(11) If an authorizer fails to respond and remedy the problems identified by the commission, the commission shall notify the authorizer, within a reasonable amount of time under the circumstances, that it intends to revoke the authorizer’s chartering authority unless the authorizer demonstrates a timely and satisfactory remedy for the violation or deficiencies.
(12) In the event of revocation of an authorizer's chartering authority, the commission shall manage the timely and orderly transfer of each charter contract held by that authorizer to another authorizer in the state, with the mutual agreement of each affected public charter school and proposed new authorizer. In that event, the public charter school and authorizer shall execute an annual service contract, separate from the charter contract, stating the parties' mutual agreement concerning any services to be provided by the authorizer and any service fees to be charged to the public charter school. An enrollment preference for returning students excludes those students from entering into a lottery.

(b) A public charter school may give enrollment preference to children of a public charter school's governing board and full-time employees, limited to no more than 10% of the school's total student population.

(4) This section does not preclude the formation of a public charter school for the purpose of serving students with disabilities, students of the same gender, students who pose a sufficiently severe disciplinary problem to warrant a specific educational program, or students who are at risk of academic failure. If capacity is insufficient to enroll all students who wish to attend a school, the public charter school shall select students through a lottery.

(5) If a student who was previously enrolled in a public charter school enrolls in any other public school in this state, the student's new school shall accept credits earned by the student in courses or instructional programs at the public charter school.

(6) A school district shall provide or publicize to parents and the general public information about public charter schools as an enrollment option within the district to the same extent and through the same means that the district provides and publicizes information about noncharter public schools in the district.

(7) An authorizer may not restrict the number of students a public charter school may enroll. The capacity of the public charter school must be determined annually by its governing board in conjunction with the authorizer and in consideration of the public charter school's ability to facilitate the academic success of its students, to achieve the objectives specified in the charter contract, and to ensure that its student enrollment
NEW SECTION. Section 12. Charter school performance and renewal. (1) The performance provisions within the charter contract must be based on a performance framework that clearly sets forth the academic and operational performance indicators, measures, and metrics that will guide the authorizer's evaluations of each public charter school. The performance framework must include indicators, measures, and metrics for, at a minimum:

(a) student academic proficiency;
(b) student academic growth;
(c) achievement gaps in both proficiency and growth between major student subgroups;
(d) attendance;
(e) recurrent enrollment from year to year;
(f) postsecondary readiness;
(g) financial performance and sustainability; and
(h) governing board performance and stewardship, including compliance with all applicable laws, regulations, and terms of the charter contract.

(2) Each public charter school, in conjunction with its authorizer, shall set annual performance targets designed to help each school meet applicable federal, state, and authorizer expectations.

(3) (a) The contract performance framework must allow the inclusion, with the authorizer’s approval, of additional rigorous, valid, and reliable indicators proposed by a public charter school to augment external evaluations of its performance that are consistent with the purposes of [sections 1 through 17].
(b) The authorizer shall collect and analyze data from each public charter school it oversees in accordance with the performance framework.
(c) Multiple schools operating under a single charter contract or overseen by a single governing board shall report their performance as separate, individual schools, and each school must be held independently accountable for its performance.

(4) (a) An authorizer shall monitor the performance and legal compliance of the public charter schools it oversees, including collecting and analyzing data to support ongoing evaluation according to the
Every authorizer has the authority to conduct or require oversight activities that do not unduly inhibit the autonomy granted to public charter schools but that enable the authorizer to fulfill its responsibilities under [sections 1 through 17], including conducting appropriate inquiries and investigations consistent with the intent of [sections 1 through 17], and to adhere to the terms of the charter contract.

(b) Each authorizer shall annually publish and provide as part of its annual report to the commission a performance report for each public charter school it oversees, within the performance framework set forth in the charter contract and [section 10]. The authorizer may require each public charter school it oversees to submit an annual report to assist the authorizer in gathering complete information about each school, consistent with the performance framework.

(c) In the event that a public charter school's performance or legal compliance appears unsatisfactory, the authorizer shall promptly notify the public charter school of the perceived problem and provide reasonable opportunity for the school to remedy the problem.

(d) An authorizer may take appropriate corrective action or exercise sanctions short of revocation in response to apparent deficiencies in public charter school performance or legal compliance. The action or sanctions may include, if warranted, requiring a public charter school to develop and execute a corrective action plan within a specified timeframe.

