BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

Section 1. Section 15-1-121, MCA, is amended to read:

"15-1-121. Entitlement share payment -- purpose -- appropriation. (1) As described in 15-1-120(3), each local government is entitled to an annual amount that is the replacement for revenue received by local governments for diminishment of property tax base and various earmarked fees and other revenue that, pursuant to Chapter 574, Laws of 2001, amended by section 4, Chapter 13, Special Laws of August 2002, and later enactments, were consolidated to provide aggregation of certain reimbursements, fees, tax collections, and other revenue in the state treasury with each local government's share. The reimbursement under this section is provided by direct payment from the state treasury rather than the ad hoc system that offset certain state payments with local government collections due the state and reimbursements made by percentage splits, with a local government remitting a portion of collections to the state, retaining a portion, and in some cases sending a portion to other local governments.

(2) The sources of dedicated revenue that were relinquished by local governments in exchange for an entitlement share of the state general fund were:

(a) personal property tax reimbursements pursuant to sections 167(1) through (5) and 169(6),
(b) vehicle, boat, and aircraft taxes and fees pursuant to:

(i) Title 23, chapter 2, part 5;

(ii) Title 23, chapter 2, part 6;

(iii) Title 23, chapter 2, part 8;

(iv) 61-3-317;

(v) 61-3-321;

(vi) Title 61, chapter 3, part 5, except for 61-3-509(3), as that subsection read prior to the amendment of 61-3-509 in 2001;

(vii) Title 61, chapter 3, part 7;

(viii) 5% of the fees collected under 61-10-122;

(ix) 61-10-130;

(x) 61-10-148; and

(xi) 67-3-205;

(c) gaming revenue pursuant to Title 23, chapter 5, part 6, except for the permit fee in 23-5-612(2)(a);

(d) district court fees pursuant to:

(i) 25-1-201, except those fees in 25-1-201(1)(d), (1)(g), and (1)(j);

(ii) 25-1-202;

(iii) 25-9-506; and

(iv) 27-9-103;

(e) certificate of title fees for manufactured homes pursuant to 15-1-116;

(f) financial institution taxes collected pursuant to the former provisions of Title 15, chapter 31, part 7;

(g) all beer, liquor, and wine taxes pursuant to:

(i) 16-1-404;

(ii) 16-1-406; and

(iii) 16-1-411;

(h) late filing fees pursuant to 61-3-220;

(i) title and registration fees pursuant to 61-3-203;

(j) veterans' cemetery license plate fees pursuant to 61-3-459;
(k) county personalized license plate fees pursuant to 61-3-406;

(l) special mobile equipment fees pursuant to 61-3-431;

(m) single movement permit fees pursuant to 61-4-310;

(n) state aeronautics fees pursuant to 67-3-101; and

(o) department of natural resources and conservation payments in lieu of taxes pursuant to former Title 77, chapter 1, part 5.

(3) Except as provided in subsection (7)(b), the total amount received by each local government in the prior fiscal year as an entitlement share payment under this section is the base component for the subsequent fiscal year distribution, and in each subsequent year the prior year entitlement share payment, including any reimbursement payments received pursuant to subsection (7), is each local government's base component. The sum of all local governments' base components is the fiscal year entitlement share pool.

(4) (a) Except as provided in subsections (4)(b)(iv) and (7)(b), the base entitlement share pool must be increased annually by an entitlement share growth rate as provided for in this subsection (4). The amount determined through the application of annual growth rates is the entitlement share pool for each fiscal year.

(b) By October 1 of each year, the department shall calculate the growth rate of the entitlement share pool for the next fiscal year in the following manner:

(i) The department shall calculate the entitlement share growth rate based on the ratio of two factors of state revenue sources for the first, second, and third most recently completed fiscal years as recorded on the statewide accounting, budgeting, and human resource system. The first factor is the sum of the revenue for the first and second previous completed fiscal years received from the sources referred to in subsections (2)(b), (2)(c), and (2)(g) divided by the sum of the revenue for the second and third previous completed fiscal years received from the same sources multiplied by 0.75. The second factor is the sum of the revenue for the first and second previous completed fiscal years received from individual income tax as provided in Title 15, chapter 30, and corporate income tax as provided in Title 15, chapter 31, divided by the sum of the revenue for the second and third previous completed fiscal years received from the same sources multiplied by 0.25.

(ii) Except as provided in subsections (4)(b)(iii) and (4)(b)(iv), the entitlement share growth rate is the lesser of:

(A) the sum of the first factor plus the second factor; or
(B) 1.03 for counties, 1.0325 for consolidated local governments, and 1.035 for cities and towns.

