

1 SENATE BILL NO. 529

2 INTRODUCED BY G. HERTZ

3

4 A BILL FOR AN ACT ENTITLED: "AN ACT REVISING PROPERTY TAX ABATEMENTS FOR  
5 COMMUNICATION AND INTERNET PROPERTY; EXEMPTING CERTAIN WIRELESS INFRASTRUCTURE  
6 FROM PROPERTY TAXATION; REPEALING THE PROHIBITION ON USING FEDERAL FUNDS WHEN  
7 RECEIVING THE FIBER OPTIC OR COAXIAL CABLE ABATEMENT; REQUIRING WIRELESS  
8 INFRASTRUCTURE TO BE PLACED IN SERVICE BEFORE A SPECIFIC DATE; PROHIBITING AN  
9 ABATEMENT FOR WIRELESS INFRASTRUCTURE IF FEDERAL OR STATE GRANT FUNDS WERE USED;  
10 PROVIDING REPORTING REQUIREMENTS; AMENDING SECTIONS 15-6-135, 15-6-156, 15-6-219, AND 15-  
11 6-243, MCA; AND PROVIDING AN EFFECTIVE DATE AND AN APPLICABILITY DATE."

12

13 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

14

15 Section 1. Section 15-6-135, MCA, is amended to read:

16 "15-6-135. Class five property -- description -- taxable percentage -- exemption. (1) Class five  
17 property includes:

18 (a) all property used and owned by cooperative rural electrical and cooperative rural telephone  
19 associations organized under the laws of Montana, except property owned by cooperative organizations  
20 described in 15-6-137(1)(a);

21 (b) air and water pollution control and carbon capture equipment as defined in this section;

22 (c) new industrial property as defined in this section;

23 (d) any personal or real property used primarily in the production of ethanol-blended gasoline  
24 during construction and for the first 3 years of its operation;

25 (e) all land and improvements and all personal property owned by a research and development  
26 firm, provided that the property is actively devoted to research and development;

27 (f) machinery and equipment used in electrolytic reduction facilities;

28 (g) all property used and owned by persons, firms, corporations, or other organizations that are

1 engaged in the business of furnishing telecommunications services exclusively to rural areas or to rural areas  
2 and cities and towns of 1,200 permanent residents or less.

3 (2) (a) "Air and water pollution control and carbon capture equipment" means that portion of  
4 identifiable property, facilities, machinery, devices, or equipment certified as provided in subsections (2)(b) and  
5 (2)(c) and designed, constructed, under construction, or operated for removing, disposing, abating, treating,  
6 eliminating, destroying, neutralizing, stabilizing, rendering inert, storing, or preventing the creation of air or  
7 water pollutants that, except for the use of the item, would be released to the environment. This includes  
8 machinery, devices, or equipment used to capture carbon dioxide or other greenhouse gases. Reduction in  
9 pollutants obtained through operational techniques without specific facilities, machinery, devices, or equipment  
10 is not eligible for certification under this section.

11 (b) Requests for certification must be made on forms available from the department of revenue.  
12 Certification may not be granted unless the applicant is in substantial compliance with all applicable rules, laws,  
13 orders, or permit conditions. Certification remains in effect only as long as substantial compliance continues.

14 (c) The department of environmental quality shall promulgate rules specifying procedures,  
15 including timeframes for certification application, and definitions necessary to identify air and water pollution  
16 control and carbon capture equipment for certification and compliance. The department of revenue shall  
17 promulgate rules pertaining to the valuation of qualifying air and water pollution control and carbon capture  
18 equipment. The department of environmental quality shall identify and track compliance in the use of certified  
19 air and water pollution control and carbon capture equipment and report continuous acts or patterns of  
20 noncompliance at a facility to the department of revenue. Casual or isolated incidents of noncompliance at a  
21 facility do not affect certification.

22 (d) To qualify for the exemption under subsection (5)(b)(i), the air and water pollution control and  
23 carbon capture equipment must be placed into service after January 1, 2014, for the purposes of environmental  
24 benefit or to comply with state or federal pollution control regulations. If the air or water pollution control and  
25 carbon capture equipment enhances the performance of existing air and water pollution control and carbon  
26 capture equipment, only the market value of the enhancement is subject to the exemption under subsection  
27 (5)(b)(i).

