WHEREAS, Article VIII, section 15, of the Montana Constitution requires that "Public retirement systems shall be funded on an actuarially sound basis"; and

WHEREAS, Article VIII, section 15, of the Montana Constitution requires that "Public retirement system assets, including income and actuarially required contributions, shall not be encumbered, diverted, reduced, or terminated and shall be held in trust to provide benefits to participants and their beneficiaries and to defray administrative expenses"; and

1 WHEREAS, the unprecedented collapse of the financial markets in 2008 through 2009 and the
2 subsequent slow rate of economic recovery has resulted in little or no prospect that current statutory contribution
3 rates together with future market returns will be sufficient to fund the Teachers' Retirement System on an
4 actuarially sound basis, and current contributions remain insufficient to pay the past and future accruals of
5 retirement benefits for members currently in the system; and

6 WHEREAS, failure to return the system to a position of actuarially sound funding places the benefits to
7 be paid to current system participants in jeopardy and results in collection of employee contributions for which
8 future benefits may not be guaranteed; and

9 WHEREAS, the current and increasing level of unfunded liabilities has the potential to compromise the
10 credit ratings of the state of Montana and of local government entities, including public school districts; and

11 WHEREAS, because reasonable increases in employer contributions and reasonable reductions in
12 benefits for future participants alone will not be sufficient to return the system to a position of actuarially sound
13 funding, increased contributions for current and future participants and reduced benefits for future participants
14 are also necessary to return the system to a position of actuarially sound funding; and

15 WHEREAS, section 19-20-501, MCA, provides that benefits and refunds to eligible recipients are payable
16 pursuant to a contract as contained in statute, and this proposed legislation does not diminish the current or future
17 pension benefits promised to current system participants; and

18 WHEREAS, during the past two legislative sessions and interims, the Legislature, interim committees,
19 the retirement system board and staff, and the Governor's office have analyzed a range of alternatives for
20 returning the system to a position of actuarially sound funding without raising contract impairment issues for
21 current members, but recent actuarial analysis continues to show that the system remains actuarially unsound;
22 and

23 WHEREAS, due to significant strains on the Montana economy, state and local government budgets, and
24 taxpayers, a modest supplemental contribution rate increase of 1% applied to current retirement system
25 members, with appropriate mechanisms to reduce or terminate the supplemental contribution rate as system
26 funding improves, in conjunction with additional employer and state contributions, is, pursuant to the language
27 of *U.S. Trust Company of New York v. New Jersey*, 431 U.S. 1 (1977), concerning contract impairment,
28 reasonable and necessary and is the least impairing alternative available to the Legislature as it seeks to fulfill
29 its constitutional obligation to ensure the retirement system is funded in an actuarially sound manner.

1 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

9 beneficiary to a death benefit, the payment of the death benefit is the liability of the teachers' retirement system.
10 Before payment of the death benefit, the public employees' retirement board must transfer to the teachers'
11 retirement system the contributions necessary to purchase this service in the teachers' retirement system as
12 provided in subsections (2) and (3).

16 employer contributions plus interest.

17 (b) For the period of time that the employer contributions are held by the public employees' retirement

20 request.

21 (c) Any employee and employer contributions due as calculated in 19-20-602, ~~and 19-20-605~~, and

23 occurred.

 2 system defined contribution plan account or has rolled over the amount required to purchase service in
 3 accordance with this subsection (8).

4 (9) Creditable service purchased under subsection (8) must be determined according to the laws and
 5 rules governing service credit in the public employees' retirement system."

6

7 **Section 4.** Section 19-20-427, MCA, is amended to read:

8 **"19-20-427. Redeposit of contributions previously withdrawn.** (1) In addition to the ~~normal~~
 9 contributions required under 19-20-602 and [section 6], subject to the approval of the retirement board, and to
 10 the extent permitted by section 415(k)(3) of the Internal Revenue Code, a member may redeposit in the annuity
 11 savings account, by a single payment or by an increased rate of contribution, an amount equal to the
 12 accumulated contributions that the member has previously withdrawn, plus interest paid as follows:

13 (a) if a written application to purchase service is signed prior to July 1, 2012, at the rate the contributions
 14 would have earned had the contributions not been withdrawn; or

15 (b) if a written application to purchase service is signed on or after July 1, 2012, at the actuarially
 16 assumed interest rate in effect on the date the written application is signed.