(iii) In no instance can the entitlement growth factor be less than 1. Subject to subsection (4)(b)(iv), the entitlement share growth rate is applied to the most recently completed fiscal year entitlement payment to determine the subsequent fiscal year payment.

(iv) The entitlement share growth rate, as described in this subsection (4), is:

(A) for fiscal year 2018, 1.005;

(B) for fiscal year 2019, 1.0187;

(C) for fiscal year 2020 and thereafter, determined as provided in subsection (4)(b)(ii). The rate must be applied to the entitlement payment for the previous fiscal year as if the payment had been calculated using entitlement share growth rates for fiscal years 2018 and 2019 as provided in subsection (4)(b)(ii).

(5) As used in this section, "local government" means a county, a consolidated local government, an incorporated city, and an incorporated town. A local government does not include a tax increment financing district provided for in subsection (8). The county or consolidated local government is responsible for making an allocation from the county's or consolidated local government's share of the entitlement share pool to each special district within the county or consolidated local government in a manner that reasonably reflects each special district's loss of revenue sources for which reimbursement is provided in this section. The allocation for each special district that existed in 2002 must be based on the relative proportion of the loss of revenue in 2002.

(6) (a) The entitlement share pools calculated in this section, the amounts determined distributed under 15-1-123(2) for local governments, the funding provided for in subsection (8) of this section, and the amounts determined distributed under 15-1-123(3) for tax increment financing districts are statutorily appropriated, as provided in 17-7-502, from the general fund to the department for distribution to local governments.

(b) (i) The growth amount is the difference between the entitlement share pool in the current fiscal year and the entitlement share pool in the previous fiscal year. The growth factor in the entitlement share must be calculated separately for:

(A) counties;

(B) consolidated local governments; and
(C) incorporated cities and towns.

(ii) In each fiscal year, the growth amount for counties must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each county's percentage of the prior fiscal year entitlement share pool for all counties; and

(B) 50% of the growth amount must be allocated based upon the percentage that each county's population bears to the state population not residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iii) In each fiscal year, the growth amount for consolidated local governments must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each consolidated local government's percentage of the prior fiscal year entitlement share pool for all consolidated local governments; and

(B) 50% of the growth amount must be allocated based upon the percentage that each consolidated local government's population bears to the state's total population residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iv) In each fiscal year, the growth amount for incorporated cities and towns must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each incorporated city's or town's percentage of the prior fiscal year entitlement share pool for all incorporated cities and towns; and

(B) 50% of the growth amount must be allocated based upon the percentage that each city's or town's population bears to the state's total population residing within incorporated cities and towns as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(v) In each fiscal year, the amount of the entitlement share pool before the growth amount or adjustments made under subsection (7) are applied is to be distributed to each local government in the same manner as the entitlement share pool was distributed in the prior fiscal year.

(7) (a) If the legislature enacts a reimbursement provision that is to be distributed pursuant to this
section, the department shall determine the reimbursement amount as provided in the enactment and add the appropriate amount to the entitlement share distribution under this section. The total entitlement share distributions in a fiscal year, including distributions made pursuant to this subsection, equal the local fiscal year entitlement share pool. The ratio of each local government's distribution from the entitlement share pool must be recomputed to determine each local government's ratio to be used in the subsequent year's distribution determination under subsections (6)(b)(ii)(A), (6)(b)(iii)(A), and (6)(b)(iv)(A).

(b) For fiscal year 2018 and thereafter, the growth rate provided for in subsection (4) does not apply to the portion of the entitlement share pool attributable to the reimbursement provided for in 15-1-123(2) and (2). The department shall calculate the portion of the entitlement share pool attributable to the reimbursement in 15-1-123(2) and (2), including the application of the growth rate in previous fiscal years, for counties, consolidated local governments, and cities and, for fiscal year 2018 and thereafter, apply the growth rate for that portion of the entitlement share pool as provided in 15-1-123(2).

(c) The growth amount resulting from the application of the growth rate in (2) must be allocated as provided in subsections (6)(b)(ii)(A), (6)(b)(iii)(A), and (6)(b)(iv)(A) of this section.

(8) (a) Except for a tax increment financing district entitled to a reimbursement under 15-1-123(2), if a tax increment financing district was not in existence during the fiscal year ending June 30, 2000, then the tax increment financing district is not entitled to any funding. If a tax increment financing district referred to in subsection (8)(b) terminates, then the funding for the district provided for in subsection (8)(b) terminates.