28 (e) Except as provided in subsection (2)(d), equipment that does not qualify for the exemption

1 under subsection (5)(b)(i) includes but is not limited to equipment placed into service to maintain, replace, or  
2 repair equipment installed on or before January 1, 2014.

3 (f) A person may appeal the certification, classification, and valuation of the property to the  
4 Montana tax appeal board. Appeals on the property certification must name the department of environmental  
5 quality as the respondent, and appeals on the classification or valuation of the equipment must name the  
6 department of revenue as the respondent.

7 (3) (a) "New industrial property" means any new industrial plant, including land, buildings,  
8 machinery, and fixtures, used by new industries during the first 3 years of their operation. The property may not  
9 have been assessed within the state of Montana prior to July 1, 1961.

10 (b) New industrial property does not include:

11 (i) property used by retail or wholesale merchants, commercial services of any type, agriculture,  
12 trades, or professions unless the business or profession meets the requirements of subsection (4)(b)(v);

13 (ii) a plant that will create adverse impact on existing state, county, or municipal services; or

14 (iii) property used or employed in an industrial plant that has been in operation in this state for 3  
15 years or longer.

16 (4) (a) "New industry" means any person, corporation, firm, partnership, association, or other  
17 group that establishes a new plant in Montana for the operation of a new industrial endeavor, as distinguished  
18 from a mere expansion, reorganization, or merger of an existing industry.

19 (b) New industry includes only those industries that:

20 (i) manufacture, mill, mine, produce, process, or fabricate materials;

21 (ii) do similar work, employing capital and labor, in which materials unserviceable in their natural  
22 state are extracted, processed, or made fit for use or are substantially altered or treated so as to create  
23 commercial products or materials;

24 (iii) engage in the mechanical or chemical transformation of materials or substances into new  
25 products in the manner defined as manufacturing in the North American Industry Classification System Manual  
26 prepared by the United States office of management and budget;

27 (iv) engage in the transportation, warehousing, or distribution of commercial products or materials if  
28 50% or more of an industry's gross sales or receipts are earned from outside the state; or

1 (v) earn 50% or more of their annual gross income from out-of-state sales.

2 (5) (a) Except as provided in subsection (5)(b), class five property is taxed at 3% of its market  
3 value.

4 (b) (i) Air and water pollution control and carbon capture equipment placed in service after January  
5 1, 2014, and that satisfies the criteria in subsection (2)(d) is exempt from taxation.

6 (ii) (A) ~~Except as provided in subsection (5)(b)(ii)(B), fiber~~ Fiber PURSUANT TO SUBSECTION (7),  
7 FIBER FIBER optic or coaxial cable, as defined in 15-6-156, installed and placed in service on or after July 1,  
8 2021, and wireless infrastructure, as defined in 15-6-156, placed in service on or after [the effective date of this  
9 act] and before July 1, 2031, is exempt from taxation for a period of 5 years starting from the date the fiber optic  
10 or coaxial cable or wireless infrastructure was placed in service, after which the property exemption is phased  
11 out at a rate of 20% a year, with the property being assessed at 100% of its taxable value after a 10-year  
12 period. In order to maintain the exemption, the owner of fiber optic or coaxial cable or wireless infrastructure  
13 shall reinvest the tax savings from the exemption by installing and placing in service new fiber optic or coaxial  
14 cable or wireless infrastructure in Montana within 2 years from the date the owner first claimed the exemption  
15 provided for in this subsection (5)(b)(ii) without charging those costs to the consumer. The cost of installing or  
16 placing into service fiber optic or coaxial cable or wireless infrastructure with the reinvested tax savings without  
17 charging those costs to the consumer must be equal to or greater than the value of the tax savings received  
18 from the tax incentive.

19 (B) ~~Fiber optic or coaxial cable installed using federal funds received pursuant to section 9901 of the~~  
20 ~~American Rescue Plan Act is not eligible for exemption from taxation under this section.~~

21 (C)(B) An entity that claims a tax exemption under this subsection (5)(b)(ii) shall maintain adequate  
22 books and records demonstrating the investment the owner made when installing and placing in service fiber  
23 optic or coaxial cable or wireless infrastructure in Montana. The property owners shall make those records  
24 available to the department for inspection upon request.

