2. permitting, aiding, abetting, or conspiring with a person to violate or circumvent a law relating to licensure or certification;

3. fraud, misrepresentation, deception, or concealment of a material fact in applying for or assisting in securing a license or license renewal or in taking an examination required for licensure;

4. signing or issuing, in the licensee's professional capacity, a document or statement that the licensee knows or reasonably ought to know contains a false or misleading statement;

5. a misleading, deceptive, false, or fraudulent advertisement or other representation in the conduct of the profession or occupation;

6. offering, giving, or promising anything of value or benefit to a federal, state, or local government employee or official for the purpose of influencing the employee or official to circumvent a federal, state, or local law, rule, or ordinance governing the licensee's profession or occupation;

7. denial, suspension, revocation, probation, fine, or other license restriction or discipline against a licensee by a state, province, territory, or Indian tribal government or the federal government if the action is not on appeal, under judicial review, or has been satisfied;

8. failure to comply with a term, condition, or limitation of a license by final order of a board;

9. revealing confidential information obtained as the result of a professional relationship without the prior consent of the recipient of services, except as authorized or required by law;

10. use of alcohol, a habit-forming drug, or a controlled substance as defined in Title 50, chapter 32, to the extent that the use impairs the user physically or mentally in the performance of licensed professional duties;

11. having a physical or mental disability that renders the licensee or license applicant unable to practice the profession or occupation with reasonable skill and safety;

12. engaging in conduct in the course of one's practice while suffering from a contagious or infectious disease involving serious risk to public health or without taking adequate precautions, including but not limited
(1) to informed consent, protective gear, or cessation of practice;

(13) misappropriating property or funds from a client or workplace or failing to comply with a board rule regarding the accounting and distribution of a client's property or funds;

(14) interference with an investigation or disciplinary proceeding by willful misrepresentation of facts, by the use of threats or harassment against or inducement to a client or witness to prevent them from providing evidence in a disciplinary proceeding or other legal action, or by use of threats or harassment against or inducement to a person to prevent or attempt to prevent a disciplinary proceeding or other legal action from being filed, prosecuted, or completed;

(18) conduct that does not meet the generally accepted standards of practice. A certified copy of a malpractice judgment against the licensee or license applicant or of a tort judgment in an action involving an act or omission occurring during the scope and course of the practice is conclusive evidence of but is not needed to prove conduct that does not meet generally accepted standards.

(19) the sole use of any electronic means, including teleconferencing, to obtain the information required for the written certification and accompanying statements used to apply for a registry identification card pursuant to Title 50, chapter 46, part 3 [sections 5 through 17].”

“37-3-203. Powers and duties -- rulemaking authority. (1) The board may:

(a) adopt rules necessary or proper to carry out the requirements in Title 37, chapter 3, parts 1
through 4, and of chapters covering podiatry, acupuncture, physician assistants, nutritionists, and emergency

care providers as set forth in Title 37, chapters 6, 13, 20, and 25, and 50-6-203, respectively. Rules adopted for

(b) hold hearings and take evidence in matters relating to the exercise and performance of the powers
and duties vested in the board;

(c) aid the county attorneys of this state in the enforcement of parts 1 through 4 and 8 of this chapter

as provided in 87-2-803(11); and

(e) fund additional staff, hired by the department, to administer the provisions of this chapter, by
increasing license fees as necessary.

(2) (a) The board shall establish a medical assistance program to assist and rehabilitate licensees
who are subject to the jurisdiction of the board and who are found to be physically or mentally impaired by
habitual intemperance or the excessive use of addictive drugs, alcohol, or any other drug or substance or by
mental illness or chronic physical illness.

(b) The board shall ensure that a licensee who is required or volunteers to participate in the medical
assistance program as a condition of continued licensure or reinstatement of licensure must be allowed to
enroll in a qualified medical assistance program within this state and may not require a licensee to enroll in a
qualified treatment program outside the state unless the board finds that there is no qualified treatment program
in this state.

