BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

NEW SECTION. Section 1. Competitive solicitation process required -- exception. (1) (a) Except as provided in subsection (6), a public utility that intends to seek approval by the commission pursuant to 69-3-201 or 69-8-421 for the acquisition, construction, or purchase of an electricity supply resource shall conduct a competitive solicitation process.

(b) A public utility may not prohibit a qualifying small power production facility as defined in 69-3-601 or another utility or supplier that owns an electricity supply resource or intends to construct an electricity supply resource from participating in a competitive solicitation process.

(c) A competitive solicitation process that is open to bids that would result in the ownership of an electricity supply resource by the public utility issuing the solicitation must include the use of a third-party administrator selected by the public utility to open, consider, and evaluate bids submitted pursuant to a solicitation.

(2) A public utility that plans to conduct a competitive solicitation process shall submit the following information to the commission:

(a) a description of the competitive solicitation process that the public utility will use and proof of compliance with subsections (1)(b) and (1)(c), if applicable;

(b) a complete draft of the proposal soliciting an electricity supply resource, citing the need for a resource; and

(c) any other information the commission requires.

(3) (a) If the commission receives information from a public utility pursuant to subsection (2), the commission shall accept public comment on the information. To allow for public comment, the commission may hold a public hearing.

(b) The commission may select and retain a person or organization to act as an independent monitor for a competitive solicitation process. The commission shall charge a fee to the public utility to pay for the costs thereof.
of an independent monitor. These costs are recoverable in rates.

(c) The independent monitor may assist the commission by:

(i) providing comments on the consistency of the competitive solicitation process with industry standards and the commission’s criteria;

(ii) monitoring and observing the competitive solicitation process, paying particular attention to the public utility’s evaluation of electricity supply resources that may result in utility ownership of the resource, to ensure that the utility conducts a fair and proper process in accordance with industry standards and commission criteria;

(iii) notifying the utility and the commission on a timely basis of any discrepancies observed in the process and resolving any differences of opinion; and

(iv) preparing a closing report regarding the consistency of the process, including selection and notification of electricity supply resources taking part in the solicitation process based on industry standards and commission criteria.

(4) (a) Except as provided in subsection (4)(b), within 60 days of receiving the information required pursuant to subsection (2) the commission shall:

(i) approve a proposed competitive solicitation process that meets the requirements of subsections (2) and (5);

(ii) suggest modifications to a proposed competitive solicitation process in order to meet the requirements of subsections (2) and (5); or

(iii) reject a proposed competitive solicitation process.

(b) The commission may extend the time to a date that provides the commission with adequate time to analyze the information provided in accordance with subsection (2). The time may not be extended by longer than 90 days.

(5) In approval or denial of the competitive solicitation process, the commission shall determine if the competitive solicitation process is in the public interest. The commission shall make the determination by considering:

(a) the cost to Montana ratepayers;

(b) long-term and short-term impacts;

(c) risk;

(d) reliability;

(e) environmental impacts;
(f) financial impacts on the public utility; and

(g) other factors determined by the commission to be relevant.

(6) This section does not apply to a request for proposals or purchase by a public utility intended solely to meet the short-term operational needs of the utility for a period of less than 12 months.

NEW SECTION. Section 2. Integrated least-cost resource planning -- advisory committee -- commission role. (1) A public utility shall maintain a broad-based advisory committee to review, evaluate, and make recommendations on technical, economic, and policy issues related to a utility's electricity system.

(b) The public service commission may require a public utility to include members on an advisory committee to ensure the requirements of subsection (1)(a) are met.

(2) The committee shall advise the utility on transmission and distribution system planning, demand-side management, portfolio planning, and management and procurement completed in accordance with this part.

NEW SECTION. Section 3. Electric utility demand-side management programs. (1) The commission may establish energy savings and peak demand reduction goals to be achieved by an electric utility, taking into account the utility's cost-effective demand-side management potential, the need for electricity resources, and other factors as determined by the commission.

(2) The commission shall permit electric utilities to implement cost-effective electricity demand-side management programs and conservation in accordance with 69-3-701 through 69-3-713 and this part to reduce the need for additional resources that would otherwise be met through a competitive solicitation process.