25 (6) (a) The property taxes exempted from taxation by subsection (5)(b)(ii) are subject to  
26 termination or recapture if the department determines that the owner failed to install and place in service new  
27 coaxial or fiber cable or wireless infrastructure in Montana as provided in subsection (5)(b)(ii) or otherwise  
28 violates the provisions of this section.

1 (b) Upon notice from the department that the owner's exemption has terminated, any local  
2 governing body may recapture taxes previously exempted in that jurisdiction, plus interest and penalties for  
3 nonpayment of property taxes as provided in 15-16-102, during any tax year in which an exemption under the  
4 provisions of subsection (5)(b)(ii) was improper. Any recapture must occur within 10 years after the end of the  
5 calendar year in which the exemption was first claimed.

6 (c) The recapture of abated taxes may be cancelled, in whole or in part, if the local governing body  
7 determines that the taxpayer's failure to meet the requirements is a result of circumstances beyond the control  
8 of the taxpayer.

9 ~~(7) THE PROPERTY TAX EXEMPTIONS PROVIDED IN THIS SECTION FOR WIRELESS INFRASTRUCTURE MUST  
10 BE FOR WIRELESS INFRASTRUCTURE INSTALLED IN RURAL AREAS, AREAS WITHIN THE BOUNDARIES OF A FEDERALLY  
11 RECOGNIZED INDIAN RESERVATION, AND OTHER AREAS OF THE STATE WITH LITTLE OR NO CURRENT WIRELESS SERVICES;~~

12 (7) The exemption provided by this section for wireless infrastructure does not apply if any portion  
13 of the wireless infrastructure is installed or placed into service using federal or state grants that are not required  
14 to be repaid."

15  
16 **Section 2.** Section 15-6-156, MCA, is amended to read:

17 **"15-6-156. Class thirteen property -- description -- taxable percentage.** (1) Except as provided in  
18 subsections (2)(a) through (2)(i), class thirteen property includes:

19 (a) electrical generation facilities, except wind generation facilities, biomass generation facilities,  
20 and energy storage facilities classified under 15-6-157, of a centrally assessed electric power company;

21 (b) electrical generation facilities, except wind generation facilities, biomass generation facilities,  
22 and energy storage facilities classified under 15-6-157, owned or operated by an exempt wholesale generator  
23 or an entity certified as an exempt wholesale generator pursuant to 42 U.S.C. 16451;

24 (c) noncentrally assessed electrical generation facilities, except wind generation facilities, biomass  
25 generation facilities, and energy storage facilities classified under 15-6-157, owned or operated by any  
26 electrical energy producer;

27 (d) allocations of centrally assessed telecommunications services companies; and

28 (e) dedicated communications infrastructure described in 15-6-162(5) for which construction

1 commenced after June 30, 2027, or for which the 15-year period provided for in 15-6-162(5)(c) has expired.

2 (2) Class thirteen property does not include:

3 (a) property owned by cooperative rural electric cooperative associations classified under 15-6-  
4 135;

5 (b) property owned by cooperative rural electric cooperative associations classified under 15-6-137  
6 or 15-6-157;

7 (c) allocations of electric power company property under 15-6-141;

8 (d) electrical generation facilities included in another class of property;

9 (e) property owned by cooperative rural telephone associations and classified under 15-6-135;

10 (f) property owned by organizations providing telecommunications services and classified under  
11 15-6-135;

12 (g) generation facilities that are exempt under 15-6-225;

13 (h) qualified data centers classified under 15-6-162; and

14 (i) property classified under 15-6-163.

15 (3) For the purposes of this section, the following definitions apply:

16 (a) (i) "Electrical generation facilities" means any combination of a physically connected generator  
17 or generators, associated prime movers, and other associated property, including appurtenant land and  
18 improvements and personal property, that are normally operated together to produce electric power. The term  
19 includes but is not limited to generating facilities that produce electricity from coal-fired steam turbines, oil or  
20 gas turbines, turbine generators that are driven by falling water, or solar panel systems.

21 (ii) The term does not include electrical generation facilities used for noncommercial purposes or  
22 exclusively for agricultural purposes.