(3) (a) The board shall report annually on the number and types of complaints it has received
involving physician practices in providing written certification, as defined in 50-46-302, for the use of marijuana
for a debilitating medical condition provided for in Title 50, chapter 46. The report must contain:

(i) the number of complaints received by the board pursuant to 37-1-308;
(ii) the number of complaints for which a reasonable cause determination was made pursuant to 37-1-307;

(iii) the general nature of the complaints;

(iv) the number of investigations conducted into physician practices in providing written certification;

and

(v) the number of physicians disciplined by the board for their practices in providing written certification for the use of marijuana for a debilitating medical condition.

(b) Except as provided in subsection (3)(c), the report may not contain individual identifying information regarding the physicians about whom the board received complaints.

(c) For each physician against whom the board takes disciplinary action related to the physician’s practices in providing written certification for the use of marijuana for a debilitating medical condition, the report must include:

(i) the name of the physician;

(ii) the general results of the investigation of the physician’s practices; and

(iii) the disciplinary action taken against the physician.

(d) The board shall provide the report to the children, families, health, and human services interim committee by August 1 of each year and shall make a copy of the report available on the board’s website.

(4)(3) The board may enter into agreements with other states for the purposes of mutual recognition of licensing standards and licensing of physicians and emergency care providers from other states under the terms of a mutual recognition agreement.”

Section 51. Section 39-2-210, MCA, is amended to read:

“39-2-210. Limitation on adverse action. Except as provided in 50-46-320 16-12-108, no adverse action, including followup testing, may be taken by the employer if the employee presents a reasonable explanation or medical opinion indicating that the original test results were not caused by illegal use of controlled substances or by alcohol consumption. If the employee presents a reasonable explanation or medical opinion, the test results must be removed from the employee’s record and destroyed.”
Section 52. Section 39-2-313, MCA, is amended to read:

"39-2-313. Discrimination prohibited for use of lawful product during nonworking hours -- exceptions. (1) For purposes of this section, "lawful product" means a product that is legally consumed, used, or enjoyed and includes food, beverages, and tobacco, and marijuana.

(2) Except as provided in subsections (3) and (4), an employer may not refuse to employ or license and may not discriminate against an individual with respect to compensation, promotion, or the terms, conditions, or privileges of employment because the individual legally uses a lawful product off the employer's premises during nonworking hours.

(3) Subsection (2) does not apply to:

(a) use of a lawful product, including the use of marijuana for a debilitating medical condition as defined in 50-46-302, that:

   (i) affects in any manner an individual's ability to perform job-related employment responsibilities or the safety of other employees; or

   (ii) conflicts with a bona fide occupational qualification that is reasonably related to the individual's employment;

(b) an individual who, on a personal basis, has a professional service contract with an employer and the unique nature of the services provided authorizes the employer, as part of the service contract, to limit the use of certain products; or

(c) an employer that is a nonprofit organization that, as one of its primary purposes or objectives, discourages the use of one or more lawful products by the general public.

(4) An employer does not violate this section if the employer takes action based on the belief that the employer's actions are permissible under an established substance abuse or alcohol program or policy, professional contract, or collective bargaining agreement.

(5) An employer may offer, impose, or have in effect a health, disability, or life insurance policy that makes distinctions between employees for the type or price of coverage based on the employees' use of a product if:

(a) differential rates assessed against employees reflect actuarially justified differences in providing employee benefits;
the employer provides an employee with written notice delineating the differential rates used by
the employer's insurance carriers; and
(c) the distinctions in the type or price of coverage are not used to expand, limit, or curtail the rights or
liabilities of a party in a civil cause of action.”

