11 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

12
13 **Section 1.** Section 15-10-420, MCA, is amended to read:

14 **"15-10-420. Procedure for calculating levy.** (1) (a) Subject to the provisions of this section, a
15 governmental entity that is authorized to impose mills may impose a mill levy sufficient to generate the amount
16 of property taxes actually assessed in the prior year plus one-half of the average rate of inflation for the prior 3
17 years. The maximum number of mills that a governmental entity may impose is established by calculating the
18 number of mills required to generate the amount of property tax actually assessed in the governmental unit in
19 the prior year based on the current year taxable value, less the current year's newly taxable value, plus one-half
20 of the average rate of inflation for the prior 3 years.

21 (b) A governmental entity that does not impose the maximum number of mills authorized under
22 subsection (1)(a) may carry forward the authority to impose the number of mills equal to the difference between
23 the actual number of mills imposed and the maximum number of mills authorized to be imposed. The mill
24 authority carried forward may be imposed in a subsequent tax year.

25 (c) For the purposes of subsection (1)(a), the department shall calculate one-half of the average
26 rate of inflation for the prior 3 years by using the consumer price index, U.S. city average, all urban consumers,
27 using the 1982-84 base of 100, as published by the bureau of labor statistics of the United States department of
28 labor.

1 (2) A governmental entity may apply the levy calculated pursuant to subsection (1)(a) plus any
2 additional levies authorized by the voters, as provided in 15-10-425, to all property in the governmental unit,
3 including newly taxable property.

4 (3) (a) For purposes of this section, newly taxable property includes:

5 (i) annexation of real property and improvements into a taxing unit;

6 (ii) construction, expansion, or remodeling of improvements;

7 (iii) transfer of property into a taxing unit;

8 (iv) subdivision of real property; and

9 (v) transfer of property from tax-exempt to taxable status.

10 (b) Newly taxable property does not include an increase in value:

11 (i) that arises because of an increase in the incremental value within a tax increment financing
12 district; or

13 (ii) caused by the termination of an exemption that occurs due to the American Rescue Plan Act,
14 Public Law 117-2, and section 14, Chapter 506, Laws of 2021.

15 (4) (a) For the purposes of subsection (1), the taxable value of newly taxable property includes the
16 release of taxable value from the incremental taxable value of a tax increment financing district because of:

17 (i) a change in the boundary of a tax increment financing district;

18 (ii) an increase in the base value of the tax increment financing district pursuant to 7-15-4287; or

19 (iii) the termination of a tax increment financing district.

20 (b) If a tax increment financing district terminates prior to the certification of taxable values as
21 required in 15-10-202, the increment value is reported as newly taxable property in the year in which the tax
22 increment financing district terminates. If a tax increment financing district terminates after the certification of
23 taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the
24 following tax year.

25 (c) For the purpose of subsection (3)(a)(ii), the value of newly taxable class four property that was
26 constructed, expanded, or remodeled property since the completion of the last reappraisal cycle is the current
27 year market value of that property less the previous year market value of that property.

28 (d) For the purpose of subsection (3)(a)(iv), the subdivision of real property includes the first sale

1 of real property that results in the property being taxable as class four property under 15-6-134 or as
2 nonqualified agricultural land as described in 15-6-133(1)(c).

3 (5) Subject to subsection (8), subsection (1)(a) does not apply to:

4 (a) school district levies established in Title 20; or

5 (b) a mill levy imposed for a newly created regional resource authority.

6 (6) For purposes of subsection (1)(a), taxes imposed do not include net or gross proceeds taxes
7 received under 15-6-131 and 15-6-132.

8 (7) In determining the maximum number of mills in subsection (1)(a), the governmental entity:

9 (a) may increase the number of mills to account for a decrease in reimbursements; and

10 (b) may not increase the number of mills to account for a loss of tax base because of legislative
11 action that is reimbursed under the provisions of 15-1-121(7).

12 (8) The department shall calculate, on a statewide basis, the number of mills to be imposed for
13 purposes of 15-10-109, 20-9-331, 20-9-333, 20-9-360, and 20-25-439. However, the number of mills calculated
14 by the department may not exceed the mill levy limits established in those sections. The mill calculation must
15 be established in tenths of mills. If the mill levy calculation does not result in an even tenth of a mill, then the
16 calculation must be rounded up to the nearest tenth of a mill.

17 (9) (a) The provisions of subsection (1) do not prevent or restrict:

18 (i) a judgment levy under 2-9-316, 7-6-4015, or 7-7-2202;

19 (ii) a levy to repay taxes paid under protest as provided in 15-1-402;

20 (iii) an emergency levy authorized under 10-3-405, 20-9-168, or 20-15-326;

21 (iv) a levy for the support of a study commission under 7-3-184;

22 (v) a levy for the support of a newly established regional resource authority;

23 (vi) the portion that is the amount in excess of the base contribution of a governmental entity's
24 property tax levy for contributions for group benefits excluded under 2-9-212 or 2-18-703;

25 (vii) a levy for reimbursing a county for costs incurred in transferring property records to an
26 adjoining county under 7-2-2807 upon relocation of a county boundary;

27 (viii) a levy used to fund the sheriffs' retirement system under ~~19-7-404(2)(b)~~ 19-7-404(3)(b); or

28 (ix) a governmental entity from levying mills for the support of an airport authority in existence prior

1 to May 7, 2019, regardless of the amount of the levy imposed for the support of the airport authority in the past.
2 The levy under this subsection (9)(a)(ix) is limited to the amount in the resolution creating the authority.