23 (iii) (A) The term also does not include a qualifying facility certified by the federal energy regulatory  
24 commission.

25 (B) To qualify for consideration of an abatement as allowed in 15-24-1402, the requesting entity  
26 must disclose, in writing, its intent to request certification as a qualifying facility to the governing body.

27 (C) If the intent is not disclosed and an abatement granted, abatement may be rescinded by the  
28 governing body.

1 (D) Certified qualifying facilities are classified under 15-6-134 and 15-6-138.

2 (iv) The term also does not include a facility that is owned and operated by a person not primarily  
3 engaged in the generation or sale of electricity other than power from a small power production facility and  
4 classified under 15-6-134 and 15-6-138.

5 (b) (i) "Fiber optic or coaxial cable" means any fiber optic or coaxial cable, including all capitalized  
6 costs associated with installing and placing in service the fiber optic or coaxial cable, and other property that is  
7 normally operated when installing and placing in service fiber optic or coaxial cable to deliver digital  
8 communication and access to the internet.

9 (ii) The term does not include routers, head-end equipment, central office equipment and other  
10 electronics, or hardware or software not directly associated with installing and placing in service fiber optic or  
11 coaxial cable or the buildings used to house equipment.

12 (c) "Rural areas" means an area not included within 3 miles of the boundaries of an incorporated  
13 or unincorporated city, town, or village having a population in excess of 3,500 persons.

14 ~~(e)(d)~~ (i) "Wireless infrastructure" means signal transmission facilities and associated network  
15 equipment, including all capitalized costs associated with installing and placing these facilities and network  
16 equipment in service, together with other property that is directly associated with providing wireless service to  
17 customers, and which includes power equipment, cables, lines, radios, antenna, transceivers, shelters, and  
18 towers.

19 (ii) The term does not include central office equipment and other electronics or hardware or  
20 software not directly associated with installing and placing wireless infrastructure into service.

21 (4) (a) Except as provided in subsection (4)(b), class thirteen property is taxed at 6% of its market  
22 value.

23 (b) (i) ~~Except as provided in subsection (4)(b)(ii), fiber~~ Fiber PURSUANT TO SUBSECTION (6), FIBER  
24 FIBER optic or coaxial cable installed and placed in service on or after July 1, 2021, and, subject to subsection  
25 (6)(a), wireless infrastructure placed in service on or after [the effective date of this act] and before July 1, 2031,  
26 is exempt from taxation for a period of 5 years starting from the date the fiber optic or coaxial cable or wireless  
27 infrastructure was placed in service, after which the property exemption is phased out at a rate of 20% a year,  
28 with the property being assessed at 100% of its taxable value after a 10-year period. In order to maintain the

1 exemption, the owner of fiber optic or coaxial cable or wireless infrastructure shall reinvest the tax savings from  
 2 the exemption by installing and placing in service new fiber optic or coaxial cable or wireless infrastructure in  
 3 Montana within 2 years from the date the owner first claimed the exemption provided for in this subsection  
 4 (4)(b) without charging those costs to the consumer. The cost of installing or placing into service fiber optic or  
 5 coaxial cable or wireless infrastructure with the reinvested tax savings without charging those costs to the  
 6 consumer must be equal to or greater than the value of the tax savings received from the tax incentive.

7 ~~(ii) Fiber optic or coaxial cable installed using federal funds received pursuant to Section 9901 of the~~  
 8 ~~American Rescue Plan Act is not eligible for exemption from taxation under this section.~~

9 ~~(iii)(ii)~~ An entity that claims a tax exemption under this subsection (4)(b) shall maintain adequate  
 10 books and records demonstrating the investment the owner made when installing and placing in service fiber  
 11 optic or coaxial cable or wireless infrastructure in Montana. The property owners shall make those records  
 12 available to the department for inspection upon request.

13 (5) (a) The property taxes exempted from taxation by subsection (4)(b) are subject to termination  
 14 or recapture if the department determines that the owner failed to install and place in service new coaxial or  
 15 fiber cable or wireless infrastructure in Montana as provided in subsection (4)(b) or otherwise violates the  
 16 provisions of this section.