Section 53. Section 39-71-407, MCA, is amended to read:

injuries, each insurer is liable for the payment of compensation, in the manner and to the extent provided in this
section, to an employee of an employer covered under plan No. 1, plan No. 2, and the state fund under plan
No. 3 that it insures who receives an injury arising out of and in the course of employment or, in the case of
death from the injury, to the employee's beneficiaries, if any.
(2) An injury does not arise out of and in the course of employment when the employee is:
(a) on a paid or unpaid break, is not at a worksite of the employer, and is not performing any specific
tasks for the employer during the break; or
(b) engaged in a social or recreational activity, regardless of whether the employer pays for any
portion of the activity. The exclusion from coverage of this subsection (2)(b) does not apply to an employee
who, at the time of injury, is on paid time while participating in a social or recreational activity or whose
presence at the activity is required or requested by the employer. For the purposes of this subsection (2)(b),
"requested" means the employer asked the employee to assume duties for the activity so that the employee's
presence is not completely voluntary and optional and the injury occurred in the performance of those duties.
(3) (a) Subject to subsection (3)(c), an insurer is liable for an injury, as defined in 39-71-119, only if
the injury is established by objective medical findings and if the claimant establishes that it is more probable
than not that:
(i) a claimed injury has occurred; or
(ii) a claimed injury has occurred and aggravated a preexisting condition.
(b) Proof that it was medically possible that a claimed injury occurred or that the claimed injury
aggravated a preexisting condition is not sufficient to establish liability.
(c) Objective medical findings are sufficient for a presumptive occupational disease as defined in 39-
71-1401 but may be overcome by a preponderance of the evidence.

(4) (a) An employee who suffers an injury or dies while traveling is not covered by this chapter unless:

(i) the employer furnishes the transportation or the employee receives reimbursement from the employer for costs of travel, gas, oil, or lodging as a part of the employee's benefits or employment agreement and the travel is necessitated by and on behalf of the employer as an integral part or condition of the employment; or

(ii) the travel is required by the employer as part of the employee's job duties.

(b) A payment made to an employee under a collective bargaining agreement, personnel policy manual, or employee handbook or any other document provided to the employee that is not wages but is designated as an incentive to work at a particular jobsite is not a reimbursement for the costs of travel, gas, oil, or lodging, and the employee is not covered under this chapter while traveling.

(5) Except as provided in subsection (6), an employee is not eligible for benefits otherwise payable under this chapter if the employee's use of alcohol or drugs not prescribed by a physician is the major contributing cause of the accident.

(6) (a) An employee who has received written certification, as defined in 50-46-302 [section 6], from a physician for the use of marijuana for a debilitating medical condition and who is otherwise eligible for benefits payable under this chapter is subject to the limitations of subsections (6)(b) through (6)(d).

(b) An employee is not eligible for benefits otherwise payable under this chapter if the employee's use of marijuana for a debilitating medical condition, as defined in 50-46-302 [section 6], is the major contributing cause of the injury or occupational disease.

(c) Nothing in this chapter may be construed to require an insurer to reimburse any person for costs associated with the use of marijuana for a debilitating medical condition, as defined in 50-46-302 [section 6].

(d) In an accepted liability claim, the benefits payable under this chapter may not be increased or enhanced due to a worker's use of marijuana for a debilitating medical condition, as defined in 50-46-302 [section 6]. An insurer remains liable for those benefits that the worker would qualify for absent the worker's use of marijuana for a debilitating medical condition.

(7) The provisions of subsection (5) do not apply if the employer had knowledge of and failed to
attempt to stop the employee's use of alcohol or drugs not prescribed by a physician. This subsection (7) does not apply to the use of marijuana for a debilitating medical condition because marijuana is not a prescribed drug.

(8) If there is no dispute that an insurer is liable for an injury but there is a liability dispute between two or more insurers, the insurer for the most recently filed claim shall pay benefits until that insurer proves that another insurer is responsible for paying benefits or until another insurer agrees to pay benefits. If it is later proven that the insurer for the most recently filed claim is not responsible for paying benefits, that insurer must receive reimbursement for benefits paid to the claimant from the insurer proven to be responsible.

