BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

Section 1. Budget stabilization reserve fund -- rules for deposits and transfers -- purpose. (1) There is an account in the state special revenue fund established by 17-2-102 known as the budget stabilization reserve fund.

(2) The purpose of the budget stabilization reserve fund is:

(a) to mitigate budget reductions when there is a revenue shortfall; and

(b) when there are funds in excess of the operating reserve level, to:

(i) pay down the debt service on bonds for capital projects previously authorized by the legislature if allowed without penalty by the terms of the bond issuance;

(ii) delay, forego, or reduce the amount of an issuance of bonds authorized by the legislature; and

(iii) allow the funds to remain in the account.

(3) By August 1 of each year, the department of administration shall certify to the legislative fiscal analyst and the budget director the following:

(a) the unaudited, unassigned ending fund balance of the general fund for the prior fiscal year; and
(b) the amount of unaudited general fund revenue and transfers into the general fund received in the prior fiscal year recorded when that fiscal year's statewide accounting, budgeting, and human resource system records are closed. (4) For the fiscal years beginning July 1, 2016, through July 1, 2020, if actual general fund revenue exceeds the revenue estimate established pursuant to 5-5-227 for that fiscal year, excess revenue over the amount of revenue that exceeds the revenue estimate by $15 million is allocated as follows:
   (a) 50% remains in the general fund; and
   (b) 50% is transferred into the budget stabilization reserve fund on or before August 15 of the following fiscal year.

(5) Starting in the fiscal year beginning July 1, 2021, the state treasurer shall transfer, by August 15 of the following fiscal year:
   (a) if there is not an operating reserve differential, from the general fund to the budget stabilization reserve fund an amount equal to 50% of the excess revenue for the fiscal year;
   (b) if there is an operating reserve differential for the fiscal year, from the general fund to the budget stabilization reserve fund an amount equal to 50% of the excess revenue for the fiscal year less the operating reserve differential; and
   (c) if the ending fund balance of the general fund for the prior year is less than 6.8% of the amount of all general fund appropriations in the second year of the biennium, from the budget stabilization reserve fund to the general fund up to one-half of the amount in the budget stabilization reserve fund in excess of the amount of 2% of all general fund appropriations in the second year of the biennium in the subsequent fiscal year.

(6) For the purposes of this section, the following definitions apply:
   (a) "Adjusted revenue" means general fund revenue for the prior fiscal year plus the growth amount.
   (b) "Excess revenue" means the amount of general fund revenue, including transfers in, for the most recently completed fiscal year minus adjusted revenue.

Section 3. Section 17-7-111, MCA, is amended to read:

“17-7-111. Preparation of state budget -- agency program budgets -- form distribution and contents. (1) (a) To prepare a state budget, the executive branch, the legislature, and the citizens of the state need information that is consistent and accurate. Necessary information includes detailed disbursements by fund type for each agency and program for the appropriate time period, recommendations for creating a balanced budget, and recommended disbursements and estimated receipts by fund type and fund category.

(b) Subject to the requirements of this chapter, the budget director and the legislative fiscal analyst shall by agreement:

(i) establish necessary standards, formats, and other matters necessary to share information between the agencies and to ensure that information is consistent and accurate for the preparation of the state's budget; and

(ii) provide for the collection and provision of budgetary and financial information that is in addition to or different from the information otherwise required to be provided pursuant to this section.

(2) In the preparation of a state budget, the budget director shall, not later than the date specified in 17-7-112(1), distribute to all agencies the proper forms and instructions necessary for the preparation of budget estimates by the budget director. These forms must be prescribed by the budget director to procure the information required by subsection (3). The forms must be submitted to the budget director by the date provided in 17-7-112(2), or the agency's budget is subject to preparation based upon estimates as provided in 17-7-112(5). The budget director may refuse to accept forms that do not comply with the provisions of this section or the instructions given for completing the forms.