17 (2) The redeposit must be made in accordance with 19-20-415."

18

19 **Section 5.** Section 19-20-602, MCA, is amended to read:

20 **"19-20-602. Annuity savings account -- member's contribution.** (1) The annuity savings account is
 21 an account in which the contributions for the members to provide for their retirement allowance or benefits must
 22 be accumulated in individual accounts for each member.

23 (2) (a) The normal contribution rate of each tier one member is 7.15% of the member's earned
 24 compensation.

25 (b) The normal contribution rate of each tier two member is 8.15% of the member's earned
 26 compensation.

27 ~~(2)(3)~~ Contributions under this section and [section 6] to ~~and payments from~~ the annuity savings account
 28 must be made in the following manner:

4 (b) The member's contributions picked up by the employer must be designated for all purposes of the
5 retirement system as the member's contributions, except for the determination of a tax upon a distribution from
6 the retirement system. These contributions must become part of the member's accumulated contributions but
7 must be accounted for separately from those previously accumulated.

8 (c) The member's contributions picked up by the employer must be payable from the same source as
9 is used to pay compensation to the member and must be included in the member's earned compensation as
10 defined in 19-20-101. The employer shall deduct from the member's compensation an amount equal to the
11 amount of the member's contributions picked up by the employer and remit the total of the contributions to the
12 retirement board.

13 (d) The deductions must be made notwithstanding that the minimum compensation provided by law for
14 a member may be reduced by the deductions. Each member is considered to consent to the deductions
15 prescribed by this section, and payment of salary or compensation less the deductions is a complete discharge
16 of all claims for the services rendered by the member during the period covered by the payment, except as to the
17 benefits provided by the retirement system.

18 ~~(3)~~(4) The accumulated contributions of a member withdrawn by the member or paid to the member's
19 estate or to the member's designated beneficiary in event of the member's death must be paid from the annuity

24 (ii) the period necessary to amortize all liabilities of the system based on the latest annual actuarial

9 **Section 10.** Section 19-20-716, MCA, is amended to read:

10 **"19-20-716. Termination pay.** (1) If a member terminates and receives termination pay at the time of
 11 retirement, the member shall select, subject to subsections (5) and (6), by signing a binding, irrevocable written
 12 election at least 90 days before the member's termination date, one of the following options:

13 (a) Option 1--The member may use the total termination pay in the calculation of the member's average
 14 final compensation. The member and the employer shall pay contributions to the retirement system as determined
 15 by the board to adequately compensate the system for the additional retirement benefit. The contributions must
 16 be made at the time of termination.

17 (b) Option 2--The member may use a yearly amount of the total termination pay added to each of the
 18 3 consecutive years' salary used in the calculation of the member's average final compensation. To determine
 19 the amount of termination pay used in the calculation of average final compensation, termination pay must be
 20 divided by the total number of years of creditable service to determine a yearly amount. The member and the
 21 employer shall pay contributions on the termination pay according to the rates provided for in 19-20-602 ~~and~~
 22 19-20-605(1), ~~and~~ [section 6], AND [SECTION 8]. For the purposes of this subsection (1)(b), the employer shall also
 23 pay as a contribution an amount equal to the termination pay multiplied by the rate established in 19-20-607 that
 24 would have been payable by the state as a supplemental contribution. The contributions must be made at the
 25 time of termination.

26 (c) Option 3--The member may exclude the termination pay from the average final compensation. A
 27 contribution is not required of either the member or the employer.

28 (2) A binding, irrevocable written election required by this section must be signed by both the member
 29 and the employer at least 90 days prior to the member's termination date and must contain statements with
 30 regard to the contributions required to be made by the member under subsections (1)(a) and (1)(b) that:

1 (a) the contributions being picked up, although designated as member contributions, are being paid by
 2 the employer directly to the system in lieu of contributions by the member and that the picked up contributions
 3 are paid from the same source as compensation is paid;

4 (b) the member may not choose to directly receive the amounts deducted from the member's termination
 5 pay instead of having them paid by the employer to the system;

6 (c) the member may not prepay any portion of the contributions; and

7 (d) the effective date of the pickup is the date that the irrevocable written election is signed by both the
 8 member and employer. The effective date must be at least 90 days prior to the date of the member's termination.
 9 The pickup does not apply to a contribution made before the effective date of the pickup.