(9) If a claimant who has reached maximum healing suffers a subsequent nonwork-related injury to the same part of the body, the workers' compensation insurer is not liable for any compensation or medical benefits caused by the subsequent nonwork-related injury.

(10) Except for cases of presumptive occupational disease as provided in 39-71-1401 and 39-71-1402, an employee is not eligible for benefits payable under this chapter unless the entitlement to benefits is established by objective medical findings that contain sufficient factual and historical information concerning the relationship of the worker's condition to the original injury.

(11) (a) For occupational diseases, every employer enrolled under plan No. 1, every insurer under plan No. 2, or the state fund under plan No. 3 is liable for the payment of compensation, in the manner and to the extent provided in this chapter, to an employee of an employer covered under plan No. 1, plan No. 2, or the state fund under plan No. 3 if the employee is diagnosed with a compensable occupational disease.

(b) The provisions of subsection (11)(a) apply to presumptive occupational disease if the employee is diagnosed and meets the conditions of 39-71-1401 and 39-71-1402.

(12) An insurer is liable for an occupational disease only if the occupational disease:

(a) is established by objective medical findings; and

(b) arises out of or is contracted in the course and scope of employment. An occupational disease is considered to arise out of or be contracted in the course and scope of employment if the events occurring on more than a single day or work shift are the major contributing cause of the occupational disease in relation to other factors contributing to the occupational disease. For the purposes of this subsection (12), an occupational disease is not the same as a presumptive occupational disease.
(13) When compensation is payable for an occupational disease or a presumptive occupational
disease, the only employer liable is the employer in whose employment the employee was last injuriously
exposed to the hazard of the disease.

(14) When there is more than one insurer and only one employer at the time that the employee was
injuriously exposed to the hazard of the disease, the liability rests with the insurer providing coverage at the 
earlier of:

(a) the time that the occupational disease or presumptive occupational disease was first diagnosed by
a health care provider; or

(b) the time that the employee knew or should have known that the condition was the result of an 
occupational disease or a presumptive occupational disease.

(15) In the case of pneumoconiosis, any coal mine operator who has acquired a mine in the state or
substantially all of the assets of a mine from a person who was an operator of the mine on or after December 
30, 1969, is liable for and shall secure the payment of all benefits that would have been payable by that person 
with respect to miners previously employed in the mine if acquisition had not occurred and that person had 
continued to operate the mine, and the prior operator of the mine is not relieved of any liability under this 
section.

(16) As used in this section, "major contributing cause" means a cause that is the leading cause
contributing to the result when compared to all other contributing causes. (Void on occurrence of contingency--
sec. 7, Ch. 158, L. 2019.)

39-71-407. (Effective on occurrence of contingency) Liability of insurers -- limitations. (1) For
workers' compensation injuries, each insurer is liable for the payment of compensation, in the manner and to
the extent provided in this section, to an employee of an employer covered under plan No. 1, plan No. 2, and 
the state fund under plan No. 3 that it insures who receives an injury arising out of and in the course of 
employment or, in the case of death from the injury, to the employee's beneficiaries, if any.

(2) An injury does not arise out of and in the course of employment when the employee is:

(a) on a paid or unpaid break, is not at a worksite of the employer, and is not performing any specific 
tasks for the employer during the break; or