(3) Subject to subsections (7) and (8), the agency budget request must set forth a balanced financial plan for the agency completing the forms for each fiscal year of the ensuing biennium. The plan must consist of:

(a) a consolidated agency budget summary of funds subject to appropriation, as provided in 17-8-101, for the current base budget expenditures, including statutory appropriations, and for each present law adjustment and new proposal request setting forth the aggregate figures of the full-time equivalent personnel positions (FTE) and the budget, showing a balance between the total proposed disbursements and the total anticipated receipts, together with the other means of financing the budget for each fiscal year of the ensuing biennium, contrasted with the corresponding figures for the last-completed fiscal year and the fiscal year in progress;

(b) a schedule of the actual and projected receipts, disbursements, and solvency of each fund for the
current biennium and estimated for the subsequent biennium;

(c) a statement of the agency mission and a statement of goals and objectives for each program of the agency. The goals and objectives must include, in a concise form, sufficient specific information and quantifiable information to enable the legislature to formulate an appropriations policy regarding the agency and its programs and to allow a determination, at some future date, on whether the agency has succeeded in attaining its goals and objectives.

(d) actual FTE and disbursements for the completed fiscal year of the current biennium, estimated FTE and disbursements for the current fiscal year, and the agency's request for the ensuing biennium, by program;

(e) actual disbursements for the completed fiscal year of the current biennium, estimated disbursements for the current fiscal year, and the agency's recommendations for the ensuing biennium, by disbursement category;

(f) for agencies with more than 20 FTE, a plan to reduce the proposed base budget for the general appropriations act and the proposed state pay plan to 95% of the current base budget or lower if directed by the budget director. Each agency plan must include base budget reductions that reflect the required percentage reduction by fund type for the general fund and state special revenue fund types. Exempt from the calculations of the 5% target amounts are legislative audit costs, administratively attached entities that hire their own staff under 2-15-121, and state special revenue accounts that do not transfer their investment earnings or fund balances to the general fund. The plan must include:

(i) a prioritized list of services that would be eliminated or reduced;

(ii) for each service included in the prioritized list, the savings that would result from the elimination or reduction; and

(iii) the consequences or impacts of the proposed elimination or reduction of each service.

(g) a reference for each new information technology proposal stating whether the new proposal is included in the approved agency information technology plan as required in 2-17-523;

(h) energy cost saving information as required by 90-4-616; and

(i) other information the budget director feels is necessary for the preparation of a budget.

(4) The budget director shall prepare and submit to the legislative fiscal analyst in accordance with 17-7-112:

(a) detailed recommendations for the state long-range building program. Each recommendation must
be presented by institution, agency, or branch, by funding source, with a description of each proposed project.

(b) a statewide project budget summary as provided in 2-17-526;

(c) the proposed pay plan schedule for all executive branch employees at the program level by fund, with the specific cost and funding recommendations for each agency. Submission of a pay plan schedule under this subsection is not an unfair labor practice under 39-31-401.

(d) agency proposals for the use of cultural and aesthetic project grants under Title 22, chapter 2, part 3, the renewable resource grant and loan program under Title 85, chapter 1, part 6, the reclamation and development grants program under Title 90, chapter 2, part 11, and the treasure state endowment program under Title 90, chapter 6, part 7.

(5) The board of regents shall submit, with its budget request for each university unit in accordance with 17-7-112, a report on the university system bonded indebtedness and related finances as provided in this subsection (5). The report must include the following information for each year of the biennium, contrasted with the same information for the last-completed fiscal year and the fiscal year in progress:

(a) a schedule of estimated total bonded indebtedness for each university unit by bond indenture;

(b) a schedule of estimated revenue, expenditures, and fund balances by fiscal year for each outstanding bond indenture, clearly delineating the accounts relating to each indenture and the minimum legal funding requirements for each bond indenture; and

(c) a schedule showing the total funds available from each bond indenture and its associated accounts, with a list of commitments and planned expenditures from the accounts, itemized by revenue source and project for each year of the current and ensuing bienniums.