(3) Every 2 years, an electric utility shall submit a report to the commission describing the demand-side management programs and conservation implemented by the electric utility in the previous year. The report must document:

(a) program expenditures, including incentive payments;

(b) peak demand and energy savings impacts and the techniques used to estimate those impacts;

(c) avoided costs and the techniques used to estimate those costs;

(d) the estimated cost-effectiveness of the programs;

(e) the net economic benefits of the programs; and

(f) any other information required by the commission.
NEW SECTION. Section 4. Independent hearings HEARINGS examiner -- DISCOVERY -- RULEMAKING.

(1) (a) Except as provided in subsection (9), the commission shall exercise its powers and duties in accordance with this section:

(b) The commission shall appoint an independent hearings examiner for proceedings under this title.

(b) IF FOUR PUBLIC SERVICE COMMISSIONERS DETERMINE THAT A HEARINGS EXAMINER IS NOT REQUIRED FOR A PROCEEDING, THE COMMISSION IS NOT REQUIRED TO APPOINT A HEARINGS EXAMINER.

(c) IF THREE PUBLIC SERVICE COMMISSIONERS DETERMINE THAT A HEARINGS EXAMINER IS NECESSARY FOR A PROCEEDING, THE COMMISSION SHALL APPOINT A HEARINGS EXAMINER.

(d) THE DETERMINATIONS IN THIS SUBSECTION (1) MUST BE MADE BY A VOTE OF THE COMMISSION DURING A PUBLIC MEETING.

(e) COMMISSION STAFF MAY SERVE AS A HEARINGS EXAMINER. A hearings examiner must be assigned with regard to the expertise required for the particular matter. On the filing by a party, in good faith, of a timely and sufficient affidavit of personal bias, lack of independence, disqualification by law, or other disqualification of a hearings examiner or on the hearings examiner's own motion, the commission shall determine the affidavit or motion as a part of the record in the case.

(f) The commission may disqualify the hearings examiner and appoint another hearings examiner. The affidavit must state the facts and the reasons for the belief that the hearings examiner should be disqualified.

(2) Unless otherwise agreed to by the parties and except as provided for in 69-3-1502 and 69-12-321(1)(c), the commission shall, within 10 days of the filing of a request for hearing, conduct a conference with the parties for the purpose of establishing a schedule for the orderly and timely disposition of the hearing. The schedule must include discovery deadlines, a hearing date, and the name of the hearings examiner appointed as provided in this section to conduct the proceedings:

(3) The hearing must be conducted pursuant to the Montana Rules of Evidence, and the parties are entitled to be heard, to present evidence material to the issues, and to cross-examine witnesses appearing at the hearing. Hearings must be open to the public in accordance with 69-3-104. Parties must be allowed to conduct discovery pursuant to the schedule determined in subsection (2), and the discovery must be conducted pursuant to the Montana Rules of Civil Procedure. The hearings examiner shall resolve all discovery and evidence disputes. All hearings conducted under this subsection must be conducted pursuant to the Montana Administrative Procedure Act, as provided in Title 2, chapter 4, part 6.
(a) The hearings examiner may issue subpoenas for the attendance of witnesses and the production of books, records, documents, and other evidence relevant to the issues being heard and may administer oaths. Subpoenas must be served and enforced in the manner provided by law for the service and enforcement of subpoenas in a civil action in district court. The hearings examiner shall regulate the course of the hearings and the need for filing briefs and may direct the parties to appear and confer to consider simplification of the issues by consent of the parties.

(b) Commission staff member who is not serving as the hearings examiner may conduct discovery or be a party to the hearings examiner process, or both. A commission staff member who is neither a hearings examiner nor a party to the hearings examiner process can advise the hearings examiners, the commission, or both. Commissioners may not conduct discovery during the hearings examiner process or engage in cross-examination during a hearings examiner process.

c) The hearings examiner shall file with the commission a proposed decision, including proposed findings of fact, and conclusions of law, within the time set by order of the commission.

(5) Unless the timeline for a decision is required as provided in 69-3-603(2), 69-3-1204, 69-3-1415(3), 69-5-112, 69-8-421, 69-12-323, and 69-12-505(3), the commission shall issue its final order no later than 9 months after the hearings examiner files the proposed findings of fact and conclusions of law with the commission. Each party must be simultaneously given a copy delivered personally or by certified mail. The final order must:

(a) be in writing; and

(b) include findings of fact and conclusions of law, separately stated. The findings of fact must meet the requirements of subsection (6).