17 (b) Upon notice from the department that the owner's exemption has terminated, any local  
 18 governing body may recapture taxes previously exempted in that jurisdiction, plus interest and penalties for  
 19 nonpayment of property taxes as provided in 15-16-102, during any tax year in which an exemption under the  
 20 provisions of this section was improper. Any recapture must occur within 10 years after the end of the calendar  
 21 year in which the exemption was first claimed.

22 (c) The recapture of abated taxes may be cancelled, in whole or in part, if the local governing body  
 23 determines that the taxpayer's failure to meet the requirements is a result of circumstances beyond the control  
 24 of the taxpayer.

25 ~~(6) THE PROPERTY TAX EXEMPTIONS PROVIDED IN THIS SECTION FOR WIRELESS INFRASTRUCTURE MUST~~  
 26 ~~BE FOR WIRELESS INFRASTRUCTURE INSTALLED IN RURAL AREAS, AREAS WITHIN THE BOUNDARIES OF A FEDERALLY~~  
 27 ~~RECOGNIZED INDIAN RESERVATION, AND OTHER AREAS OF THE STATE WITH LITTLE OR NO CURRENT WIRELESS SERVICES.~~

28 (6) The property tax exemptions provided in this section for wireless infrastructure:

1           (a) must be for wireless infrastructure installed in rural areas, areas within the boundaries of a  
 2 federally recognized Indian reservation, and other areas of the state with little or no current wireless services;  
 3 and  
 4           (b) do not apply if any portion of the wireless infrastructure is installed or placed into service using  
 5 federal or state grants that are not required to be repaid."  
 6

7           **Section 3.** Section 15-6-219, MCA, is amended to read:

8           **"15-6-219. Personal and other property exemptions.** (1) The following categories of property are  
 9 exempt from taxation:

10           (a) harness, saddlery, and other tack equipment;

11           (b) the first \$15,000 or less of market value of tools owned by the taxpayer that are customarily  
 12 hand-held and that are used to:

13           (i) construct, repair, and maintain improvements to real property; or

14           (ii) repair and maintain machinery, equipment, appliances, or other personal property;

15           (c) all household goods and furniture, including but not limited to clocks, musical instruments,  
 16 sewing machines, and wearing apparel of members of the family, used by the owner for personal and domestic  
 17 purposes or for furnishing or equipping the family residence;

18           (d) a bicycle or a moped, as defined in 61-8-102, used by the owner for personal transportation  
 19 purposes;

20           (e) items of personal property intended for rent or lease in the ordinary course of business if each  
 21 item of personal property satisfies all of the following:

22           (i) the acquired cost of the personal property is less than \$15,000;

23           (ii) the personal property is owned by a business whose primary business income is from rental or  
 24 lease of personal property to individuals and no one customer of the business accounts for more than 10% of  
 25 the total rentals or leases during a calendar year; and

26           (iii) the lease of the personal property is generally on an hourly, daily, weekly, semimonthly, or  
 27 monthly basis;

28           (f) space vehicles and all machinery, fixtures, equipment, and tools used in the design,

1 manufacture, launch, repair, and maintenance of space vehicles that are owned by businesses engaged in  
2 manufacturing and launching space vehicles in the state or that are owned by a contractor or subcontractor of  
3 that business and that are directly used for space vehicle design, manufacture, launch, repair, and  
4 maintenance;

5 (g) a title plant owned by a title insurer or a title insurance producer, as those terms are defined in  
6 33-25-105;

7 (h) air and water pollution control and carbon capture equipment, as defined in 15-6-135, placed in  
8 service after January 1, 2014;

9 (i) a house trailer, manufactured home, or mobile home that receives an exemption from the  
10 department based on abandonment, as provided in 15-6-242;