(b) One-half of the payments provided for in this subsection (8)(b) must be made by November 30 and the other half by May 31 of each year. Subject to subsection (8)(a), the entitlement share for tax increment financing districts is as follows:

The estimated fiscal year entitlement share pool and any subsequent entitlement share pool for local governments do not include revenue received from tax increment financing districts.

When there has been an underpayment of a local government's share of the entitlement share pool, the department shall distribute the difference between the underpayment and the correct amount of the entitlement share. When there has been an overpayment of a local government's entitlement share, the local government shall remit the overpaid amount to the department.

A local government may appeal the department's estimation of the base component, the entitlement share growth rate, or a local government's allocation of the entitlement share pool, according to the uniform dispute review procedure in 15-1-211.

(12) (a) Except as provided in 2-7-517, a payment required pursuant to this section may not be offset by a debt owed to a state agency by a local government in accordance with Title 17, chapter 4, part 1.

(b) A payment required pursuant to this section must be withheld if a local government:

(i) fails to meet a deadline established in 2-7-503(1), 7-6-611(2), 7-6-4024(3), or 7-6-4036(1); and

(ii) fails to remit any amounts collected on behalf of the state as required by 15-1-504 or as otherwise required by law within 45 days of the end of a month.

(c) A payment required pursuant to this section may be withheld if, for more than 90 days, a local government fails to:

(i) file a financial report required by 15-1-504;

(ii) remit any amounts collected on behalf of the state as required by 15-1-504; or

(iii) remit any other amounts owed to the state or another taxing jurisdiction.

Section 2. Section 15-1-123, MCA, is amended to read:

"15-1-123. Reimbursement for class eight rate reduction and exemption -- distribution -- appropriations. (1) Except as provided in subsection (2), for the tax rate reductions in 15-6-138(3), the increased exemption amount in 15-6-138(4), the effective tax rate reductions on property under 15-6-145 because of the rate reductions required by the amendments of 15-6-138 in section 2, Chapter 411, Laws of
2011, and section 2, Chapter 396, Laws of 2013, and the effective tax rate reductions on property under 15-6-145 because of the increased exemption amount required by the amendment of 15-6-138 in section 2, Chapter 396, Laws of 2013, the department shall reimburse each local government, as defined in 15-1-121(5), each tax increment financing district, and the 6-mill university levy for the purposes of 15-10-109 the difference between property tax collections under 15-6-138 as amended by section 2, Chapter 411, Laws of 2011, and section 2, Chapter 396, Laws of 2013, and under 15-6-145 and the property tax revenue that would have been collected under 15-6-138 and 15-6-145 if 15-6-138 had not been amended by section 2, Chapter 411, Laws of 2011, and section 2, Chapter 396, Laws of 2013. The difference plus the amount calculated in subsection (2) is the annual reimbursable amount for each local government, each tax increment financing district, and the 6-mill levy for the support of the Montana university system under 15-10-109.

(2) For the increased exemption amount in 15-6-138(4) provided for in [this act], the department shall reimburse each local government, as defined in 15-1-121(5), each tax increment financing district, and the 6-mill university levy for the purposes of 15-10-109 the difference between property tax collections that would have been collected under 15-6-138 as amended by [this act] and the property tax revenue that would have been collected under 15-6-138 if it had not been amended by [this act]. The difference calculated in this subsection is added to the annual reimbursable amount for each local government, each tax increment financing district, and the 6-mill levy for the support of the Montana university system under 15-10-109 calculated in subsection (1). The department shall lower the reimbursement to compensate for an increase in property tax collections based on [section 14] during any tax year in which an increase in value occurs by the termination of an exemption due to the American Rescue Plan Act, Public Law 117-2, and [section 14].

(3) The growth rate applied to the reimbursements is:

(a) for the reimbursement calculated pursuant to subsection (1), one-half of the average rate of inflation for the prior 3 years; and

(b) for the reimbursement calculated pursuant to subsection (2), 0%.

(2)(4) The department shall distribute the reimbursements calculated in subsection subsections (1) and (2) to local governments with the entitlement share payments under 15-1-121(7). The growth rate applied to the reimbursement is one-half of the average rate of inflation for the prior 3 years.

(3)(5) The amount determined under subsection subsections (1) and (2) for each tax increment
financing district must be added to the reimbursement amount for the tax increment financing district as provided in 15-1-121(8)(b) if the tax increment financing district is still in existence. If a tax increment financing district that is entitled to a reimbursement under this section is not listed under 15-1-121(8)(b), the reimbursement must be made to that tax increment financing district at the same time as other districts.