(6) Findings of fact must be accompanied by a concise and explicit statement of the underlying facts supporting the findings. The commission’s findings of fact must be based exclusively on the evidence and the matters officially noticed and on the expertise on the commission.

(7) If the person who conducted the hearing becomes unavailable to the commission, the commission is not precluded from issuing a final order.

(3) The hearings examiner may not communicate with any party or a party’s representative in connection with any issue of fact or law in the case unless there is notice and opportunity for all parties to participate. The commission may not communicate with any party before the conclusion of the hearing.

(4) The commission may adopt rules necessary to implement the utilization of a hearings examiner.
IN ACCORDANCE WITH THIS SECTION.

(9) The commission shall hold hearings and issue orders to maintain universal availability of basic telecommunications services in accordance with chapter 3, parts 8 through 10 and part 13, of this title.

(10) Appeals from the commission’s order must be filed with the district court of Lewis and Clark County pursuant to the procedures provided for in Title 2, chapter 4, part 7.

Section 5.  Section 69-1-110, MCA, is amended to read:

“69-1-110. Conduct of commission business. (1) The commission shall hold sessions at times and places in this state as may be expedient. A majority of the commission constitutes a quorum for the transaction of business.

(2) The members of the commission may administer oaths and affirmations.

(3) The commission may adopt rules to govern its proceedings and to regulate the mode and manner of all investigations and hearings, in accordance with [section 4], concerning railroad companies and other parties before it in the establishment of rates, orders, charges, and other acts required of it under the law.”

Section 5.  Section 69-1-114, MCA, is amended to read:

“69-1-114. Fees. (1) Each fee charged by the commission must be reasonable.

(2) Except for a fee assessed pursuant to 69-3-204(2), [section 1(3)(b)], 69-8-421(10) 69-3-1204(6)(c), or 69-12-423(2), a fee set by the commission may not exceed $500.

(3) All fees collected by the department under 69-8-421(10) [section 1(3)(b)] and 69-3-1204(6)(c) must be deposited in an account in the special revenue fund. Funds in this account must be used as provided in 69-8-421(10) [section 1(3)(b)] and 69-3-1204(6)(c).”

Section 7.  Section 69-2-102, MCA, is amended to read:

“69-2-102. Role of commission when consumer counsel protests. In any case involving an application by a regulated entity to the commission for authority to increase its rates that is actively contested by the consumer counsel, the commission shall leave representation of the interests of consumers to the consumer counsel when the consumer counsel timely petitions to become a party to the case. This except as provided in [section 4], this section does not prohibit the commission or its staff from investigating and interrogating in any hearing to clarify the case or present an issue. Evidence In accordance with the requirements of [section 4],
evidence may be introduced by the commission on an issue that has not been adequately addressed by any party if the commission first requests counsel of record to address the issue and counsel fails to introduce sufficient or adequate evidence."

Section 8. Section 69-2-201, MCA, is amended to read:

"69-2-201. Appearance at hearings by counsel. The consumer counsel may appear at public hearings conducted by the commission in accordance with [section 4], as the representative of the consuming public, on all matters which come before the commission which in any way affect the consuming public and shall have The consumer counsel has all the rights and powers of any party in interest appearing before the commission regarding examination and cross-examination of witnesses, presentation of evidence, and other matters."

"69-3-326. Conduct of hearing. (1) (a) At the hearing, both the complainant and the public utility have the right to appear by counsel or otherwise and to be fully heard.

(b) Either party is entitled to an order by the commission for the appearance of witnesses or the production of books, papers, and documents containing material testimony.

(2) Witnesses appearing upon the order of the commission are entitled to the same fees and mileage as witnesses in civil cases in the courts of the state, and the fees and mileage must be paid out of the state treasury in the same manner as other claims against the state are paid. Fees or mileage may not be allowed unless the presiding officer of the commission certifies to the correctness of the claim."

Section 16. Section 69-3-327, MCA, is amended to read:

"69-3-327. Subpoena of witnesses. If any party ordered to appear before the commission as a witness fails to obey the order, the commission or its staff may apply to the clerk of the nearest district court for a subpoena commanding the attendance of the witness before the commission. It is the duty of the clerk to issue the subpoena and of any peace officer to serve the subpoena. Disobedience to the subpoena is considered contempt of court and is punishable accordingly."

