25  
26 WHEREAS, it is necessary and it is the policy of the state of Montana to promote and encourage  
27 coordination of the statewide public safety communications system among state and local agencies, efficient  
28 planning and development of the system, cost-effective deployment of the system, and the sustainability of public  
29 safety communications technology and infrastructure in the state to provide for the safety of its citizens and  
30 emergency responders and for the protection of public and private property; and

1 WHEREAS, the legislature recognizes that consistency, continuity, and cost-effectiveness is needed to  
2 sustain the existing statewide public safety communications system to protect public and private property and  
3 to promote the safety of Montana's citizens and emergency responders; and

4 WHEREAS, it is necessary to ensure cost-effective, long-term solutions for delivering efficient statewide  
5 public safety communications.

6

7 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

8

9 NEW SECTION. **Section 1. Short title.** [Sections 1 through 8 9] may be cited as the "Statewide Public  
10 Safety Communications System Act".

11

12 NEW SECTION. **Section 2. Findings -- intent.** (1) Montana finds that the continued planning and  
13 development of a unified statewide public safety communications system must be conducted in an organized,  
14 deliberate, and cost-effective manner.

15 (2) It is the intent of [sections 1 through 8 9] to guide future planning for and efforts to sustain the  
16 statewide public safety communications system by:

17 (a) creating and communicating operational recommendations and guidelines applicable to all state  
18 agencies and other entities using the statewide public safety communications system to improve overall  
19 satisfaction with the communications system, TO increase the adoption of recommendations and guidelines, and  
20 to set a benchmark for user expectations;

21 (b) developing a sustainable maintenance plan for the statewide public safety communications system  
22 to ensure that the existing statewide public safety communications system remains operational and reliable;

23 (c) establishing a plan to fund upgrades, modifications, maintenance, or migration of technology within  
24 the statewide public safety communications system;

25 (d) ensuring that public-private partnerships are used to expand, modify, migrate, operate, and maintain  
26 the statewide public safety communications system in a cost-effective manner to achieve the objectives and  
27 required functionality of the system;

28 (e) to the greatest extent possible, encouraging the use of nonproprietary, standards-based and  
29 commercially available technology to allow a wide array of system options and cost-effective deployments;

30 (f) ensuring that the primary purpose of the statewide public safety communications system is to enable

1 participating agencies to fulfill their respective missions, and not to implement a specific technology or standard;  
2 and

3 (g) requiring that future modifications, expansions, or migrations of the statewide public safety  
4 communications system are developed in cooperation with federal, state, tribal, and local governments and  
5 private industry with a goal to provide seamless access to mission critical voice, data, or both voice and data  
6 communications to the greatest extent possible.

7  
8 **NEW SECTION. Section 3. Definitions.** As used in [sections 1 through 8 9], the following definitions  
9 apply:
