1		BILL NO		
2		INTRODUCED BY		
3		(Primary Sponsor)		
4	A BILL FOR	AN ACT ENTITLED: "AN ACT ESTABLISHING A UTILITY ENERGY CONSERVATION		
5	STANDARD; PROVIDING ACQUISITION REQUIREMENTS; DIRECTING RESULTING FUNDS TO THE			
6	LOW-INCOME ENERGY ACCOUNT; PROVIDING RULEMAKING AUTHORITY; AND PROVIDING AN			
7	IMMEDIATE	EFFECTIVE DATE."		
8				
9	BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:			
10				
11	<u>NE\</u>	V SECTION. Section 1. Energy conservation standard rulemaking authority. (1) B	eginning	
12	in 2022, an	electric distribution utility shall implement energy conservation programs that achieve energy	ду	
13	savings equ	ivalent to the greater of:		
14	(a)	one-half of 1% of the total annual average of normalized kilowatt-hour sales of the electric	с	
15	distribution	utility during the preceding 3 calendar years to customers in the state; and		
16	(b)	pursuant to [section 2], the annual conservation target as identified in the utility's most red	cent	
17	conservatio	n assessment.		
18	(2)	The utility may choose to implement its energy conservation portfolio, containing specific	actions,	
19	programs, o	r measures that have as their purpose the reduction of energy usage required to perform a	an	
20	equivalent ta	ask, to achieve the targets, and it may contract with a qualified third party to implement the	se	
21	programs or	measures.		
22	(3)	The commission shall adopt rules implementing energy conservation programs that addre	ess:	
23	(a)	a process and method for the evaluation, verification, and measurement of program savir	ıgs;	
24	(b)	a stakeholder process for considering and recommending energy conservation programs	for	
25	approval by	the commission;		
26	(c)	a methodology for addressing the allocation of program funds for utility programs applical	ole to	
27	each custon	ner class along with a methodology for the recovery of program costs; and		
28	(d)	any other issues the commission considers relevant.

LC 2412

67th Legislature

1 2 NEW SECTION. Section 2. Energy conservation acquisition. (1) A utility shall acquire all 3 achievable cost-effective energy conservation as provided in [sections 1 through 3]. 4 (2) (a) Within 2 years of [the effective date of this act], a utility shall submit an energy conservation 5 assessment to the commission. 6 (b) The energy conservation assessment must: 7 (i) be completed by an independent entity with experience in performing energy conservation 8 evaluations for utilities; 9 (ii) estimate the amount of all available and achievable cost-effective energy conservation on the 10 utility's system that could reasonably be acquired by all utility programs by 2022 and account for the effect of 11 any federal or state energy conservation acquisition programs; and 12 (iii) be updated every 4 years. 13 (3) The energy conservation assessment must be accompanied by a plan for acquiring all cost-14 effective energy conservation identified by the assessment, including the establishment of annual energy 15 conservation targets. The annual energy conservation target may not be lower than one-half of 1% of retail 16 load, as identified in [section 1]. 17 (4) (a) The commission shall, in accordance with a schedule established by commission rule, 18 approve, disapprove, or modify the energy conservation assessment and the plan submitted by the utility under 19 procedures established by commission rule. 20 (b) In making the determination pursuant to subsection (4)(a), the commission shall consider: 21 (i) compliance with the requirements of [sections 1 through 3]; 22 (ii) the adequacy and methodological soundness of the analysis contained in the energy conservation 23 assessment; 24 (iii) the amount of cost-effective energy conservation on the utility's system; 25 (iv) the need for energy and capacity resources; 26 (v) the benefits of energy conservation investments; 27 (vi) the reasonable capacity of the utility to implement cost-effective energy conservation programs and

