An agency that is not authorized in the general appropriations act or in [House Bill No. 658] to make first-year expenditures may be granted spending authorization by the approving authority upon submission and approval of a proposed supplemental appropriation to the approving authority. The proposal submitted to the approving authority must include a plan for reducing expenditures in the second year of the biennium that allows the agency to contain expenditures within appropriations. If the approving authority finds that, due to an unforeseen and unanticipated emergency, the amount actually appropriated for the first fiscal year of the biennium with all other income will be insufficient for the operation and maintenance of the agency during the year for which the appropriation was made, the approving authority shall, after careful study and examination of the request and upon review of the recommendation for executive branch proposals by the budget director, submit the proposed supplemental appropriation to the legislative fiscal analyst.

(2) The plan for reducing expenditures required by subsection (1) is not required if the proposed supplemental appropriation is:

(a) due to an unforeseen and unanticipated emergency for fire suppression;

(b) requested by the superintendent of public instruction, in accordance with the provisions of 20-9-351, and is to complete the state's funding of guaranteed tax base aid, transportation aid, or equalization aid to elementary and secondary schools for the current biennium; or

Except as provided in subsection (2), the approving authority shall require the agency to implement the plan for reducing expenditures in the second year of the biennium that contains agency expenditures within appropriations.

(4) The agency may expend the amount authorized by the approving authority only for the purposes specified in the authorization.

(5) The approving authority shall report to the next legislature in a special section of the budget the amounts expended as a result of all authorizations granted by the approving authority and shall request that any necessary supplemental appropriation bills be passed.

(6) As used in this part, "proposed supplemental appropriation" means an application for authorization to make expenditures during the first fiscal year of the biennium from appropriations for the second fiscal year of the biennium.

(7) (a) Except as provided in subsections (2) and (7)(b), an agency may not make expenditures in the second year of the biennium that, if carried on for the full year, will require a deficiency appropriation, commonly referred to as a "supplemental appropriation".

(b) An agency shall prepare and, to the extent feasible, implement a plan for reducing expenditures in the second year of the biennium that contains agency expenditures within appropriations. The approving authority is responsible for ensuring the implementation of the plan. If, in the second year of a biennium, mandated expenditures that are required by state or federal law will cause an agency to exceed appropriations or available funds, the agency shall reduce all nonmandated expenditures pursuant to the plan in order to reduce to the greatest extent possible the expenditures in excess of appropriations or funding. An agency may not transfer funds between fund types in order to implement a plan."

(a) the report is not received within 90 calendar days from the date the proposed fiscal year transfer supplemental appropriation and supporting documentation were forwarded to the legislative finance committee, in which case the governor may approve the proposed fiscal year transfer supplemental appropriation; or

(b) there has been a waiver of the review and report requirements, as provided in subsection (4).

(2) The legislative fiscal analyst shall review each proposed fiscal year transfer supplemental appropriation submitted by the governor for compliance with statutory requirements and standards and to determine the expenditures that will be reduced in order to contain spending within legislative appropriations. The legislative fiscal analyst shall present a written report of this review to the legislative finance committee. Within 10 days after the legislative finance committee's consideration of the proposed fiscal year transfer supplemental appropriation, the legislative fiscal analyst shall submit the legislative finance committee's report to the governor.

(4) (a) If an emergency occurs that poses a serious threat to the life, health, or safety of the public, the legislative fiscal analyst may waive the written review and the legislative finance committee's written report required by this section. After a waiver, the legislative fiscal analyst may complete the written review.

(b) Upon receipt of the waiver, the governor may approve the proposed fiscal year transfer supplemental appropriation.

(c) A waiver affects only the legislative fiscal analyst's written review and the legislative finance committee's written report on the proposed fiscal year transfer supplemental appropriation. All other proposed fiscal year transfer supplemental appropriation requirements and standards remain in effect.

(5) Nothing in this part confers on the legislative finance committee authority to approve or deny a proposed fiscal year transfer supplemental appropriation.

(6) For the biennium beginning July 1, 2019, the provisions of this section do not apply to a supplemental
appropriation transfer for the department of public health and human services if the expenditures for the approved level of medicaid expansion benefits exceed the level of the appropriations for medicaid expansion benefits. Prior to approving a supplemental appropriation transfer for the department in that circumstance, the governor shall notify the legislative fiscal analyst in writing and shall subsequently report to the legislative finance committee on the dollar amount of the supplemental appropriation by September 30, 2020."

Section 30. Section 53-6-1302, MCA, is amended to read:

"53-6-1302. (Temporary) Montana HELP Act program -- legislative findings and purpose. (1) There is a Montana Health and Economic Livelihood Partnership Act program established through a collaborative effort of the department of public health and human services and the department of labor and industry to:
(a) provide coverage of health care services for low-income Montanans;
(b) improve the readiness of program participants to enter the workforce or obtain better-paying jobs;
and
(c) reduce the dependence of Montanans on public assistance programs.

(2) The legislature finds that improving the delivery of health care services to Montanans requires state government, health care providers, patient advocates, and other parties interested in high-quality, affordable health care to collaborate in order to:

(a) increase the availability of high-quality health care to Montanans;
(b) provide greater value for the tax dollars spent on the Montana medicaid program;
(c) reduce health care costs;
(d) provide incentives that encourage Montanans to take greater responsibility for their personal health;
(e) boost Montana's economy by reducing the costs of uncompensated care; and
(f) reduce or minimize the shifting of payment for unreimbursed health care costs to patients with health insurance.

(3) The legislature further finds that providing greater value for the dollars spent on the medicaid program requires considering options for delivering services in a more efficient and cost-effective manner, including but not limited to:

(a) offering incentives to encourage health care providers to achieve measurable performance outcomes;
(b) improving the coordination of care among health care providers who participate in the medicaid program;
(c) reducing preventable hospital readmissions; and
(d) exploring methods of medicaid payment that promote quality of care and efficiencies.

(4) The legislature further finds that assessing workforce readiness, and providing necessary job training or skill development, and establishing community engagement requirements for individuals who need assistance with health care costs could help those individuals obtain employment that has health care coverage benefits or that would allow them to purchase their own health insurance coverage.

(5) The legislature further finds that:

(a) it is important to implement additional fraud, waste, and abuse safeguards to protect and preserve the integrity of the medicaid program and the unemployment insurance program for individuals who qualify for
the programs; and
(b) state policymakers have an interest in testing the effectiveness of wellness incentives in order to collect and analyze information about the correlation between wellness incentives and health status.

(6) The purposes of the act are to:
(a) modify and enhance Montana’s health care delivery system to provide access to high-quality, affordable health care for all Montana citizens; and
(b) provide low-income Montanans with opportunities to improve their readiness for work or to obtain higher-paying jobs.

(7) The department of labor and industry and the department of public health and human services shall maximize the use of existing resources in administering the program. (Terminates June 30, 2019—sec. 28, Ch. 368, L. 2015.)
