Description of fiscal impact: SB 66 increases the percentage of captive premium tax retained in the Captive Regulatory and Supervision state special revenue fund (captive fund) from 5% to 20%.

FISCAL ANALYSIS

Assumptions:

- The legislature, at the inception of the Captive Insurance Program, created a state special revenue fund referred to as the captive account. The purpose of the captive account is to provide the financial means for the commissioner to administer the Captive Insurance Program.
- Captive program costs in excess of captive fund revenue are currently paid by the insurance fee state special revenue fund. Total captive program costs in FY 2020 were approximately \$390,767. Of this amount, \$162,311 was paid by captive program revenue and \$228,456 was paid by the insurance fee fund. Total captive program costs are projected to be \$406,115 for fiscal year 2022, \$422,115 for fiscal year 2023, \$432,125 for fiscal year 2024, and \$435,125 for fiscal year 2025.

3. Total captive premium tax is estimated to be \$1.53 million in fiscal year 2022, \$1.58 million in fiscal year 2023, \$1.63 million in fiscal year 2024, and \$1.68 million in fiscal year 2025.
4. Captive premium tax deposited in the captive fund will increase from 5% to 20%.
5. The increase to 20% deposited will increase revenue in the state special revenue fund, and decrease general fund revenue, by approximately \$229,500 in fiscal year 2022, \$237,000 in fiscal year 2023, \$244,500 in fiscal year 2024, and \$252,000 in fiscal year 2025.
6. The increase in costs paid from the captive fund will be offset by the same decrease of costs paid by the insurance fee fund for a net cost of zero in the state special revenue fund.
7. Any excess cash in the captive fund will be transferred to the general fund at the end of each fiscal year.