(6) (a) The department of revenue shall make Montana individual income tax information available by removing names, addresses, and social security numbers and substituting in their place a state accounting record identifier number. Except for the purposes of complying with federal law, the department may not alter the data in any other way.

(b) The department of revenue shall provide the name and address of a taxpayer on written request of the budget director when the values on the requested return, including estimated payments, are considered necessary by the budget director to properly analyze state revenue and are of a sufficient magnitude to materially affect the analysis and when the identity of the taxpayer is necessary to evaluate the effect of the return or payments on the analysis being performed.
(7) (a) The department of public health and human services' budget request for the 2013 biennium must identify changes necessary to reduce the 2013 biennium expenditures to the level funded in the general appropriations act. The department may include changes such as reducing administrative costs, developing more cost-efficient methods to deliver services, limiting the number of medicaid services that adults may receive, changing medicaid services included in the Montana medicaid state plan, changing eligibility or level-of-care requirements for medicaid waiver services, limiting or changing services that are fully state-funded, or implementing other initiatives that reduce state funds. Achieving the necessary general fund reduction in the 2013 biennium budget request may not include shifting costs to state special revenue funds.

(b) The department of public health and human services shall prepare a work plan with goals, milestones, and measures to guide its review of alternatives to identify, evaluate, and select initiatives to reduce ongoing state spending in its 2013 biennium budget submission. The department shall submit the work plan, goals, milestones, and measures to the legislative finance committee at its first meeting after the adjournment of the 2009 legislative session for its review and comment. The department shall provide an update of its budget reduction for review and comment at each legislative finance committee meeting in a format developed with and agreed upon by the committee.

(8) Each agency budget request for the 2013 biennium must include the adjustments to present law base specified in 17-7-102(10)(b).

Section 4. Section 17-7-131, MCA, is amended to read:

"17-7-131. Legislative action -- ending fund balance. (1) The presiding officers of the house of representatives and of the senate shall promptly refer the budgets and budget bills to the proper committees. The budget bill for the maintenance of the agencies of state government and the state institutions must be based upon the budget and proposed budget bill submitted at the request of the governor. The legislature may amend the proposed budget bill, but it may not amend the proposed budget bill so as to affect either the obligations of the state or the payment of any salaries required to be paid by the constitution and laws of the state.

(2) The adopted budget must be limited so that a positive ending general fund balance exists at the end of the biennium for which funds are appropriated.

(3) When possible, the adopted budget should be limited so that the ending fund balance of the general fund is greater than or equal to the amount of the operating reserve."
Section 5. Section 17-7-140, MCA, is amended to read:

"17-7-140. Reduction in spending. (1) (a) As the chief budget officer of the state, the governor shall ensure that the expenditure of appropriations does not exceed available revenue. Except as provided in subsection (2), in the event of a projected general fund budget deficit, the governor, taking into account the criteria provided in subsection (1)(c), shall direct agencies to reduce spending in an amount that ensures that the projected ending general fund balance for the biennium will be at least:

(i) 3.5% of all general fund appropriations for the biennium prior to October of the year preceding a legislative session;

(ii) 1.875% of all general fund appropriations for the biennium in October of the year preceding a legislative session;

(iii) 1.25% of all general fund appropriations for the biennium in January of the year in which a legislative session is convened; and

(iv) 0.625% of all general fund appropriations for the biennium in March of the year in which a legislative session is convened.

(i) 6% of the general fund appropriations for the second fiscal year of the biennium prior to October of the year preceding a legislative session;

(ii) 3% of the general fund appropriations for the second fiscal year of the biennium in October of the year preceding a legislative session;

(iii) 2% of the general fund appropriations for the second fiscal year of the biennium in January of the year in which a legislative session is convened; and

(iv) 1% of the general fund appropriations for the second fiscal year of the biennium in March of the year in which a legislative session is convened.

