63rd Legislature

SB0201.01

1 (2) (a) The department shall adopt rules to protect the natural resources of the state, especially the 2 natural resources owned by the state, from destruction by fire and for that purpose, in declared emergencies, may 3 employ personnel and incur other expenses when necessary. (b) The department may adopt and enforce reasonable rules for the purpose of enforcing and 4 5 accomplishing the provisions and purposes of part 2 and this part. 6 (3) The duty imposed on the department under this section is not exclusive to the department and does 7 not absolve private property owners or local governmental fire agencies organized under Title 7, chapter 33, from 8 any fire protection or suppression responsibilities. 9 (4) The department may give technical and practical advice concerning forest, range, water, and soil 10 conservation and the establishment and maintenance of woodlots, windbreaks, shelterbelts, and fire protection. 11 (5) The department shall cooperate with all public and other agencies in the development, protection, 12 and conservation of the forest, range, and water resources in this state. 13 (6) The department shall establish and maintain wildland fire control training programs. 14 (7) The department shall appoint firewardens in the number and localities that it considers necessary, 15 subject to confirmation by the local county government, and shall adopt rules prescribing the qualifications and 16 duties of firewardens that are in addition to those provided in 76-13-116. 17 (8) The department shall adopt rules addressing development within the wildland-urban interface, 18 including but not limited to: 19 (a) best practices for development within the wildland-urban interface; and 20 (b) criteria for providing grant and loan assistance to local government entities to encourage adoption 21 of best practices for development within the wildland-urban interface. 22 (9) (a) The department shall advocate for the inclusion of Montana in federal legislation to establish a 23 good neighbor policy that would allow the secretary of the interior or the secretary of agriculture to enter into a 24 cooperative agreement or contract that would authorize the state forester to engage in forest management 25 activities to reduce wildland fire risk on federal land designated as wildland-urban interface under 76-13-145. 26 (b) Forest management activities to reduce wildland fire risk included in the good neighbor policy must 27 include the authority to: 28 (i) treat insect-infested trees; 29 (ii) reduce hazardous fuels; and 30 (iii) any other activities to improve the overall diversity and vigor of forested landscapes.

Authorized Print Version - SB 201

63rd Legislature

1	(10) The department has the authority to intervene in litigation or appeals on federal forest management
2	projects that involve reduction of hazardous fuels or other activities to mitigate the risk of wildland fire in the
3	wildland-urban interface."
4	
5	NEW SECTION. Section 2. Federal forest management projects attorney general authority to
6	intervene. The attorney general has the authority to intervene in litigation or appeals on federal forest
7	management projects that involve reduction of hazardous fuels or other activities to mitigate the risk of wildland
8	fire in the wildland-urban interface.
9	
10	Section 3. Section 76-13-115, MCA, is amended to read:
11	"76-13-115. State fire policy. The legislature finds and declares that:
12	(1) the safety of the public and of firefighters is paramount in all wildfire suppression activities;
13	(2) it is a priority to minimize property and resource loss resulting from wildfire and to minimize expense
14	to Montana taxpayers, which is generally accomplished through an aggressive and rapid initial attack effort;
15	(3) interagency cooperation and coordination among local, state, and federal agencies are intended and
16	encouraged, including cooperation when restricting activity or closing areas to access becomes necessary;
17	(4) fire prevention, hazard reduction, and loss mitigation are fundamental components of this policy;
18	(5) all property in Montana has wildfire protection from a recognized fire protection entity;
19	(6) all private property owners and federal and state public land management agencies have a
20	responsibility to manage resources, mitigate fire hazards, and otherwise prevent fires on their property;
21	(7) sound forest management activities to reduce fire risk, such as thinning, prescribed burning, and
22	insect and disease treatments, improve the overall diversity and vigor of forested landscapes and improve the
23	condition of related water, wildlife, recreation, and aesthetic resources; and
24	(8) development of fire protection guidelines for the wildland-urban interface is critical to improving public
25	safety and for reducing risk and loss; and
26	(9) catastrophic wildland fire in wildland-urban interface areas resulting from inadequate federal land
27	management activities to reduce fire risk has the potential to jeopardize Montanans' inalienable right to a clean
28	and healthful environment guaranteed in Article II, section 3, of the Montana constitution."
29	
30	NEW SECTION. Section 4. Codification instruction. [Section 2] is intended to be codified as an
	Legislative Services - 3 - Division

1 integral part of Title 76, chapter 13, part 1, and the provisions of Title 76, chapter 13, part 1, apply to [section 2].
