17 known as basic medicaid, for adult recipients who are eligible because they are receiving cash assistance, as  
18 defined in 53-4-201, as the specified caretaker relative of a dependent child and for all adult recipients of  
19 medical assistance only who are covered under a group related to a program providing cash assistance, as  
20 defined in 53-4-201. Basic medicaid benefits consist of all mandatory services listed in subsection (3) but may  
21 include those optional services listed in subsections (4)(a) through (4)(r) that the department in its discretion  
22 specifies by rule. The department, in exercising its discretion, may consider the amount of funds appropriated  
23 by the legislature, whether approval has been received, as provided in 53-1-612, and whether the provision of a  
24 particular service is commonly covered by private health insurance plans. However, a recipient who is

1 and coinsurance for persons not otherwise eligible for medicaid.

2 (8) (a) The department may set rates for medical and other services provided to recipients of  
3 medicaid and may enter into contracts for delivery of services to individual recipients or groups of recipients.

4 (b) The department shall strive to close gaps in services provided to individuals suffering from mental  
5 illness and co-occurring disorders by doing the following:

6 (i) simplifying administrative rules, payment methods, and contracting processes for providing  
7 services to individuals of different ages, diagnoses, and treatments. Any adjustments to payments must be  
8 cost-neutral for the biennium beginning July 1, 2017.

9 (ii) publishing a report on an annual basis that describes the process that a mental health center or  
10 chemical dependency facility, as those terms are defined in 50-5-101, must utilize in order to receive payment  
11 from Montana medicaid for services provided to individuals of different ages, diagnoses, and treatments.

12 (9) The services provided under this part may be only those that are medically necessary and that are  
13 the most efficient and cost-effective.

14 (10) (a) The amount, scope, and duration of services provided under this part must be determined by  
15 the department in accordance with Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq., as may be  
16 amended.

17 (b) The department shall, with reasonable promptness, provide access to all medically necessary  
18 services prescribed under the early and periodic screening, diagnosis, and treatment benefit, including access  
19 to prescription drugs and durable medical equipment for which the department has not negotiated a rebate.

20 (11) Services, procedures, and items of an experimental or cosmetic nature may not be provided.

21 (12) (a) Prior to enacting changes to provider rates, medicaid waivers, or the medicaid state plan, the

24 (ii) the legislative finance committee.

25 (b) In its report to the committees, the department shall provide an explanation for the proposed  
26 changes and an estimated budget impact to the department over the next 4 fiscal years.

27 (13) If available funds are not sufficient to provide medical assistance for all eligible persons, the  
28 department may set priorities to limit, reduce, or otherwise curtail the amount, scope, or duration of the medical

1 services made available under the Montana medicaid program after taking into consideration the funding  
 2 principles set forth in subsection (2). (Subsection (3)(o) terminates September 30, 2023--sec. 7, Ch. 412, L.  
 3 2019.)"