(5) (a) A charter may be renewed for successive 5-year terms, although the authorizer may vary the term based on the performance, demonstrated capacities, and particular circumstances of each public charter school. An authorizer may grant renewal with specific conditions for necessary improvement to a public charter school.

(b) No later than June 30 of each year, the authorizer shall issue a public charter school performance report and charter renewal application guide to any public charter school whose charter will expire the following year. The performance report must summarize the public charter school's performance record to date, based on the data required by [sections 1 through 17] and the charter contract, and must provide notice of any weaknesses or concerns perceived by the authorizer concerning the public charter school that may jeopardize renewal if not promptly rectified. The public charter school shall respond to the performance report and submit any corrections or clarifications within 90 days.

(6) The renewal application guide must, at a minimum, provide an opportunity for the public charter
school to:

(a) present additional evidence, beyond the data contained in the performance report, supporting its case for charter renewal;

(b) describe improvements undertaken or planned for the public charter school; and

(c) detail the public charter school's plans for the next charter term.

(7) The renewal application guide must include or refer explicitly to the criteria that will guide the authorizer's renewal decisions, based on the performance framework set forth in the charter contract and consistent with [sections 1 through 17].

(8) (a) No later than February 1 of each year, the governing board of a public charter school seeking renewal shall submit a renewal application to the charter authorizer pursuant to the renewal application guide issued by the authorizer. The authorizer shall rule by resolution on the renewal application no later than 30 days after the filing of the renewal application.

(b) Every authorizer shall, when considering charter renewal:

(i) base its decision on evidence of the school's performance over the term of the charter contract in accordance with the performance framework set forth in the charter contract;

(ii) ensure that the data used in making renewal decisions is available to the school and the public; and

(iii) provide a public report summarizing the basis for each decision.

NEW SECTION. Section 13. Charter contract revocation and school closure or charter contract nonrenewal. (1) A charter contract may be subject to nonrenewal or revocation if the authorizer determines that the public charter school:

(a) committed a material and substantial violation of any of the terms, conditions, standards, or procedures required under [sections 1 through 17] or the charter contract and from which the public charter school was not exempted;

(b) failed to meet or make sufficient progress toward the performance expectations set forth in the charter contract;

(c) failed to meet public safety standards; or

(d) failed to meet generally accepted standards of fiscal management.
An authorizer shall develop revocation and nonrenewal processes that:

(a) provide the charter holders with timely notification of the prospect of revocation or nonrenewal and of the reasons for the possible closure;
(b) allow the charter holders a reasonable amount of time in which to prepare a response;
(c) provide the charter holders an opportunity to submit documents and testimony at a hearing to challenge the rationale for the closure recommendation and in support of the continuation of the school;
(d) allow the charter holders to be represented by counsel and call witnesses on their behalf;
(e) permit the recording of the proceedings; and
(f) provide for a final determination conveyed in writing to the charter holders.

If an authorizer revokes or denies renewal of a charter, the authorizer shall clearly state, by resolution of its governing body, the reasons for the revocation or nonrenewal.

Within 10 days of taking action to renew, not renew, or revoke a charter, the authorizer shall report to the commission the action taken and at the same time shall provide a copy of the report to the public charter school. The report must include a copy of the resolution of the authorizer's governing body setting forth the action taken and reasons for the decision and providing assurances of compliance with all the requirements set forth in [sections 1 through 17]. The authorizer's decision is appealable to the commission in writing within 30 days of the commission's receipt of the authorizer's report.

(a) Prior to a public charter school closure, an authorizer shall develop a public charter school closure protocol to ensure timely notification to parents, orderly transition of students and student records to new schools, and proper disposition of school funds, property, and assets in accordance with the requirements of [sections 1 through 17]. The protocol must specify responsible parties, transition and closure timelines, and a delineation of the respective duties of the public charter school and the authorizer.
(b) The authorizer shall oversee the closure and work with the closing public charter school to ensure a smooth and orderly closure and transition for students and parents.
(c) In the event of a public charter school closure for any reason, the nonrestricted distributable assets of the public charter school must be distributed first to satisfy outstanding payroll obligations for employees of the public charter school, then to creditors of the public charter school, then to public school districts to which students previously attending the closed charter school are returning on a prorated per-pupil
basis, and then to the state general fund. If the assets of the public charter school are insufficient to pay all
obligations, the prioritization of the distribution of assets may be determined by a court of law.

(d) If a closing public charter school was converted from an existing noncharter public school, the
closing public charter school is not responsible for any financial obligation or debt of the previously existing
noncharter public school unless the public charter school assumed the debt or obligation at the time of
conversion.