(4)(6) (a) The amount determined under subsection (1) and (2) for the 6-mill university levy must be added to current collections and reimbursements for the support of the Montana university system as provided in 15-10-109.

(b) The department of administration shall transfer the amount determined under this subsection (4) from the general fund to the state special revenue fund for the support of the Montana university system as provided in 15-10-109."

Section 3. Section 15-1-123, MCA, is amended to read:

"15-1-123. Reimbursement for class eight rate reduction and exemption -- distribution -- appropriations. The difference plus the amount calculated in subsection (2) is the annual reimbursable amount for each local government, each tax increment financing district, and the 6-mill levy for the support of the Montana university system under 15-10-109.

(2) For the increased exemption amount in 15-6-138(4) provided in [this act], the department shall reimburse each local government, as defined in 15-1-121(5), each tax increment financing district, and the 6-
mill university levy for the purposes of 15-10-109 the difference between property tax collections that would have been collected under 15-6-138 as amended by [this act] and the property tax revenue that would have been collected under 15-6-138 if it had not been amended by [this act]. The difference calculated in this subsection is added to the annual reimbursable amount for each local government, each tax increment financing district, and the 6-mill levy for the support of the Montana university system under 15-10-109 calculated in subsection (1).

(3) The growth rate applied to the reimbursements is:

(a) for the reimbursement calculated pursuant to subsection (1), one-half of the average rate of inflation for the prior 3 years; and

(b) for the reimbursement calculated pursuant to subsection (2), 0%.

(2)(4) The department shall distribute the reimbursements calculated in subsections (1) and (2) to local governments with the entitlement share payments under 15-1-121(7). The growth rate applied to the reimbursement is one-half of the average rate of inflation for the prior 3 years.

(3)(5) The amount determined under subsections (1) and (2) for each tax increment financing district must be added to the reimbursement amount for the tax increment financing district as provided in 15-1-121(8)(b) if the tax increment financing district is still in existence. If a tax increment financing district that is entitled to a reimbursement under this section is not listed under 15-1-121(8)(b), the reimbursement must be made to that tax increment financing district at the same time as other districts.

(4)(6) (a) The amount determined under subsections (1) and (2) for the 6-mill university levy must be added to current collections and reimbursements for the support of the Montana university system as provided in 15-10-109.

(b) The department of administration shall transfer the amount determined under this subsection (4)(6) from the general fund to the state special revenue fund for the support of the Montana university system as provided in 15-10-109.”

Section 9. Section 15-10-420, MCA, is amended to read:

"15-10-420. Procedure for calculating levy. (1) (a) Subject to the provisions of this section, a governmental entity that is authorized to impose mills may impose a mill levy sufficient to generate the amount of property taxes actually assessed in the prior year plus one-half of the average rate of inflation for the prior 3 years. The maximum number of mills that a governmental entity may impose is established by calculating the number of mills required to generate the amount of property tax actually assessed in the governmental unit in the prior year based on the current year taxable value, less the current year's newly taxable value, plus one-half of the average rate of inflation for the prior 3 years.
(b) A governmental entity that does not impose the maximum number of mills authorized under subsection (1)(a) may carry forward the authority to impose the number of mills equal to the difference between the actual number of mills imposed and the maximum number of mills authorized to be imposed. The mill authority carried forward may be imposed in a subsequent tax year.

(c) For the purposes of subsection (1)(a), the department shall calculate one-half of the average rate of inflation for the prior 3 years by using the consumer price index, U.S. city average, all urban consumers, using the 1982-84 base of 100, as published by the bureau of labor statistics of the United States department of labor.

(2) A governmental entity may apply the levy calculated pursuant to subsection (1)(a) plus any additional levies authorized by the voters, as provided in 15-10-425, to all property in the governmental unit, including newly taxable property.

(3) (a) For purposes of this section, newly taxable property includes:

(i) annexation of real property and improvements into a taxing unit;

(ii) construction, expansion, or remodeling of improvements;

(iii) transfer of property into a taxing unit;

(iv) subdivision of real property; and

(v) transfer of property from tax-exempt to taxable status.

(b) Newly taxable property does not include an increase in value:

(i) that arises because of an increase in the incremental value within a tax increment financing district; or

(ii) caused by the termination of an exemption that occurs due to the American Rescue Plan Act, Public Law 117-2, and [section 14].