Section 17. Section 69-3-328, MCA, is amended to read:

"69-3-328. Depositions of witnesses. The commission or any party to any proceeding before it may cause the depositions of witnesses to be taken in the manner prescribed by law for like depositions in civil actions."

Section 6. Section 69-3-702, MCA, is amended to read:

"69-3-702. Eligible conservation. Conservation purchases or investments are eligible under this part if they are provided for in 69-3-1206 and in accordance with [section 3]."

Section 7. Section 69-3-711, MCA, is amended to read:

"69-3-711. Criteria for allowable conservation and demand-side management programs -- onsite
audits. (1) The commission shall approve cost-effectiveness criteria for conservation that may be placed into a utility's rate base under this part and demand-side management programs in accordance with 69-3-1201 through 69-3-1206 and [sections 1 through 3].

(2) The commission may conduct onsite energy audits to ensure compliance with the criteria established under subsection (1)."

Section 8. Section 69-3-712, MCA, is amended to read:

"69-3-712. Commission to include conservation and demand-side management programs in rate base -- rate of return. (1) In order to encourage the purchase of or investment in conservation by a utility, the commission shall include conservation purchases or investments and demand-side management programs eligible under 69-3-702 and in compliance with criteria adopted under 69-3-711, 69-3-1201 through 69-3-1206, and [sections 1 through 3] in a utility's rate base.

(2) In establishing the rate of return, the commission may allow an increment of up to 2% added to the rate of return on common equity permitted on the utility's other investments.

(3) The commission shall allow the rate of return increment provided for in subsection (2) for a period not to exceed 30 years after the conservation is first placed in the rate base.

(4) The commission shall prescribe amortization periods for conservation that is included in a utility's rate base."

Section 9. Section 69-3-713, MCA, is amended to read:

"69-3-713. Prohibition against utility claiming conservation tax credit. A utility whose conservation is placed in the rate base under this part or 69-3-1201 through 69-3-1206 and [sections 1 through 3] may not claim the tax credit allowed in 15-32-107."

Section 10. Section 69-3-1202, MCA, is amended to read:

"69-3-1202. Policy -- planning. (1) (a) It is the policy of the state of Montana to supervise, regulate, and control public utilities. To the extent that it is consistent with the policy and in order to benefit society, the state encourages efficient utility operations, efficient use of utility services, and efficient rates.

(b) It is further the policy of the state to encourage utilities to acquire resources using a competitive solicitation process and in a manner that will help ensure a clean, healthful, safe, and economically productive
environment.

(c) In addition, it is the policy of the state that a utility consult and involve a broad-based advisory committee pursuant to [section 2] when developing long-range plans.

(2) (a) The legislature finds that the commission may preapprove resources eligible in accordance with 69-8-421 and may include in rates the any costs that are associated with acquiring the resources referred to in subsection (1) or 69-8-421 and that are consistent with this policy if the resources are actually used and useful for the convenience of the public, and if the resources meet the requirements of this part.

(b) To advance this policy, the commission may shall require periodic long-range plans every 3 years from utilities that provide electric and natural gas service in a form and manner determined by the commission. The commission may shall receive comments on the plans in accordance with this part.

(3) This part does not constrain or limit the commission’s existing statutory duties or responsibilities.”

Section 11. Section 69-3-1203, MCA, is amended to read:

“69-3-1203. Definitions. As used in this part, unless the context requires otherwise, the following definitions apply:

(1) “Abandonment costs” means the costs incurred for resources acquired and abandoned pursuant to a plan.

(2) “Consumer counsel” means the consumer counsel provided for in 5-15-201.

(3) “Demand-side management programs” means energy efficiency, energy conservation, load management, and demand response or any combination of these measures implemented by an electric utility.

(4) “Energy conservation” means the decrease in electricity requirements of specific customers during any selected time period, resulting in a reduction in end-use services.

(5) “Energy efficiency” means the decrease in electricity requirements of specific customers during any selected period with end-use services of those customers held constant.

(6) “Externalities” mean the impacts on society that are not directly borne by the producer in production and delivery activities, which due to imperfections in or the absence of markets are not accounted for in the producer’s production and pricing decisions.