10 (3) For the purpose of this section, the date of termination is the last day the member is performing any
 11 services covered under this chapter.

12 (4) Pursuant to subsection (2), contributions required under subsection (1)(a) or (1)(b) must be:

13 (a) deducted from the portion of termination pay that:

14 (i) constitutes wages for the purposes of section 3121 of the Internal Revenue Code, determined without
 15 regard to the wage base limitation; and

16 (ii) can be included in the member's gross income for federal tax purposes; and

17 (b) picked up by the employer, except as provided in subsections (5) and (6).

18 (5) A member's contributions greater than the total amount of the member's termination pay may not be
 19 picked up by the employer and are subject to the limitations of section 415 of the Internal Revenue Code.

20 (6) If a member and the member's employer fail to sign the written election within the time period required
 21 in subsection (1), the member may contribute for the purposes specified in subsections (1)(a) and (1)(b) on all
 22 or any part of the termination pay received. A contribution made pursuant to this subsection may not be picked
 23 up by the employer and is subject to the limitations of section 415 of the Internal Revenue Code."

7 **Section 16.** Section 19-20-805, MCA, is amended to read:

8 **"19-20-805. Calculation of average final compensation.** (1) Except as limited by this section, average

9 final compensation is calculated by averaging the earned compensation paid to:

10 (a) a tier one member in 3 consecutive fiscal years of full-time service that yields the highest average;

11 or

12 (b) a tier two member in 5 consecutive fiscal years of full-time service that yields the highest average.

13 (2) (a) The earned compensation of a tier one member who retires under 19-20-802, 19-20-804, or

14 19-20-902 and has less than 3 consecutive years of full-time service during the 5 years immediately preceding

15 the member's termination is the compensation that the member would have earned in the 3 years used to

16 calculate average final compensation had the member's part-time service during the 5 years preceding

17 termination been full-time service.

18 (b) The earned compensation of a tier two member who retires under 19-20-802, 19-20-804, or

19 19-20-902 and has less than 5 consecutive years of full-time service during the 7 years immediately preceding

20 the member's termination is the compensation that the member would have earned in the 5 years used to

22 termination been full-time service.

28 teachers' retirement system, the member's average final compensation must be calculated as follows:

29 (i) if the member's part-time service credit in the public employees' retirement system plus the member's

30 part-time service credit in the teachers' retirement system equals 1 year in any of the fiscal years used in

1 determining average final compensation, then the member's annual salary for that fiscal year must be the
 2 member's salary as a member of the public employees' retirement system plus the member's salary as a member
 3 of the teachers' retirement system; or

4 (ii) if the member's part-time service credit in the public employees' retirement system plus the member's
 5 part-time service credit in the teachers' retirement system equals less than 1 year in any of the fiscal years used
 6 to determine average final compensation, then the member's part-time salary as a member of the public
 7 employees' retirement system plus the member's part-time salary as a member of the teachers' retirement system
 8 must be divided by the sum of the member's part-time teachers' retirement system service credit and the
 9 member's part-time public employees' retirement system service credit.

10 (b) Compensation reported to the public employees' retirement system used to calculate average final
 11 compensation must be adjusted to exclude any compensation that would be considered termination pay under
 12 this chapter.

13 ~~(4)(5)~~ (a) If the benefits excluded from earned compensation pursuant to 19-20-101(7)(b) have been
 14 converted by an employer to earned compensation for all members and have been continuously reported as
 15 earned compensation in a like amount for at least 5 fiscal years preceding a member's retirement, the converted
 16 benefit amounts must be included in the calculation of average final compensation.

17 (b) If benefits have been converted to earned compensation as described in subsection ~~(4)(a)~~ (5)(a) but
 18 have been reported as earned compensation for less than 5 fiscal years or if the member has been given the
 19 option to have benefits converted to earned compensation, any converted benefits reported as earned
 20 compensation in the 3 years used to calculate average final compensation may be included in the calculation of
 21 average final compensation only as termination pay under 19-20-716(1)(b)."
