Description of fiscal impact: HB 462, as amended, imposes new reporting requirements on local governments with urban renewal districts (URDs) and targeted economic development districts (TEDDs) to report financial information to the Department of Revenue (the department) annually. It also imposes on the department the obligation to post certain specified information derived from the local government reports as well as in the department's biennial report. This is an expansion of current department reporting. The bill also sets additional requirements for new or amended tax increment finance districts (TIFDs) if the base value of TIFDs is more than 35% of the total of local government taxable value. If a new district exceeds the 35% criteria, the local government must do an impact analysis and hold public hearings for the affected local jurisdictions. There is no fiscal impact to the state.