(7) “Plan” means an integrated least-cost resource plan submitted by a utility in accordance with this part and the rules adopted under this part.

(8) “Planning costs” means the costs of evaluating the future demand for services and of evaluating
alternative methods of satisfying future demand.

(9) "Planning period" means the future period for which a utility develops its plan, and the period over which net present value of revenue requirements for resources is calculated. For purposes of this part, the planning period is a minimum of 20 years and begins from the date the utility files its plan with the commission.

(10) "Portfolio development costs" means the costs of preparing a resource in a portfolio for prompt and timely acquisition of the resource.

(11) "Public utility" means a public utility, as defined in 69-3-101, that provides electric or natural gas service. The term does not include municipal utilities.

(12) "Resource acquisition period" means the first 6 to 10 years of the planning period, during which the utility acquires specific resources to meet projected electric system demand and energy requirements. The resource acquisition period begins from the date the utility files its plan with the commission.

Section 12. Section 69-3-1204, MCA, is amended to read:

"69-3-1204. Integrated least-cost plan. (1) (a) The commission may adopt rules requiring a public utility to prepare and file a plan every 3 years for meeting the requirements of its customers in the most cost-effective manner consistent with the public utility's obligation to serve and in accordance with this part.

(b) The rules must prescribe the content and the time for filing a plan.

(2) (a) A plan must contain but is not limited to:

(i) an evaluation of the full range of cost-effective means for the public utility to meet the service requirements of its Montana customers, including conservation or similar improvements in the efficiency by which services are used, and including demand-side management programs in accordance with [section 3];

(ii) a statement of the utility-specified resource acquisition period and planning period. The utility shall consistently use the specified resource acquisition and planning periods throughout the entire resource plan and resource acquisition process. The utility shall include a detailed explanation as to why the specific period lengths were chosen in light of the assessment of the needs of the utility system.

(iii) an annual electric demand and energy forecast developed pursuant to commission rules that includes energy and demand forecasts for each year within the planning period and historical data, as required by commission rule;

(iv) an evaluation of economic and reliability optimization of the system, including the interactions of generation, transmission, and distribution resources;
(v) an assessment of planning reserve margins and contingency plans for the acquisition of additional resources developed pursuant to commission rules;

(vi) an assessment of the need for additional resources and the utility's plan for acquiring resources;

(vii) the proposed process the utility intends to use to solicit bids for energy and capacity resources to be acquired through a competitive solicitation process in accordance with [section 1]; and

(viii) descriptions of at least two alternate plans that can be used to represent the costs and benefits from increasing amounts of renewable energy resources and demand-side management programs, based on rules developed by the commission.

(b) The utility shall fully explain, justify, and document the data, assumptions, methodologies, models, determinants, and any other inputs on which it relied to develop information required in subsection (2)(a).

(3) (a) The commission may adopt rules providing guidelines to be used in preparing a plan and identifying the criteria to be used in determining cost-effectiveness.

(b) The criteria may include externalities associated with the acquisition of a resource by a public utility.

(c) The rules must establish the minimum filing requirements for acceptance of a plan by the commission for further review. If a plan does not meet the minimum filing requirements, it must be returned to the public utility with a list of deficiencies. A corrected plan must be submitted within the time established by the commission.

(4) A plan filed with the commission by a utility, as defined in 75-20-104, must be provided to the department of environmental quality and the consumer counsel.

(5) The commission shall:

(a) review the plan;

(b) publish a copy of the plan;

(c) allow for a minimum of 60 days for the public to comment on the plan;

(d) provide public meetings in accordance with 69-3-1205; and

(e) issue written approval of the plan within 12 months after the plan is submitted to the commission.

(6) (a) The commission may approve a plan in accordance with subsection (5)(e) and also identify deficiencies in the plan, including:

(i) any concerns of the commission regarding the public utility's compliance with commission rules; and

(ii) ways to remedy the concerns.

(b) In addition to information required in subsection (2)(b), upon request of the commission, a public utility shall provide any additional underlying data, assumptions, and modeling necessary for the commission to review.
and approve a plan in accordance with subsection (5).