(4) (a) For the purposes of subsection (1), the taxable value of newly taxable property includes the release of taxable value from the incremental taxable value of a tax increment financing district because of:

(i) a change in the boundary of a tax increment financing district;

(ii) an increase in the base value of the tax increment financing district pursuant to 7-15-4287; or

(iii) the termination of a tax increment financing district.

(b) If a tax increment financing district terminates prior to the certification of taxable values as required
in 15-10-202, the increment value is reported as newly taxable property in the year in which the tax increment financing district terminates. If a tax increment financing district terminates after the certification of taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the following tax year.

(c) For the purpose of subsection (3)(a)(ii), the value of newly taxable class four property that was constructed, expanded, or remodeled property since the completion of the last reappraisal cycle is the current year market value of that property less the previous year market value of that property.

(d) For the purpose of subsection (3)(a)(iv), the subdivision of real property includes the first sale of real property that results in the property being taxable as class four property under 15-6-134 or as nonqualified agricultural land as described in 15-6-133(1)(c).

(5) Subject to subsection (8), subsection (1)(a) does not apply to:

(a) school district levies established in Title 20; or

(b) a mill levy imposed for a newly created regional resource authority.

(6) For purposes of subsection (1)(a), taxes imposed do not include net or gross proceeds taxes received under 15-6-131 and 15-6-132.

(7) In determining the maximum number of mills in subsection (1)(a), the governmental entity:

(a) may increase the number of mills to account for a decrease in reimbursements; and

(b) may not increase the number of mills to account for a loss of tax base because of legislative action that is reimbursed under the provisions of 15-1-121(7).

(8) The department shall calculate, on a statewide basis, the number of mills to be imposed for purposes of 15-10-109, 20-9-331, 20-9-333, 20-9-360, and 20-25-439. However, the number of mills calculated by the department may not exceed the mill levy limits established in those sections. The mill calculation must be established in tenths of mills. If the mill levy calculation does not result in an even tenth of a mill, then the calculation must be rounded up to the nearest tenth of a mill.

(9) (a) The provisions of subsection (1) do not prevent or restrict:

(i) a judgment levy under 2-9-316, 7-6-4015, or 7-7-2202;

(ii) a levy to repay taxes paid under protest as provided in 15-1-402;

(iii) an emergency levy authorized under 10-3-405, 20-9-168, or 20-15-326;
(iv) a levy for the support of a study commission under 7-3-184;
(v) a levy for the support of a newly established regional resource authority;
(vi) the portion that is the amount in excess of the base contribution of a governmental entity's property tax levy for contributions for group benefits excluded under 2-9-212 or 2-18-703;
(vii) a levy for reimbursing a county for costs incurred in transferring property records to an adjoining county under 7-2-2807 upon relocation of a county boundary;
(viii) a levy used to fund the sheriffs' retirement system under 19-7-404(2)(b); or
(ix) a governmental entity from levying mills for the support of an airport authority in existence prior to May 7, 2019, regardless of the amount of the levy imposed for the support of the airport authority in the past. The levy under this subsection (9)(a)(ix) is limited to the amount in the resolution creating the authority.

(b) A levy authorized under subsection (9)(a) may not be included in the amount of property taxes actually assessed in a subsequent year.

(10) A governmental entity may levy mills for the support of airports as authorized in 67-10-402, 67-11-301, or 67-11-302 even though the governmental entity has not imposed a levy for the airport or the airport authority in either of the previous 2 years and the airport or airport authority has not been appropriated operating funds by a county or municipality during that time.

(11) The department may adopt rules to implement this section. The rules may include a method for calculating the percentage of change in valuation for purposes of determining the elimination of property, new improvements, or newly taxable value in a governmental unit."

Section 10. Section 20-9-366, MCA, is amended to read:

"20-9-366. Definitions. As used in 20-9-366 through 20-9-371, the following definitions apply:

The 236% multiplier for fiscal year 2023 and each succeeding fiscal year must be reduced to 232% for any fiscal year impacted by the termination of an
exemption due to the American Rescue Plan Act, Public Law 117-2, and [section 14].

(b) "Statewide mill value per elementary ANB" or "statewide mill value per high school ANB", for school retirement guaranteed tax base purposes, means the sum of the taxable valuation in the previous year of all property in the state, multiplied by 121% and divided by 1,000, with the quotient divided by the total state elementary ANB count or the total state high school ANB amount used to calculate the elementary school districts’ and high school districts’ prior year total per-ANB entitlement amounts."