67th Legislature

1 programs and measures and the acquisition of cost-effective energy conservation; 2 (vii) that successful utility acquisition of energy conservation through utility programs depends in part 3 on voluntary participation and actions by utility customers that, in turn, determine timing and levels of energy 4 conservation that can be acquired and the establishment of reasonable targets: 5 (viii) that a utility's ability to acquire achievable energy conservation may be impacted by the availability 6 of other federal or state energy conservation programs administered by or on behalf of the federal or state 7 government or their agents; 8 (ix) the timeframe for acquiring total achievable cost-effective conservation, which may not be more 9 than 20 years; and 10 (x) any other factor the commission determines relevant. 11 (5) If a utility is unable to meet the energy savings targets established pursuant to subsection (4), the 12 utility shall provide an explanation of why the targets were not achieved. The report may include a request by 13 the utility to adjust the target. 14 (6) (a) At regular intervals, but not more often than every 4 years, under a schedule and procedures 15 established by commission rule, a utility shall submit to the commission a comprehensive measurement, 16 verification, and program evaluation report prepared by an independent entity that has experience in performing 17 energy conservation program evaluations for utilities. 18 (b) In preparing the report, the independent program evaluator shall: 19 (i) measure and verify energy and demand savings; (ii) determine the cost-effectiveness of the energy conservation programs and measures; 20 21 (iii) assess the performance of the utility or contractors of the utility in implementing energy 22 conservation programs and measures; 23 (iv) provide recommendations on how program performance can be improved; and 24 (v) include any other information the commission considers necessary. 25 (c) The independent program evaluator may not be the same entity that prepared the energy 26 conservation assessment and plan pursuant to subsection (2). 27 28 NEW SECTION. Section 3. Energy conservation -- cost recovery and incentives. (1) The

67th Legislature

1	commission shall provide for the timely recovery of the actual costs of prudent energy conservation activities,
2	including the conservation assessment, through annual cost adjustments, plus the interest on the accumulated
3	amount.
4	(2) The commission shall allow an incentive for a utility's acquisition of cost-effective energy
5	conservation programs in excess of established annual conservation targets as identified in its most recent
6	conservation assessment.
7	(3) In complying with subsection (2) the commission shall:
8	(a) subject to subsection (4), create a performance-based incentive that shares the net economic
9	benefits resulting from cost-effective energy conservation acquired as a result of utility programs between the
10	utility and its customers in excess of the annual target as determined by the utility's most recent conservation
11	assessment as follows:
12	(i) at a ratio of 70% to customers and 30% to the utility for conservation acquisition equaling or
13	exceeding one-quarter of 1% of load above the annual target; and
14	(ii) at a ratio of 60% to customers and 40% to the utility for conservation acquisition equaling or
15	exceeding one-half of 1% of load above the annual target; and
16	(b) provide other incentives the commission determines appropriate, including but not limited to
17	incentives for energy conservation programs that deliver durable, multiyear, cost-effective energy savings and
18	other energy conservation initiatives.
19	(4) Incentives rendered pursuant to subsection (3)(a) apply only to the net economic benefits resulting
20	from the first year of energy savings.
21	(5) (a) Subject to subsection 3, incentives must be granted annually based on preliminarily reported
22	conservation acquisition figures.
23	(b) Incentives must be subject to a true-up based on findings of evaluation, verification, and
24	measurement as prescribed in [section 2(6)].
25	
26	NEW SECTION. Section 4. Commission authority rulemaking. (1) The commission may
27	promulgate rules necessary to implement [sections 1 through 4] and shall exercise its authority in a timely
28	fashion to provide certainty to each utility regarding their responsibilities under [sections 1 through 4].

67th Legislature

1	(2) The commission shall, to the greatest extent possible, integrate any existing commission rules
2	concerning utility acquisition of energy conservation with rules promulgated pursuant to [sections 1 through 4].
3	(3) In establishing procedures to be followed, the commission shall ensure that the due process rights
4	of the utilities subject to the provisions of [sections 1 through 4] are not infringed on, and that the public has a
5	right to participate in commission proceedings with respect to the utilities' acquisition of energy conservation.
6	
7	NEW SECTION. Section 5. Codification instruction. [Sections 1 through 4] are intended to be
8	codified as an integral part of Title 69, chapter 3, and the provisions of Title 69, chapter 3, apply to [sections 1
9	through 4].
10	
11	NEW SECTION. Section 6. Effective date. [This act] is effective on passage and approval.
12	- END -