(b) An agency may not be required to reduce general fund spending for any program, as defined in each general appropriations act, by more than 10% during a biennium. Departments or agencies headed by elected officials or the board of regents may not be required to reduce general fund spending by a percentage greater than the percentage of general fund spending reductions required for the total of all other executive branch agencies. The legislature may exempt from a reduction an appropriation item within a program or may direct that the appropriation item may not be reduced by more than 10%.
(c) The governor shall direct agencies to manage their budgets in order to reduce general fund expenditures. Prior to directing agencies to reduce spending as provided in subsection (1)(a), the governor shall direct each agency to analyze the nature of each program that receives a general fund appropriation to determine whether the program is mandatory or permissive and to analyze the impact of the proposed reduction in spending on the purpose of the program. An agency shall submit its analysis to the office of budget and program planning and shall at the same time provide a copy of the analysis to the legislative fiscal analyst. The report must be submitted in an electronic format. The office of budget and program planning shall review each agency's analysis, and the budget director shall submit to the governor a copy of the office of budget and program planning's recommendations for reductions in spending. The budget director shall provide a copy of the recommendations to the legislative fiscal analyst at the time that the recommendations are submitted to the governor and shall provide the legislative fiscal analyst with any proposed changes to the recommendations. The recommendations must be provided in an electronic format. The legislative finance committee shall meet within 20 days of the date that the proposed changes to the recommendations for reductions in spending are provided to the legislative fiscal analyst. The legislative fiscal analyst shall provide a copy of the legislative fiscal analyst's review of the proposed reductions in spending to the budget director at least 5 days before the meeting of the legislative finance committee. The committee may make recommendations concerning the proposed reductions in spending. The governor shall consider each agency's analysis and the recommendations of the office of budget and program planning and the legislative finance committee in determining the agency's reduction in spending. Reductions in spending must be designed to have the least adverse impact on the provision of services determined to be most integral to the discharge of the agency's statutory responsibilities.

(2) Reductions in spending for the following may not be directed by the governor:

(a) payment of interest and principal on state debt;

(b) the legislative branch;

(c) the judicial branch;

(d) the school BASE funding program, including special education;

(e) salaries of elected officials during their terms of office; and

(f) the Montana school for the deaf and blind.

(3) (a) As used in this section, "projected general fund budget deficit" means an amount, certified by the budget director to the governor, by which the projected ending general fund balance for the biennium is less than:
(i) 5% of the general fund appropriations for the second fiscal year of the biennium prior to October of the year preceding a legislative session;

(ii) 1.875% in October of the year preceding a legislative session;

(iii) 1.25% in January of the year in which a legislative session is convened; and

(iv) 0.625% in March of the year in which a legislative session is convened.

(b) In determining the amount of the projected general fund budget deficit, the budget director shall take into account revenue, established levels of appropriation, anticipated supplemental appropriations for school equalization aid and the cost of the state's wildland fire suppression activities exceeding the amount statutorily appropriated in 10-3-312, and anticipated reversions.

(4) If the budget director determines that an amount of actual or projected receipts will result in an amount less than the amount projected to be received in the revenue estimate established pursuant to 5-5-227, the budget director shall notify the revenue and transportation interim committee of the estimated amount. Within 20 days of notification, the revenue and transportation interim committee shall provide the budget director with any recommendations concerning the amount. The budget director shall consider any recommendations of the revenue and transportation interim committee prior to certifying a projected general fund budget deficit to the governor.

(5) If the budget director certifies a projected general fund budget deficit, the governor may authorize transfers to the general fund from certain accounts as set forth in subsections (6) and (7).

(6) The governor may authorize transfers from the budget stabilization reserve fund provided for in [section 1]. The governor may authorize $2 of transfers from the fund for each $1 of reductions in spending.

(7) If the budget director certifies a projected general fund budget deficit, the governor may authorize transfers to the general fund from the fire suppression account established in 76-13-150. The amount of funds available for a transfer from this account is up to the sum of the fund balance of the account, plus expected current year revenue, minus the sum of 1% of the general fund appropriations for the second fiscal year of the biennium, plus estimated expenditures from the account for the fiscal year. The governor may authorize $1 of transfers from the fire suppression account established in 76-13-150 for each $1 of reductions in spending."