(c) The commission may engage independent engineering, financial, and management consultants or advisory services to evaluate a public utility’s plan. The consultants must have demonstrated knowledge and experience with resource procurement and resource portfolio management, modeling, risk management, and engineering practices. The commission shall charge a fee to the public utility to pay for the costs of consultants or advisory services. These costs are recoverable in rates."

**Section 13.** Section 69-3-1205, MCA, is amended to read:

"69-3-1205. Public comment -- public meetings. (1) When developing a plan in accordance with this part and prior to submitting a plan to the commission, a public utility shall hold at least two public meetings in the utility’s Montana service territory to ensure a plan best meets the diverse goals of shareholders, ratepayers, and society.

(2) The commission shall conduct a two public meeting meetings for the purpose of receiving comment on a plan. The commission or the department of public service regulation may comment on the plan. A comment by the commission or the department may not be construed as preapproval by the commission of rate treatment for any proposed resource.

(3) The department of environmental quality:

(a) shall review a plan submitted to the commission and comment on the need for new resources, the alternatives evaluated to meet the need, the environmental implications of the resource choices, and other related issues that it considers important. The department shall coordinate and deliver all comments from other executive branch agencies.

(b) may use a plan in the development of studies for a specific energy facility for which an application for a certificate of compliance is submitted under Title 75, chapter 20.

(4) The consumer counsel shall review and may comment on a submitted plan."

**Section 14.** Section 69-3-1206, MCA, is amended to read:

"69-3-1206. Rate treatment. (1) The commission may include in a public utility’s rates:

(a) the cost of resources acquired in accordance with a plan; and

(b) demand-side management programs established and implemented in accordance with [section 3].

(2) The commission shall include in a public utility’s rates:
the cost-effective expenditures for improving the efficiency with which the public utility provides and its customers use utility services; and IN A PUBLIC UTILITY’S RATES.

THE COMMISSION SHALL INCLUDE the costs of complying with the planning requirements of this part and the costs of complying with a competitive solicitation process conducted in accordance with [section 1]; including IN A PUBLIC UTILITY’S RATES. COSTS INCLUDE but ARE not limited to:

(i) planning costs;
(ii) portfolio development costs; and
(iii) all or a portion of abandonment costs.

The commission shall may adopt rules establishing criteria governing the extent of recovery of abandonment costs."

Section 27. Section 69-3-1502, MCA, is amended to read:

“69-3-1502. Commission approval of material affiliate transactions — rulemaking authority. (1) In addition to the commission’s existing regulatory authority under this title and except as provided in 69-3-1503 and subsection (4) of this section, a regulated energy utility may not enter into a material affiliate transaction without the commission’s review and approval.

(2) The commission shall approve or deny the material affiliate transaction. Upon a showing of good cause, the commission shall hold a public hearing in accordance with [section 4] on the proposed material affiliate transaction within 45 days of an official notification by the regulated energy utility to the commission that the utility is intending to enter into a material affiliate transaction.

(3) If a material affiliate transaction involves dividend payments from a regulated energy utility to a corporate parent company, the commission may limit those dividend payments if the payments would place the regulated energy utility’s credit quality or property in jeopardy.

(4) A regulated energy utility may request an exemption from any of the provisions in this section, and the commission may grant the exemption on a case-by-case basis upon a showing of good cause and after notice and an opportunity for hearing.

(5) The commission may promulgate rules that implement the provisions of this part.”

Section 15. Section 69-8-421, MCA, is amended to read:

“69-8-421. Approval of electricity supply resources. (1) A public utility that removed its generation
assets from its rate base pursuant to this chapter prior to October 1, 2007, may apply to the commission for
approval of an electricity supply resource that:

(a) is not yet procured;
(b) meets the requirements of subsection (2); and
(c) is subject to a competitive solicitation process in accordance with [section 1].

(2) A public utility shall demonstrate in its integrated least-cost resource plan approved in accordance
with 69-3-1204(5)(e) that there is a need for the electricity that will be generated by the proposed electricity supply
resource.

(2)(3) Within 45 days of the public utility's submission of an application for approval, the commission shall
determine whether or not the application is adequate and in compliance with subsections (1) and (2) and the
commission's minimum filing requirements. If the commission determines that the application is inadequate, it
shall explain the deficiencies.

(2)(4) The commission shall issue an order within 180 days of receipt of an adequate application for
approval of a power purchase agreement from an existing generating resource unless it determines that
extraordinary circumstances require additional time.

