exempt if it is:

(i) actually used by the governmental entity or nonprofit organization as a part of its public display;

NEW SECTION.  Section 21.  Contracts with public charter schools.  (1) A public charter school may become a contracting employer through a contract entered into between the board and the governing board of the public charter school. The contract must provide that all employees who are eligible under this chapter must become members:

(2) The approval of the contract is subject to the following provisions:

(a) The contract must specify that the provisions of the retirement system apply to all employees on the effective date of the contract and to all employees hired after the effective date of the contract. An employee's membership in either the defined benefit plan or the defined contribution plan is determined on an individual basis as provided in this chapter.

(b) The contract must be approved by the board. The board may disapprove a contract if, in the board's sole discretion, the contract adversely affects the interests of the retirement system. Amendments to the retirement system made pursuant to Montana law immediately apply to and become a part of the contract.

(3) (a) The governing board of a public charter school may terminate the contract by adopting a resolution terminating coverage under the system effective the last day of that month and forward the resolution and a certified copy of the election results to the board.