3 (b) A levy authorized under subsection (9)(a) may not be included in the amount of property taxes
4 actually assessed in a subsequent year.

5 (10) A governmental entity may levy mills for the support of airports as authorized in 67-10-402, 67-
6 11-301, or 67-11-302 even though the governmental entity has not imposed a levy for the airport or the airport
7 authority in either of the previous 2 years and the airport or airport authority has not been appropriated
8 operating funds by a county or municipality during that time.

9 (11) The department may adopt rules to implement this section. The rules may include a method for
10 calculating the percentage of change in valuation for purposes of determining the elimination of property, new
11 improvements, or newly taxable value in a governmental unit. (Subsection (3)(b)(ii) terminates December 31,
12 2025--sec. 13(5), Ch. 506, L. 2021.)"

8 **Section 3.** Section 19-2-405, MCA, is amended to read:

9 **"19-2-405. Employment of actuary -- annual investigation and valuation.** (1) The board shall
10 retain a competent actuary who is an enrolled member of the American academy of actuaries and who is
11 familiar with public systems of pensions. The actuary is the technical adviser of the board on matters regarding
12 the operation of the retirement systems.

13 (2) The board shall require the actuary to make and report on an annual actuarial investigation into
14 the suitability of the actuarial tables used by the retirement systems and an actuarial valuation of the assets and
15 liabilities of each defined benefit plan that is a part of the retirement systems.

16 (3) The normal cost contribution rate, which is funded by required employee contributions and a
17 portion of the required employer contributions to each defined benefit retirement plan, must be calculated as the
18 level percentage of members' salaries that will actuarially fund benefits payable under a retirement plan as
19 those benefits accrue in the future.

20 (4) ~~(a)~~ The unfunded liability contribution rate, which is entirely funded by a portion of the required
21 employer contributions to the retirement plan, must be calculated as the level percentage of current and future
22 defined benefit plan members' salaries that will amortize the unfunded actuarial liabilities of the retirement plan
23 over a reasonable period of time, not to exceed 30 years, as determined by the board, except as provided in
24 19-5-404, 19-6-404, 19-7-404, and 19-8-504.

25 ~~(b)~~ ~~In determining the amortization period under subsection (4)(a) for the public employees' retirement~~
26 ~~system's defined benefit plan, the actuary shall take into account the plan choice rate contributions to be made~~
27 ~~to the defined benefit plan pursuant to 19-3-2117 and 19-21-214.~~

28 (5) The board shall require the actuary to conduct and report on a periodic actuarial investigation

1 into the actuarial experience of the retirement systems and plans.

2 (6) The board may require the actuary to conduct any valuation necessary to administer the
3 retirement systems and the plans subject to this chapter.

4 (7) The board shall provide copies of the reports required pursuant to subsections (2) and (5) to
5 the state administration and veterans' affairs interim committee and to the legislature pursuant to 5-11-210.

6 (8) The board shall require the actuary to prepare for each employer participating in a retirement
7 system the disclosures or the information required to be included in the disclosures as required by law and by
8 the governmental accounting standards board or its generally recognized successor."
9

10 **Section 4.** Section 19-2-409, MCA, is amended to read:

11 **"19-2-409. Plans to be funded on actuarially sound basis -- definition.** (1) As required by Article
12 VIII, section 15, of the Montana constitution, each system must be funded on an actuarially sound basis. For
13 the purposes of this section, "actuarially sound basis" means that contributions to each retirement plan must be
14 sufficient to pay the full actuarial cost of the plan.

15 (2) (a) For a defined benefit plan, the full actuarial cost includes both the normal cost of providing
16 benefits as they accrue in the future and the cost of amortizing unfunded liabilities over a scheduled period of
17 no more than 30 years, except that with respect to the judges' retirement system, the highway patrol officers'
18 retirement system, the sheriffs' retirement system, and the game wardens' and peace officers' retirement
19 system, the unfunded liabilities must be paid over the periods provided for in 19-5-404, 19-6-404, 19-7-404, and
20 19-8-504, respectively.

21 (b) For the defined contribution plan, the full actuarial cost is the contribution defined by law that is
22 payable to an account on behalf of the member."
23

24 **Section 5.** Section 19-5-404, MCA, is amended to read:

25 **"19-5-404. State employer contribution -- definitions.** (1) (a) Beginning July 1, 2023, ~~and except as~~
26 ~~provided in subsections (2) and (3), the state shall pay as employer contributions 14.0% of the compensation~~

12 appropriated, as provided in 17-7-502, from the general fund to the pension trust fund.

13 **(b)** Beginning July 1, 2023, and each fiscal year thereafter, the state treasurer shall transfer

14 \$500,000 from the state special revenue fund provided for in 17-2-102 to the highway patrol officers' retirement

17 (2) (a) Beginning July 1, 2024, the state shall pay as employer contributions an actuarially

18 determined employer contribution that is determined annually by the public employees' retirement board's

8 (d) The contribution rate under subsection (2)(b)(ii) for the contemporary unfunded liability must be
9 the amount required on a level percent basis to pay the annual contemporary unfunded liabilities attributable to
10 the employer's employees over a layered amortization schedule so that each fiscal year's contemporary
11 unfunded liability is amortized over a closed 10-year 15-year period, starting with the contemporary unfunded

13 (e) The contribution rate under subsection (2)(b)(iii) for the normal cost of benefits as they accrue
14 must be the amount required on a level percent basis to pay the normal cost of benefits as determined in the
