22 with the planning and design of capital projects in either or both [sections 2 and 3] prior to the receipt of other

 2 review shows that a capital project will result in energy or utility savings and improvements, that project must be
 3 submitted to the energy conservation program for funding consideration by the SBECP. Funding provided
 4 under the energy conservation program guidelines must be used to offset or add to the authorized funding for
 5 the project, and the amount will be dependent on the annual utility savings resulting from the capital project.
 6 Agencies must be notified of potential funding after the review and are obligated to utilize the SBECP funding, if
 7 available.

 14 **maintenance.** If an immediate or future increase in state funding for program expansion or operations and
 15 maintenance is required for a new facility in [section 3] but the increase is not appropriated by the 68th