(4)(5) (a) Except as provided in subsections (4)(b)(5)(b) through (4)(d)(5)(d), the commission shall issue
an order within 270 days of receipt of an adequate application for approval of a lease, an acquisition of an equity
interest in a new or existing plant or equipment used to generate electricity, or a power purchase agreement for
which approval would result in construction of a new electric generating resource. The commission may extend
the time limit up to an additional 90 days if it determines that extraordinary circumstances require it.

(b) If an air quality permit pursuant to Title 75, chapter 2, is required for a new electrical generation
resource or a modification to an existing resource, the commission shall hold the public hearing meetings on the
application for approval in accordance with 69-3-1205(2) and at least 30 days after the issuance of the final air
quality permit.

(c) If a final air quality permit is not issued within the time limit pursuant to subsection (4)(a)(5)(a), the
commission shall extend the time limit in order to comply with subsection (4)(b)(5)(b).

(d) The commission may extend the time limit for issuing an order for an additional 60 days following the
hearing pursuant to subsection (4)(b)(5)(b).

(5)(6) To facilitate timely consideration of an application, the commission may initiate proceedings to
evaluate planning and procurement activities related to a potential resource procurement, if necessary, in
accordance with [section 1] prior to the public utility's submission of an application for approval.

(a) The commission may approve or deny, in whole or in part, an application for approval of an electricity supply resource.

(b) The commission may consider all relevant information known up to the time that the administrative record in the proceeding is closed in the evaluation of an application for approval.

(c) A commission order granting approval of an application must include the following findings:

(i) approval, in whole or in part, is in the public interest; and

(ii) procurement of the electricity supply resource is consistent with the requirements and objectives in 69-3-201, the objectives in 69-8-419 through 69-3-1206, [sections 1 through 3], and commission rules.

(d) The commission order may include a provision for allowable generation assets cost of service when the utility has filed an application for the lease or acquisition of an equity interest in a plant or equipment used to generate electricity.

(e) When issuing an order for the acquisition of an equity interest or lease in a facility or equipment that is constructed after January 1, 2007, and that is used to generate electricity that is primarily fueled by natural or synthetic gas, the commission shall require the applicant to implement cost-effective carbon offsets. Expenditures required for cost-effective carbon offsets pursuant to this subsection (6)(e) are fully recoverable in rates.

By March 31, 2008, the commission shall adopt rules for the implementation of this subsection (6)(e).

(f) The commission order may include other findings that the commission determines are necessary.

(g) A commission order that denies approval must describe why the findings required in subsection (6)(c) could not be reached.

(8) Notwithstanding any provision of this chapter to the contrary, if the commission has issued an order containing the findings required under subsection (6)(e), the commission may not subsequently disallow the recovery of costs related to the approved electricity supply resource based on contrary findings.

(9) Until the state or federal government has adopted uniformly applicable statewide standards for the capture and sequestration of carbon dioxide, the commission may not approve an application for the acquisition of an equity interest or lease in a facility or equipment used to generate electricity that is primarily fueled by coal and that is constructed after January 1, 2007, unless the facility or equipment captures and sequesters a minimum of 50% of the carbon dioxide produced by the facility. Carbon dioxide captured by a facility or equipment may be sequestered offsite from the facility or equipment.

(10) Nothing limits the commission's ability to subsequently, in any future rate proceeding, inquire into
the manner in which the public utility has managed, dispatched, operated, or maintained any resource or
managed any power purchase agreement as part of its overall resource portfolio. The commission may
subsequently disallow rate recovery for the costs that result from the failure of a public utility to reasonably
manage, dispatch, operate, maintain, or administer electricity supply resources in a manner consistent with
69-3-201, 69-8-419, and commission rules.

(10) The commission may engage independent engineering, financial, and management consultants or
advisory services to evaluate a public utility’s electricity supply resource procurement plans and proposed
electricity supply resources. The consultants must have demonstrated knowledge and experience with electricity
supply procurement and resource portfolio management, modeling, risk management, and engineering practices.
The commission shall charge a fee to the public utility to pay for the costs of consultants or advisory services.
These costs are recoverable in rates.

(11) By March 31, 2008, the The commission shall adopt rules prescribing minimum filing requirements
for applications filed pursuant to this part.
