Description of fiscal impact: HB 19 modifies the requirements of the Department of Commerce and the State-Tribal Development (STED) Commission related to assessments and reports of the economic activity of tribes in Montana. The bill eliminates the requirement for a decennial report on the economic contributions and impacts of tribes and requires the department to develop a system to gather and make quantifiable information available on an ongoing basis.

FISCAL ANALYSIS

Assumptions:**Department of Commerce**

- Under current law, the Department of Commerce is required to publish a decennial report, to be authored by the Bureau of Business and Economic Research (BBER) at the University of Montana, on the economic contributions and impacts of the tribes in Montana.
- It has been determined there is not sufficient data sources available to adequately quantify the economic contributions of the tribes.
- HB 19 eliminates the requirement for the report and instead requires the Department of Commerce to develop a system for gathering sufficient data to quantify the economic contributions of the tribes.

4. The bill also requires the department to update STED Commission on this effort, and beginning no later than December 1, 2024, make aggregate data on the economic contributions of the tribes in Montana readily available on an ongoing basis.
5. While some of the requested data is currently available internally, through the department’s Bureau of Research & Information Services, and other relevant data is collected and made available through the Federal Reserve, these sources are not sufficient. Additional data regarding economic activity will need to be gathered from the tribes.
6. To comply with requirements to make this data available on an ongoing basis, a dashboard will need to be developed and maintained.
7. To research the various data sources, work with the tribes to retrieve data, and develop the dashboard, a 0.50 FTE Program Specialist II position will be required for the 2025 biennium. The costs are estimated to be \$52,161 in FY 2024, and \$48,861 in FY 2025. Additional contracted services for website development related to the creation of the dashboard are estimated to be \$15,000 for the 2025 Biennium.

Governor’s Office

8. Sections 3(2)(b) and 5(3)(b) – (c) remove references to positions in the Office of Indian Affairs called Tribal Business Center Coordinator and Federal Grants Coordinator. These positions have never been authorized by the legislature or employed by the Office of Indian Affairs. Therefore, there is no fiscal impact.