Section 6. Section 76-13-150, MCA, is amended to read:

"76-13-150. Fire suppression account -- fund transfer. (1) There is a fire suppression account in the
state special revenue fund to the credit of the department.

(2) The legislature may transfer money from other funds to the account, and the money in the account is subject to legislative fund transfers.

(3) Funds received for restitution by private parties must be deposited in the account.

(4) Money in the account may be used only for the purpose of paying expenses for fire prevention, including fuel reduction and mitigation, forest restoration, grants for the purchase of fire suppression equipment for county cooperatives, and fire suppression costs.

(5) Interest earned on the balance of the account is retained in the account.

(6) Except as provided in subsections (7) and (8), by August 15 following the end of each fiscal year, an amount equal to the balance of unexpended and unencumbered general fund money appropriated in excess of 0.5% of the total general fund money appropriated for that fiscal year must be transferred by the state treasurer from the general fund to the fire suppression account. General fund appropriations that continue from a fiscal year to the next fiscal year and any general fund appropriations made pursuant to 10-3-310 or 10-3-312 are excluded from the calculation.

(7) The provisions of subsection (6) do not apply in a fiscal year in which reductions required by 17-7-140 occur or if a transfer pursuant to subsection (6) would require reductions pursuant to 17-7-140.

(8) The fund balance in the account may not exceed $100 million 4% of all general fund appropriations in the second year of the biennium.

(9) For the fiscal year ending June 30, 2017, the state treasurer may not transfer from the general fund to the fire suppression account.

(9)(10) Up to $5 million each biennium may be used for the purpose of fuel reduction and mitigation and forest restoration.

(49)(11) Money in the account is statutorily appropriated, as provided in 17-7-502, to the department for the purposes described in subsection (4)."

Section 7. Levels 1 through 4 budget reductions -- contingent fund transfer from fire suppression account. (1) (a) If the amount of the certified unaudited state general fund revenue and transfers into the general fund received at the end of fiscal year 2017 is less than $2,216,000,000 but greater than or equal to $2,204,000,000, as determined by the state treasurer on or before August 15, 2017, then the state treasurer shall
transfer the amount provided for in subsection (1)(b) from the fire suppression account provided for in 76-13-150 to the general fund.

(b) The amount of the fund transfer provided for in subsection (1)(a) is equal to $2,216,000,000 minus the amount of certified unaudited state general fund revenue and transfers into the general fund at the end of fiscal year 2017, not to exceed $12 million.

(2) If the amount of the certified unaudited state general fund revenue and transfers into the general fund received at the end of fiscal year 2017 is less than $2,204,000,000 but greater than or equal to $2,192,000,000, as determined by the state treasurer on or before August 15, 2017, then the state treasurer shall transfer $24 million from the fire suppression account provided for in 76-13-150 to the general fund.

(3) If the amount of the certified unaudited state general fund revenue and transfers into the general fund received at the end of fiscal year 2017 is less than $2,192,000,000, as determined by the state treasurer on or before August 15, 2017, then the state treasurer shall transfer $30 million from the fire suppression account provided for in 76-13-150 to the general fund.

(4) (a) If the amount of the certified unaudited state general fund revenue and transfers into the general fund received at the end of fiscal year 2018 is less than the 2018 general fund revenue trigger amount provided for in [section 10(2)], then the state treasurer shall transfer the amount provided for in subsection (4)(b) from the fire suppression account provided for in 76-13-150 to the general fund.

(b) Subject to the transfer limit in subsection (5), the amount of the fund transfer provided for in subsection (4)(a) is equal to:

(i) the 2018 general fund revenue trigger amount provided for in [section 10(2)] minus the amount of certified unaudited state general fund revenue and transfers into the general fund at the end of fiscal year 2018; minus

(ii) the amount of any transfers from the fire suppression account to the general fund during fiscal year 2017 under the provisions of subsections (1) through (3).

(5) The total amount of fund transfers under this section may not exceed $30 million.

Section 8. Legislative intent.