(b) engaged in a social or recreational activity, regardless of whether the employer pays for any
portion of the activity. The exclusion from coverage of this subsection (2)(b) does not apply to an employee
who, at the time of injury, is on paid time while participating in a social or recreational activity or whose
presence at the activity is required or requested by the employer. For the purposes of this subsection (2)(b),
"requested" means the employer asked the employee to assume duties for the activity so that the employee's
presence is not completely voluntary and optional and the injury occurred in the performance of those duties.
(3) (a) An insurer is liable for an injury, as defined in 39-71-119, only if the injury is established by
objective medical findings and if the claimant establishes that it is more probable than not that:
(i) a claimed injury has occurred; or
(ii) a claimed injury has occurred and aggravated a preexisting condition.
(b) Proof that it was medically possible that a claimed injury occurred or that the claimed injury
aggravated a preexisting condition is not sufficient to establish liability.
(4) (a) An employee who suffers an injury or dies while traveling is not covered by this chapter
unless:
(i) the employer furnishes the transportation or the employee receives reimbursement from the
employer for costs of travel, gas, oil, or lodging as a part of the employee's benefits or employment agreement
and the travel is necessitated by and on behalf of the employer as an integral part or condition of the
employment; or
(ii) the travel is required by the employer as part of the employee's job duties.
(b) A payment made to an employee under a collective bargaining agreement, personnel policy
manual, or employee handbook or any other document provided to the employee that is not wages but is
designated as an incentive to work at a particular jobsite is not a reimbursement for the costs of travel, gas, oil,
or lodging, and the employee is not covered under this chapter while traveling.
(5) Except as provided in subsection (6), an employee is not eligible for benefits otherwise payable
under this chapter if the employee's use of alcohol or drugs not prescribed by a physician is the major
contributing cause of the accident.
(6) (a) An employee who has received written certification, as defined in 50-46-302 [section 6], from a
physician for the use of marijuana for a debilitating medical condition and who is otherwise eligible for benefits
payable under this chapter is subject to the limitations of subsections (6)(b) through (6)(d).
(b) An employee is not eligible for benefits otherwise payable under this chapter if the employee's use of marijuana for a debilitating medical condition, as defined in 50-46-302 [section 6], is the major contributing cause of the injury or occupational disease.

(c) Nothing in this chapter may be construed to require an insurer to reimburse any person for costs associated with the use of marijuana for a debilitating medical condition, as defined in 50-46-302 [section 6].

(d) In an accepted liability claim, the benefits payable under this chapter may not be increased or enhanced due to a worker's use of marijuana for a debilitating medical condition, as defined in 50-46-302 [section 6]. An insurer remains liable for those benefits that the worker would qualify for absent the worker's use of marijuana for a debilitating medical condition.

(7) The provisions of subsection (5) do not apply if the employer had knowledge of and failed to attempt to stop the employee's use of alcohol or drugs not prescribed by a physician. This subsection (7) does not apply to the use of marijuana for a debilitating medical condition because marijuana is not a prescribed drug.

(8) If there is no dispute that an insurer is liable for an injury but there is a liability dispute between two or more insurers, the insurer for the most recently filed claim shall pay benefits until that insurer proves that another insurer is responsible for paying benefits or until another insurer agrees to pay benefits. If it is later proven that the insurer for the most recently filed claim is not responsible for paying benefits, that insurer must receive reimbursement for benefits paid to the claimant from the insurer proven to be responsible.

(9) If a claimant who has reached maximum healing suffers a subsequent nonwork-related injury to the same part of the body, the workers' compensation insurer is not liable for any compensation or medical benefits caused by the subsequent nonwork-related injury.

(10) An employee is not eligible for benefits payable under this chapter unless the entitlement to benefits is established by objective medical findings that contain sufficient factual and historical information concerning the relationship of the worker's condition to the original injury.

(11) For occupational diseases, every employer enrolled under plan No. 1, every insurer under plan No. 2, or the state fund under plan No. 3 is liable for the payment of compensation, in the manner and to the extent provided in this chapter, to an employee of an employer covered under plan No. 1, plan No. 2, or the state fund under plan No. 3 if the employee is diagnosed with a compensable occupational disease.
An insurer is liable for an occupational disease only if the occupational disease:

(a) is established by objective medical findings; and

(b) arises out of or is contracted in the course and scope of employment. An occupational disease is considered to arise out of or be contracted in the course and scope of employment if the events occurring on more than a single day or work shift are the major contributing cause of the occupational disease in relation to other factors contributing to the occupational disease.