11 (j) PURSUANT TO SUBSECTION (3), fiber optic or coaxial cable, as defined in 15-6-156, installed and  
12 placed in service on or after July 1, 2021, and wireless infrastructure, as defined in 15-6-156, placed in service  
13 on or after [the effective date of this act] and before July 1, 2031, for a period of 5 years starting from the date  
14 placed in service as provided in 15-6-156, if the owner of fiber optic or coaxial cable or wireless infrastructure  
15 reinvests the tax savings from the exemption by installing and placing in service new fiber optic or coaxial cable  
16 or wireless infrastructure in Montana within 2 years from the date the owner first claimed the exemption  
17 provided for in this subsection (1)(j) without charging those costs to the consumer. The cost of installing or  
18 placing into service fiber optic or coaxial cable or wireless infrastructure with the reinvested tax savings without  
19 charging those costs to the consumer must be equal to or greater than the value of the tax savings received  
20 from the tax incentive. An entity that claims a tax exemption under this subsection (1)(j) shall maintain adequate  
21 books and records demonstrating the investment the owner made when installing and placing in service fiber  
22 optic or coaxial cable or wireless infrastructure in Montana. The property owners shall make those records  
23 available to the department for inspection upon request. The exemption provided by this subsection (1)(j) for  
24 wireless infrastructure does not apply if any portion of the wireless infrastructure is installed or placed into  
25 service using federal or state grants that are not required to be repaid.

26 (k) personal property used in the manufacture of ammunition components as provided in 30-20-  
27 204.

28 (2) (a) The property taxes exempted from taxation by subsection (1)(j) are subject to termination or

1 recapture if the department determines that the owner failed to install and place in service new coaxial or fiber  
2 cable or wireless infrastructure in Montana as provided for in subsection (1)(j) or otherwise violates the  
3 provisions of this section.

4 (b) Upon notice from the department that the owner's exemption has terminated, any local  
5 governing body may recapture taxes previously exempted in that jurisdiction, plus interest and penalties for  
6 nonpayment of property taxes as provided in 15-16-102, during any tax year in which an exemption under the  
7 provisions of this section was improper. Any recapture must occur within 10 years after the end of the calendar  
8 year in which the exemption was first claimed.

9 (c) The recapture of abated taxes may be cancelled, in whole or in part, if the local governing body  
10 determines that the taxpayer's failure to meet the requirements is a result of circumstances beyond the control  
11 of the taxpayer.

12 ~~(3) THE PROPERTY TAX EXEMPTIONS PROVIDED IN THIS SECTION FOR WIRELESS INFRASTRUCTURE MUST~~  
13 ~~BE FOR WIRELESS INFRASTRUCTURE INSTALLED IN RURAL AREAS, AREAS WITHIN THE BOUNDARIES OF A FEDERALLY~~  
14 ~~RECOGNIZED INDIAN RESERVATION, AND OTHER AREAS OF THE STATE WITH LITTLE OR NO CURRENT WIRELESS~~  
15 ~~SERVICES. (Subsection (1)(k) terminates December 31, 2024--sec. 16, Ch. 440, L. 2015.)"~~

16

17 **Section 4.** Section 15-6-243, MCA, is amended to read:

18 **"15-6-243. Fiber optic or coaxial cable abatement -- wireless infrastructure abatement -- review**  
19 **and comment by local taxing jurisdictions -- report to legislative finance committee. (1)** The department  
20 shall establish a page on its website to enable:

21 **(1)(a)** owners of fiber optic or coaxial cable or wireless infrastructure intending to take advantage of  
22 the tax abatement provisions in 15-6-135, 15-6-156, and 15-6-219 to notify local governing bodies of the  
23 location or locations in which they intend to place in service fiber optic or coaxial cable or wireless  
24 infrastructure; and

25 **(2)(b)** local governing bodies to post comments on such projects identified by owners of fiber optic or  
26 coaxial cable or wireless infrastructure as provided in subsection (1)(a).

27 **(2)** The department shall provide a report by September 1 of each even-numbered year to the  
28 legislative finance committee in accordance with 5-11-210 identifying the deployment and use of the wireless

1 infrastructure abatement provided under 15-6-135, 15-6-156, and 15-6-219."

2

3 NEW SECTION. Section 5. Effective date. [This act] is effective July 1, 2023.

4

5 COORDINATION SECTION. Section 6. Coordination instruction. If both House Bill No. 110 and  
6 [this act] are passed and approved, then the references in [this act] to "legislative finance committee" in [section  
7 4], amending 15-6-243, must be changed to "general government budget committee".

8

9 NEW SECTION. Section 7. Applicability. [This act] applies to fiber optic or coaxial cable and  
10 wireless infrastructure placed in service on or after [the effective date of this act].

11

- END -