(6) Transfer of a charter contract, and of oversight of that public charter school from one authorizer to
another before the expiration of the charter term, may occur only if the authorizer violates the provisions of
[section 6] or by special petition to the commission by a public charter school or its authorizer. The commission
shall consider a petition for transfer on a case-by-case basis and may grant transfer requests in response to
special circumstances and to evidence that the transfer would serve the best interests of the public charter
school's students.

NEW SECTION. Section 14. Public charter school operation and autonomy. (1) (a) A public
charter school must be a nonprofit education organization.

public charter school that is part of a charter contract is separate and distinct from any other public charter
school.

(e) The initial governing board of a public charter school shall ensure an elected governing board is in
place within 12 months of the school commencing operations. The governing board must be elected by a
process outlined in the charter school bylaws. The election process must include the following:

(3) A public charter school shall function as a local educational agency. A public charter school is responsible for meeting the requirements of a local educational agency under applicable federal, state, and local laws, including those relating to special education.

(4) A public charter school is primarily responsible for special education at the school, including identification and service provisions, and is responsible for meeting the needs of enrolled students with disabilities. If a student's individualized education program team determines that a student's needs are so profound that they cannot be met in the public charter school and that the public charter school cannot provide a free, appropriate public education to that student, the student's district of residence shall place the student in a more appropriate setting.

(5) A public charter school has all the powers necessary for carrying out the terms of its charter contract, including the following powers:

(a) to receive and disburse funds for school purposes;

(b) to secure appropriate insurance and to enter into contracts and leases, free from prevailing wage

charter school only if the school's governing board retains oversight authority over the school;
(d) to incur debt in reasonable anticipation of the receipt of public or private funds;
(e) to pledge, assign, or encumber its assets to be used as collateral for loans or extensions of credit;
(f) to solicit and accept gifts or grants for school purposes subject to applicable laws and the terms of
its charter contract;

(c) funds generated for a public charter school be accounted for separately as described in this section.

(2) If a district that consists of only one school desires to convert to a public charter school, this section does not apply and the district funding formula under Title 20 applies. The district shall transfer funds to the governing board of the public charter school that maintains the operational and programmatic autonomy described in [sections 1 through 17].

(3) A public charter school may not charge tuition pursuant to 20-5-323 and may charge only fees that may be imposed by noncharter public schools in the state.

(4) A student enrolled in a public charter school must be included in the resident school district's ANB count.

(5) The county treasurer of the county in which a public charter school is located shall establish an account for the public charter school separate from the accounts of the located school district.

(6) The county treasurer of a county in which a nonresident student resides shall by the first day of each month from September through June of the school fiscal year transfer from the general fund account of the nonresident student's resident school district an amount equal to 10% of the student amount to the county treasurer of the county in which the charter school the student attends is located.

(7) For budgeting purposes, a public charter school must be considered a separate budget unit of the located school district and must have its ANB calculated separately from the other schools in the district and
receive a basic entitlement calculated separately from the other schools in the district, except that a virtual public charter school receives no basic entitlement.

(8) A public charter school is funded as follows:

(a) The county treasurer shall transfer to the public charter school's account from the located school district's general fund account by the fifth day of each month from September through June of the school fiscal year an amount equal to the sum of 10% of:

(b) In addition to the amounts transferred in subsection (8)(a), the county treasurer shall by the fifth day of each month from September through June of the school fiscal year transfer to the public charter school's account any nonresident student amount transferred from the county treasurer of a county in which a nonresident student resides as provided in subsection (6).

(9) A public charter school may expend funds according to its charter contract and is not subject to budget restrictions under Title 20, chapter 9.

(10) A public charter school may obligate the public charter school to indebtedness and is solely responsible for those debts. A public charter school is not responsible for any debt service obligations that exist in the school district in which the public charter school is located.

(11) Nothing in [sections 1 through 17] may be construed to prohibit any person or organization from providing funding or other assistance for the establishment or operation of a public charter school. The governing board of a public charter school is authorized to accept gifts or donations of any kind made to the public charter school and to expend or use the gifts or donations in accordance with the conditions prescribed by the donor. A gift or donation may not be accepted if the gift or donation is subject to a condition that is contrary to any provision of law or term of the charter contract.

(12) Money received by a public charter school from any source and remaining in the public charter school's accounts at the end of a budget year must remain in the public charter school's accounts for use by the public charter school in subsequent years.
