16 **NEW SECTION. Section 1. Evaluation of noncritical access hospital supplemental payment**
17 **methodology -- rules -- report.** (1) The department of public health and human services shall evaluate
18 supplemental payment methodology, including but not limited to how medicaid rate increases and hospital
19 costs impact the upper payment limit, the integrity of the cost-to-charge ratio calculation, and alternative upper
20 payment limit calculation methods that may result in more precision. The department shall also require
21 hospitals to provide evidence annually of how the upper payment limit payments impact efficiency, economy,
22 quality of care, and access.

23 (2) Additionally, the department shall adopt rules that define excessive outlier hospital utilization
24 fees and upper payment limits and assess graduated penalties to noncritical access hospitals that fit within that
25 definition.

26 (3) The department shall report on the activities described in this section to the joint appropriations
27 subcommittee for health and human services during the 2025 legislative session.

28

1 **NEW SECTION. Section 2. Performance-based payment account.** (1) There is a performance-

5 (3) The legislature may only appropriate funds from this account for the following purposes:

6 (a) developing and testing value-based payment methods, results-based contracting, or other
7 payment models that restrain the cost of health and human services while increasing person-centered and
8 family-centered quality outcomes;

9 (b) supplemental payments to noncritical access hospitals that have demonstrated efficiency and
10 cost-control measures and have met the department's supplemental payment standards; or

11 (c) department administrative costs related to either subsections (3)(a) or (3)(b).
12

13 **NEW SECTION. Section 3. Legislative intent on rate increases for skilled nursing facilities.**

17

18 **NEW SECTION. Section 4. Child-care subsidies.** (1) For federal funds, including but not limited to

24 (3) Should excess child-care subsidy funds exist, the department shall provide geographically
25 targeted child-care subsidies in high cost of living or high cost of care areas by increasing the federal poverty
26 level eligibility beyond 150% or increasing provider rates. The department may also use excess child-care
27 subsidy funds, not to exceed 10% of the total available amount and as allowed by federal regulations, to fund
28 initiatives that increase child-care provider acceptance of child-care subsidies and family enrollment in the child-

1 care subsidy program.
