(a) protecting those persons who are most vulnerable and most in need, as defined by a combination of economic, social, and medical circumstances;

(c) giving priority to services that employ the science of prevention to reduce disability and illness, services that treat life-threatening conditions, and services that support independent or assisted living, including pain management, to reduce the need for acute inpatient or residential care.

(3) Medical assistance provided by the Montana medicaid program includes the following services:

- 17 (4) Medical assistance provided by the Montana medicaid program may, as provided by department rule,  
18 also include the following services:

- 7 (p) inpatient psychiatric services for persons under 21 years of age, as provided in 42 U.S.C. 1396d(h),  
8 in a residential treatment facility, as defined in 50-5-101, that is licensed in accordance with 50-5-201; and
- 9 (q) any additional medical service or aid allowable under or provided by the federal Social Security Act.
- 10 (5) Services for persons qualifying for medicaid under the medically needy category of assistance, as  
11 described in 53-6-131, may be more limited in amount, scope, and duration than services provided to others  
12 qualifying for assistance under the Montana medicaid program. The department is not required to provide all of  
13 the services listed in subsections (3) and (4) to persons qualifying for medicaid under the medically needy  
14 category of assistance.
- 15 (6) In accordance with federal law or waivers of federal law that are granted by the secretary of the U.S.  
16 department of health and human services, the department may implement limited medicaid benefits, to be known  
17 as basic medicaid, for adult recipients who are eligible because they are receiving financial assistance, as defined  
18 in 53-4-201, as the specified caretaker relative of a dependent child under the FAIM project and for all adult  
19 recipients of medical assistance only who are covered under a group related to a program providing financial  
20 assistance, as defined in 53-4-201. Basic medicaid benefits consist of all mandatory services listed in subsection  
21 (3) but may include those optional services listed in subsections (4)(a) through (4)(q) that the department in its  
22 discretion specifies by rule. The department, in exercising its discretion, may consider the amount of funds  
23 appropriated by the legislature, whether approval has been received, as provided in 53-1-612, and whether the  
24 provision of a particular service is commonly covered by private health insurance plans. However, a recipient who  
25 is pregnant, meets the criteria for disability provided in Title II of the Social Security Act, 42 U.S.C. 416, et seq.,  
26 or is less than 21 years of age is entitled to full medicaid coverage.
- 27 (7) The department may implement, as provided for in Title XIX of the Social Security Act, 42 U.S.C.

29 and coinsurance for persons not otherwise eligible for medicaid.
- 30 (8) (a) The department may set rates for medical and other services provided to recipients of medicaid

1 and may enter into contracts for delivery of services to individual recipients or groups of recipients.

2 (b) The department shall strive to close gaps in services provided to individuals suffering from mental  
3 illness and co-occurring disorders by doing the following:

4 (i) simplifying administrative rules, payment methods, and contracting processes for providing services  
5 to individuals of different ages, diagnoses, and treatments. Any adjustments to payments must be cost-neutral  
6 for the biennium beginning July 1, 2017.

7 (ii) publishing a report on an annual basis that describes the process that a mental health center or  
8 chemical dependency facility, as those terms are defined in 50-5-101, must utilize in order to receive payment  
9 from Montana medicaid for services provided to individuals of different ages, diagnoses, and treatments.

10 (9) The services provided under this part may be only those that are medically necessary and that are  
11 the most efficient and cost-effective.

12 (10) (a) The amount, scope, and duration of services provided under this part must be determined by the  
13 department in accordance with Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq., as may be amended.

14 (b) The department shall, with reasonable promptness, provide access to all medically necessary  
15 services prescribed under the early and periodic screening, diagnosis, and treatment benefit, including access  
16 to prescription drugs and durable medical equipment for which the department has not negotiated a rebate.

17 (11) Services, procedures, and items of an experimental or cosmetic nature may not be provided.

18 (12) If available funds are not sufficient to provide medical assistance for all eligible persons, the  
19 department may set priorities to limit, reduce, or otherwise curtail the amount, scope, or duration of the medical  
20 services made available under the Montana medicaid program after taking into consideration the funding  
21 principles set forth in subsection (2)."