(13) When compensation is payable for an occupational disease, the only employer liable is the employer in whose employment the employee was last injuriously exposed to the hazard of the disease.

(14) When there is more than one insurer and only one employer at the time that the employee was injuriously exposed to the hazard of the disease, the liability rests with the insurer providing coverage at the earlier of:

(a) the time that the occupational disease was first diagnosed by a health care provider; or

(b) the time that the employee knew or should have known that the condition was the result of an occupational disease.

(15) In the case of pneumoconiosis, any coal mine operator who has acquired a mine in the state or substantially all of the assets of a mine from a person who was an operator of the mine on or after December 30, 1969, is liable for and shall secure the payment of all benefits that would have been payable by that person with respect to miners previously employed in the mine if acquisition had not occurred and that person had continued to operate the mine, and the prior operator of the mine is not relieved of any liability under this section.

(16) As used in this section, "major contributing cause" means a cause that is the leading cause contributing to the result when compared to all other contributing causes.

(1) Formal and informal youth court records, law enforcement records, and department records that are not exempt from sealing under subsections (4) and (6) and that pertain to a youth covered by this chapter must be physically sealed on the youth's 18th birthday. In those cases in which jurisdiction of the
court or any agency is extended beyond the youth’s 18th birthday, the records must be physically sealed upon
termination of the extended jurisdiction.

(2) Except as provided in subsection (6), when the records pertaining to a youth pursuant to this
section are sealed, an agency, other than the department, that has in its possession copies of the sealed
records shall destroy the copies of the records. Anyone violating the provisions of this subsection is subject to
contempt of court.

(3) Except as provided in subsection (6), this section does not prohibit the destruction of records with
the consent of the youth court judge or county attorney after 10 years from the date of sealing.

(4) The requirements for sealed records in this section do not apply to medical records, fingerprints,
DNA records, photographs, youth traffic records, records in any case in which the youth did not fulfill all
requirements of the court's judgment or disposition, records referred to in 42-3-203, or the information referred
to in 46-23-508, in any instance in which the youth was required to register as a sexual offender pursuant to
Title 46, chapter 23, part 5.

(5) After formal and informal youth court records, law enforcement records, and department records
are sealed, they are not open to inspection except, upon order of the youth court, for good cause to:

(a) those persons and agencies listed in 41-5-215(2); and

(b) adult probation and parole staff preparing a presentence report on an adult with an existing sealed
youth court record.

(6) (a) When formal youth court records, law enforcement records, and department records are

be preserved for the express purpose of research and program evaluation.

(b) The department of public health and human services, the office of court administrator, and the
department shall disassociate the offense and disposition information from the name of the youth in the
respective management information system. The offense and disposition information must be maintained
separately and may be used only:

(i) for research and program evaluation authorized by the office of court administrator or by the
department and subject to any applicable laws; and
(7) (a) Informal youth court records for a youth for whom formal proceedings have been filed must be physically sealed on the youth's 18th birthday or, in those cases in which jurisdiction of the court or any agency is extended beyond the youth's 18th birthday, upon termination of the extended jurisdiction and may be inspected only pursuant to subsection (5).

(b) The informal youth court records are confidential and may be shared only with those persons and agencies listed in 41-5-215(2).

(c) Except as provided in subsection (7)(a), when a youth becomes 18 years of age or when extended supervision ends and the youth was involved only in informal proceedings, informal youth court records that are in hard-copy form must be destroyed and any electronic records in the youth court management information system must disassociate the offense and disposition information from the name of the youth and may be used only for the following purposes:

(i) for research and program evaluation authorized by the office of the court administrator and subject to any applicable laws; and

(ii) as provided in Title 5, chapter 13.

(8) Nothing in this section prohibits the sharing of formal or informal youth court records within the juvenile probation management information system to a person or agency listed in 41-5-215(2).
